

# Northern California Regional Profile

## Appendix: Survey Results - November 2023

A report prepared by the Science Advisory Panel  
for the California Wildfire and Forest Resilience Task Force

# Contributors

## Primary authors:

**Chelsea L. Andreozzi** is a Postdoctoral Scholar at the USDA California Climate Hub and the Institute of the Environment, University of California, Davis, 95616, [candreozzi@ucdavis.edu](mailto:candreozzi@ucdavis.edu).

**Jennifer B. Smith** is an Associate Specialist in forestry and climate change at the USDA California Climate Hub and the Institute of the Environment, University of California, Davis, 95616, [jatsmith@ucdavis.edu](mailto:jatsmith@ucdavis.edu).

**Steven M. Ostoja** is the Director of the USDA California Climate Hub at the Agricultural Research Service and Fellow at the Institute of the Environment, University of California, Davis, 95616, [steven.ostoja@usda.gov](mailto:steven.ostoja@usda.gov).

## Additional contributions from:

**Amelia Oxarart** is a Science Communication and Outreach Specialist at the USDA California Climate Hub and the Institute of the Environment at the University of California, Davis.

**Carol Clark** is a Senior Geospatial Data Analyst with the Climate & Wildfire Institute.

**Peter Stine** is a Project Manager with the Climate & Wildfire Institute.

**John Battles** is a Professor of Forest Ecology in the Department of Environmental Science, Policy, and Management at the University of California, Berkeley.

By Individual County.....	60

# Northern California Survey Results:

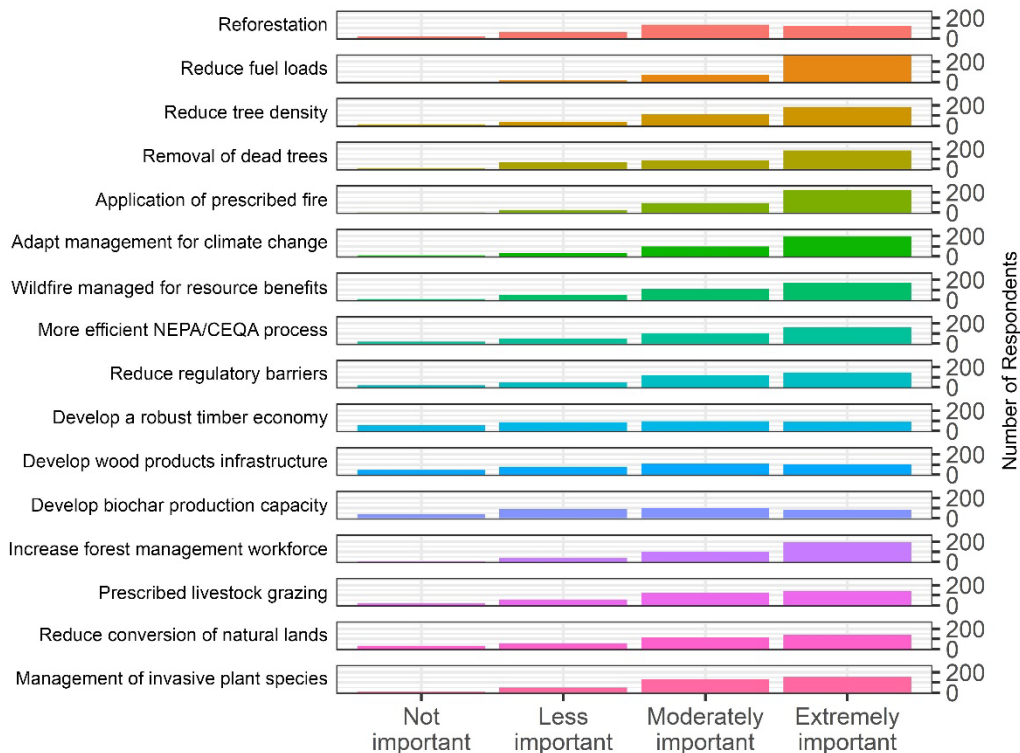

## All Respondents

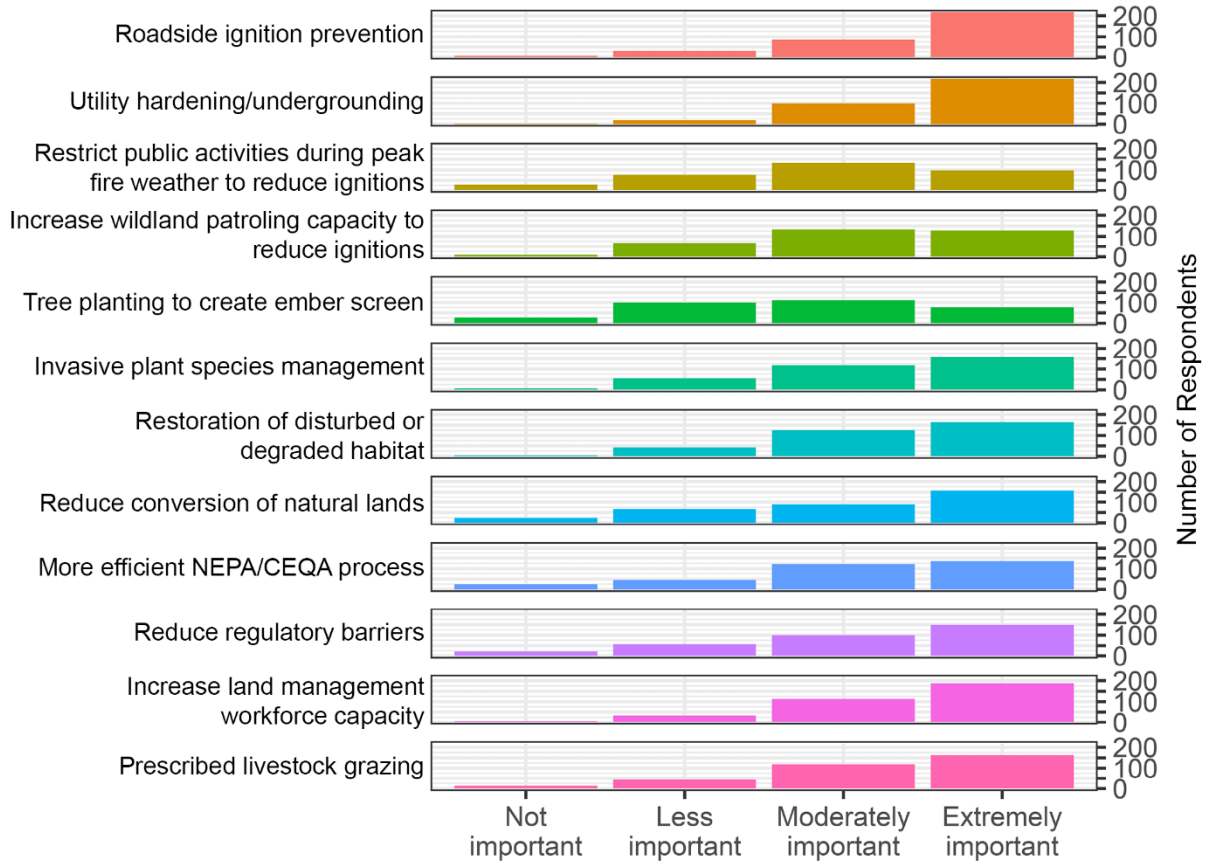

### Stakeholder Input on Priority Areas of Investment

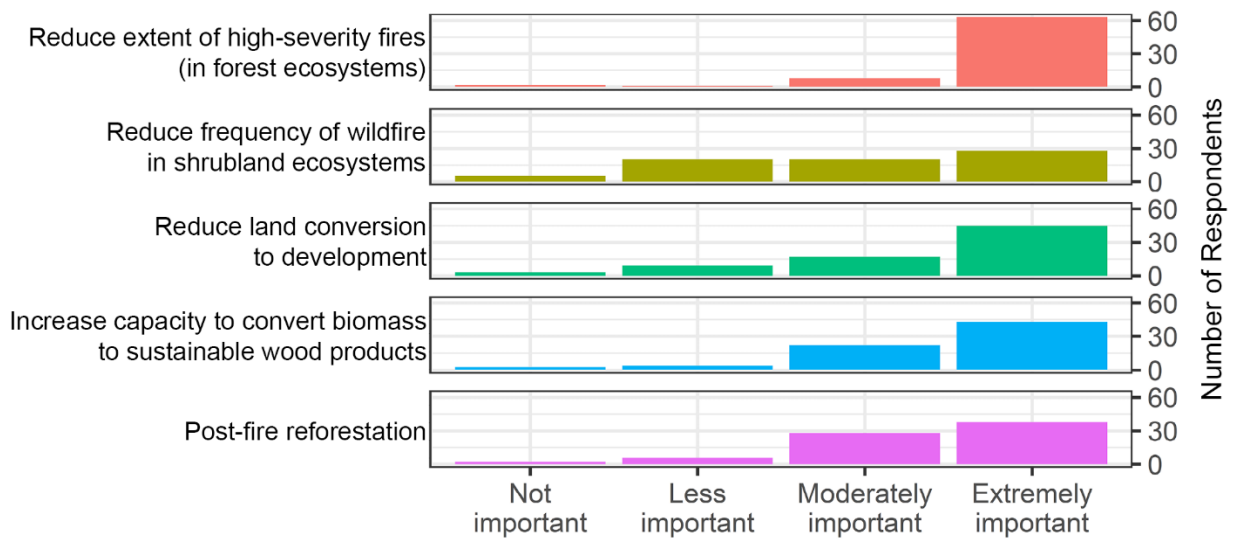

### Importance of investments for healthy and resilient forests

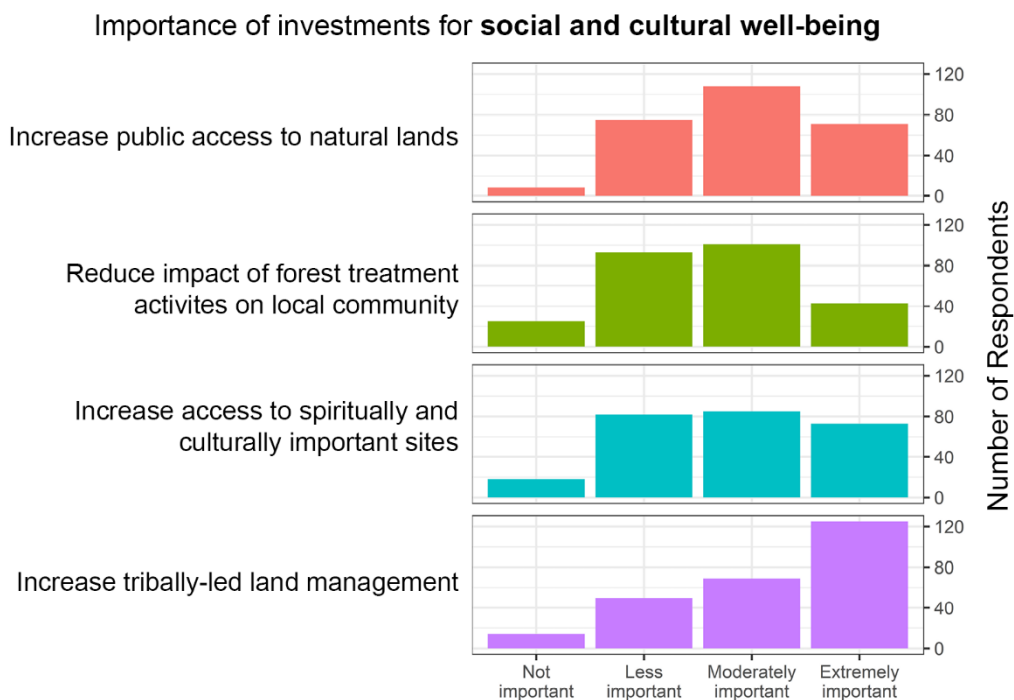

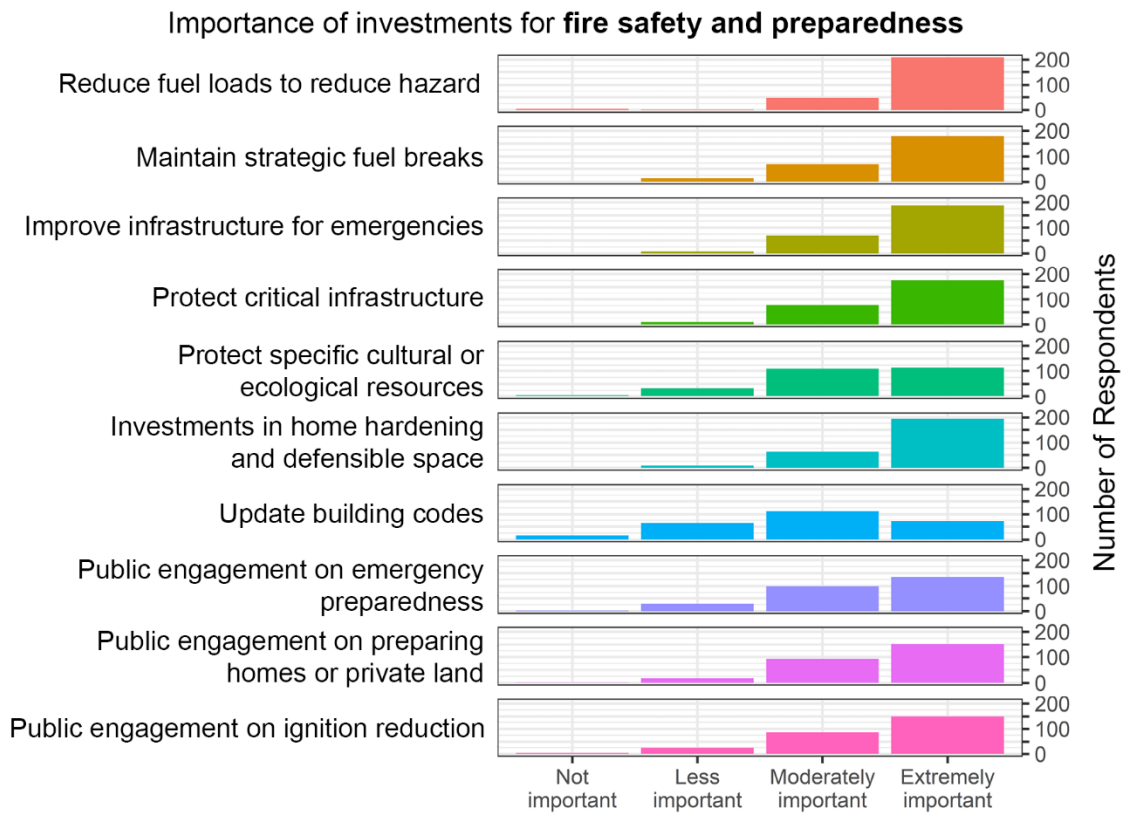

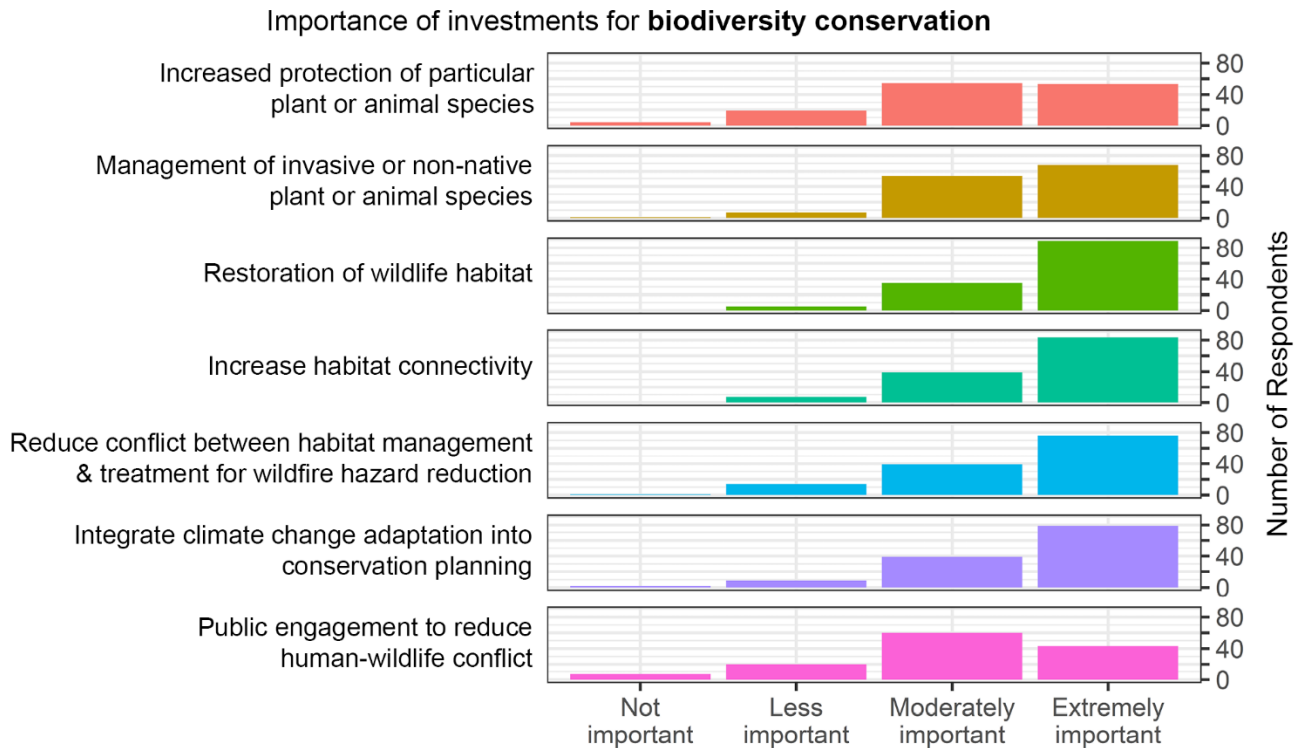

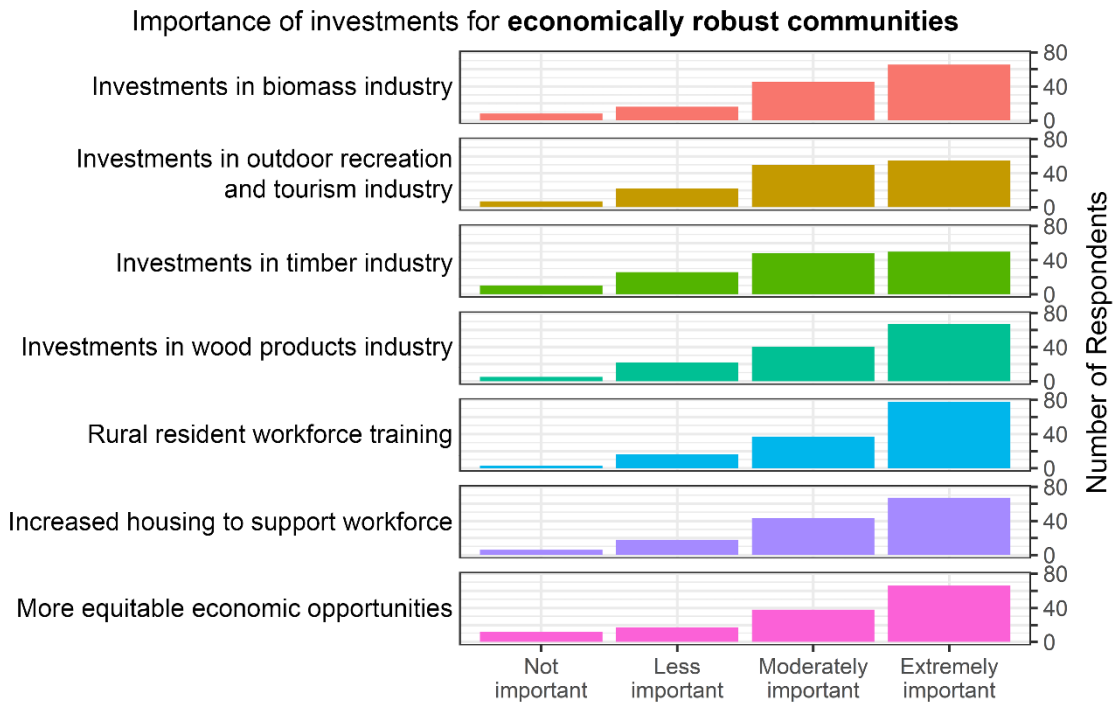

### Importance of investments for **healthy and resilient shrublands**

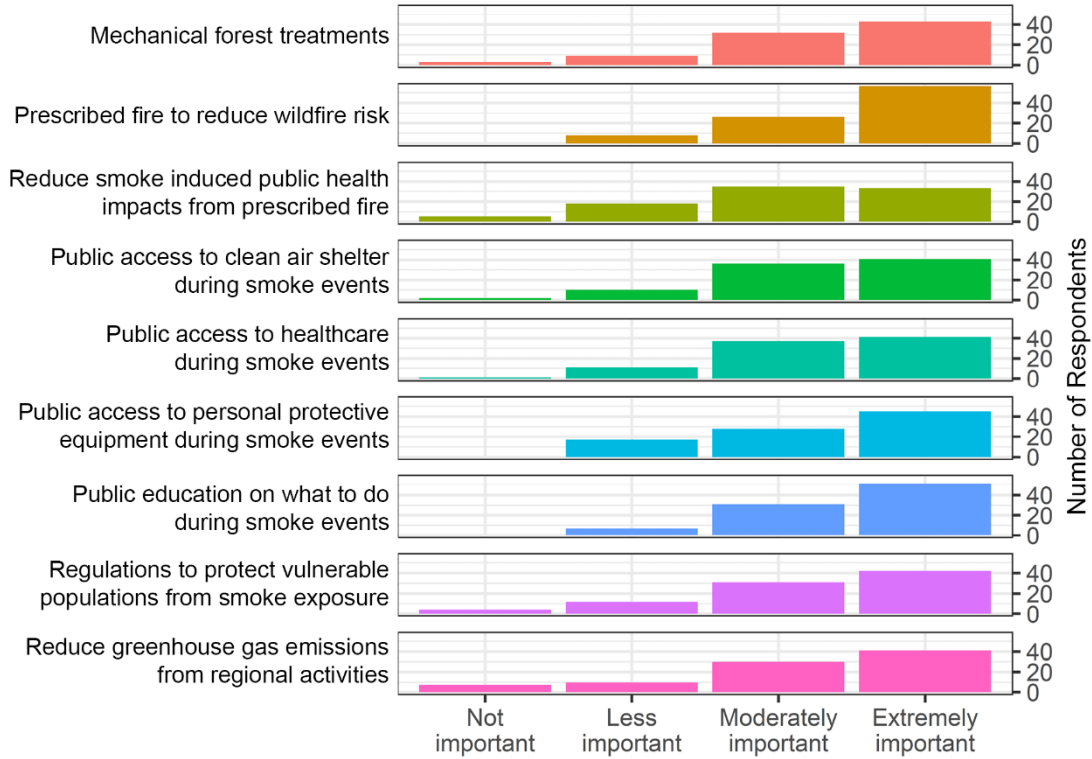

### Importance of investments for **carbon storage**

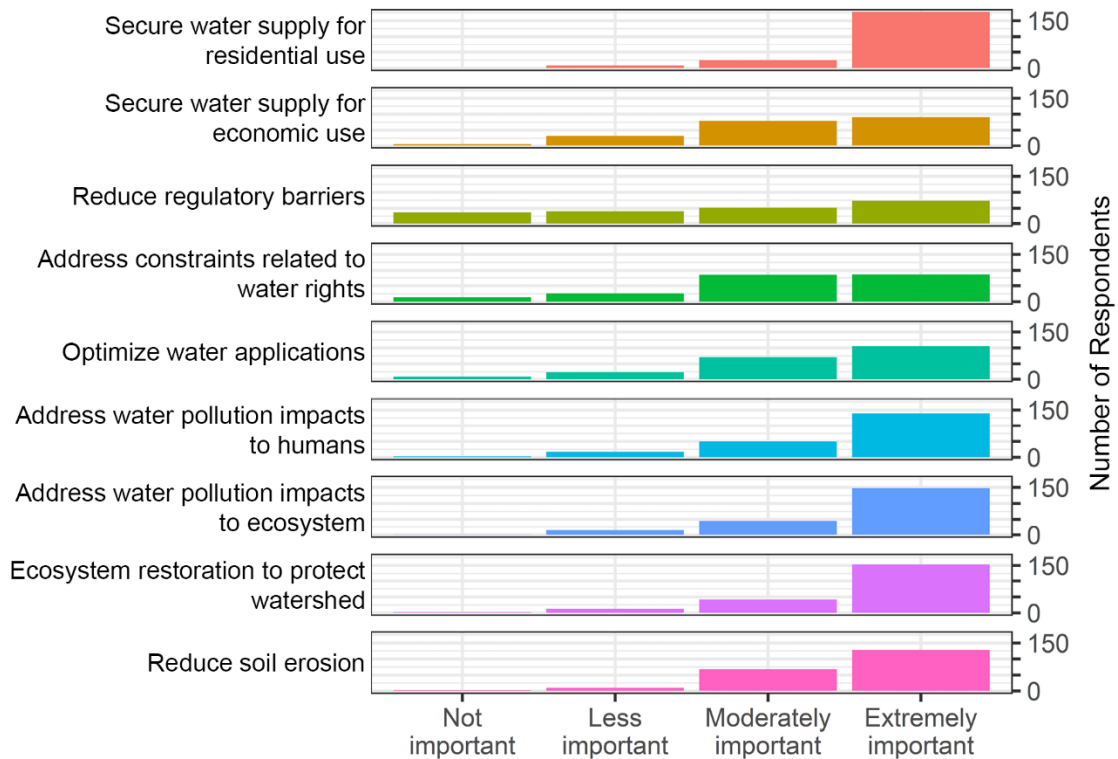

### Importance of investments for **air quality**

### Importance of investments for **water security**

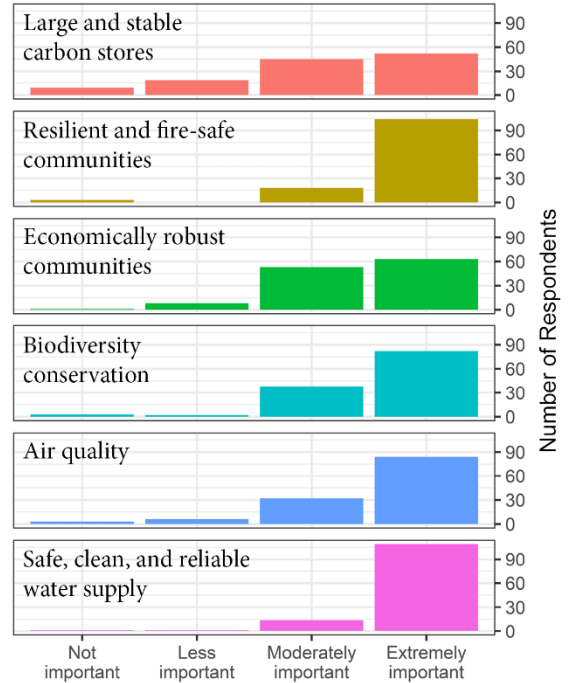

# Northern California Survey Results:

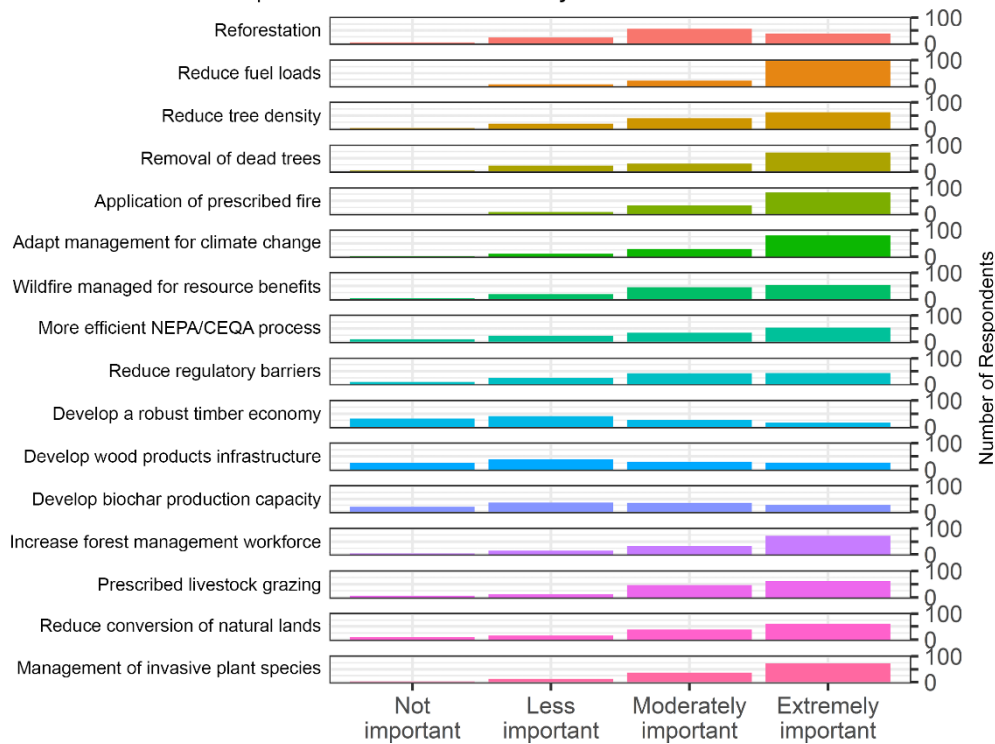

## *Inner Coast Collaborative*

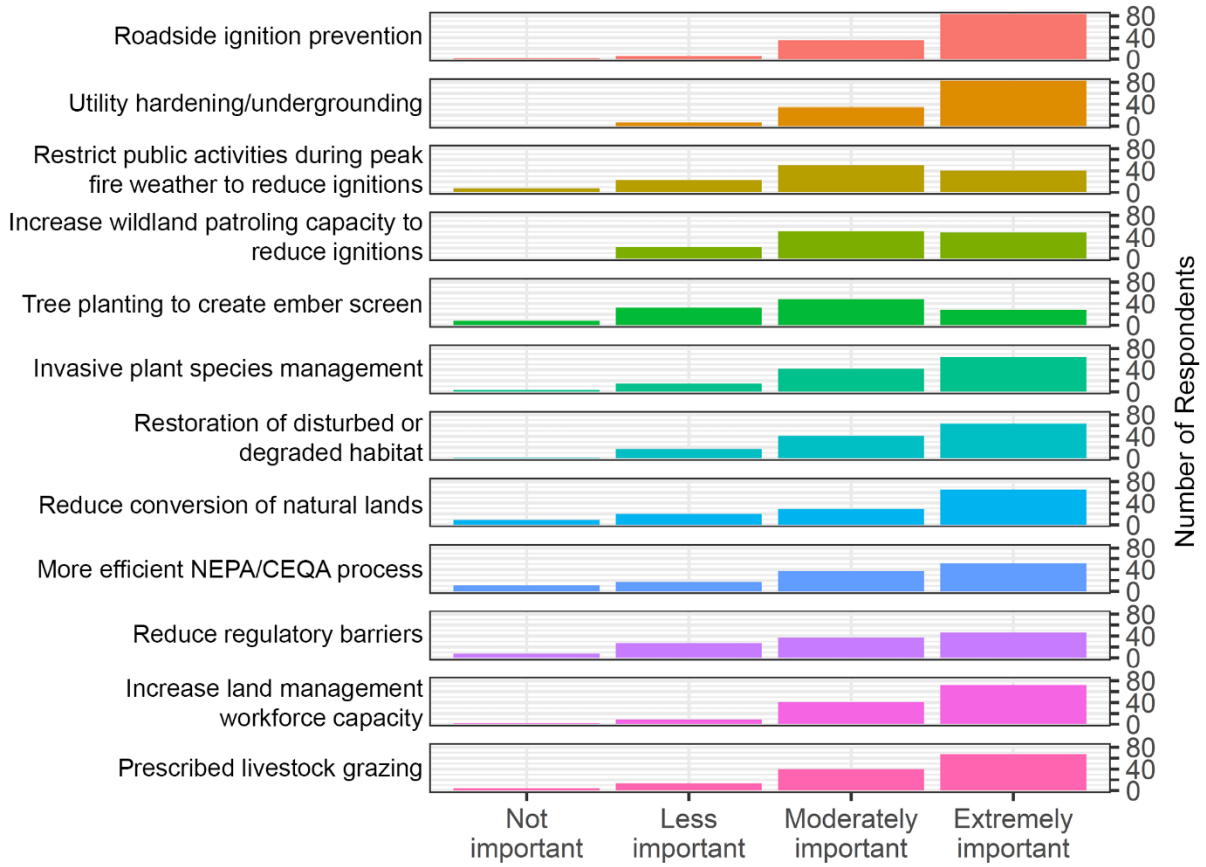

Stakeholder Input on Priority Areas of Investment

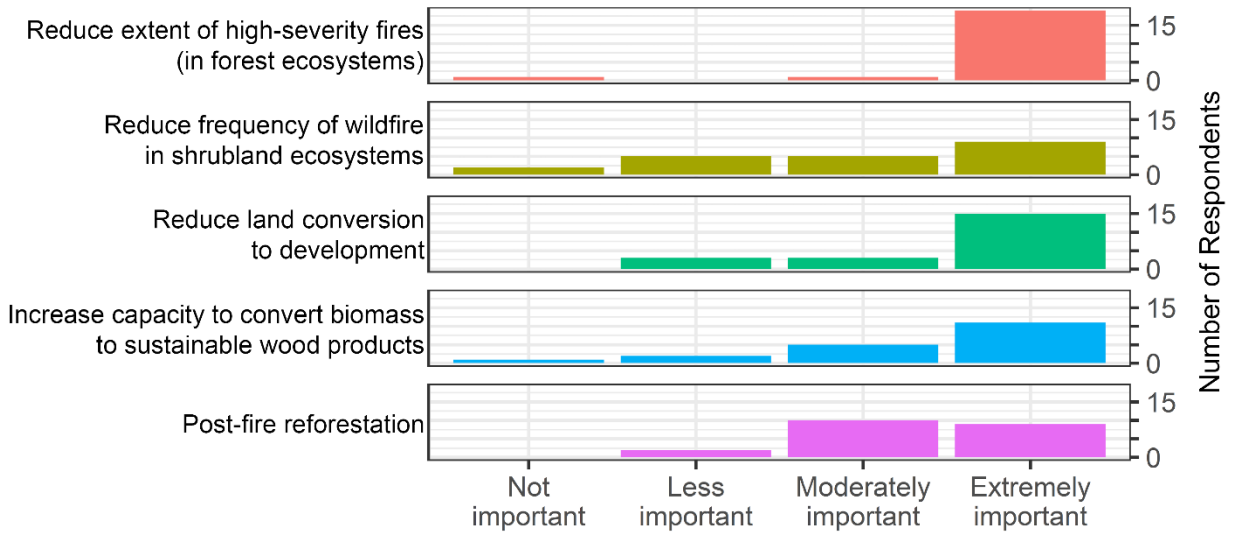

Importance of investments for healthy and resilient forests

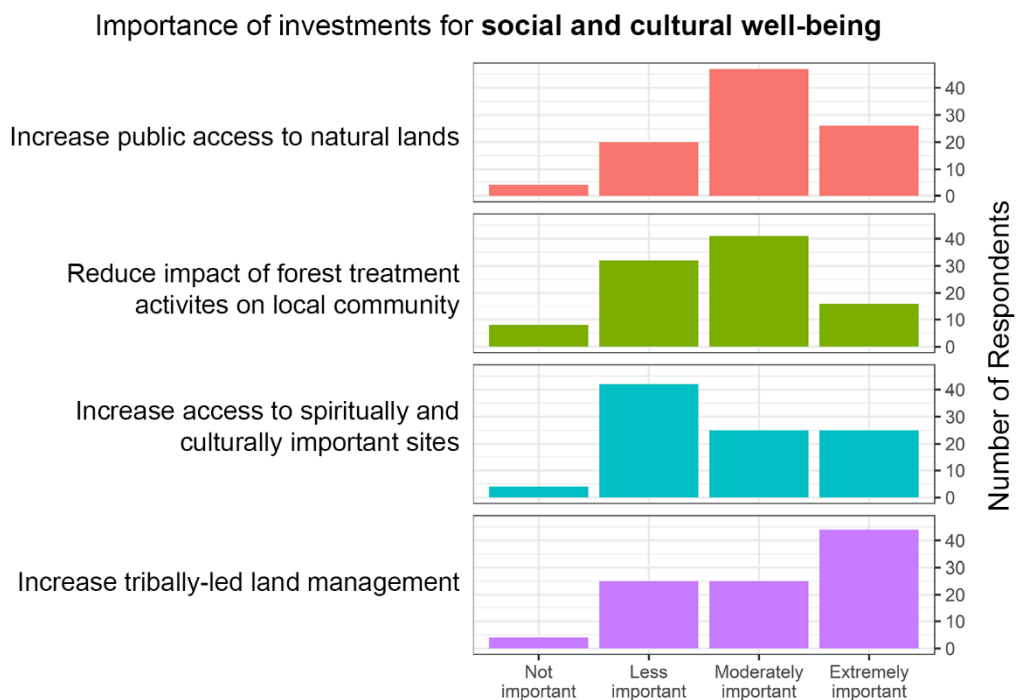

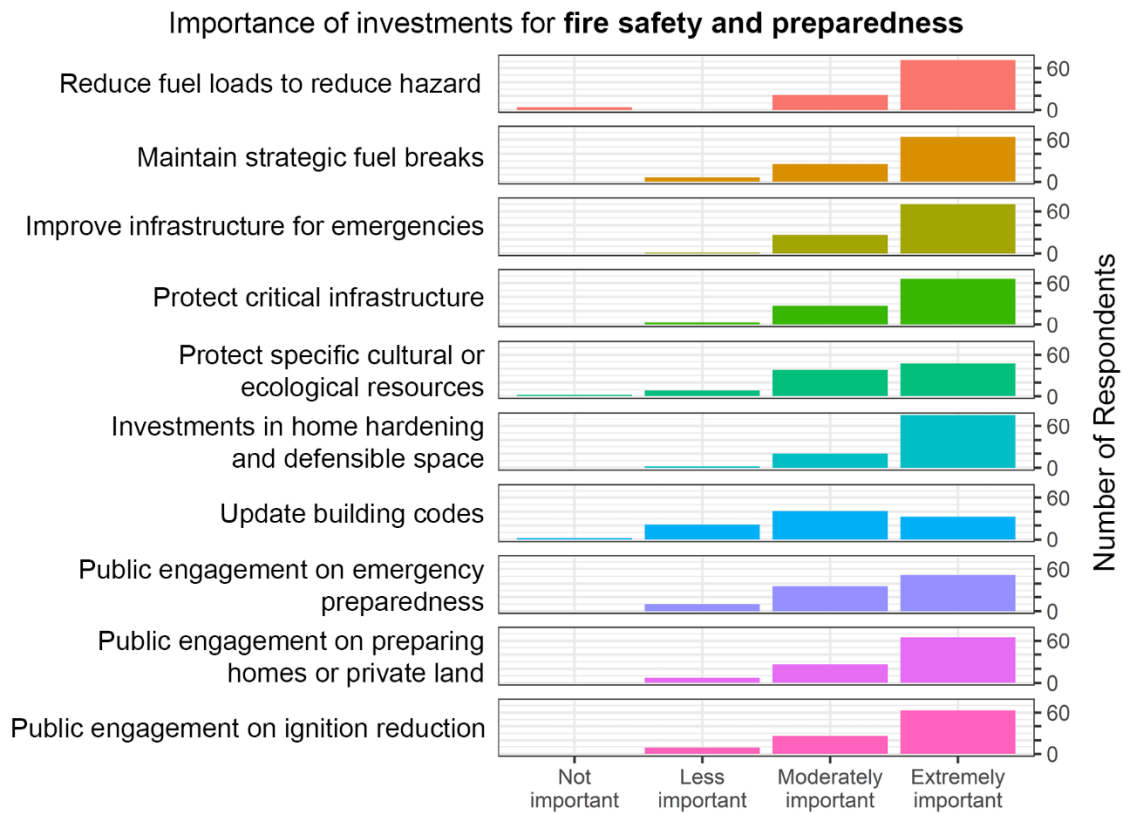

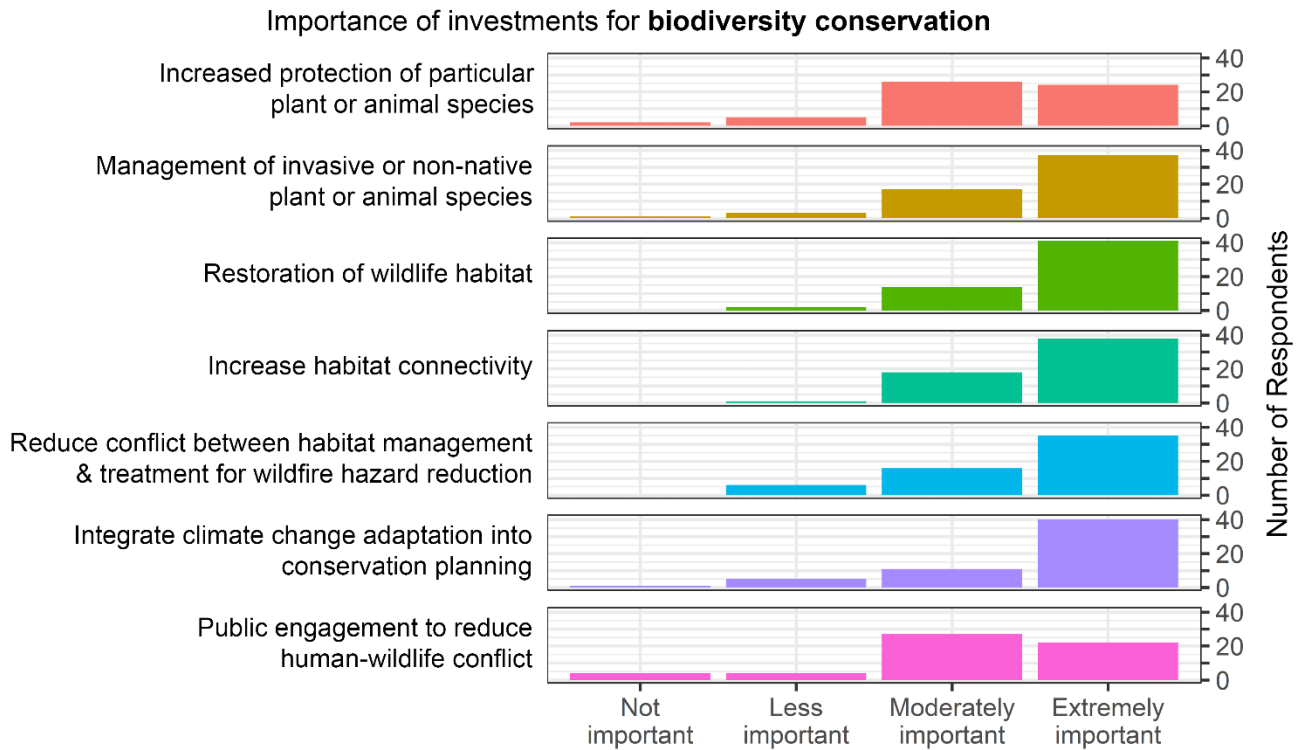

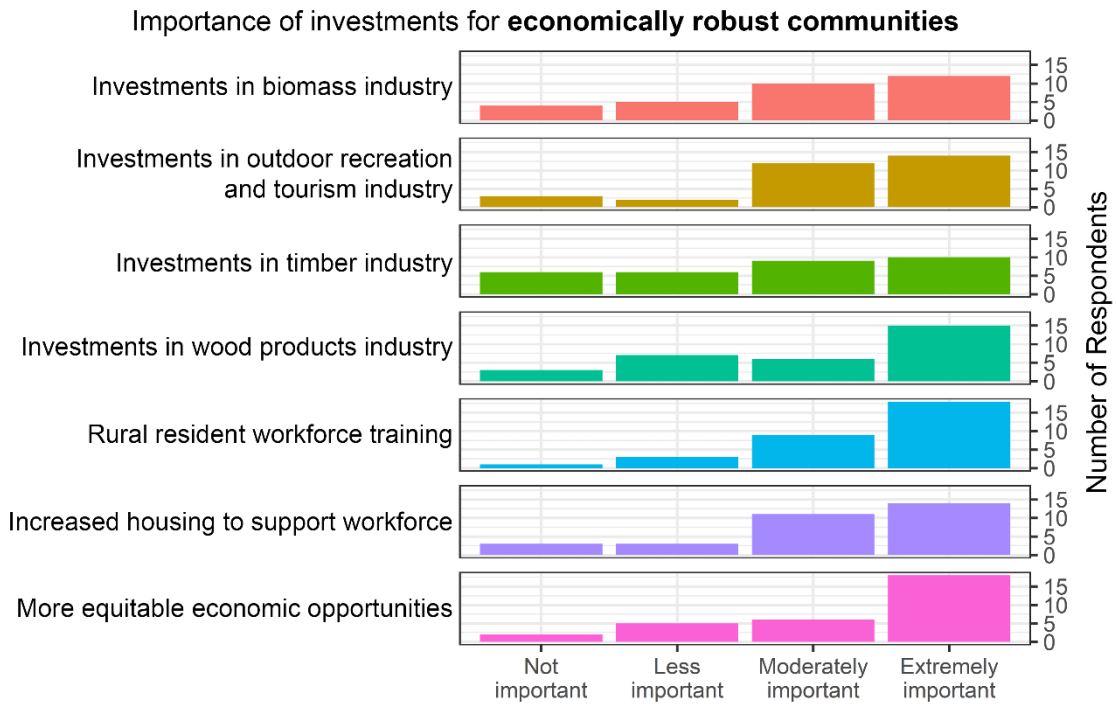

### Importance of investments for **healthy and resilient shrublands**

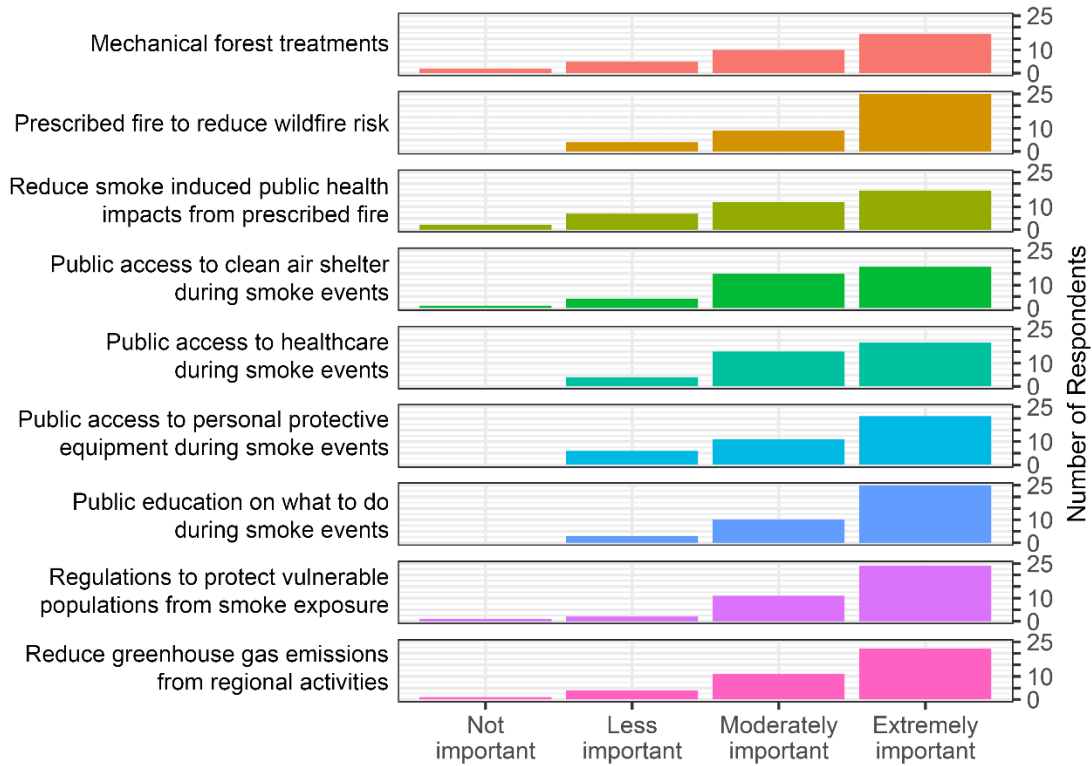

### Importance of investments for **carbon storage**

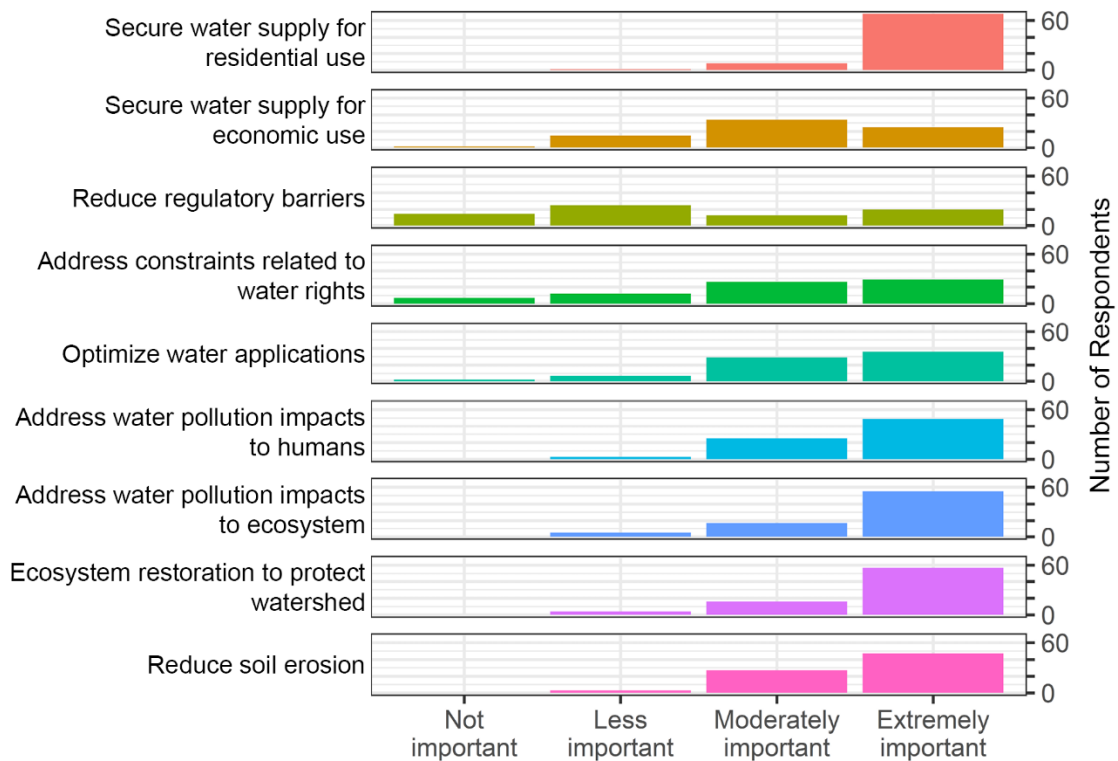

### Importance of investments for **air quality**

### Importance of investments for **water security**

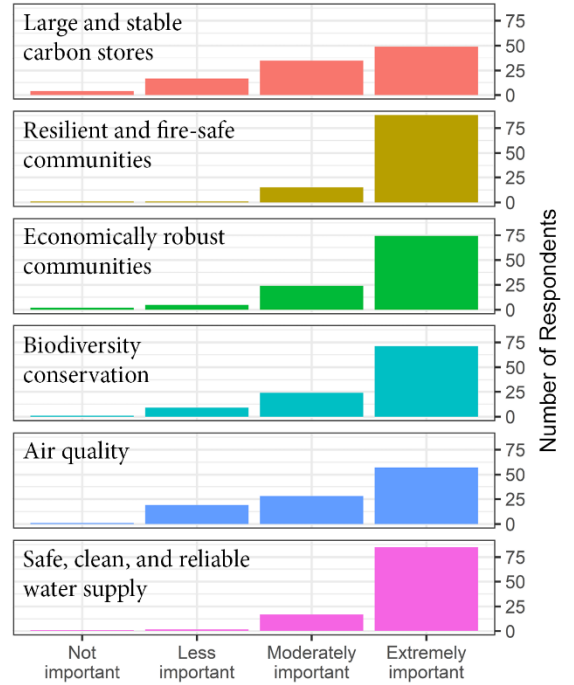

# Northern California Survey Results:

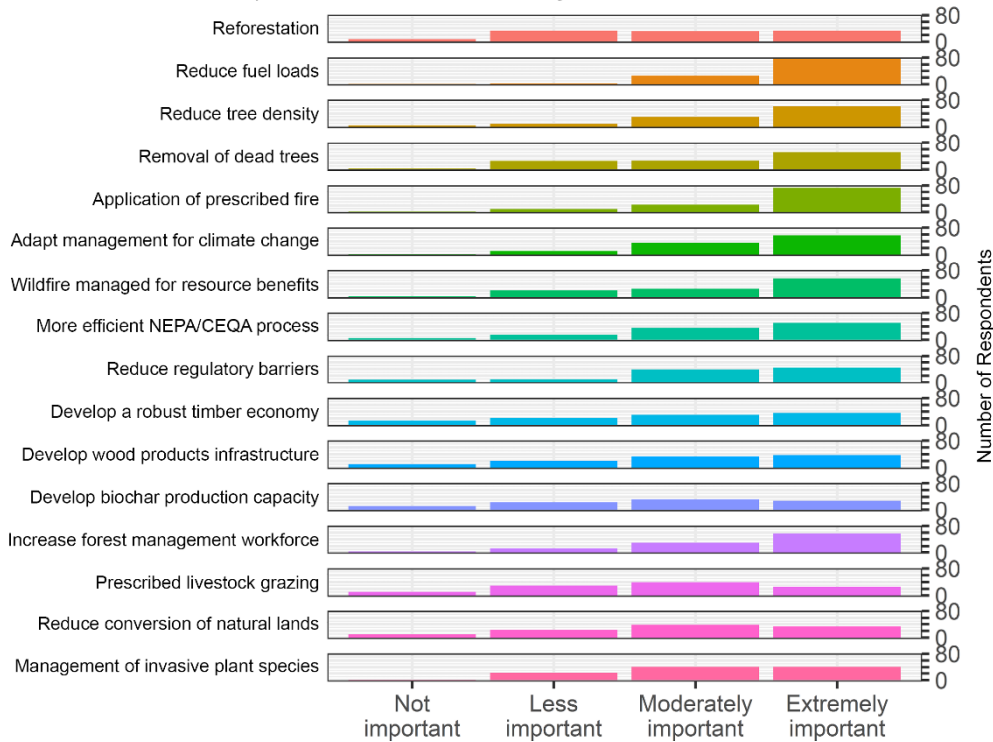

## *North Coast Resource Partnership*

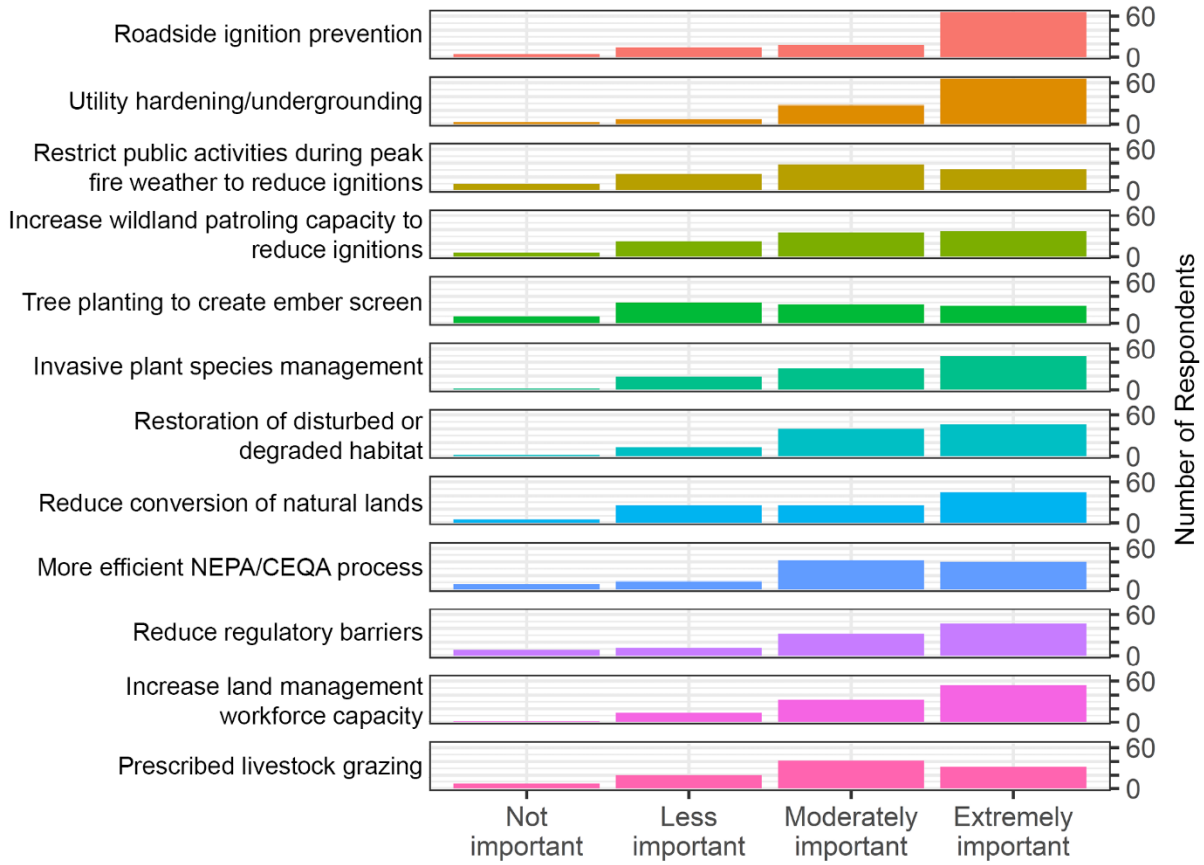

Stakeholder Input on Priority Areas of Investment

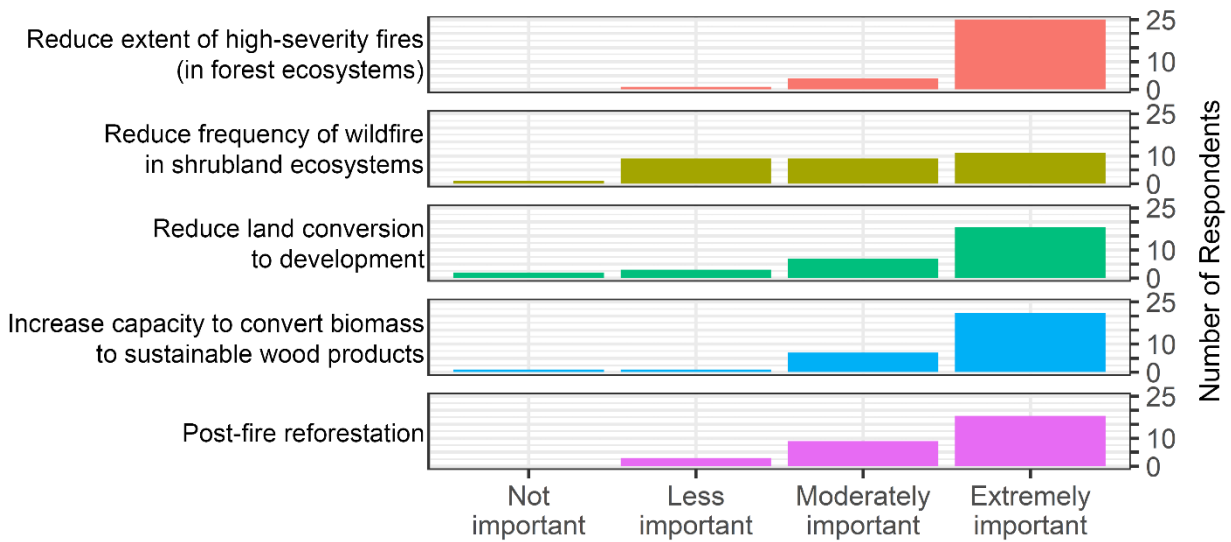

Importance of investments for healthy and resilient forests

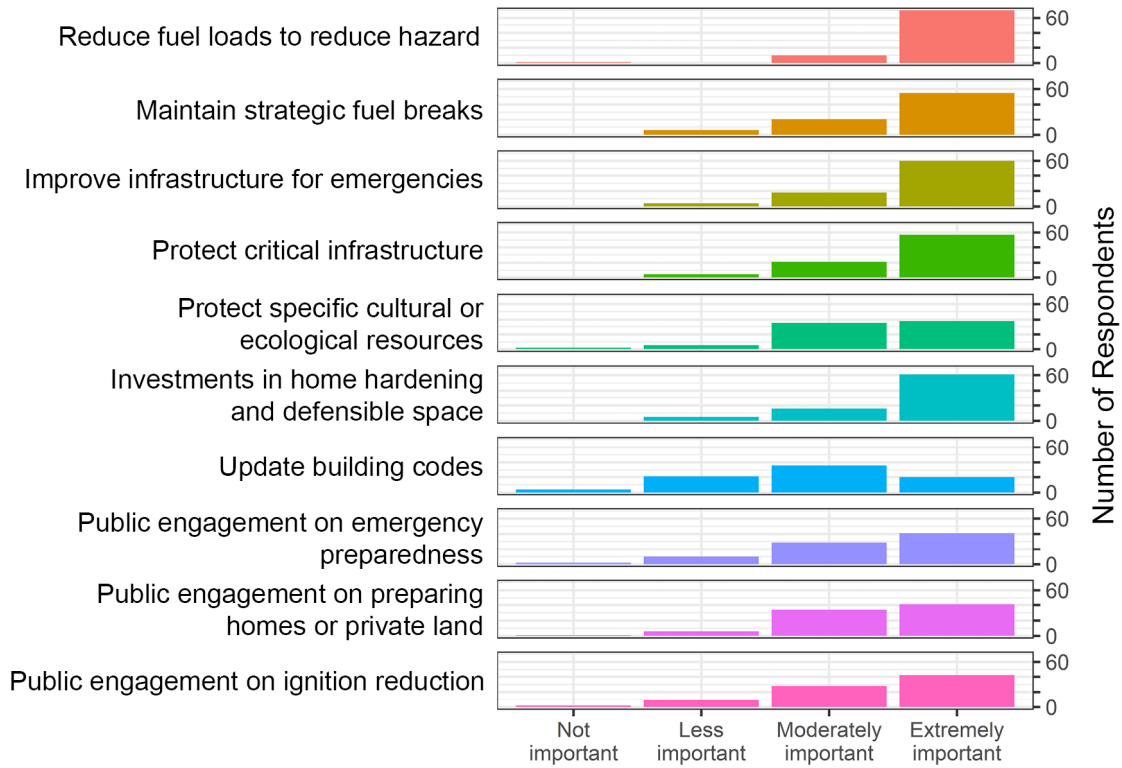

### Importance of investments for **healthy and resilient shrublands**

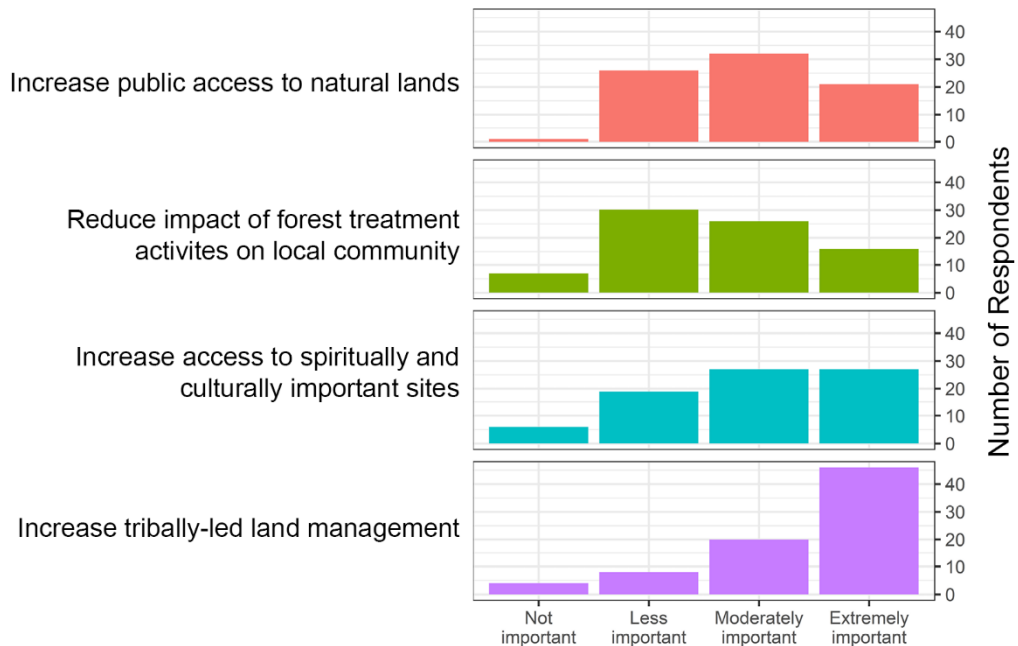

### Importance of investments for **carbon storage**

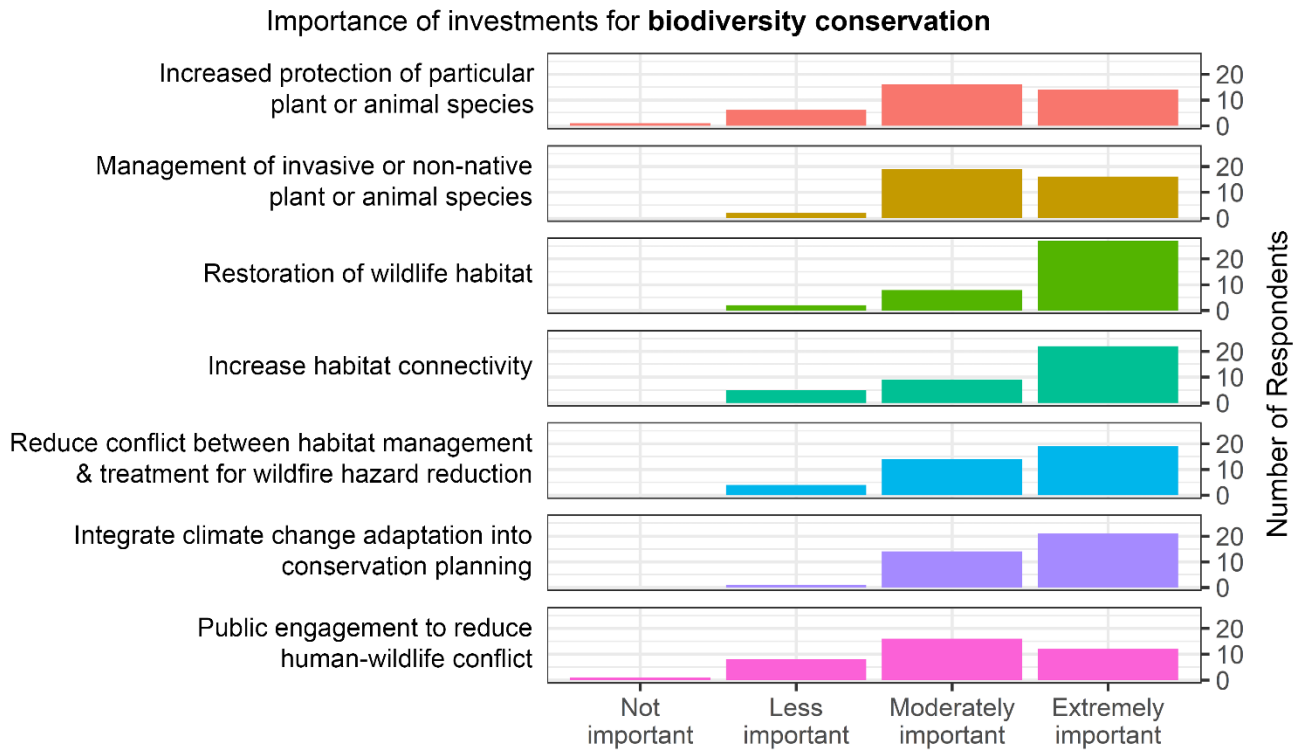

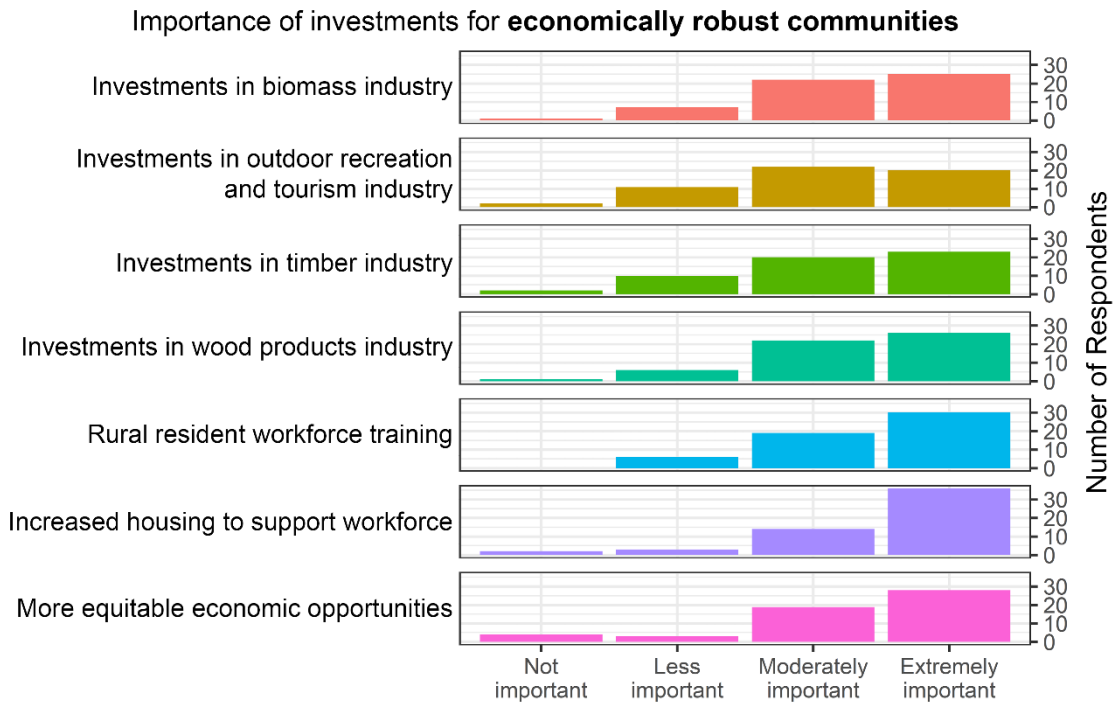

### Importance of investments for **fire safety and preparedness**

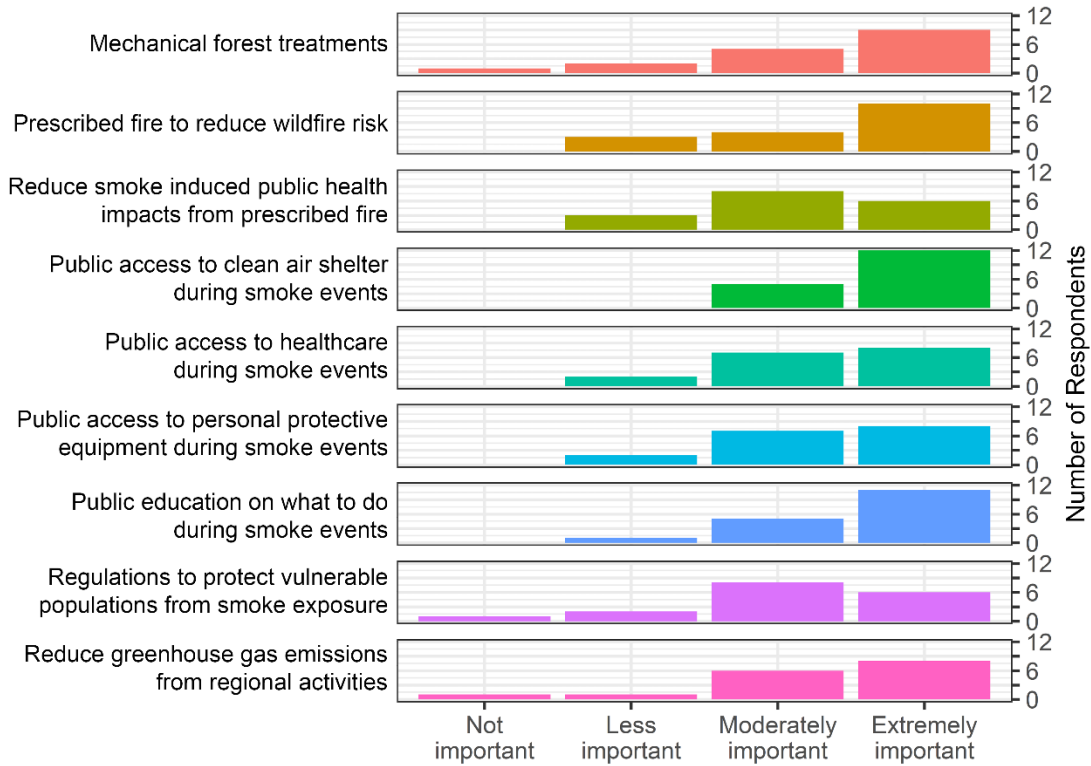

### Importance of investments for **social and cultural well-being**

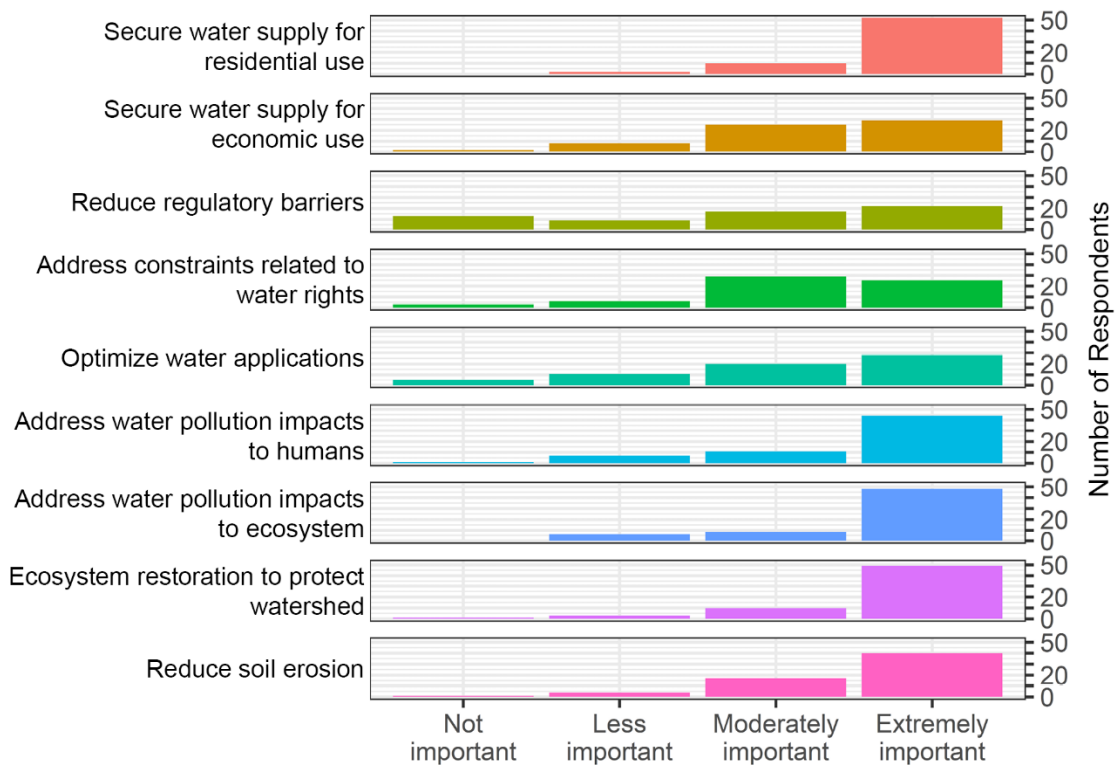

### Importance of investments for **air quality**

### Importance of investments for **water security**

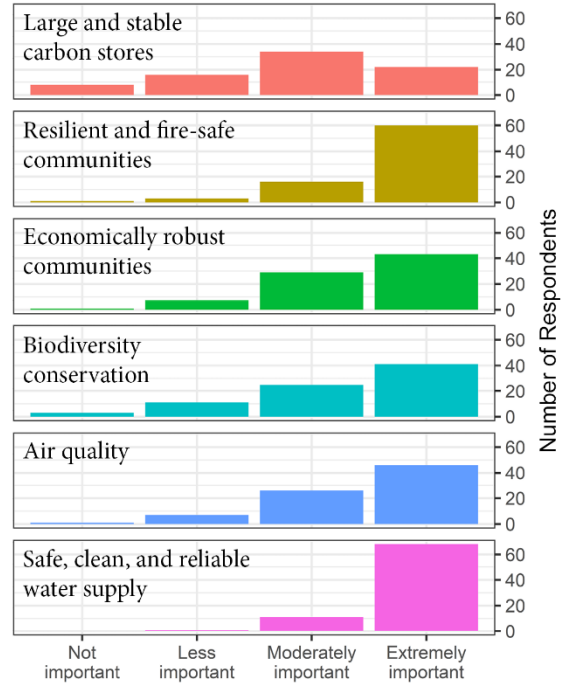

# Northern California Survey Results:

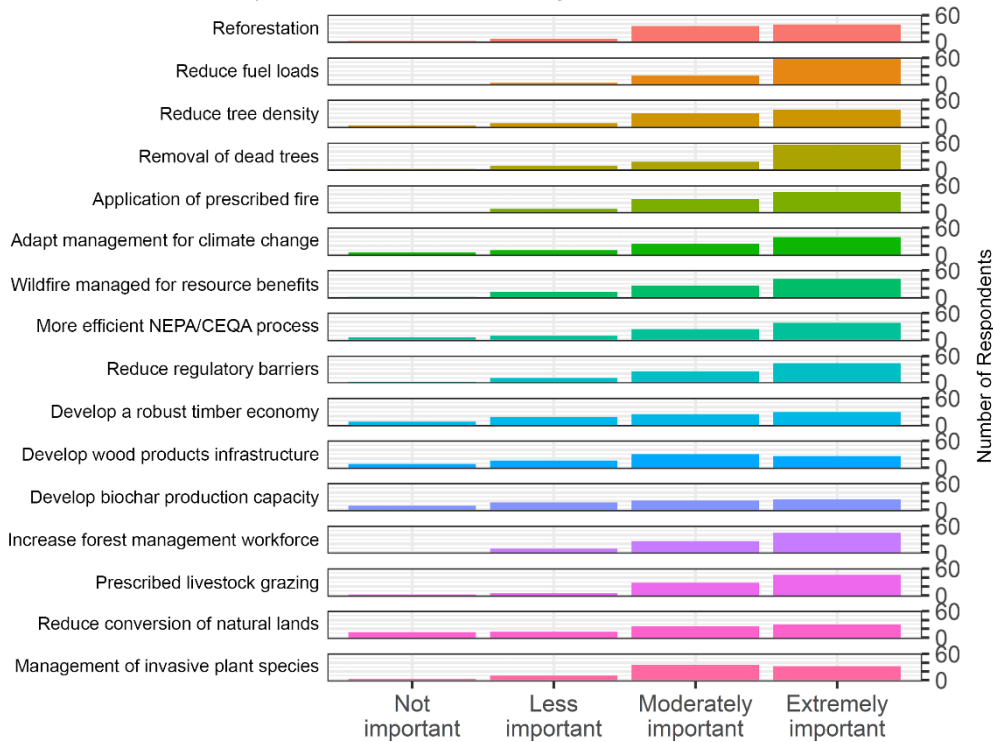

## Northern Sacramento Valley Coalition

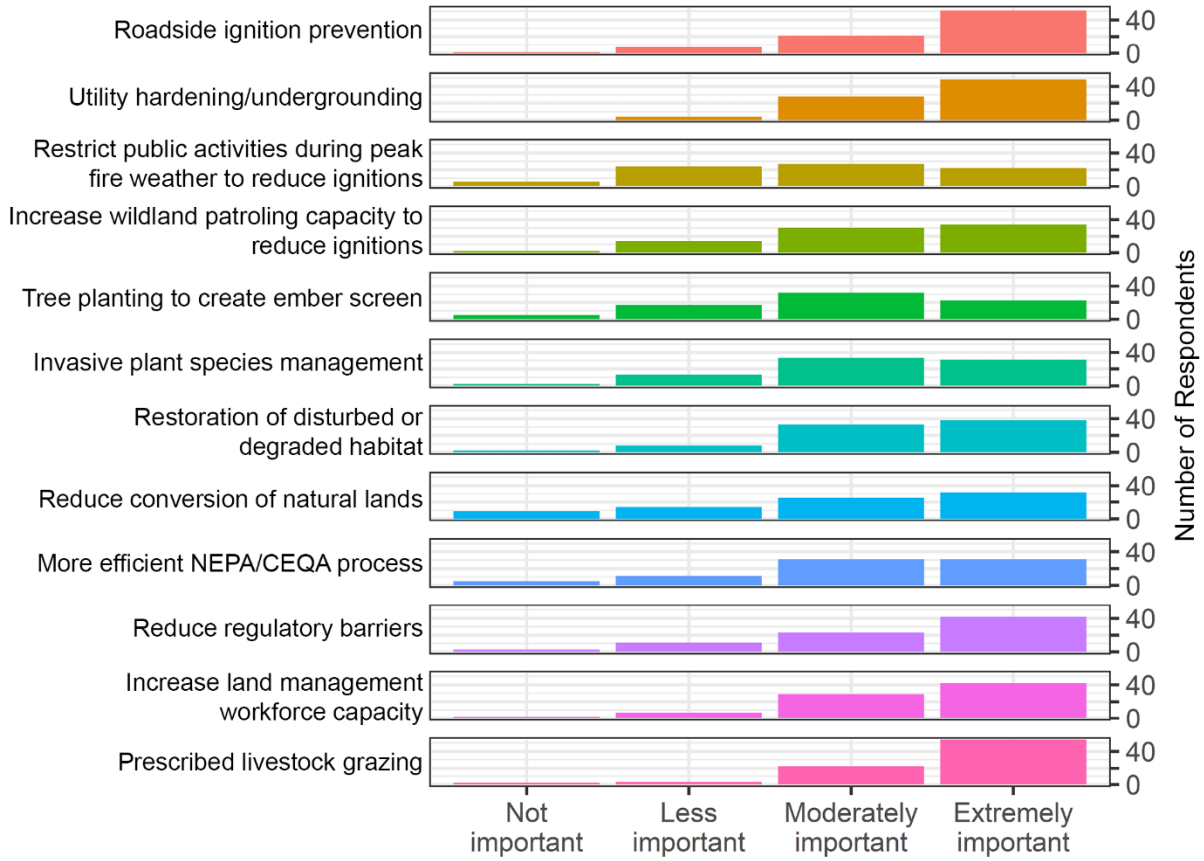

### Stakeholder Input on Priority Areas of Investment

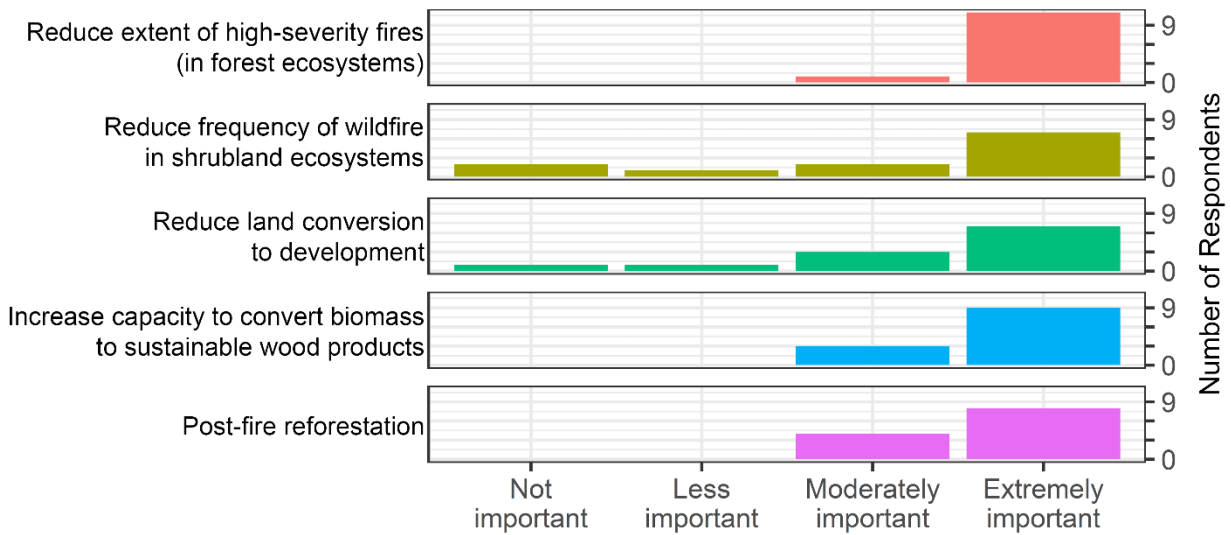

### Importance of investments for healthy and resilient forests

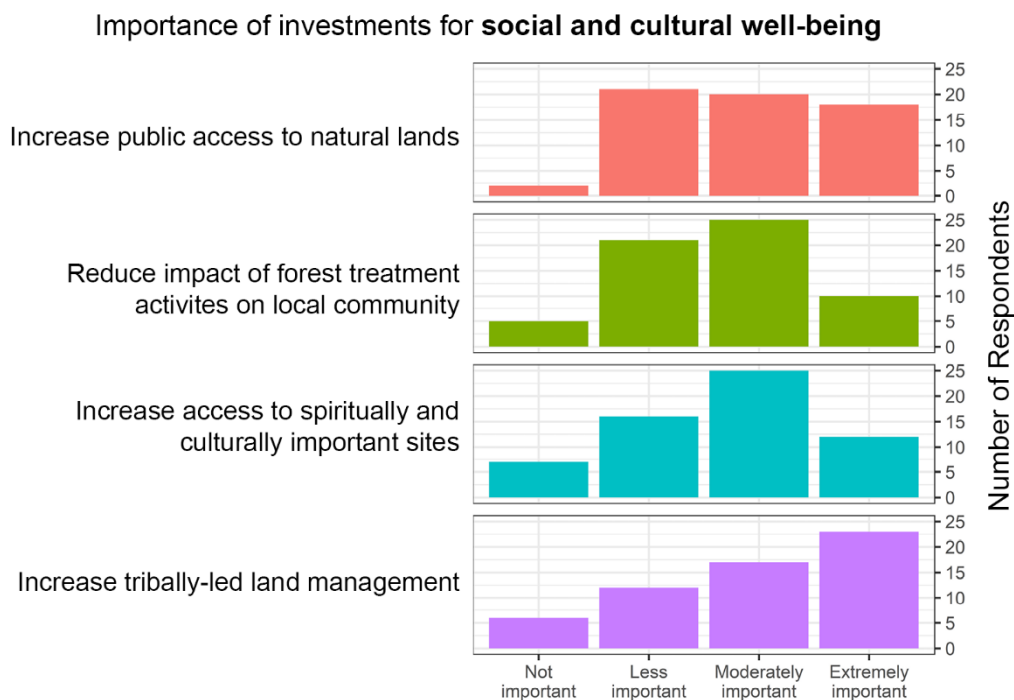

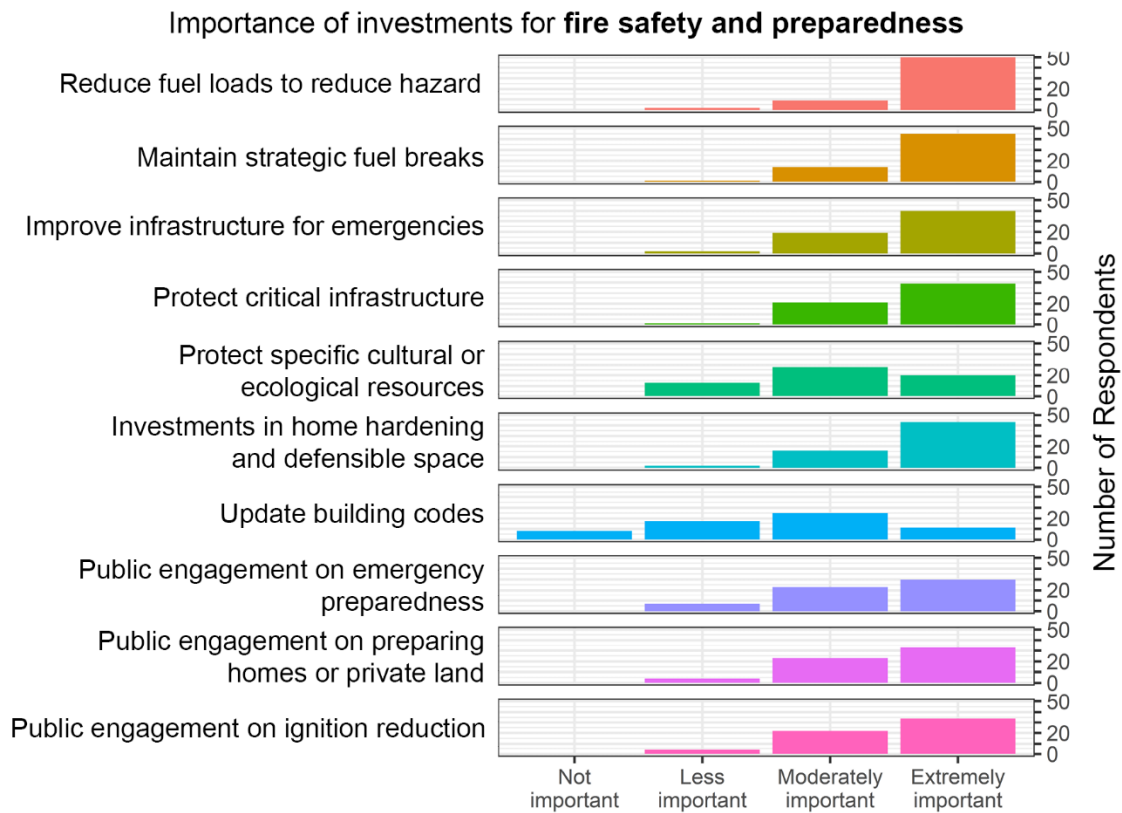

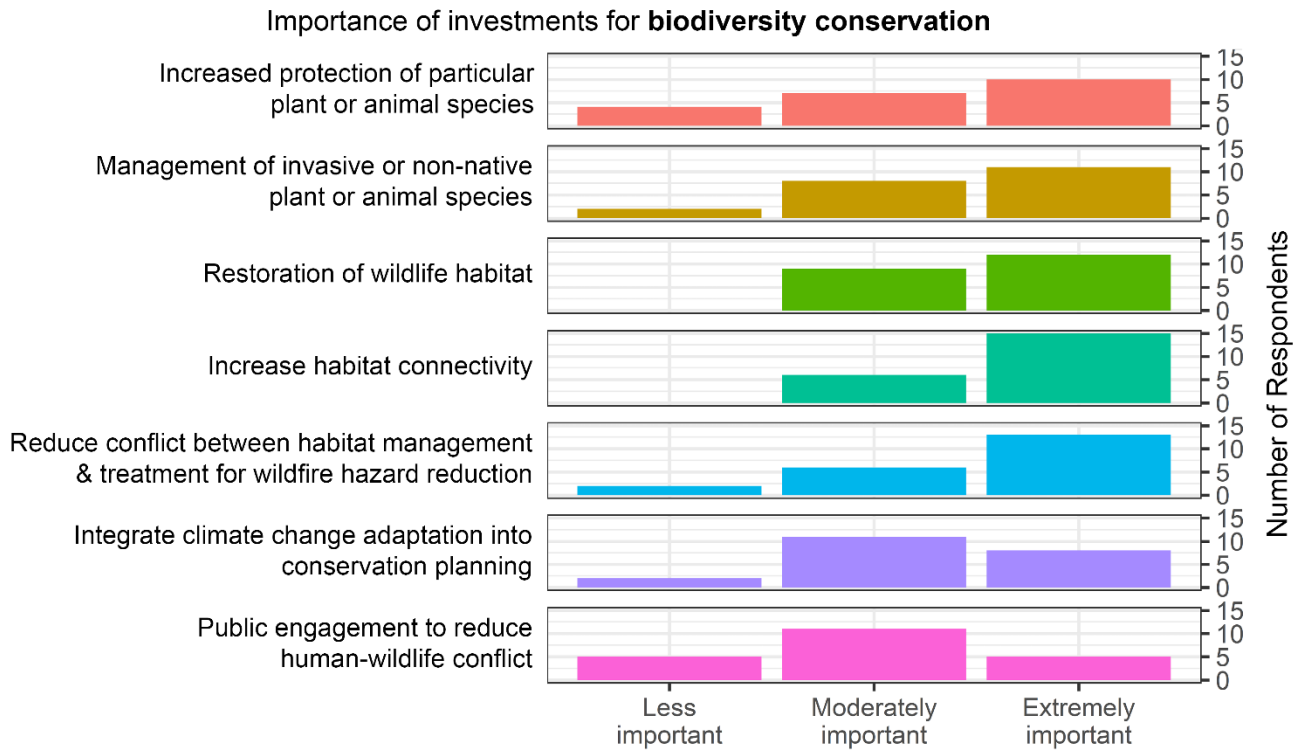

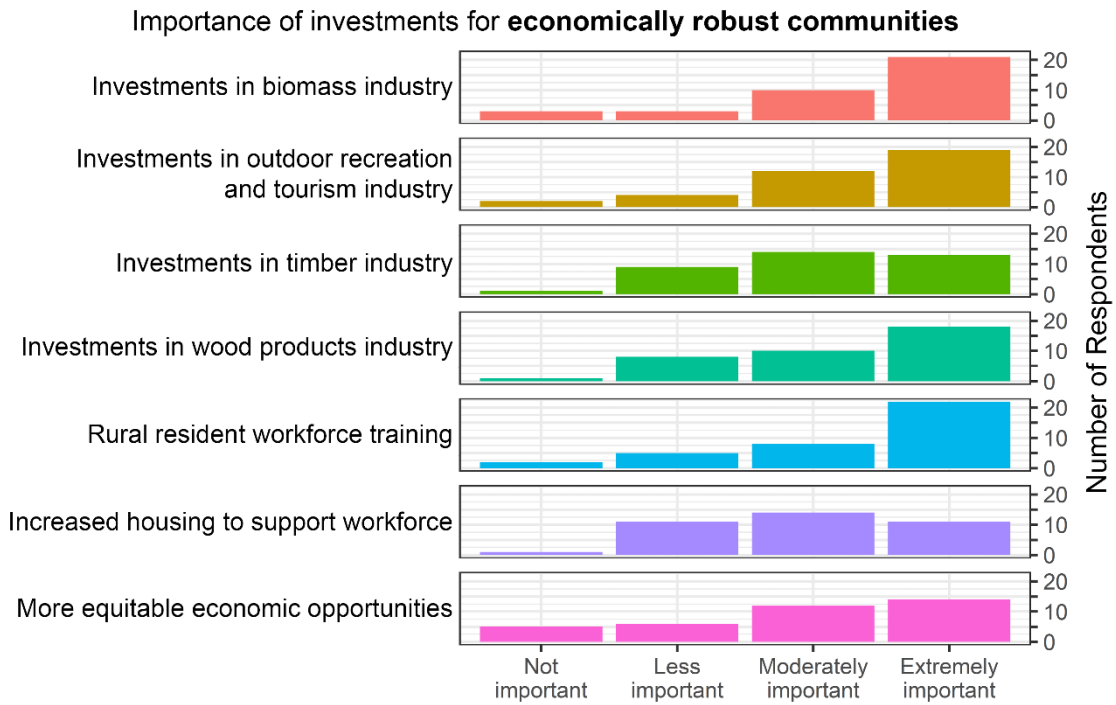

### Importance of investments for **healthy and resilient shrublands**

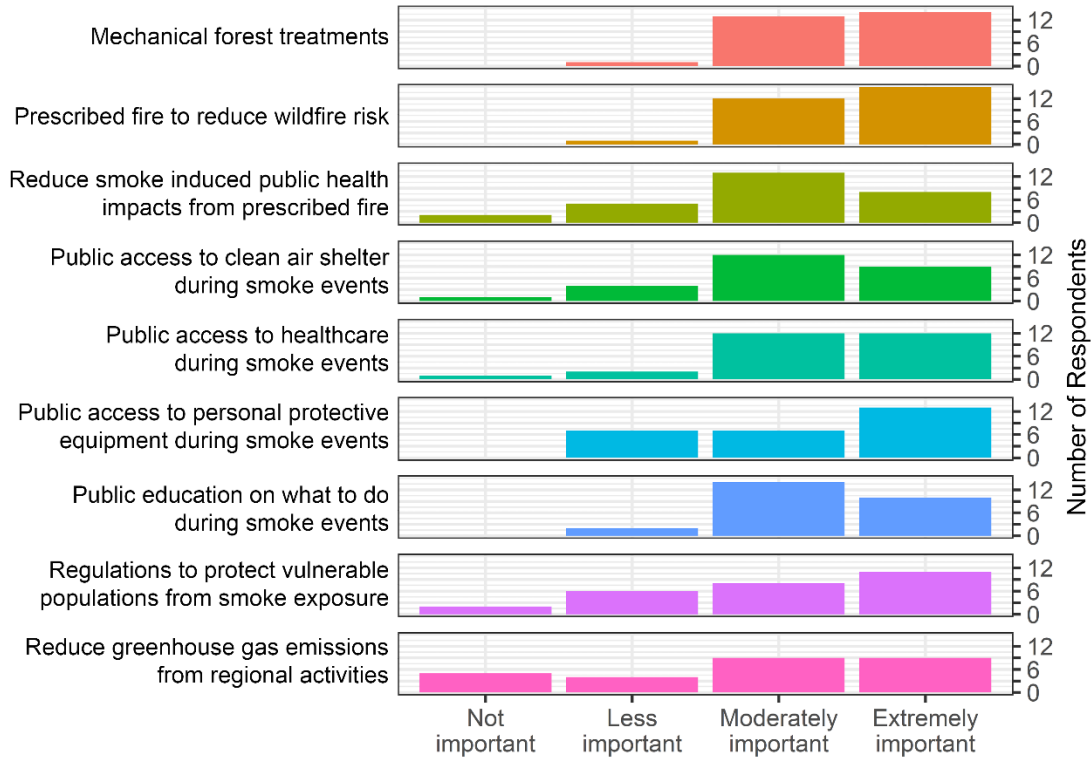

### Importance of investments for **carbon storage**

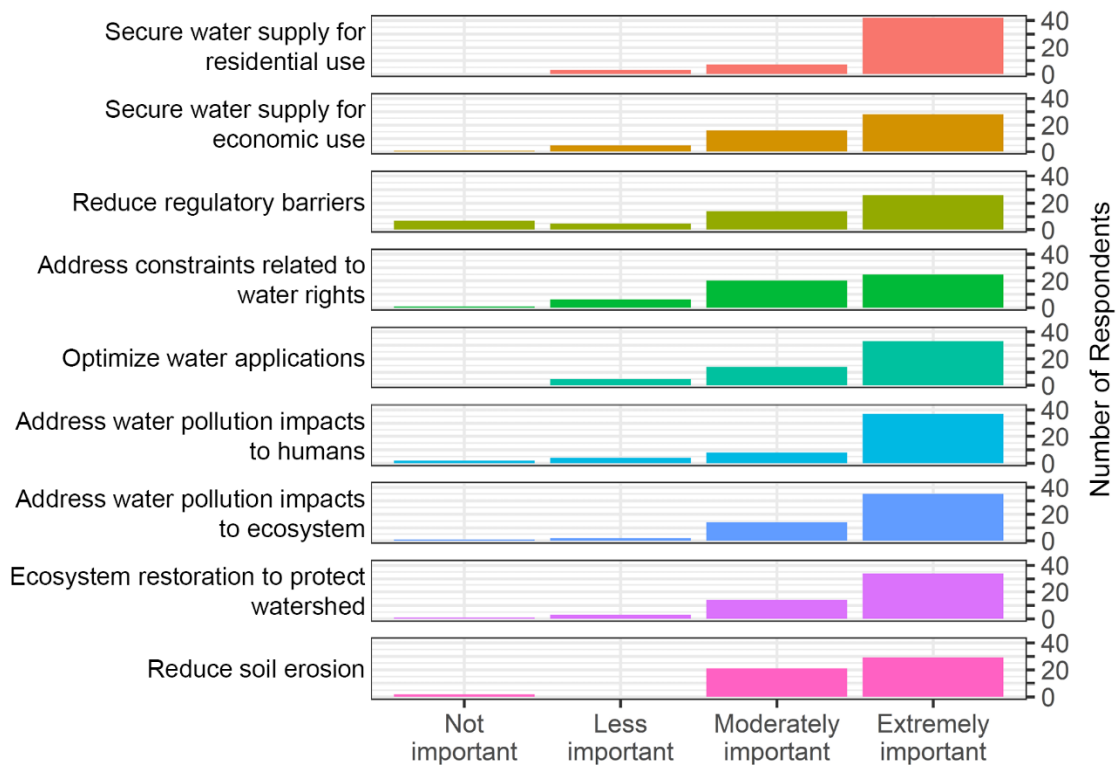

### Importance of investments for **air quality**

### Importance of investments for **water security**

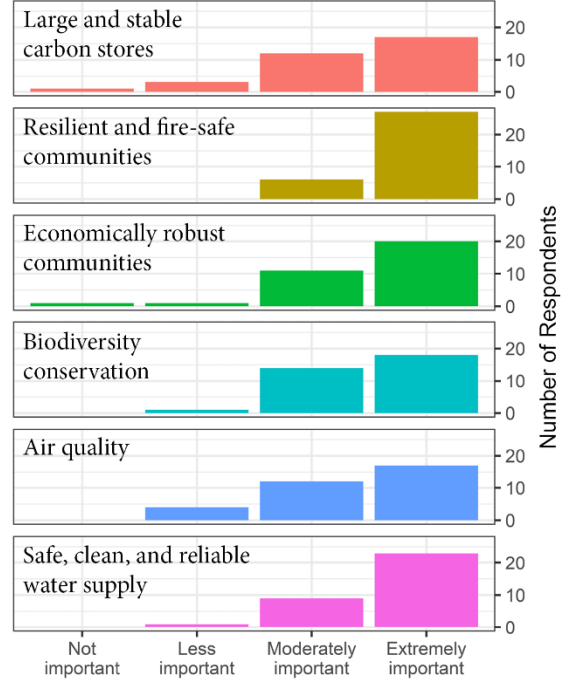

# Northern California Survey Results:

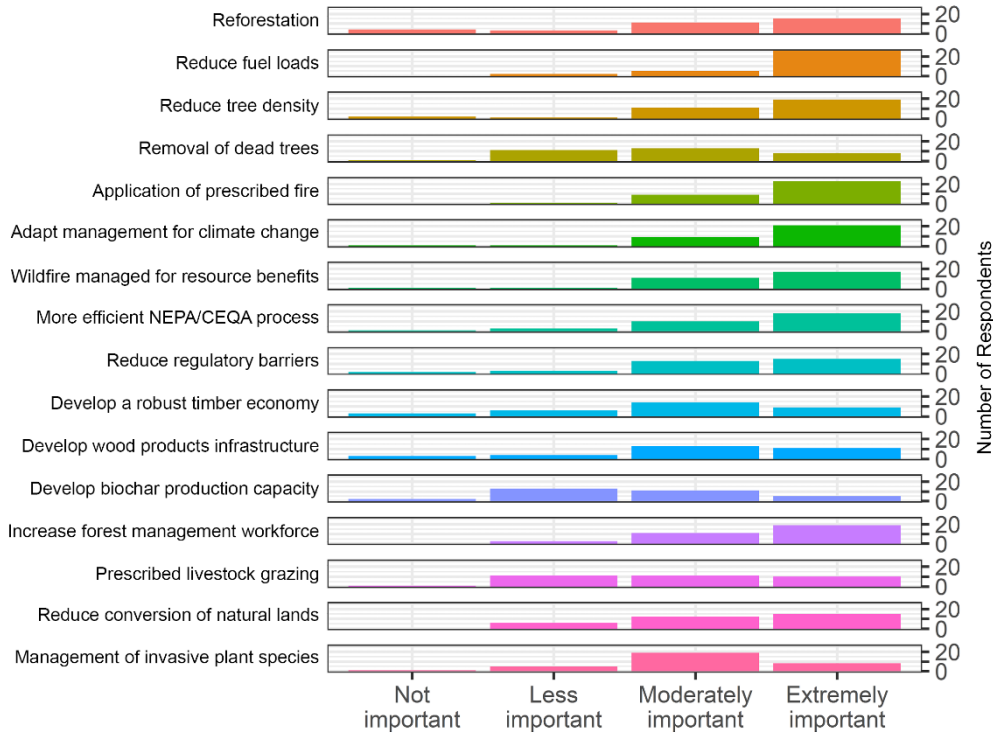

## “Entire Region” Respondents

### Stakeholder Input on Priority Areas of Investment

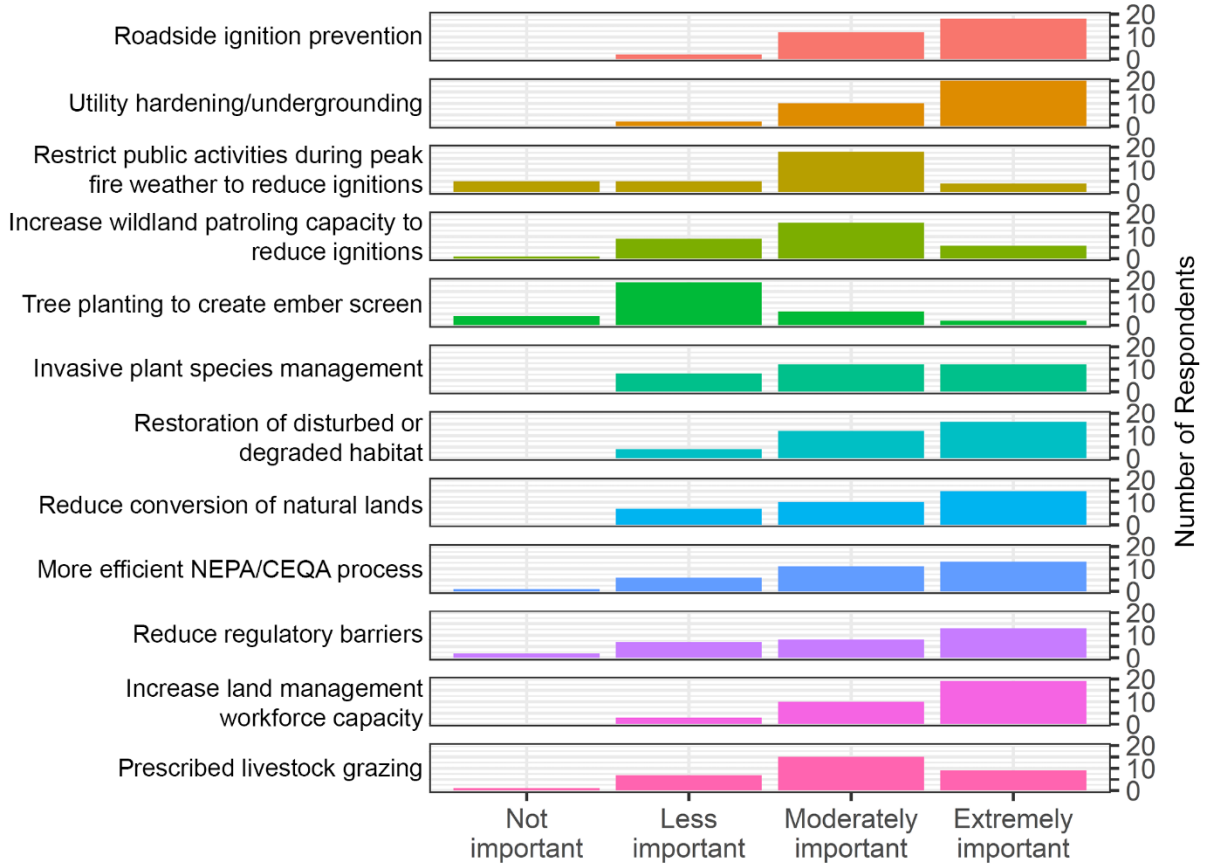

### Importance of investments for healthy and resilient forests

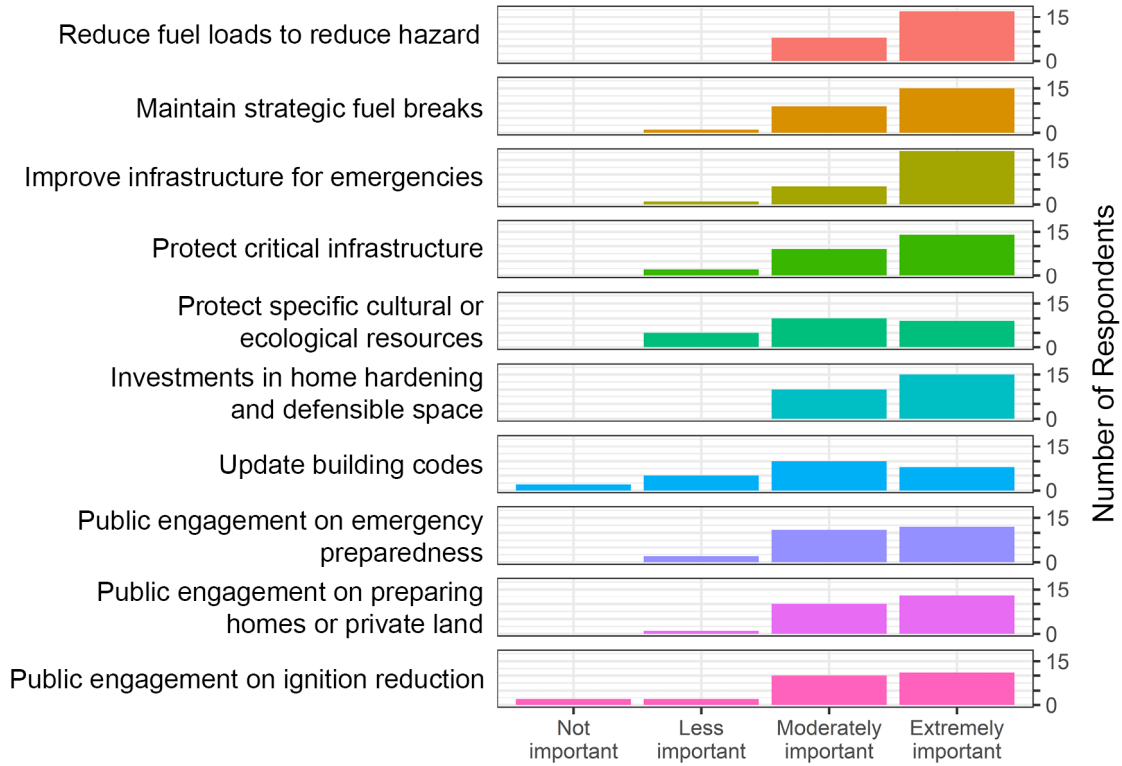

### Importance of investments for **healthy and resilient shrublands**

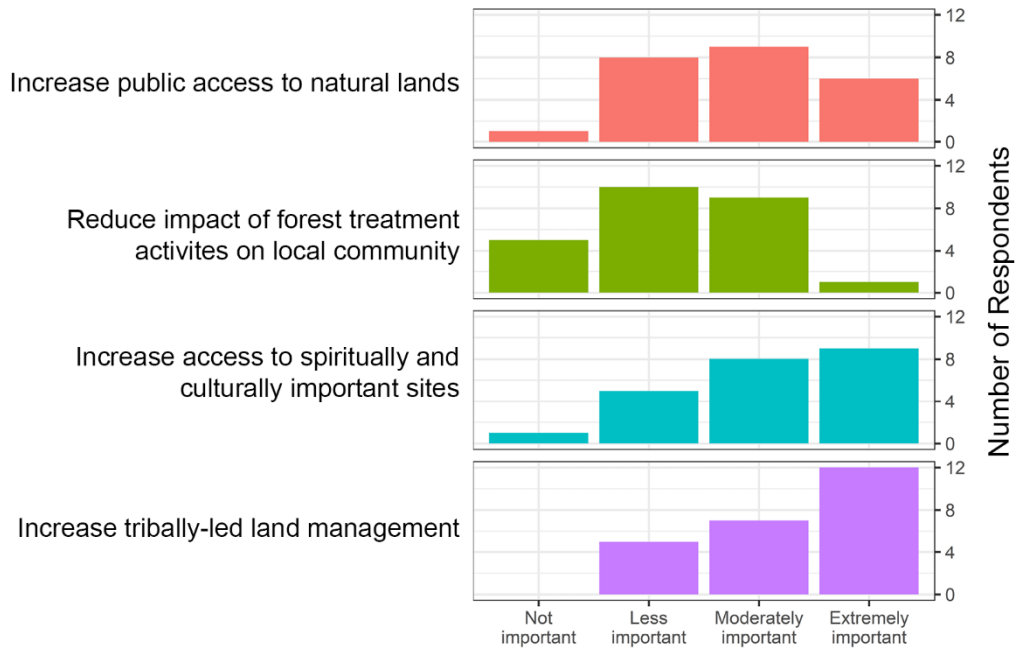

### Importance of investments for **carbon storage**

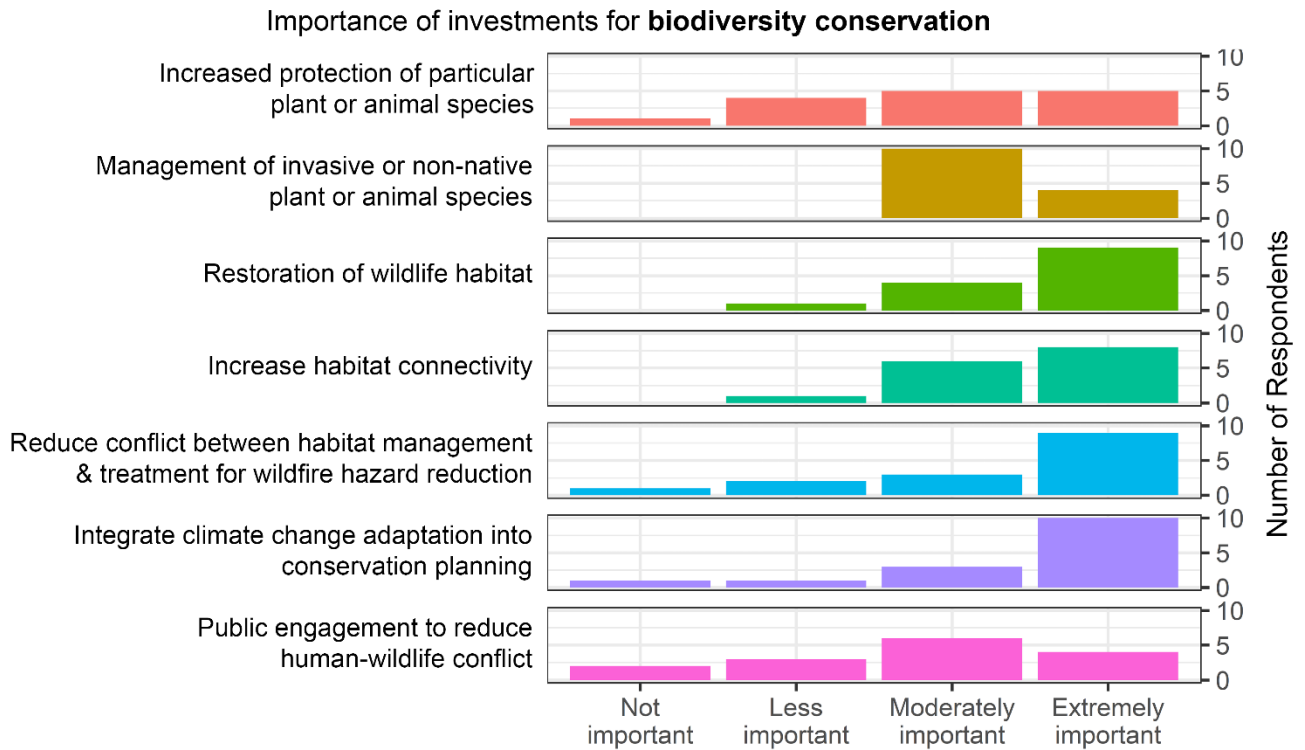

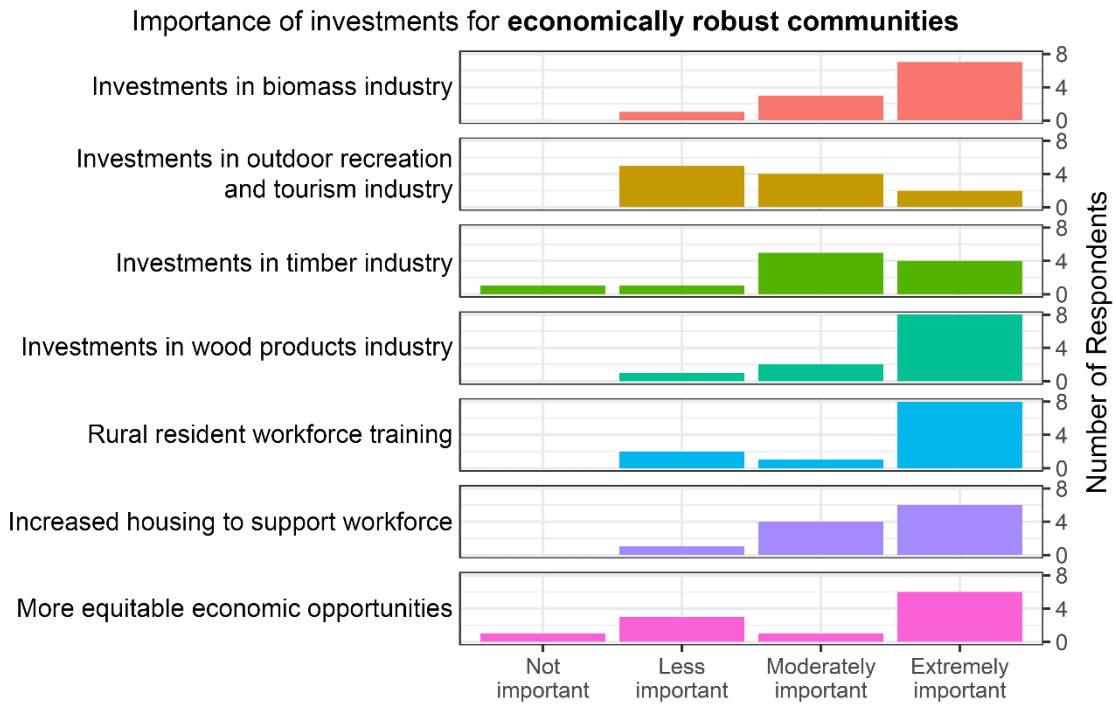

Importance of investments for **fire safety and preparedness**

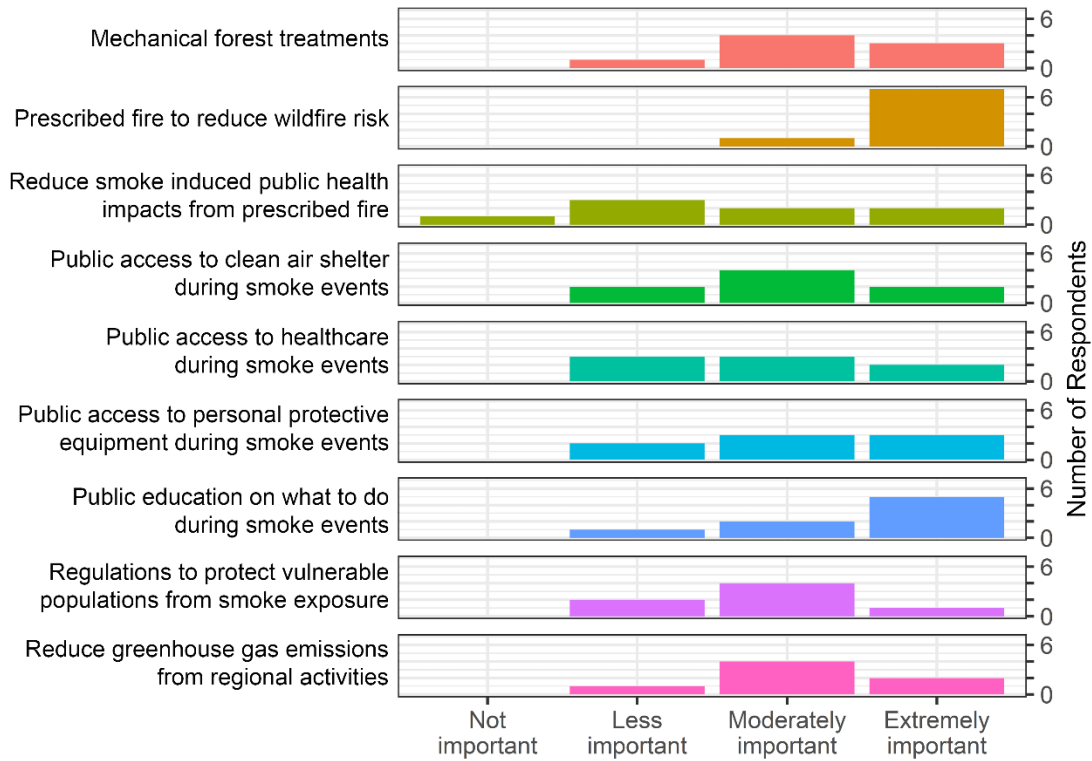

Importance of investments for **social and cultural well-being**

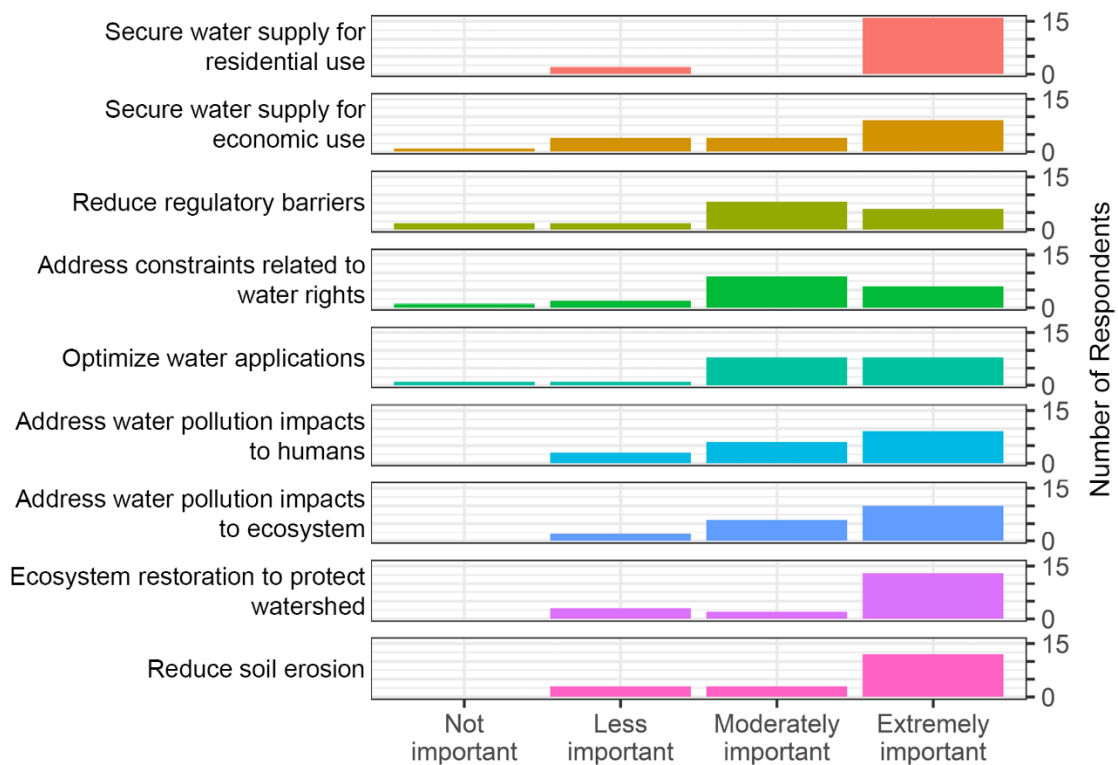

### Importance of investments for **air quality**

### Importance of investments for **water security**

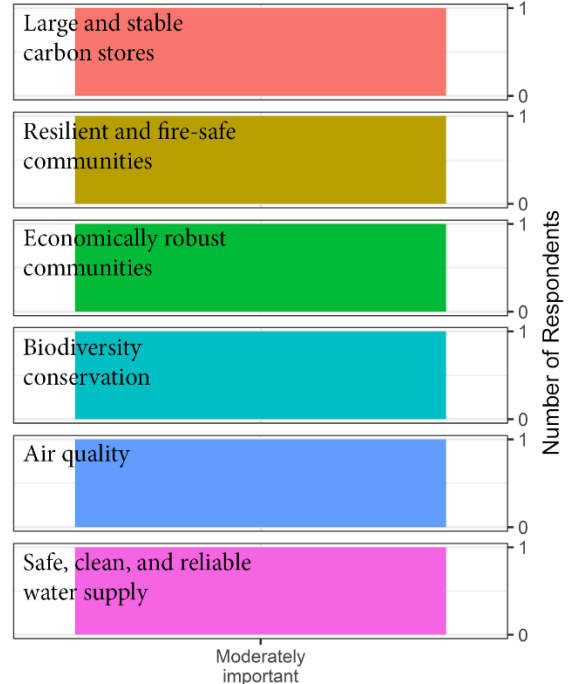

# Northern California Survey Results:

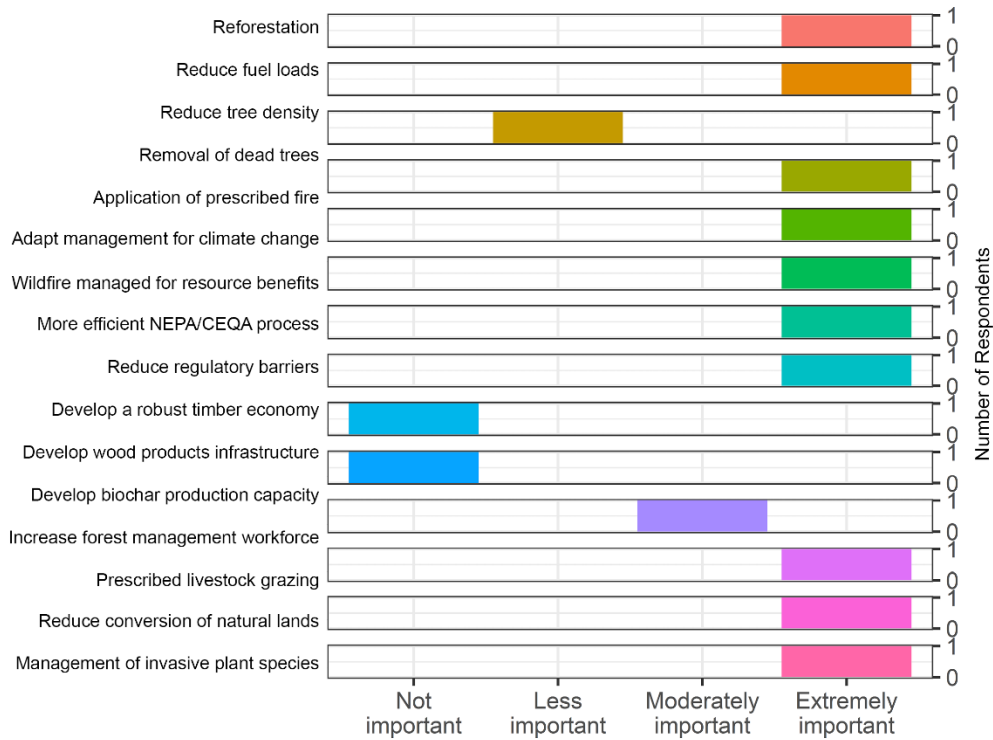

## Colusa County

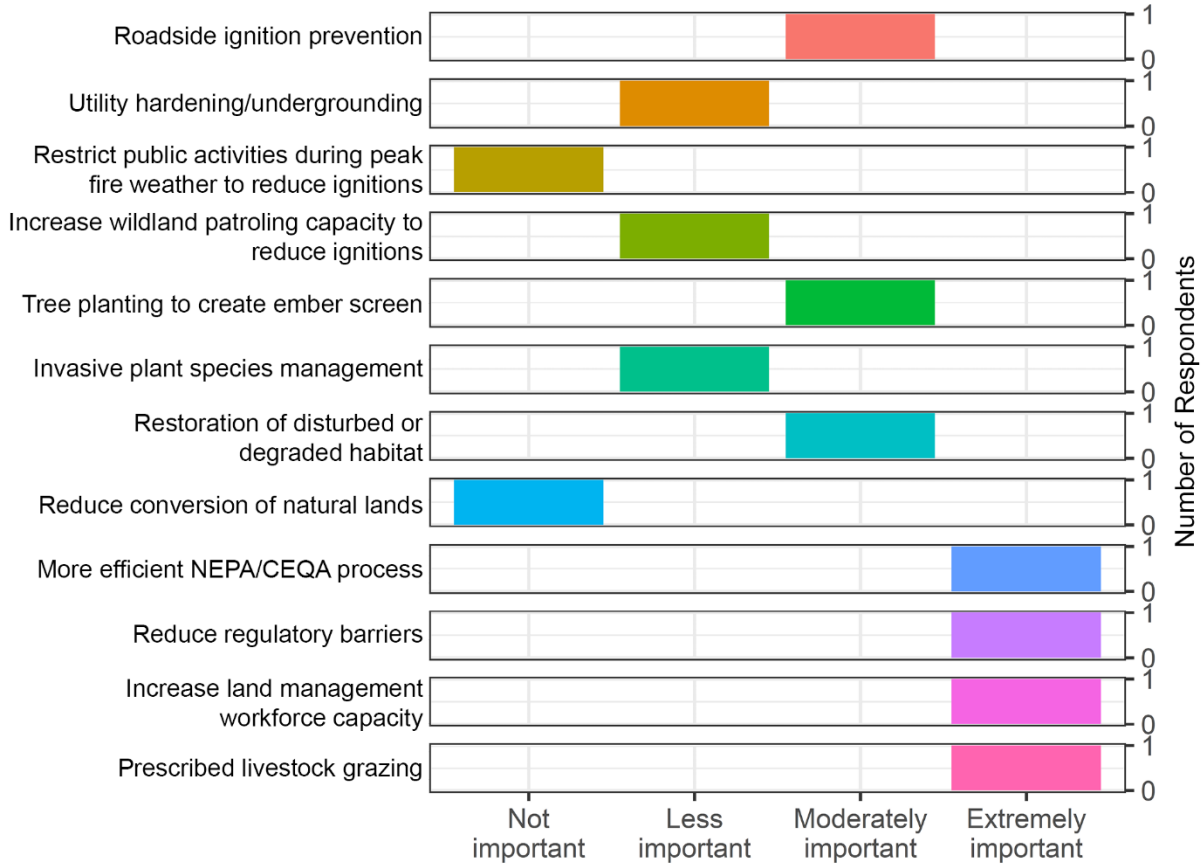

### Stakeholder Input on Priority Areas of Investment

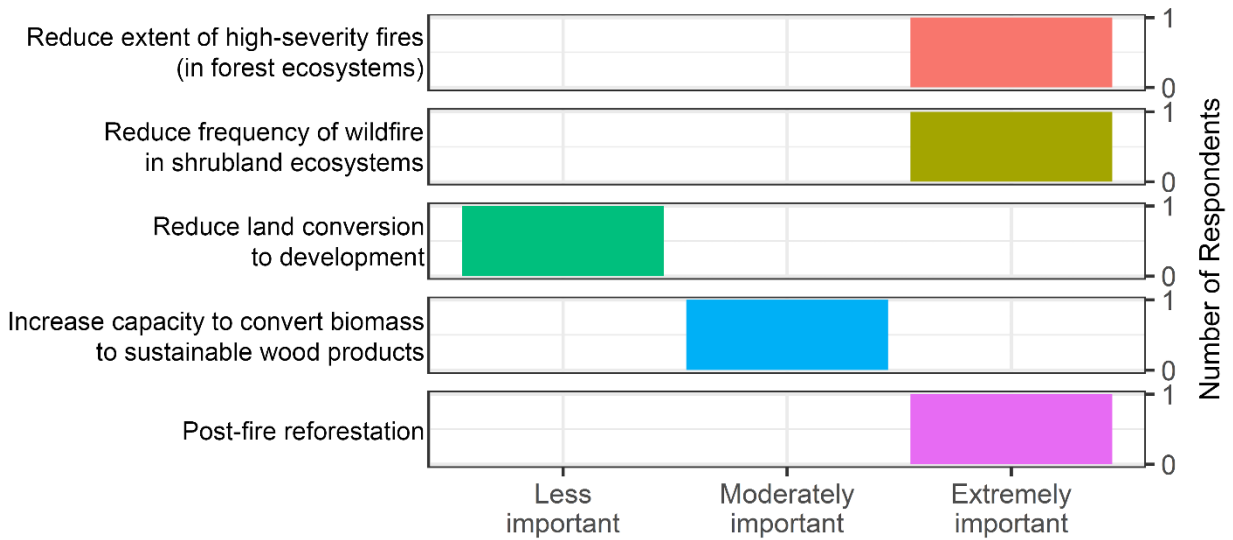

### Importance of investments for healthy and resilient forests

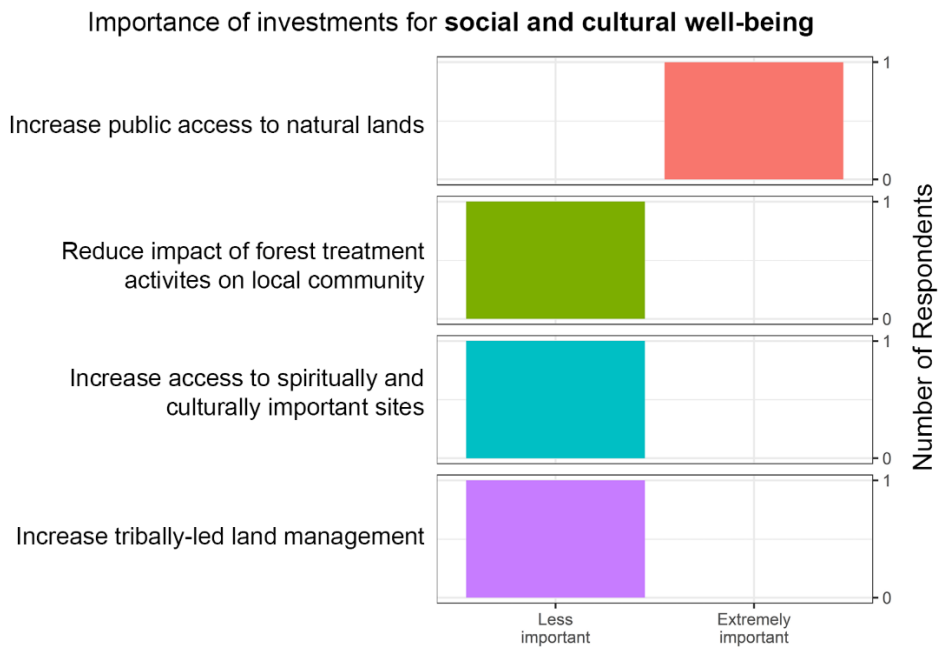

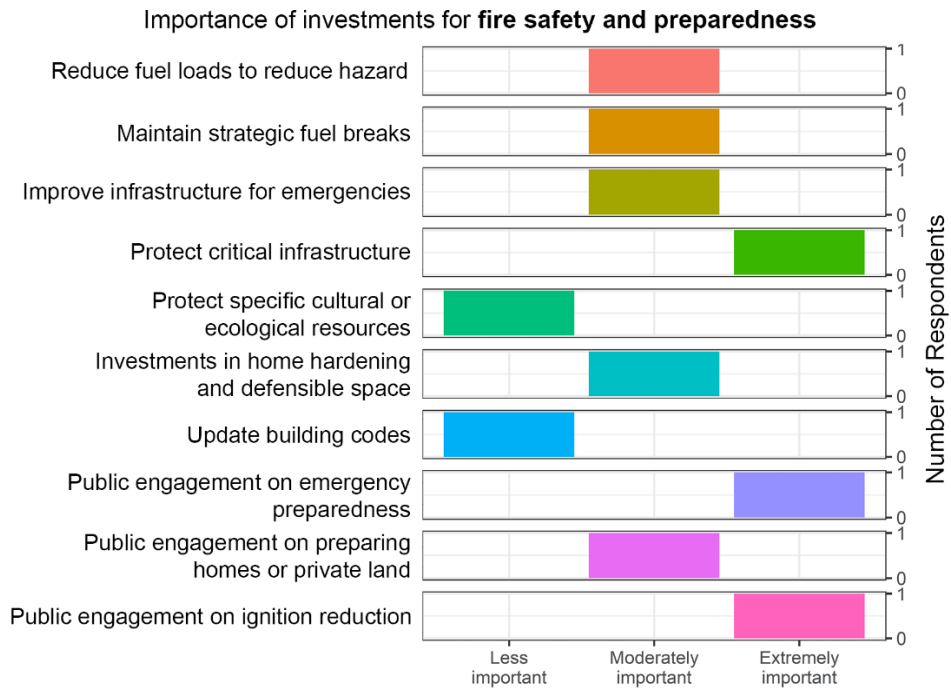

### Importance of investments for **healthy and resilient shrublands**

### Importance of investments for **carbon storage**

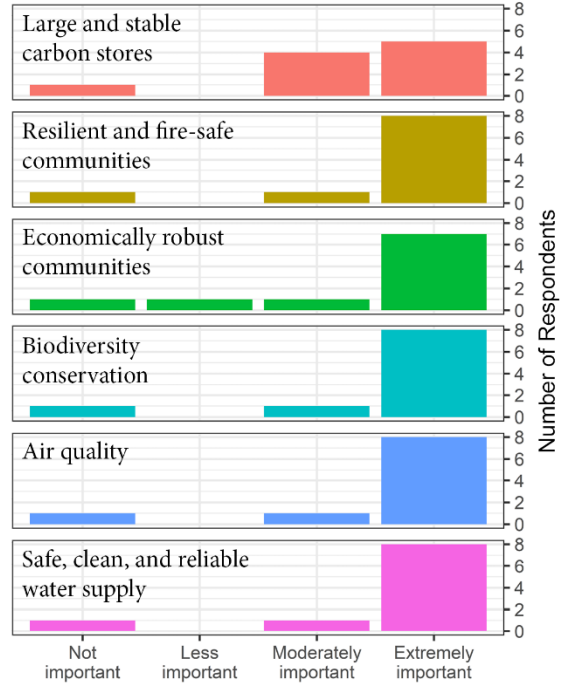

*Please note: no survey participants responded to “Air quality,” “Biodiversity Conservation,” “Economic Health” or “Water Security” categories for this county.*

# Northern California Survey Results:

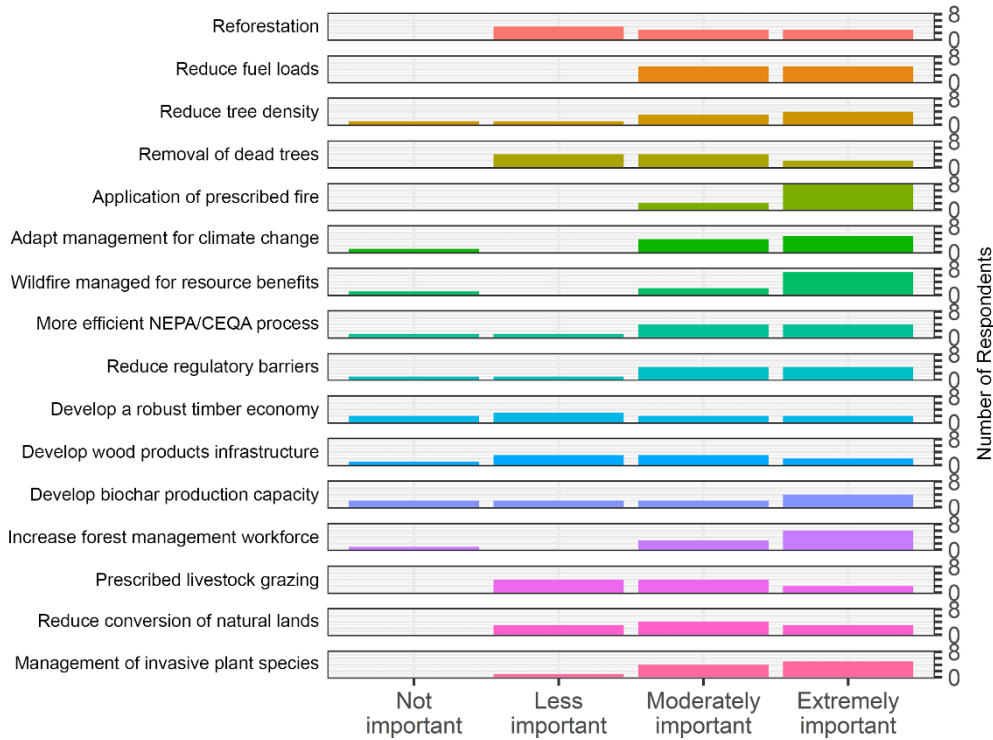

## Del Norte County

### Stakeholder Input on Priority Areas of Investment

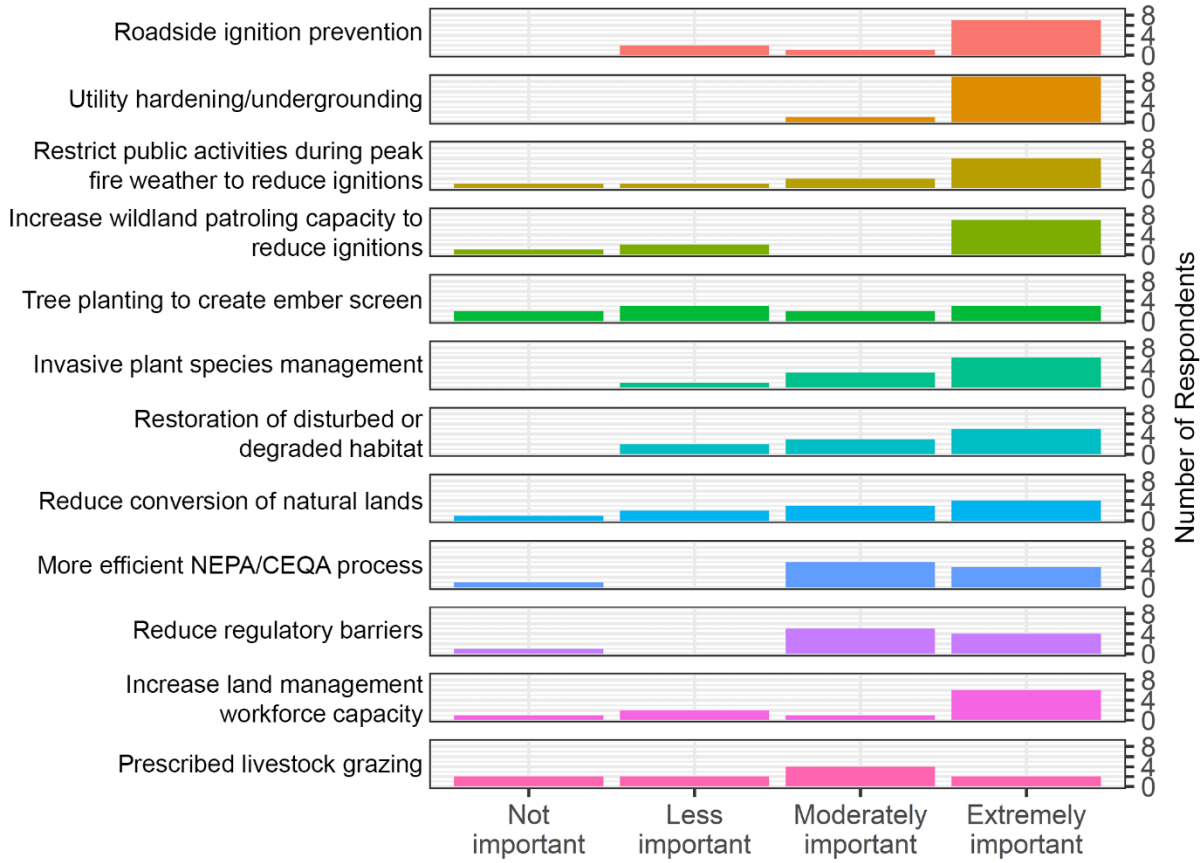

### Importance of investments for healthy and resilient forests

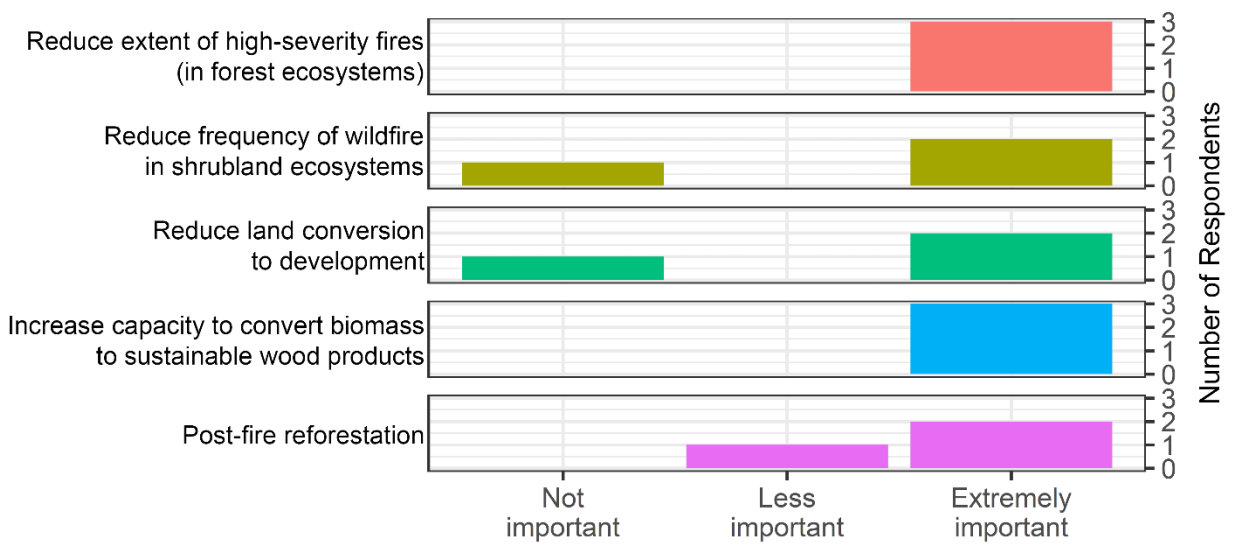

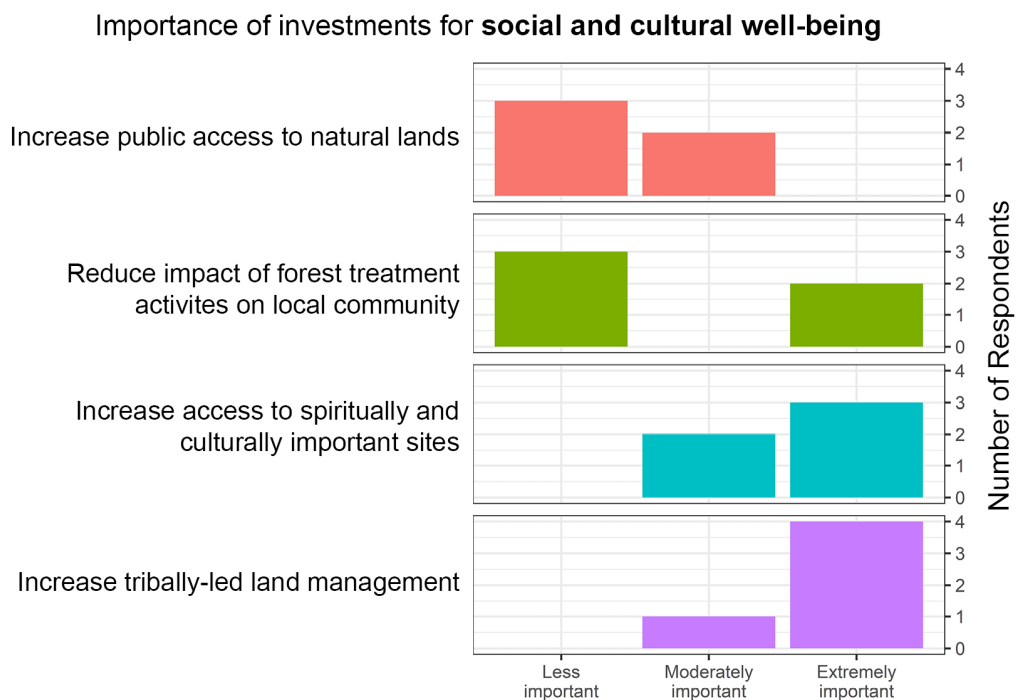

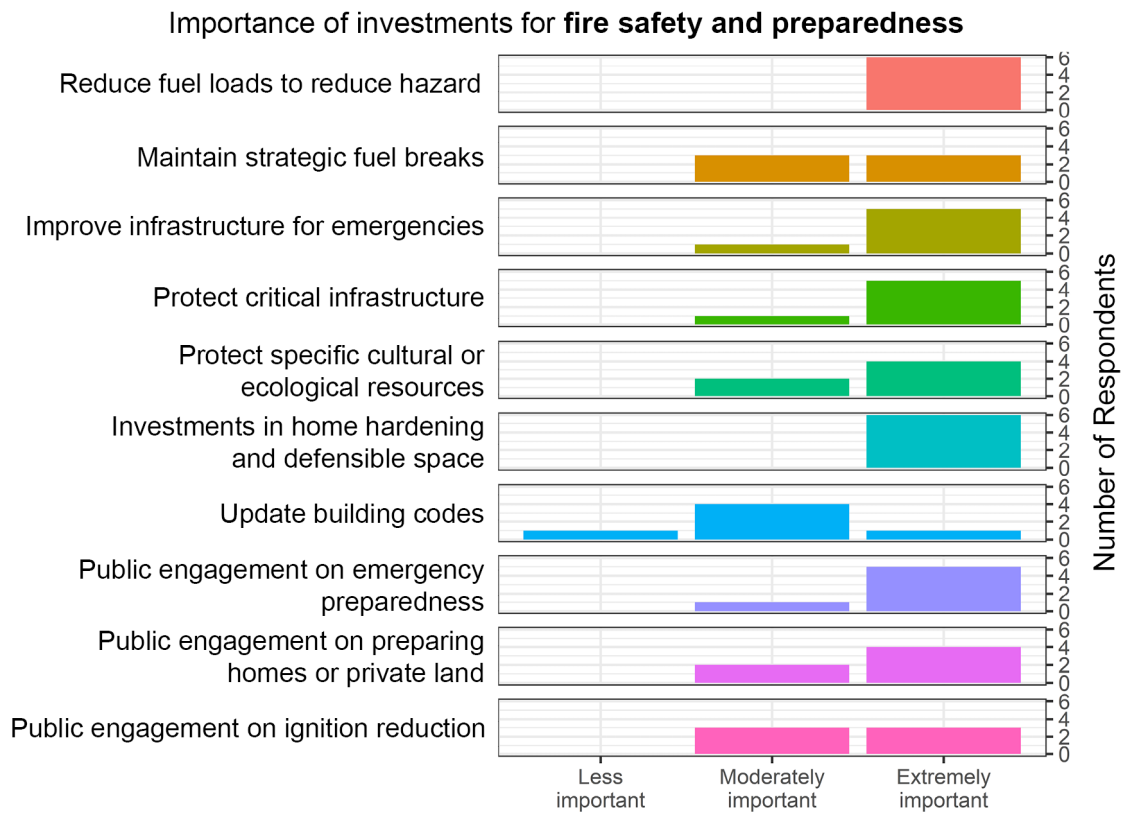

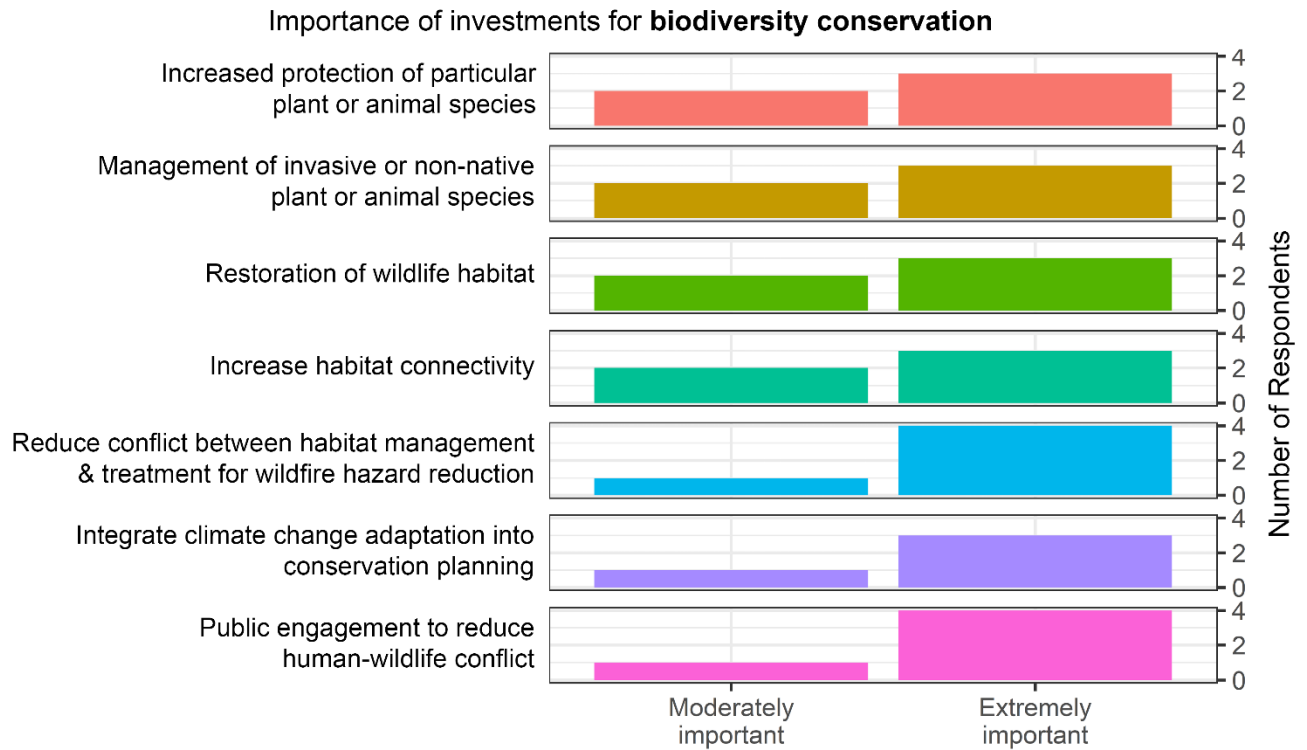

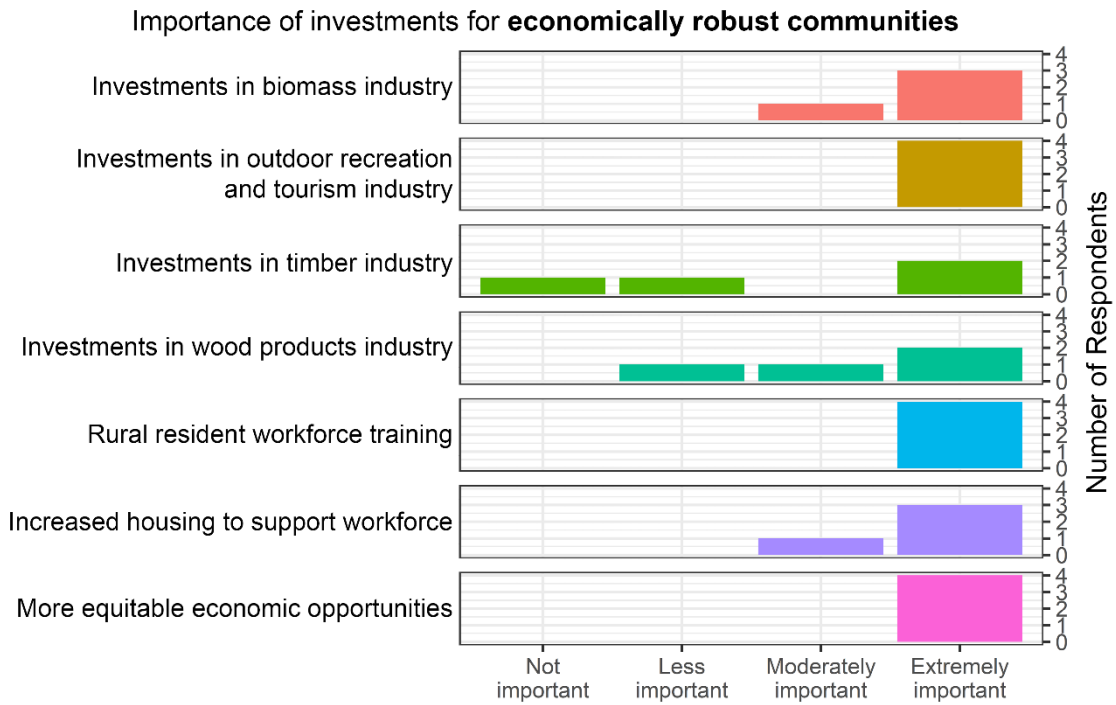

### Importance of investments for **healthy and resilient shrublands**

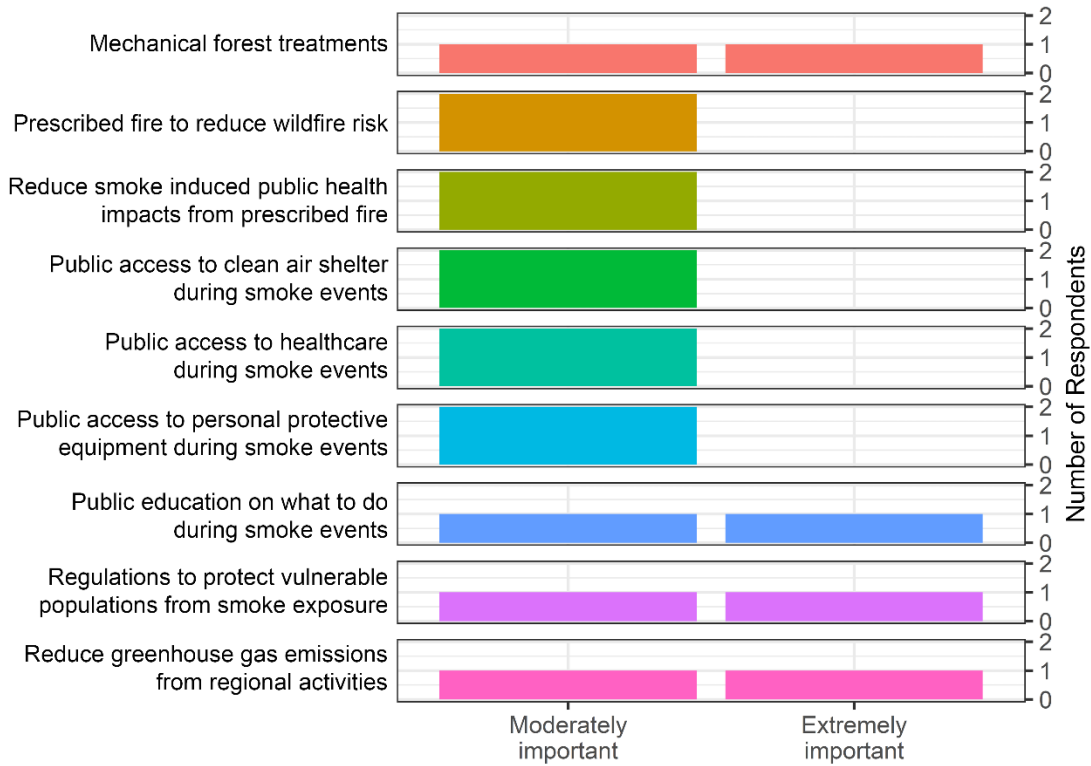

### Importance of investments for **carbon storage**

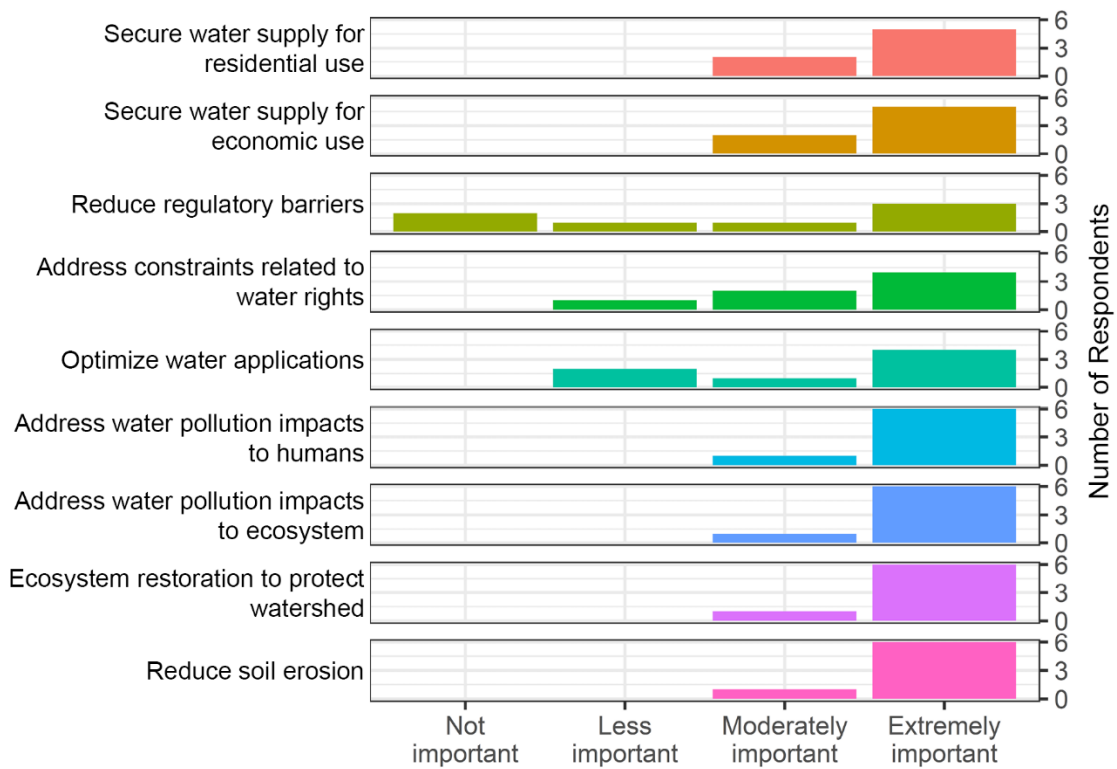

### Importance of investments for **air quality**

### Importance of investments for **water security**

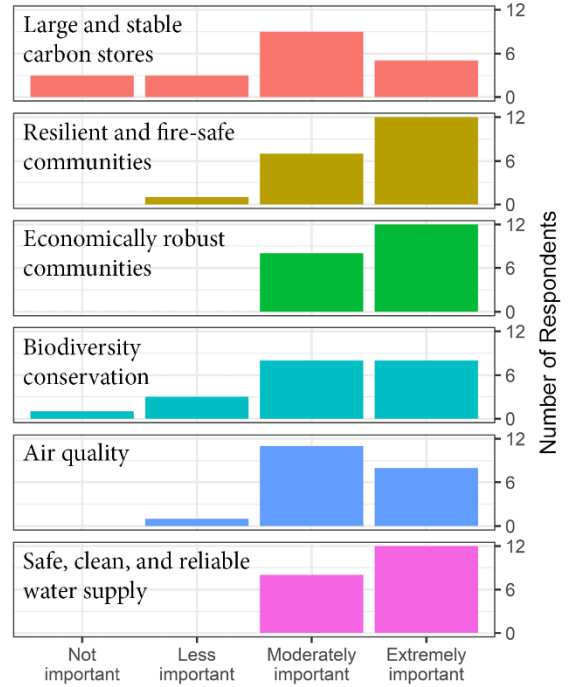

# Northern California Survey Results:

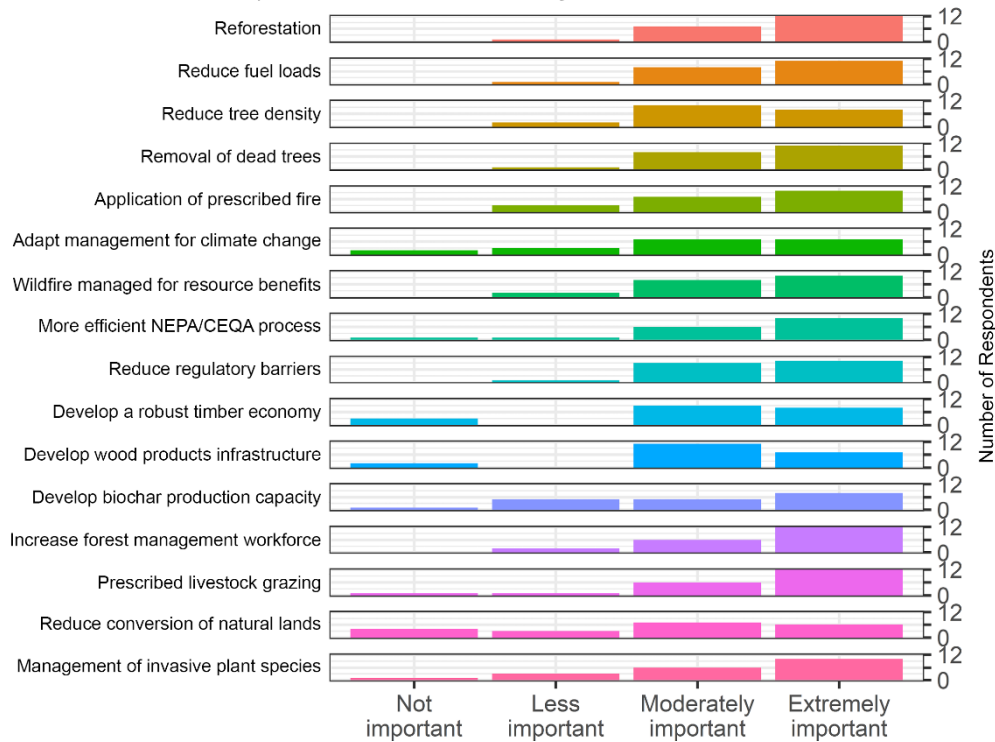

## Glenn County

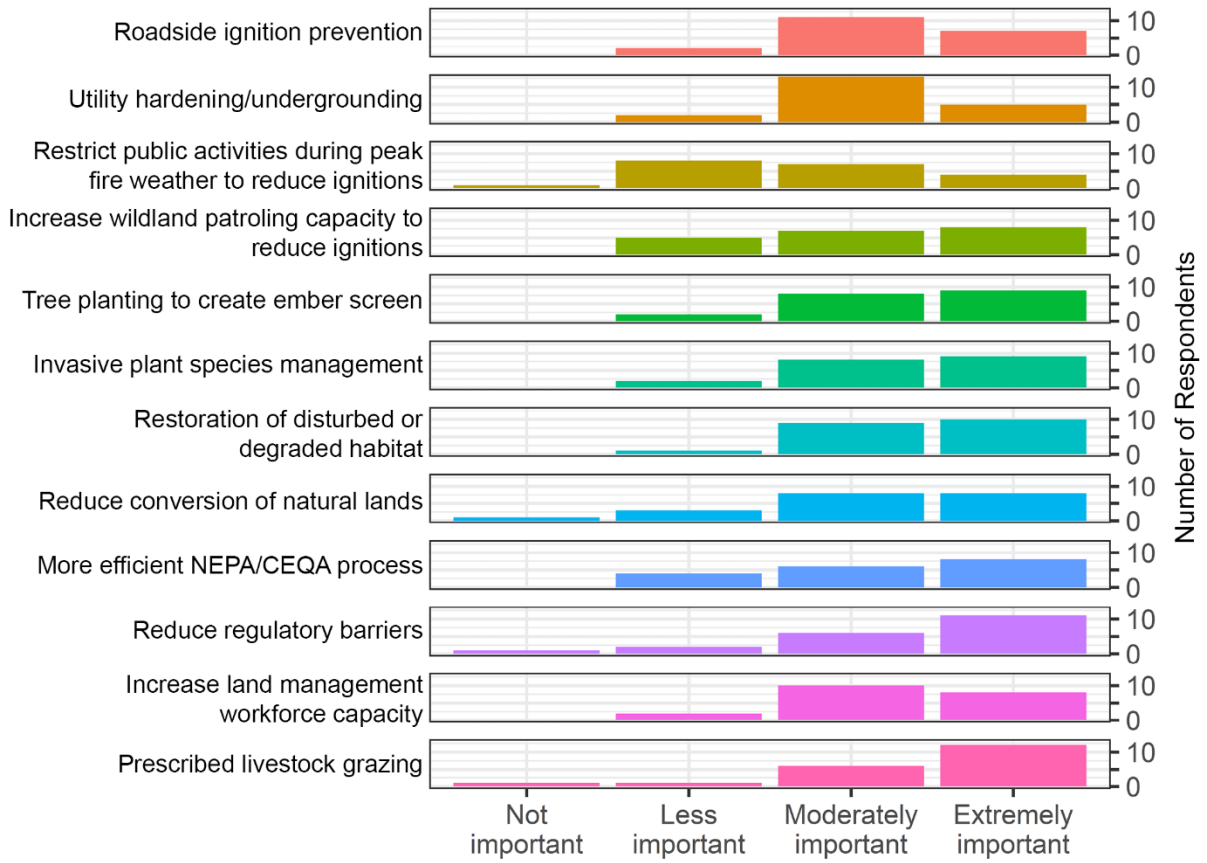

Stakeholder Input on Priority Areas of Investment

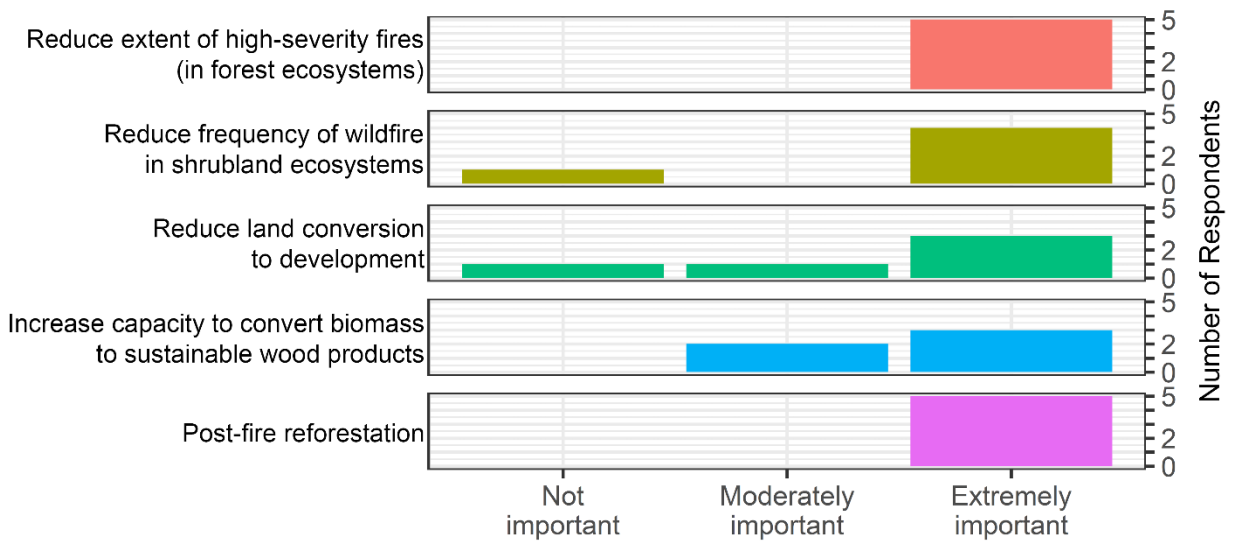

Importance of investments for healthy and resilient forests

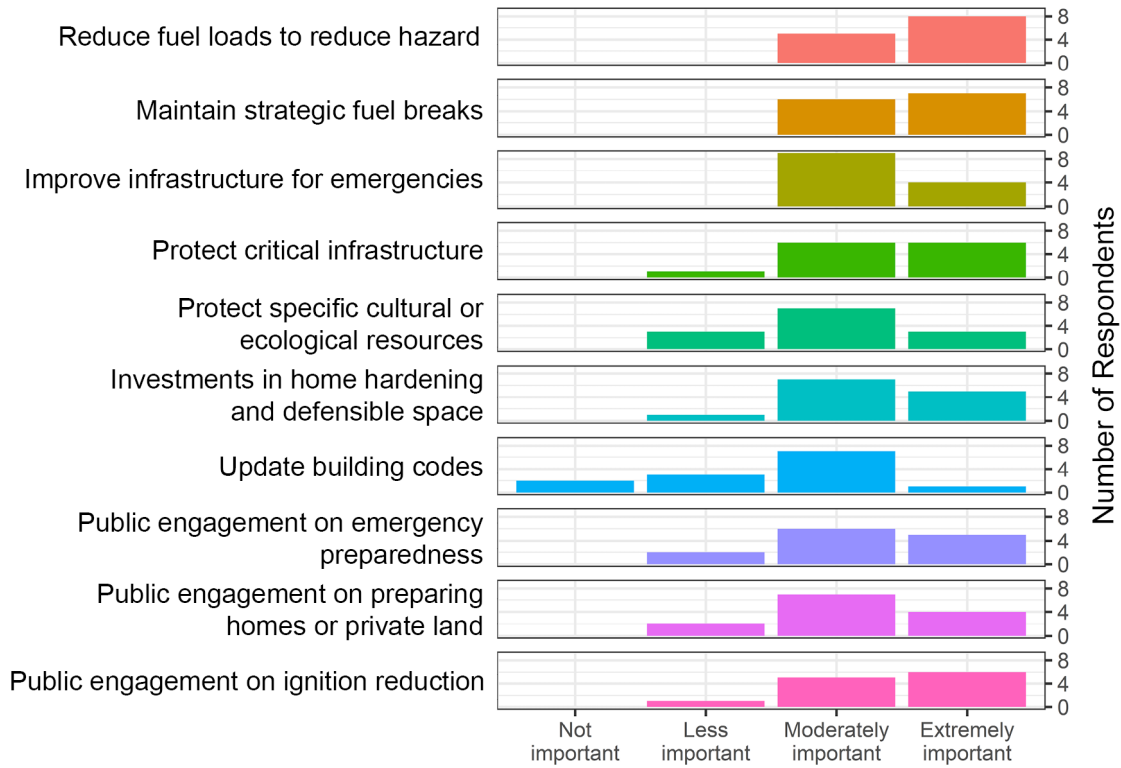

### Importance of investments for **healthy and resilient shrublands**

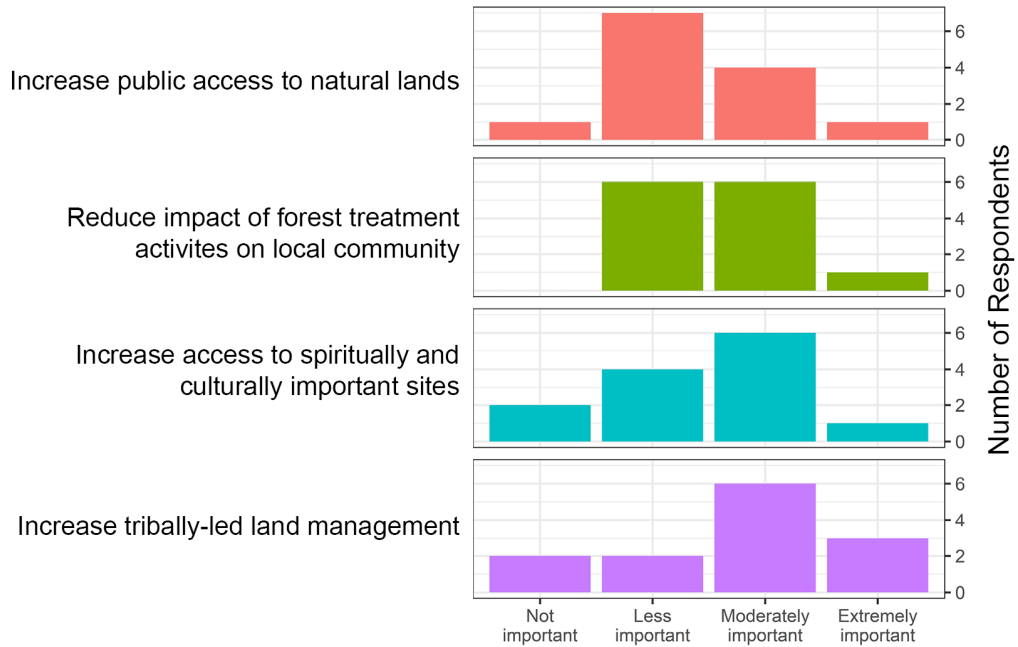

### Importance of investments for **carbon storage**

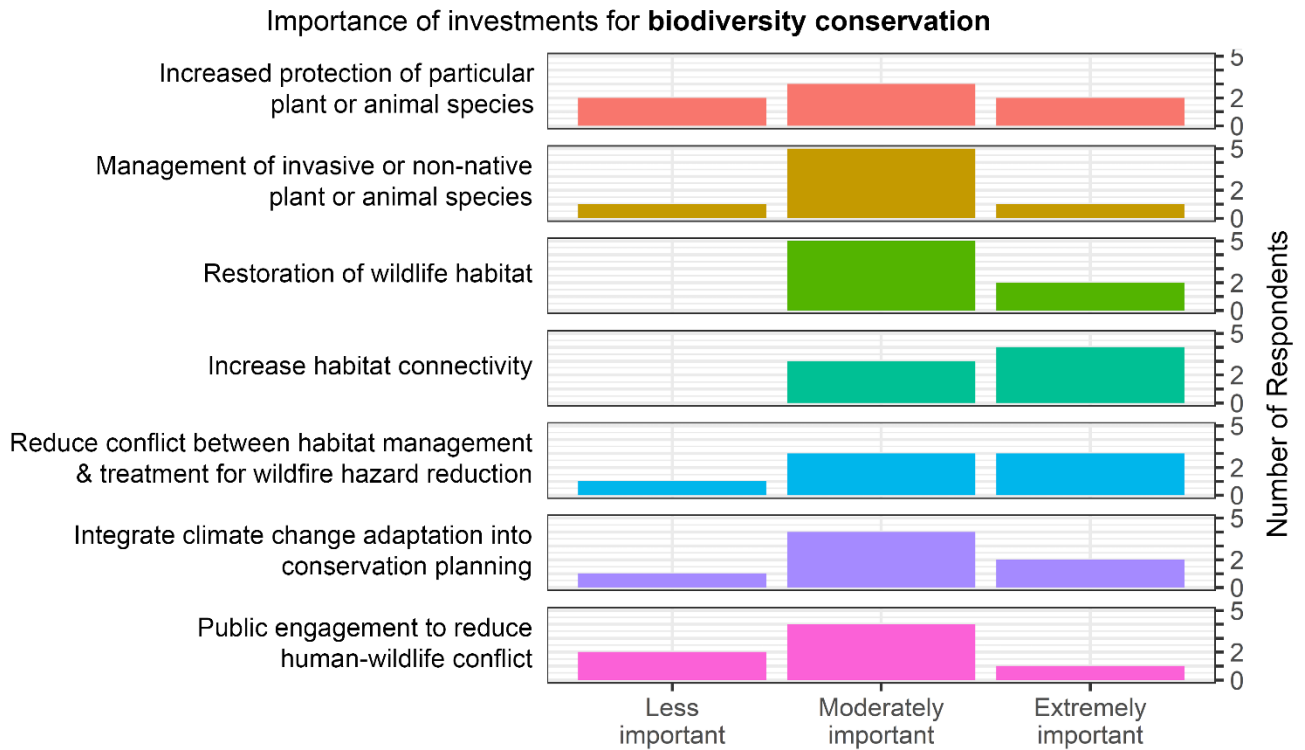

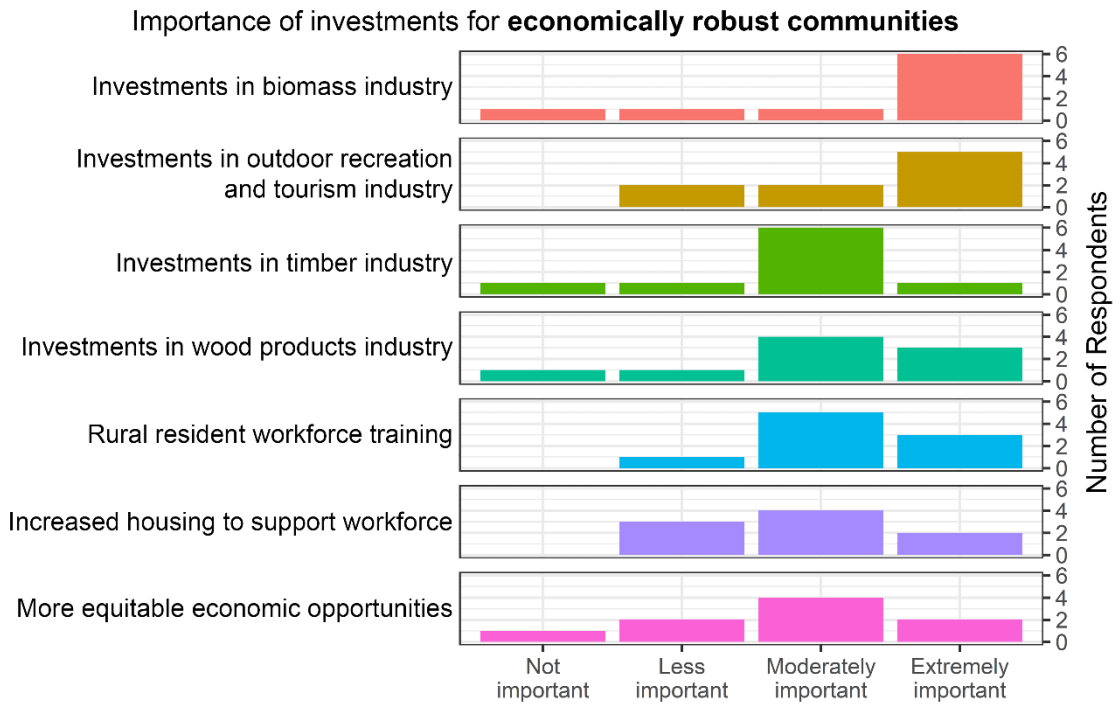

**Importance of investments for fire safety and preparedness**

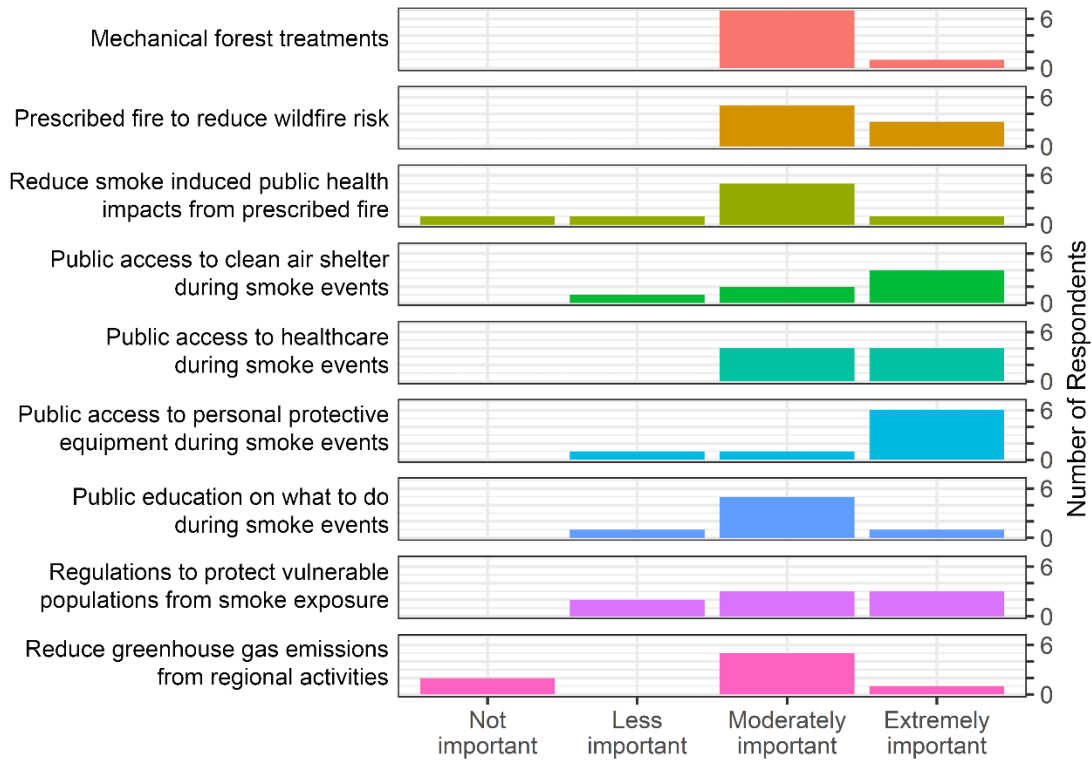

**Importance of investments for social and cultural well-being**

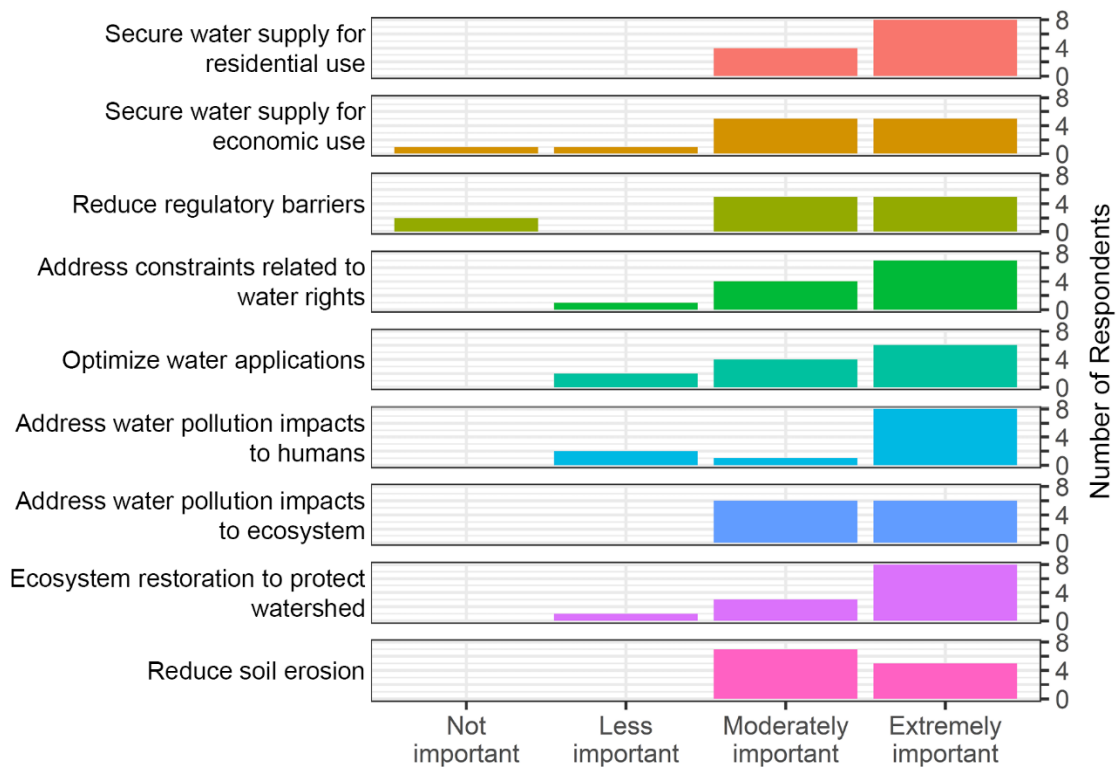

### Importance of investments for **air quality**

### Importance of investments for **water security**

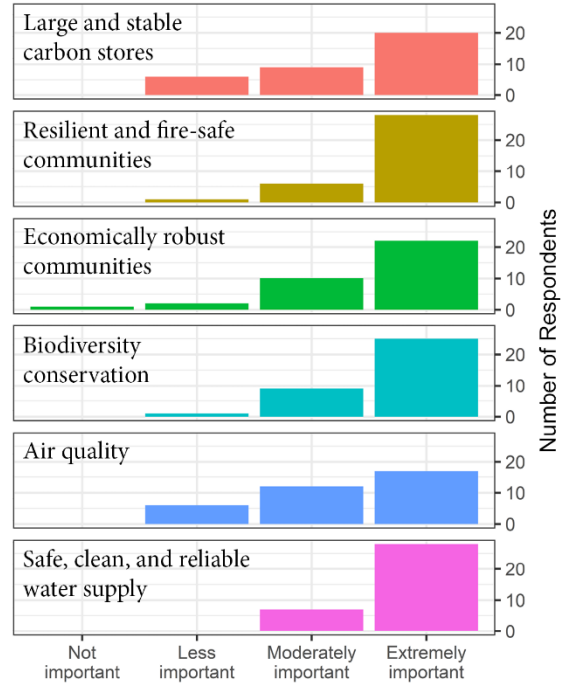

# Northern California Survey Results:

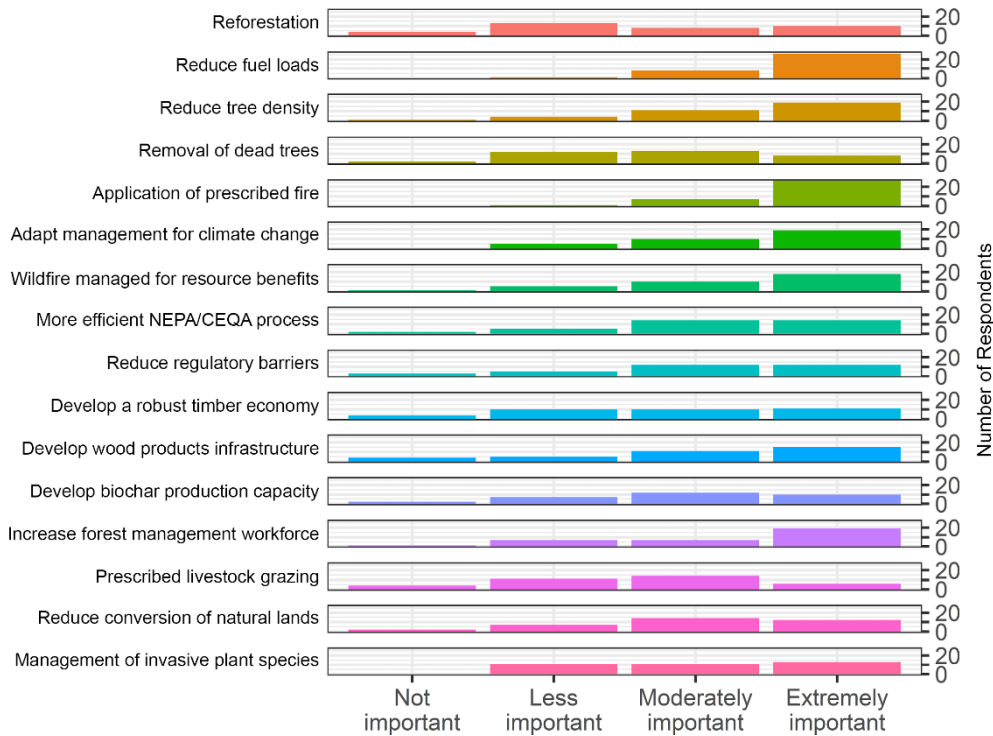

## Humboldt County

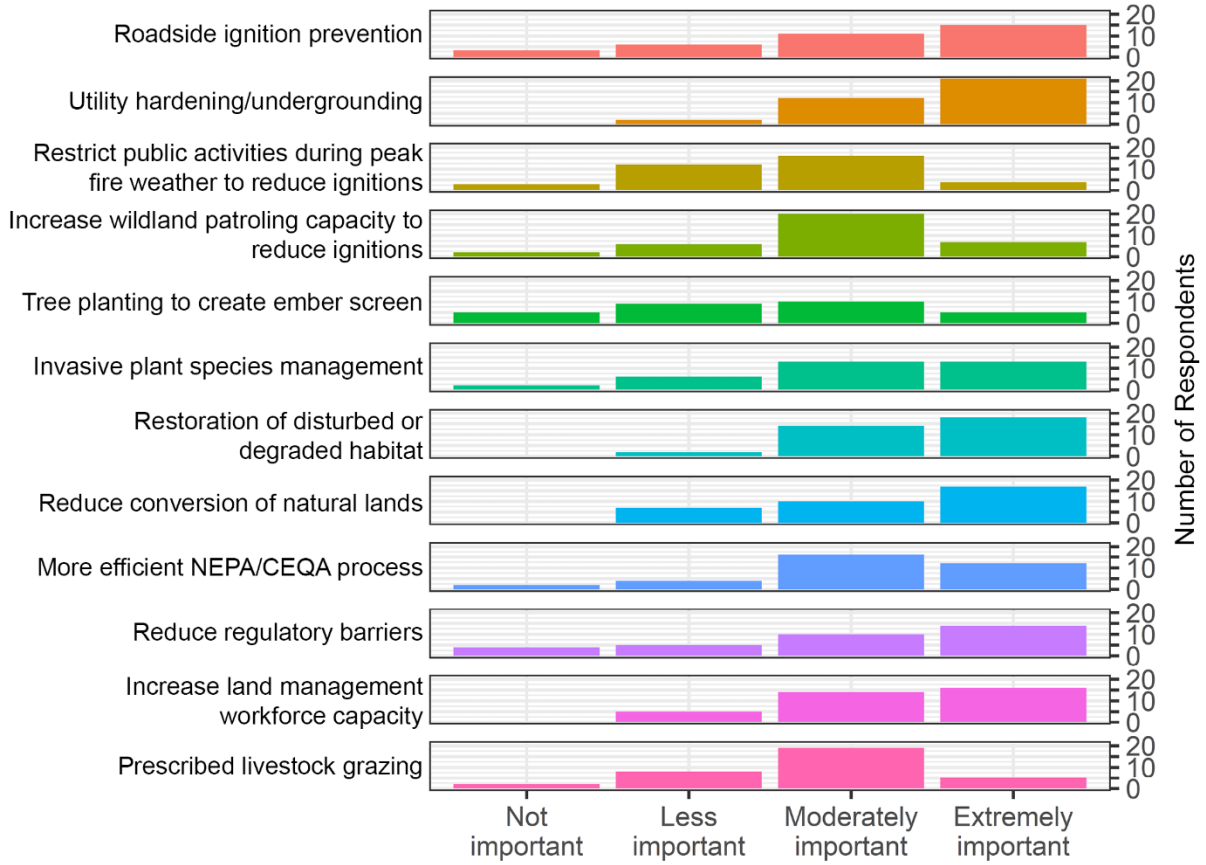

### Stakeholder Input on Priority Areas of Investment

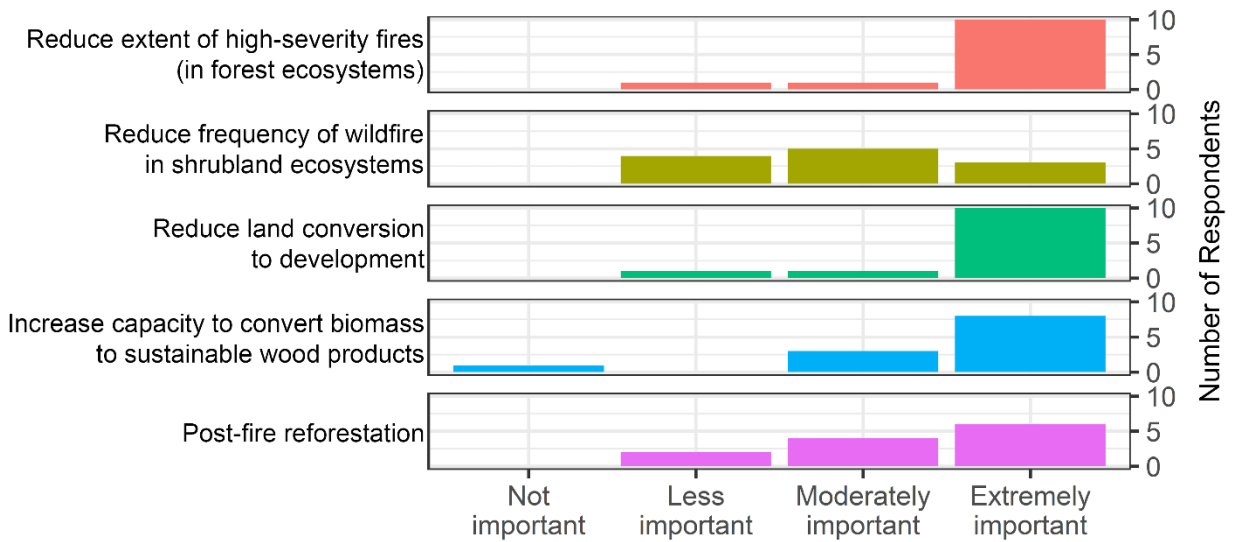

### Importance of investments for healthy and resilient forests

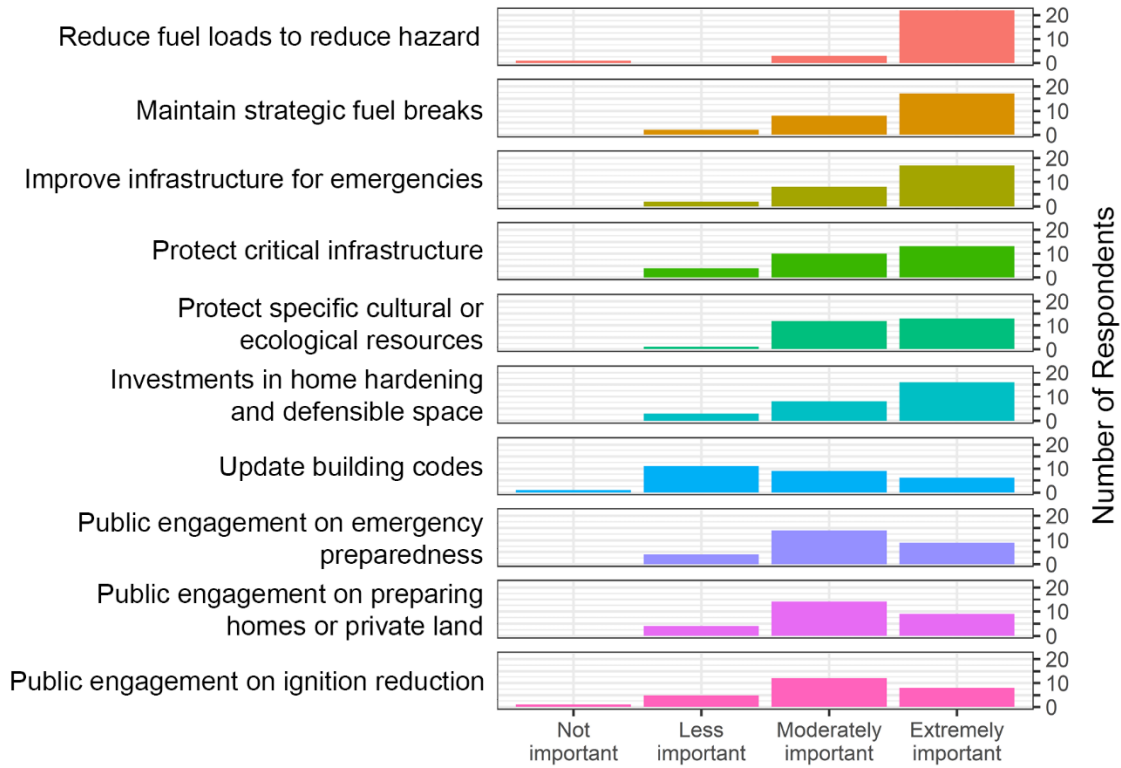

### Importance of investments for **healthy and resilient shrublands**

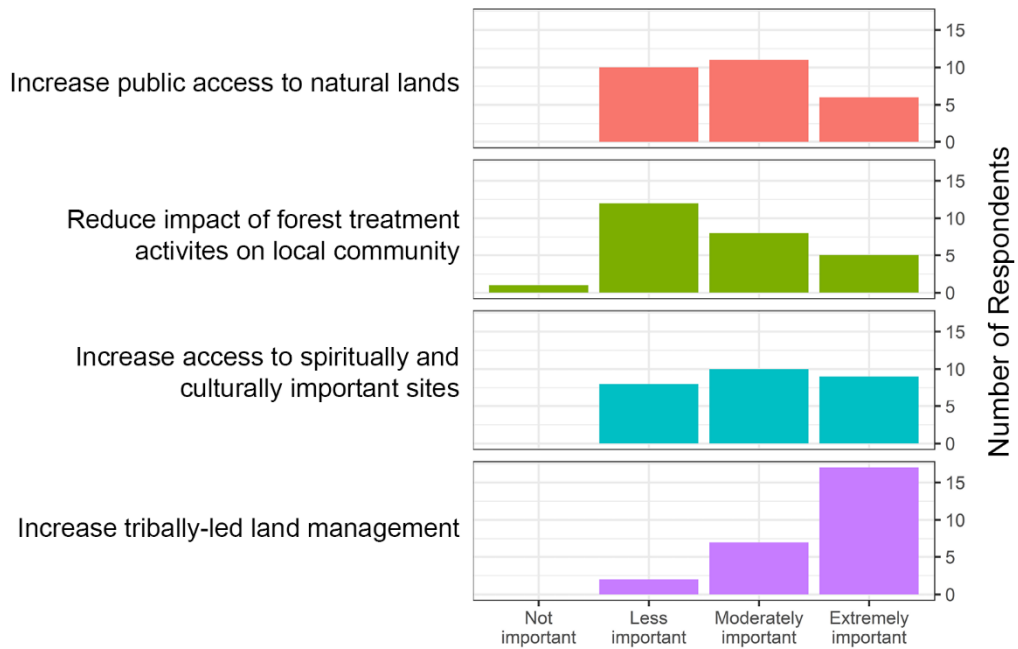

### Importance of investments for **carbon storage**

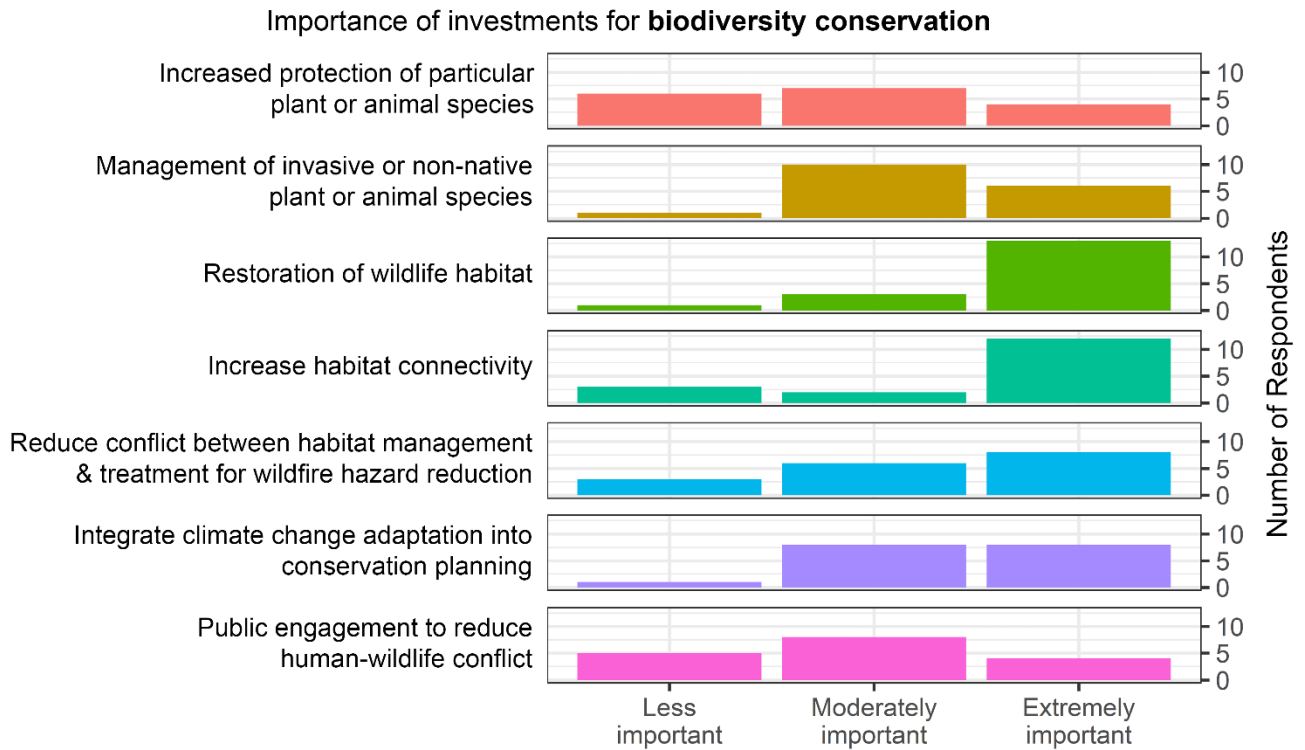

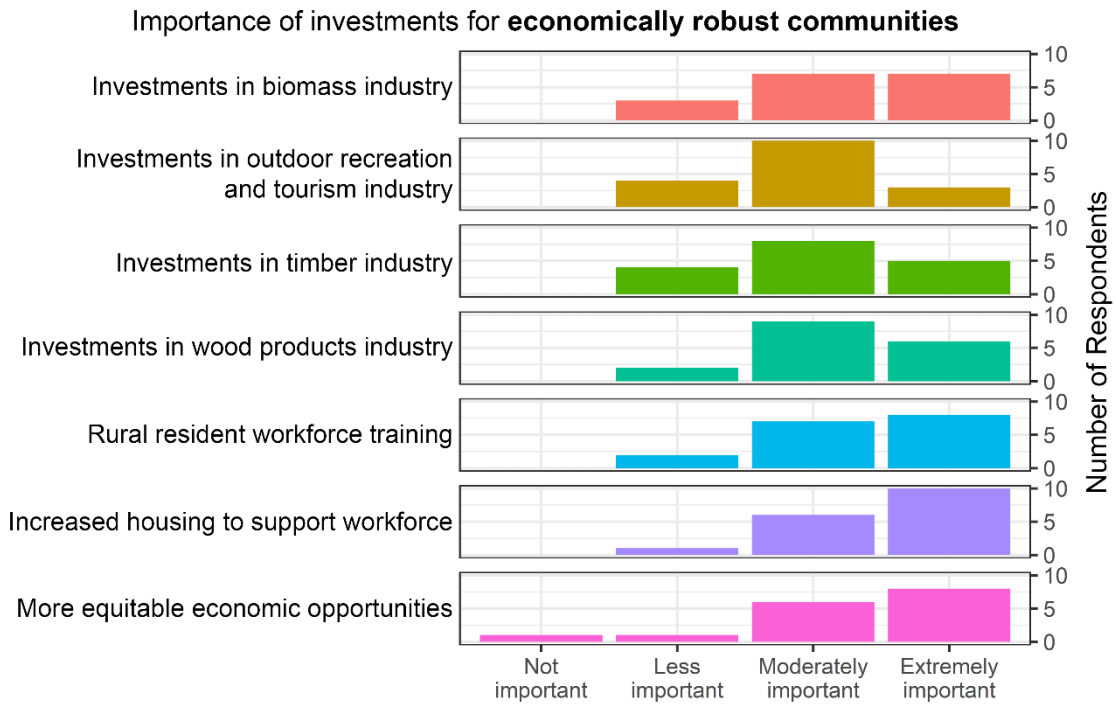

### Importance of investments for **fire safety and preparedness**

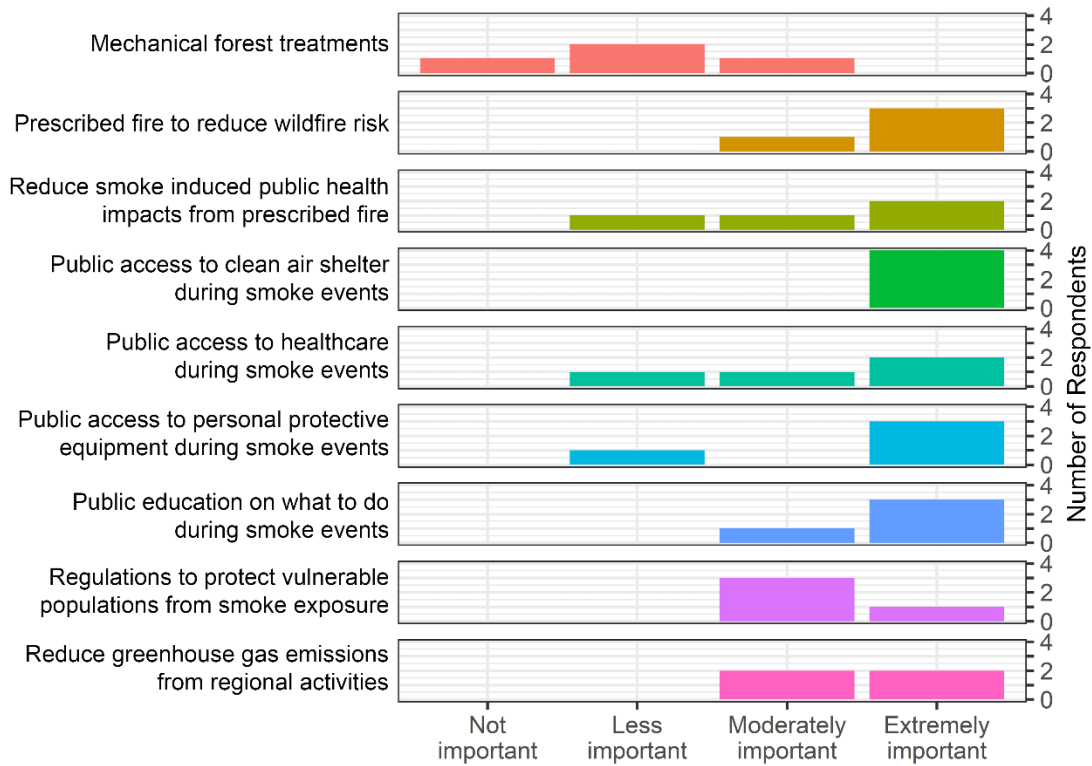

### Importance of investments for **social and cultural well-being**

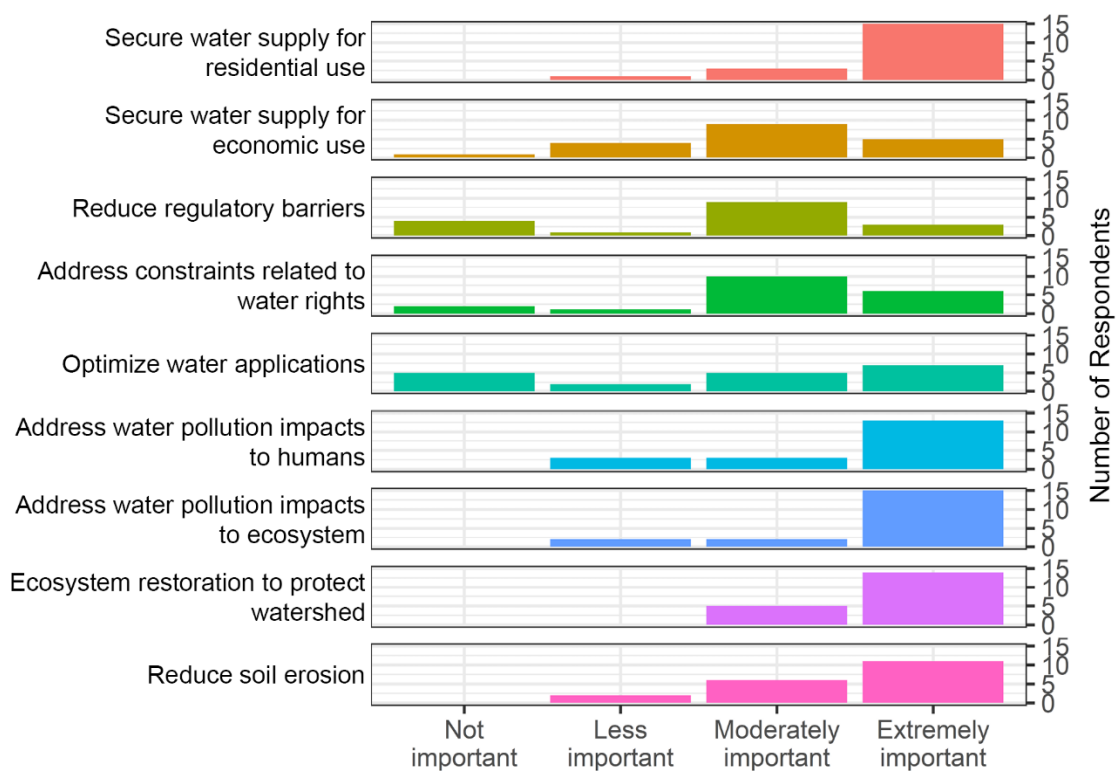

### Importance of investments for **air quality**

### Importance of investments for **water security**

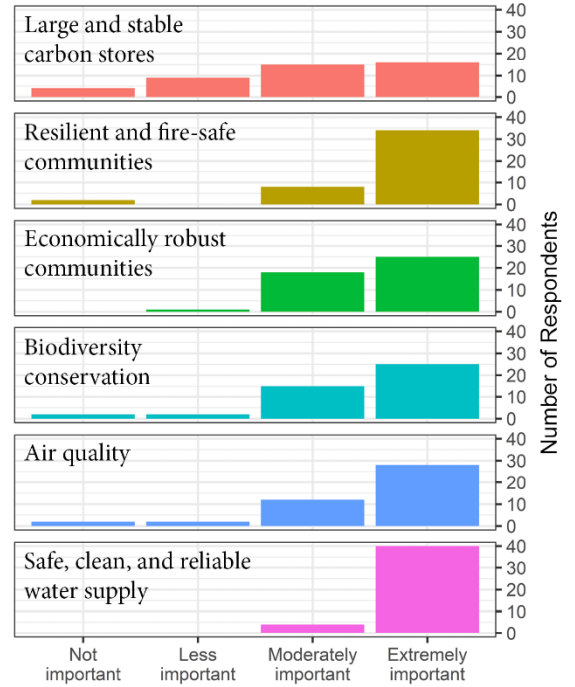

# Northern California Survey Results:

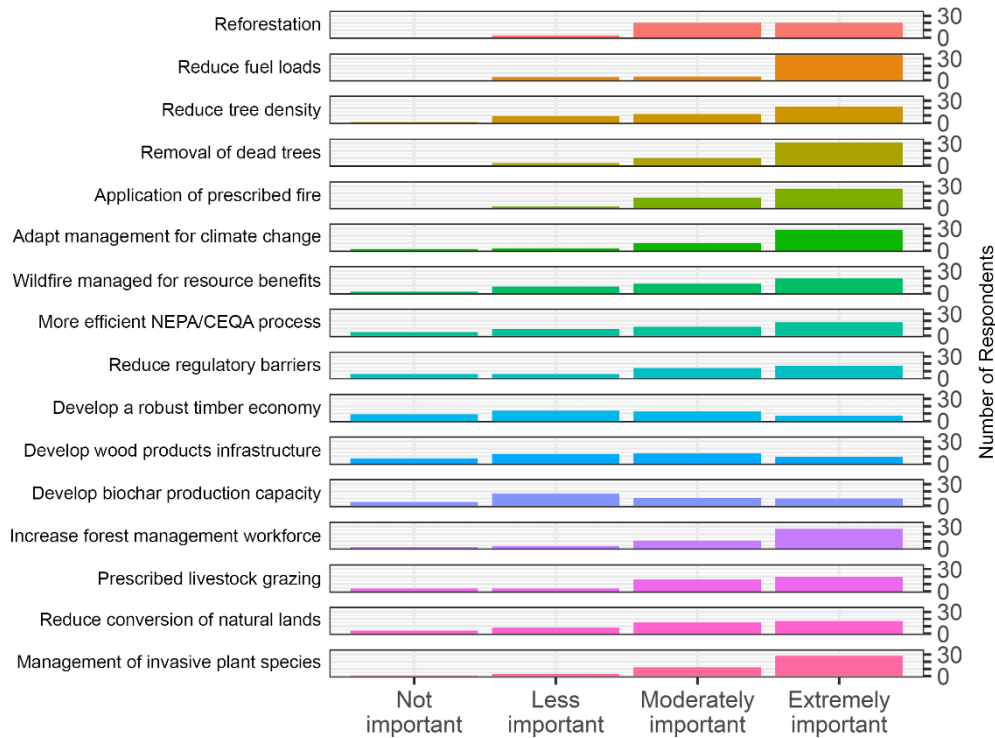

## Lake County

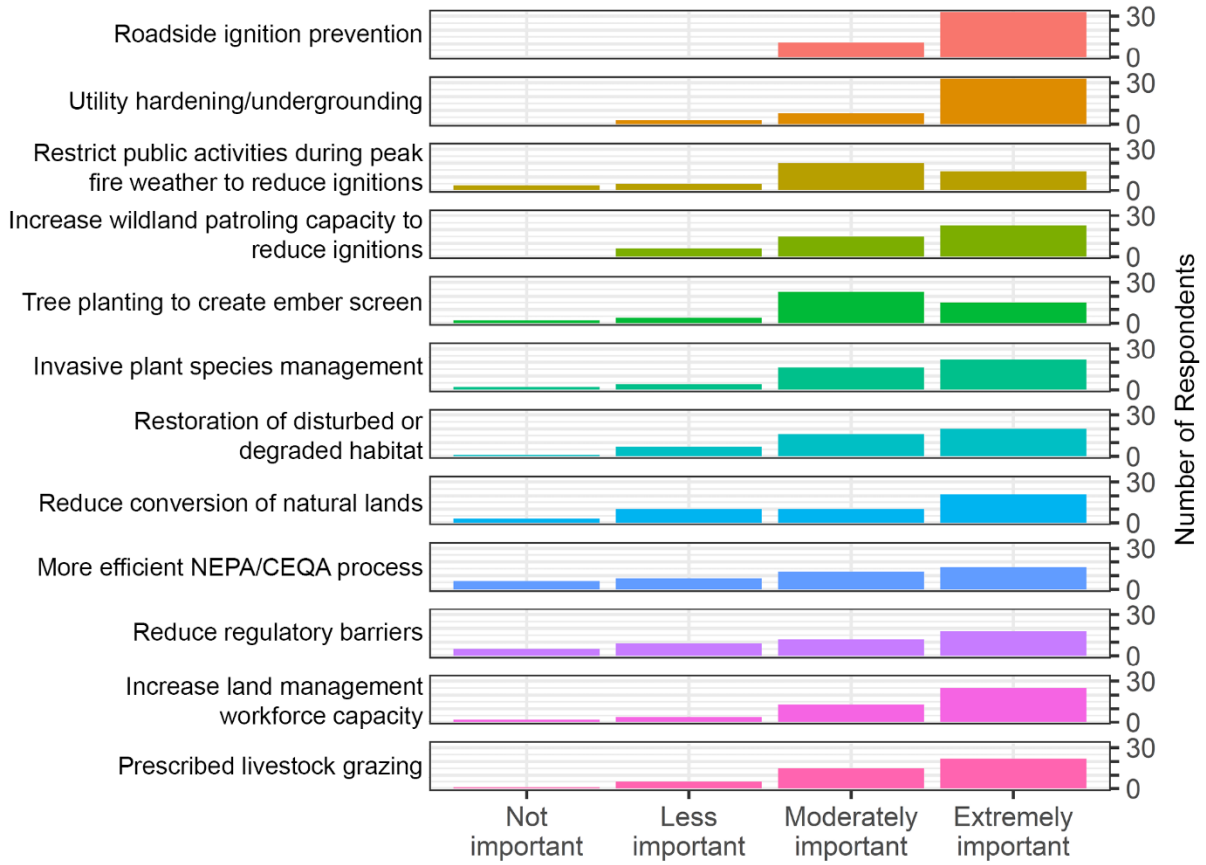

### Stakeholder Input on Priority Areas of Investment

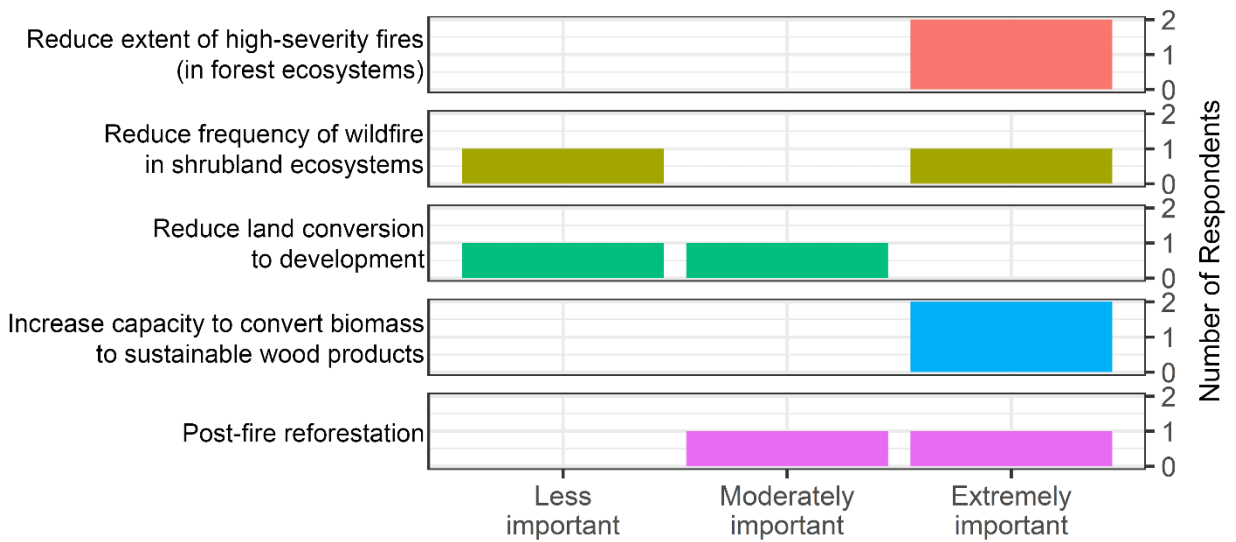

### Importance of investments for healthy and resilient forests

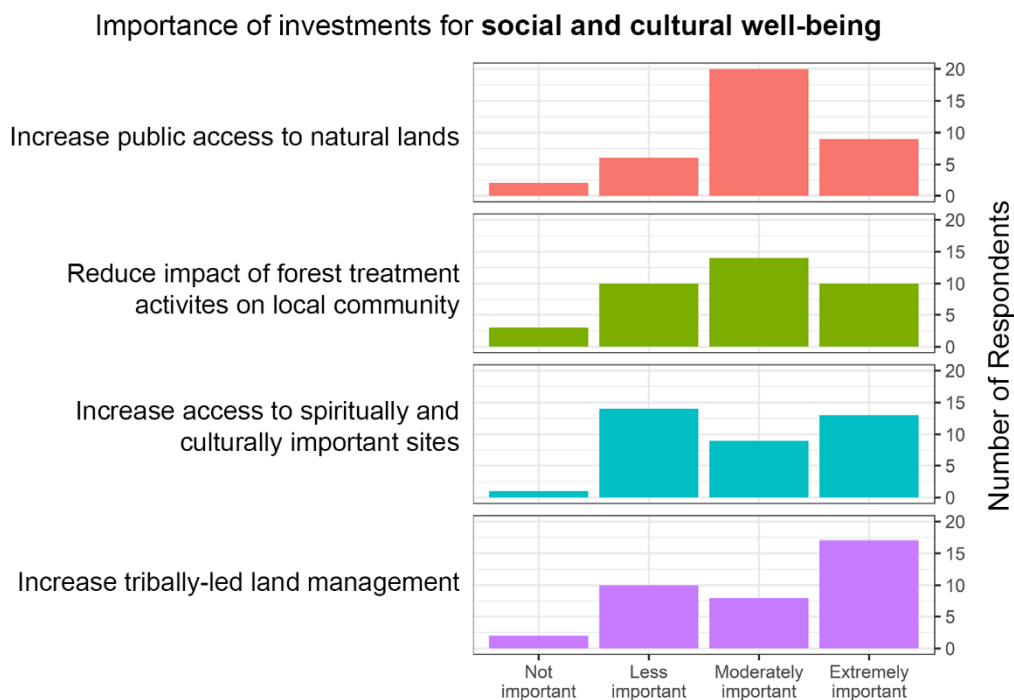

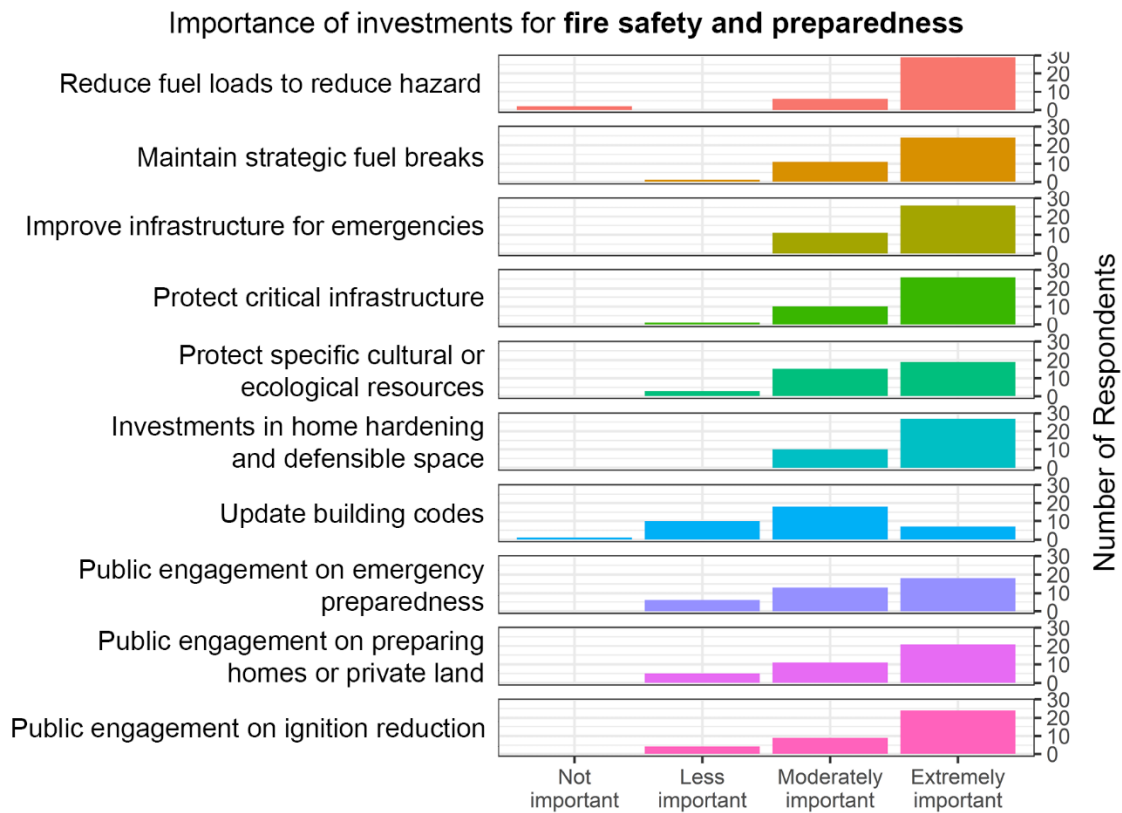

### Importance of investments for **healthy and resilient shrublands**

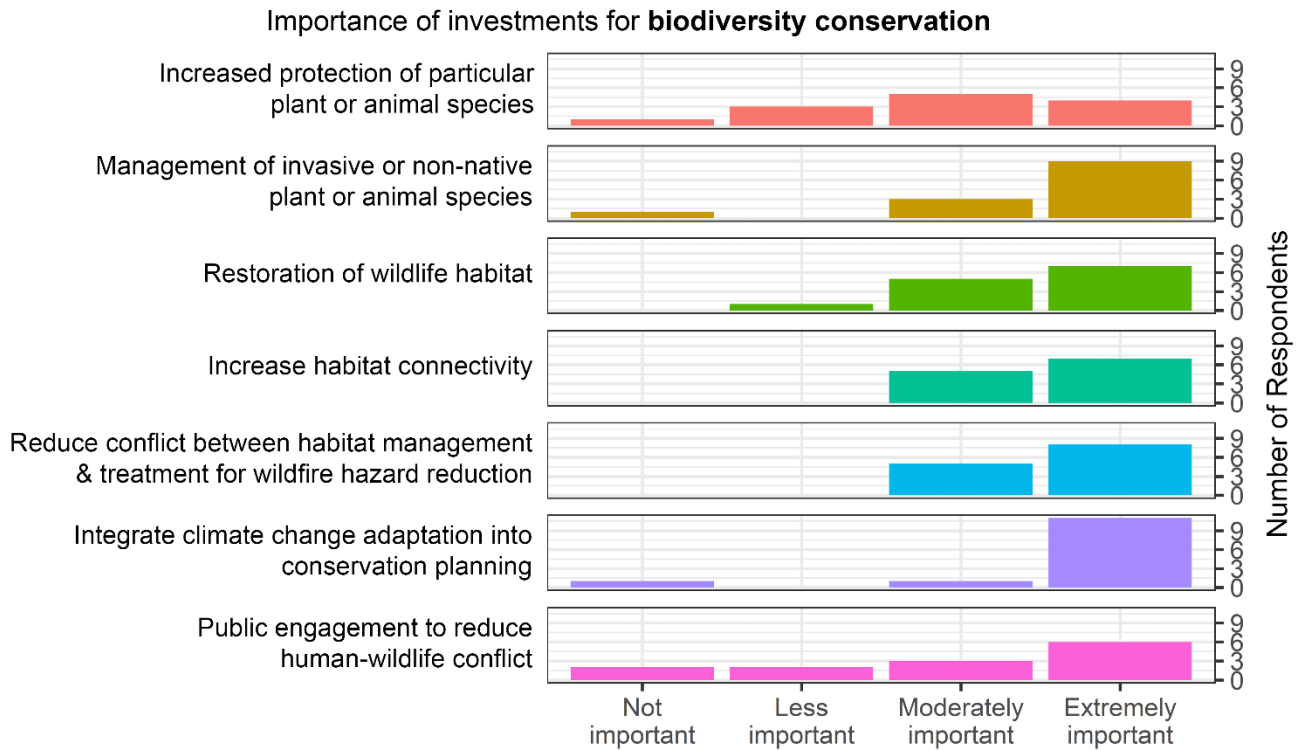

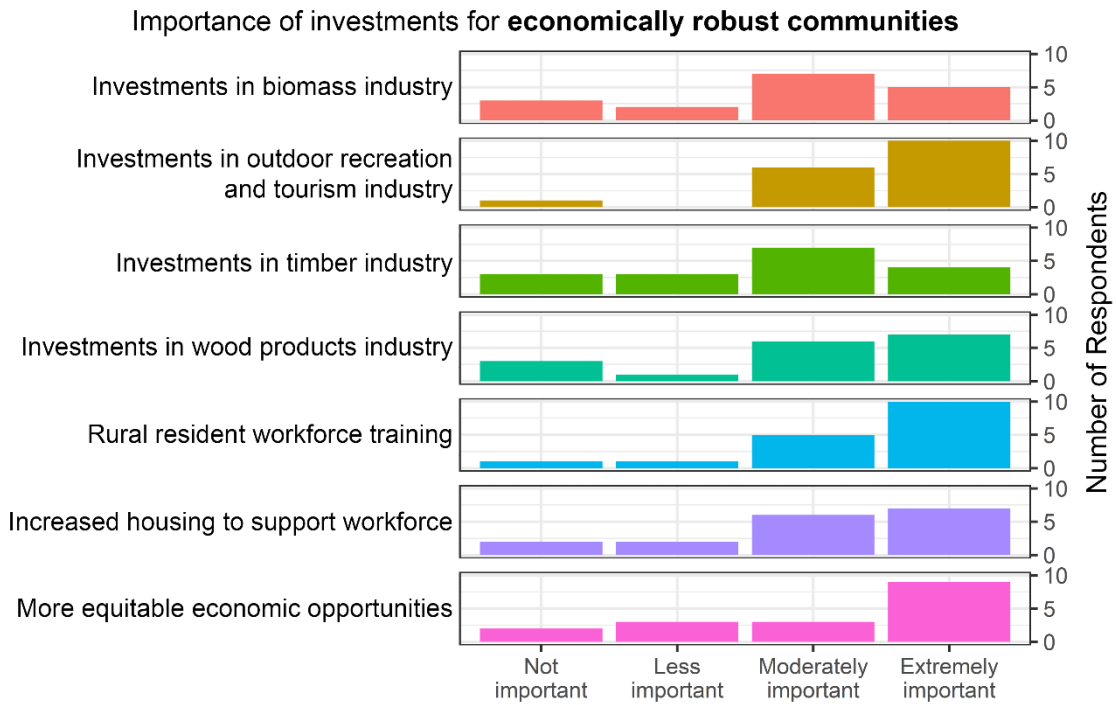

### Importance of investments for **carbon storage**

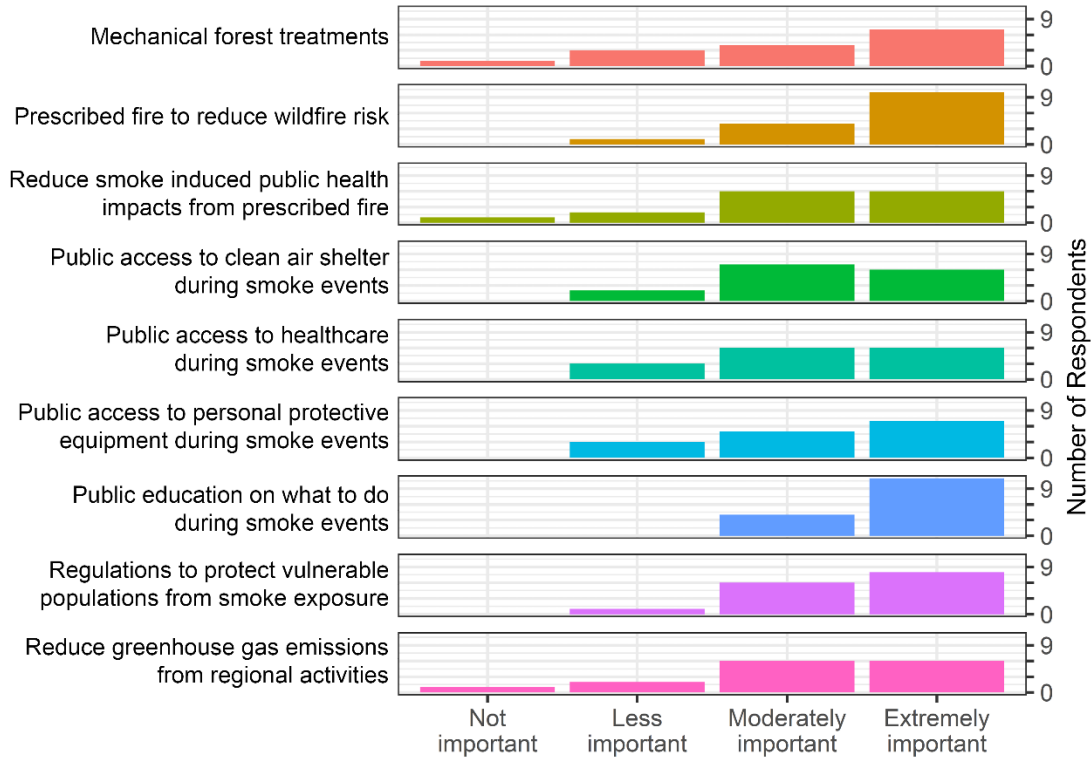

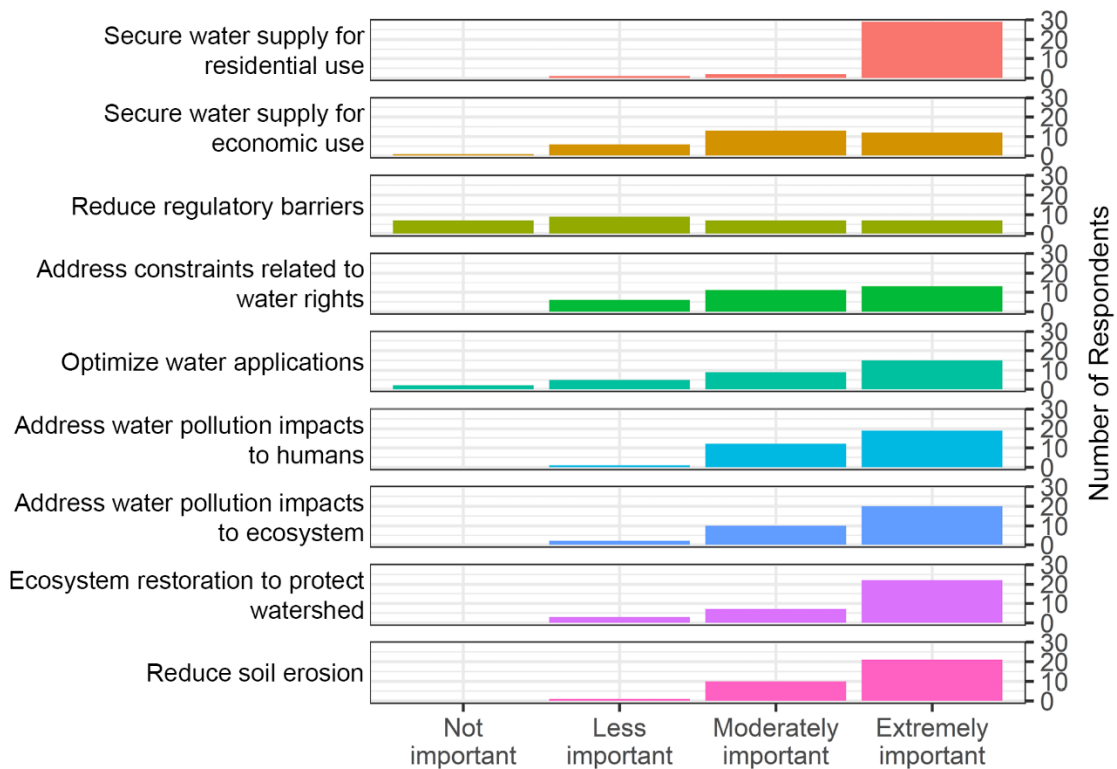

### Importance of investments for **air quality**

### Importance of investments for **water security**

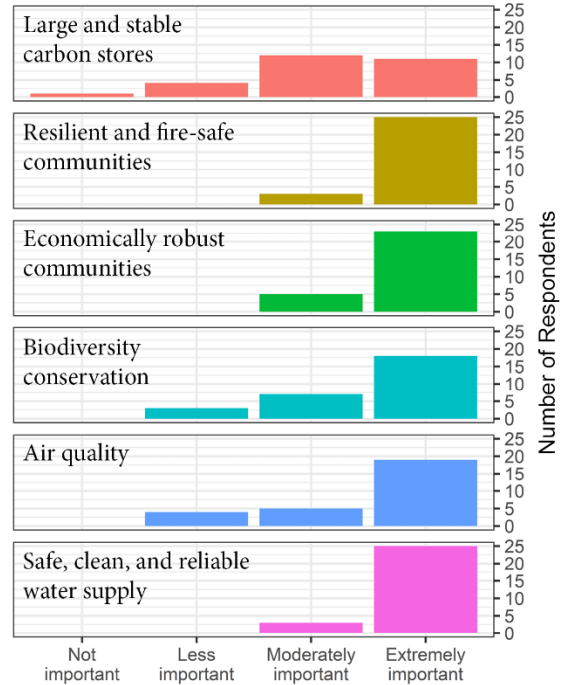

# Northern California Survey Results:

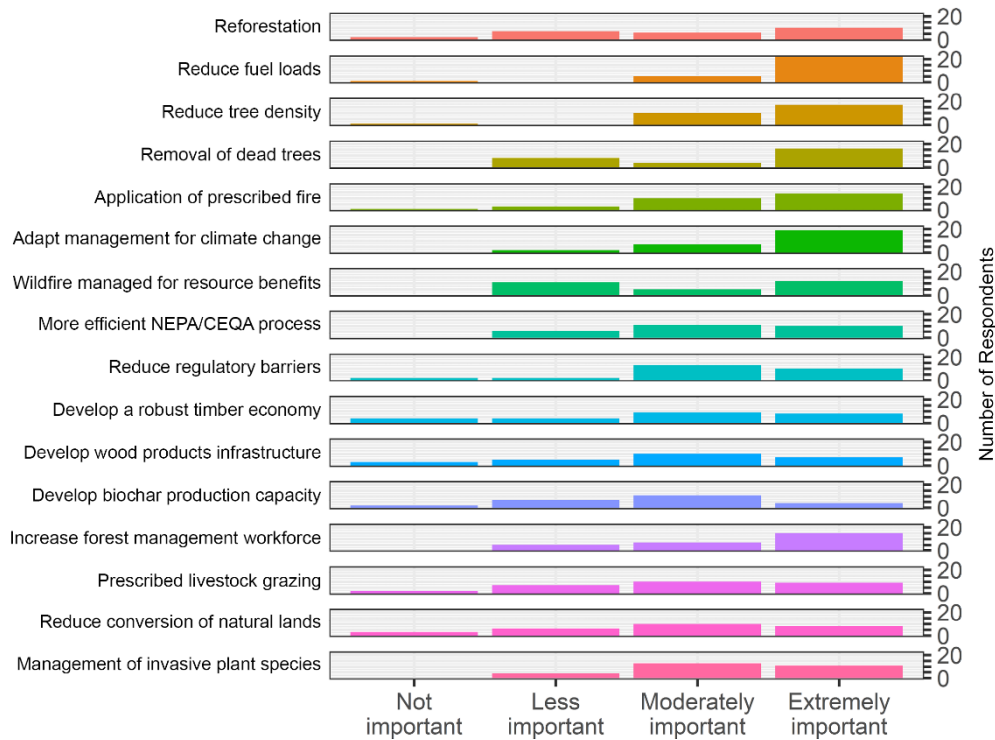

## Mendocino County

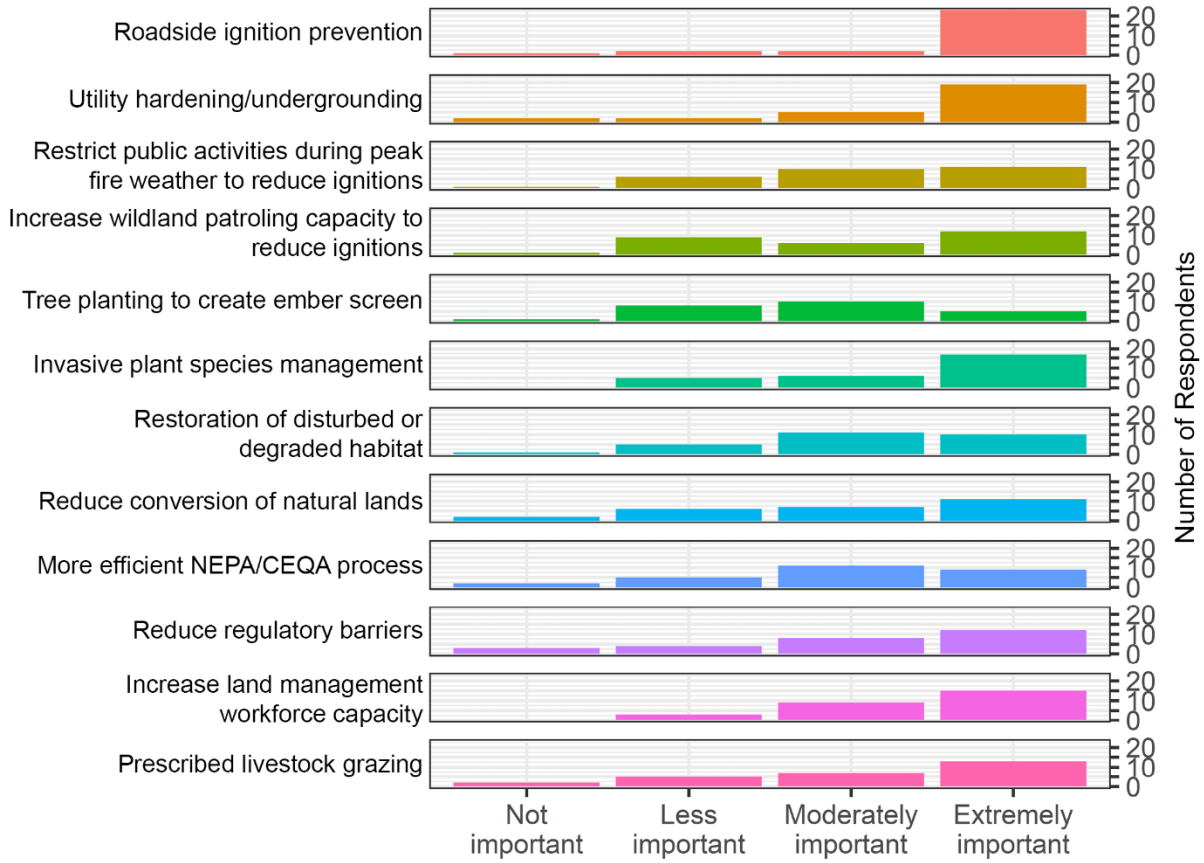

Stakeholder Input on Priority Areas of Investment

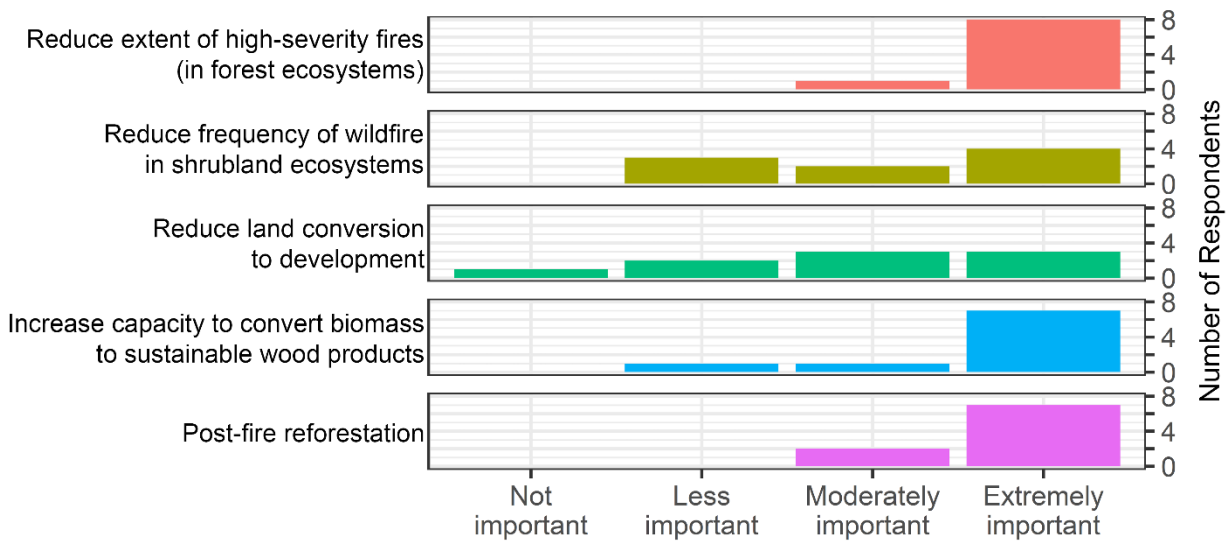

Importance of investments for healthy and resilient forests

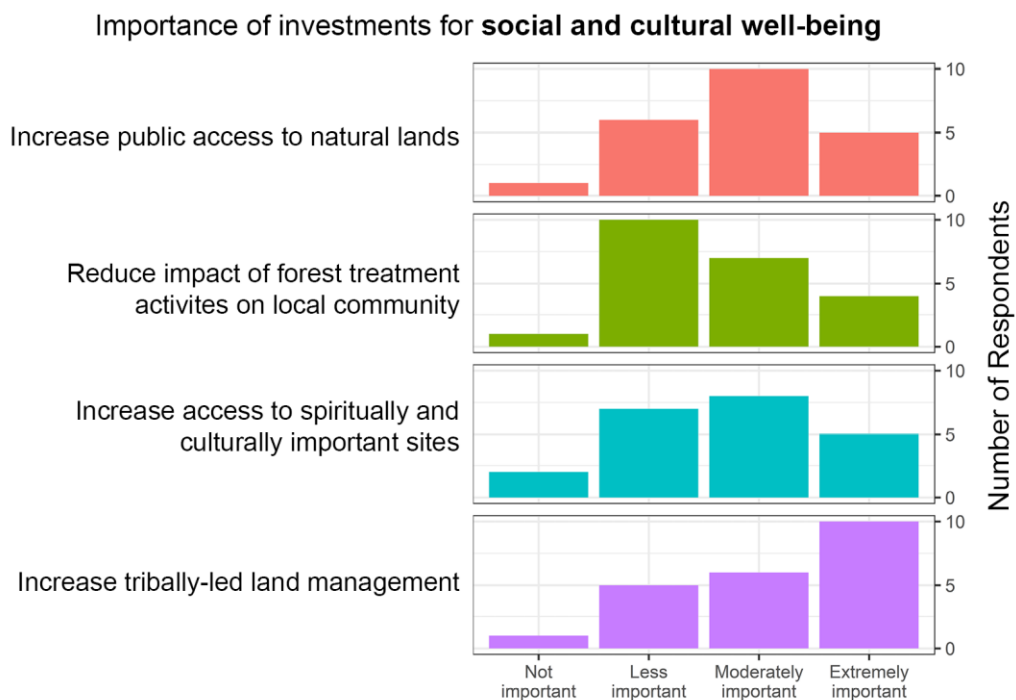

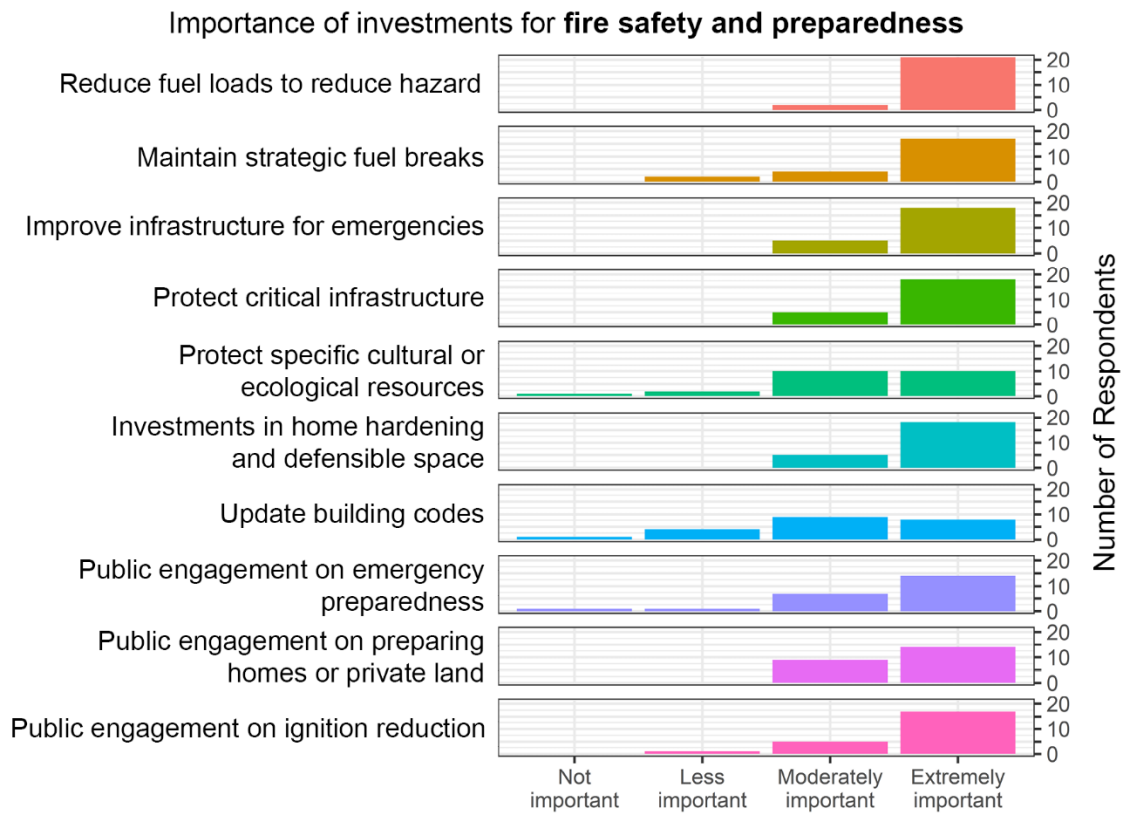

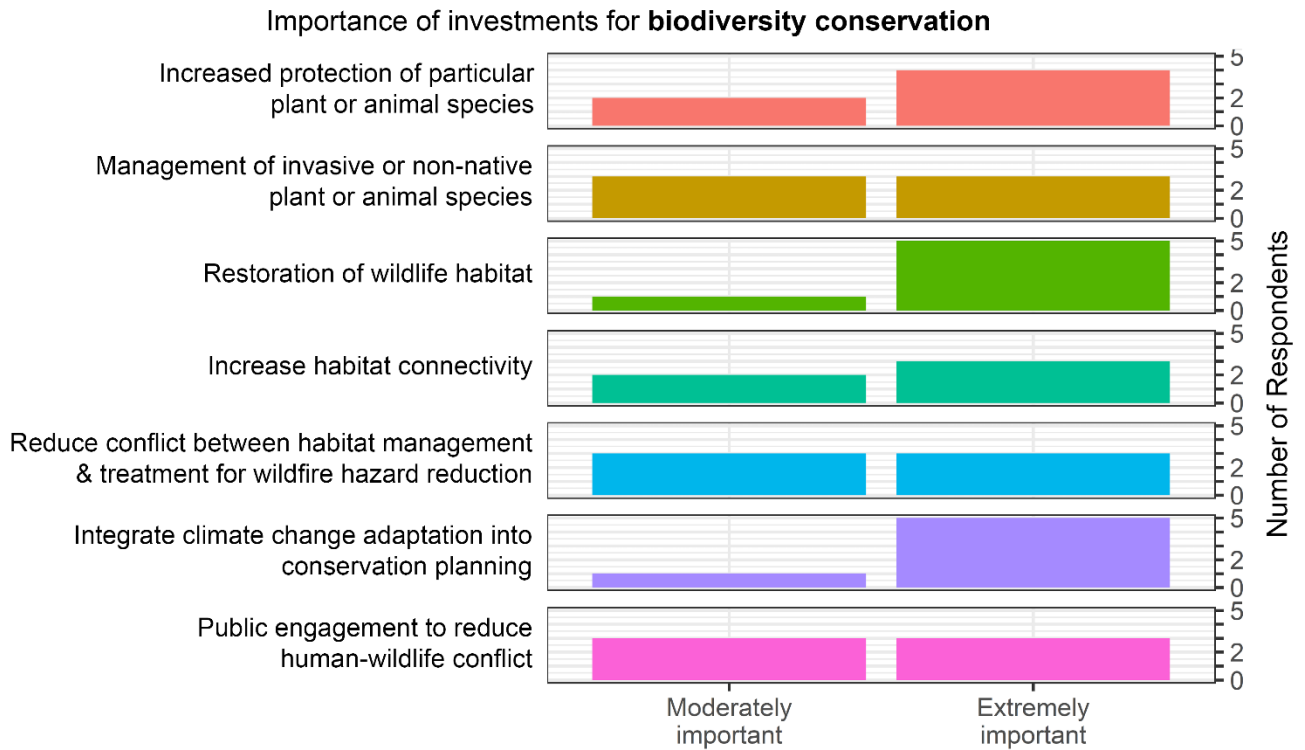

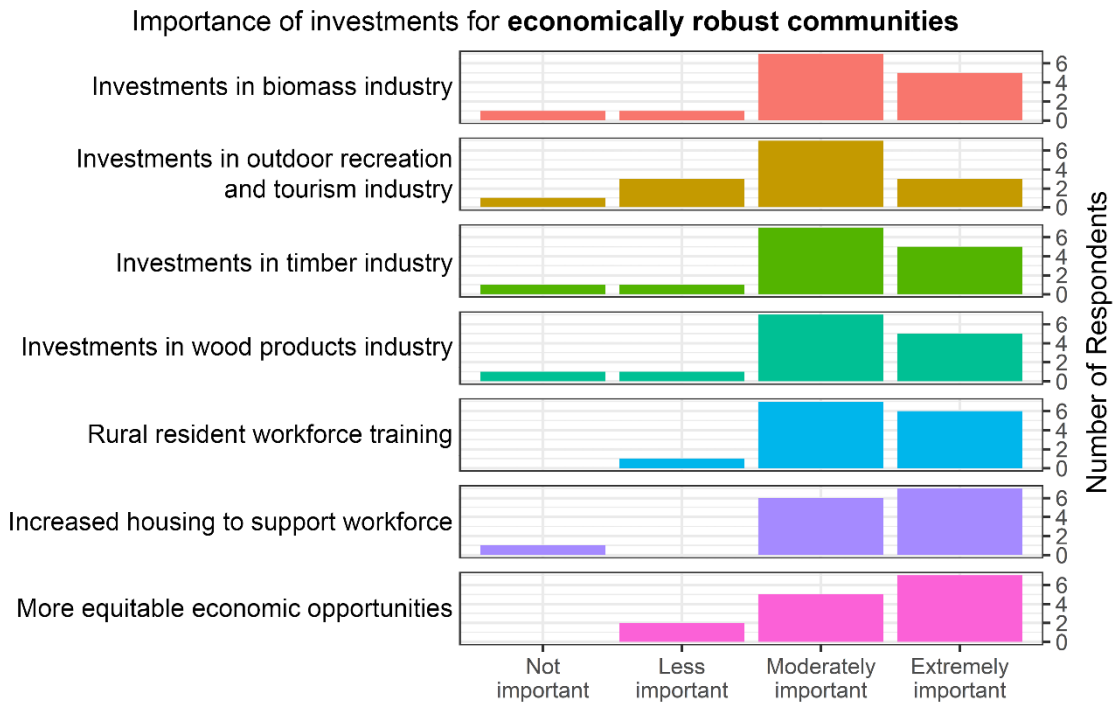

### Importance of investments for **healthy and resilient shrublands**

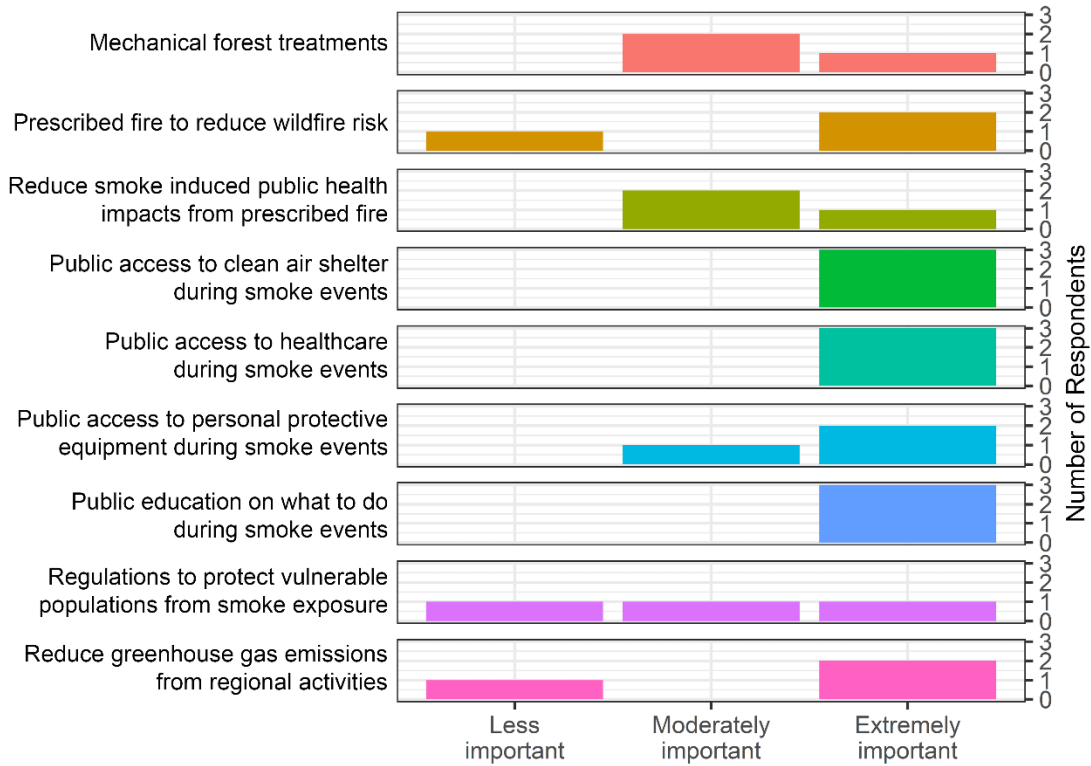

### Importance of investments for **carbon storage**

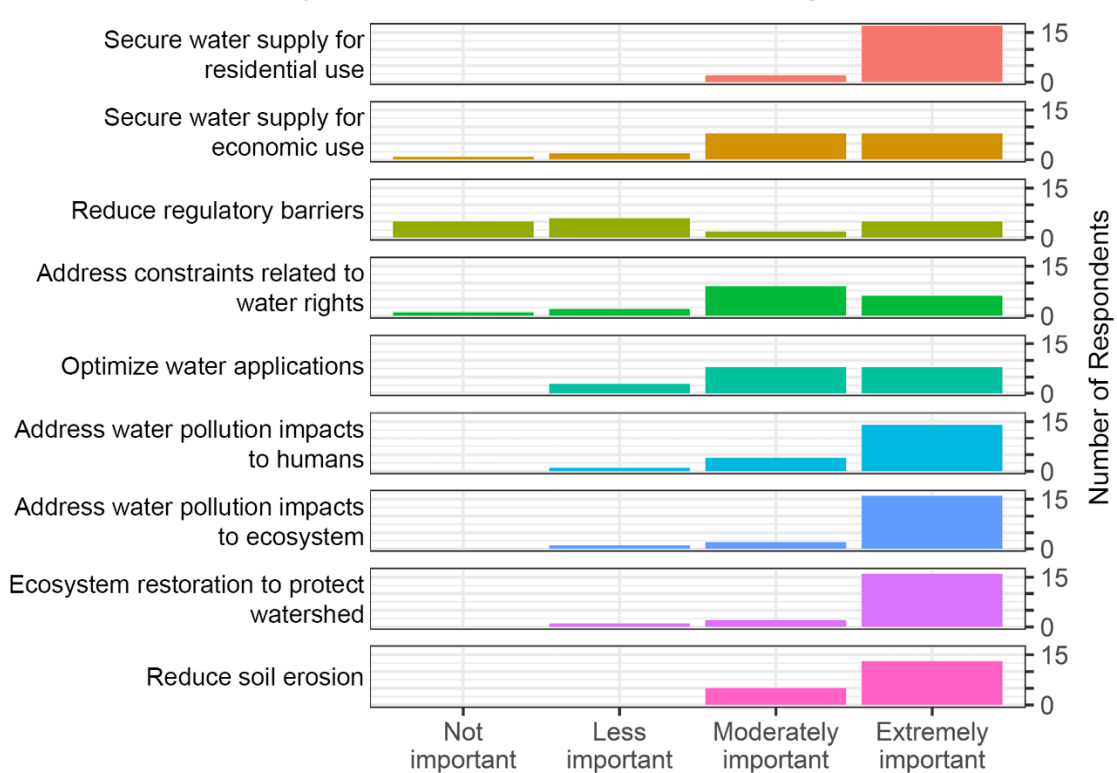

### Importance of investments for **air quality**

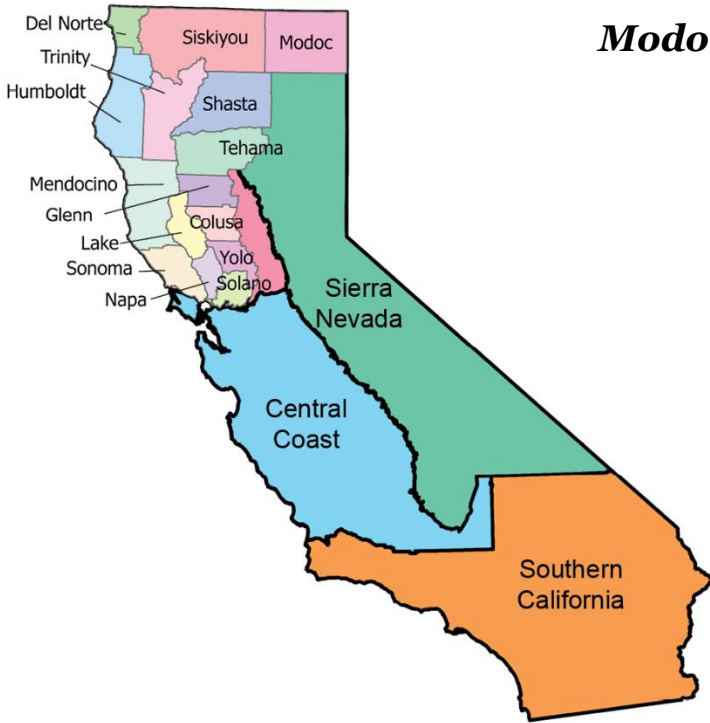

### Importance of investments for **water security**

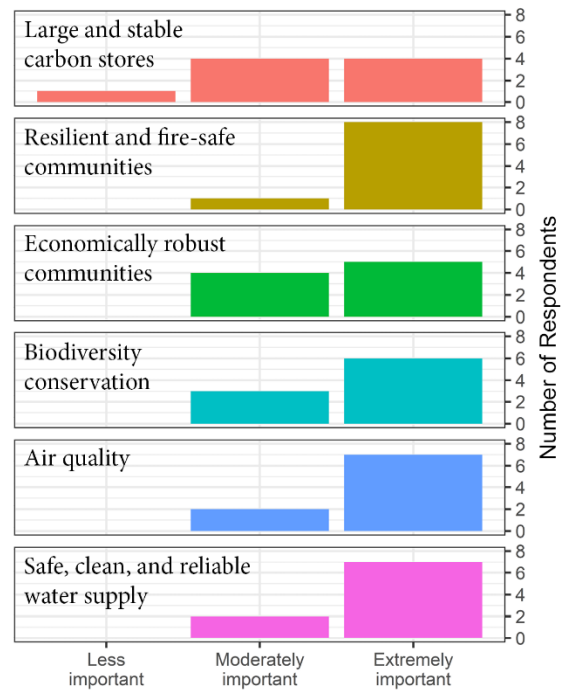

# Northern California Survey Results:

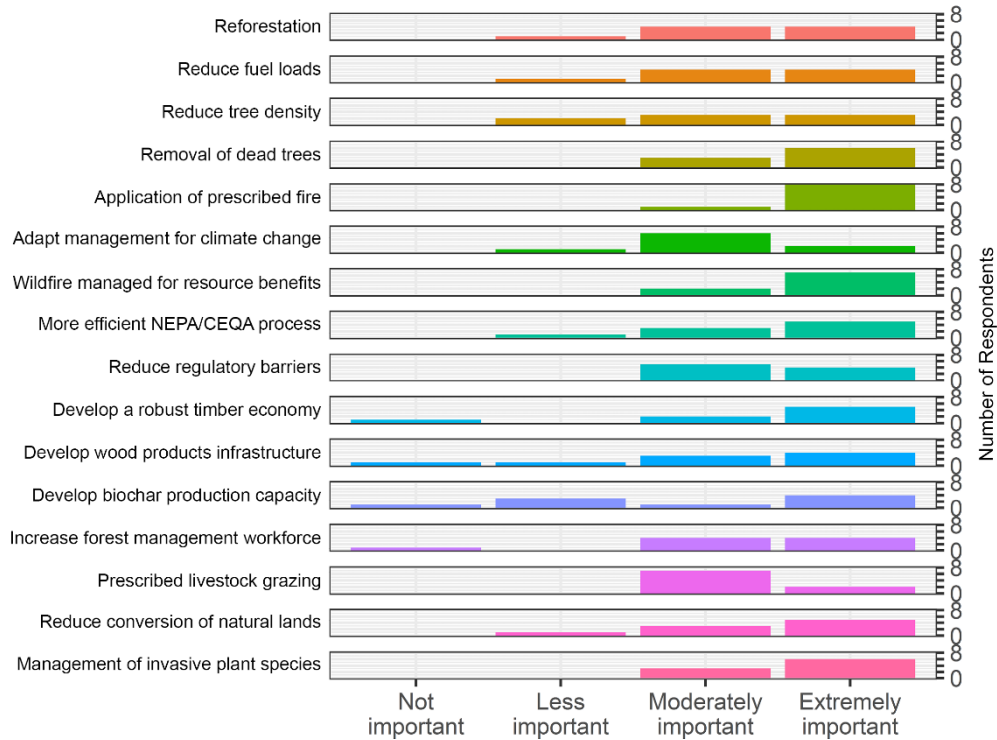

## Modoc County

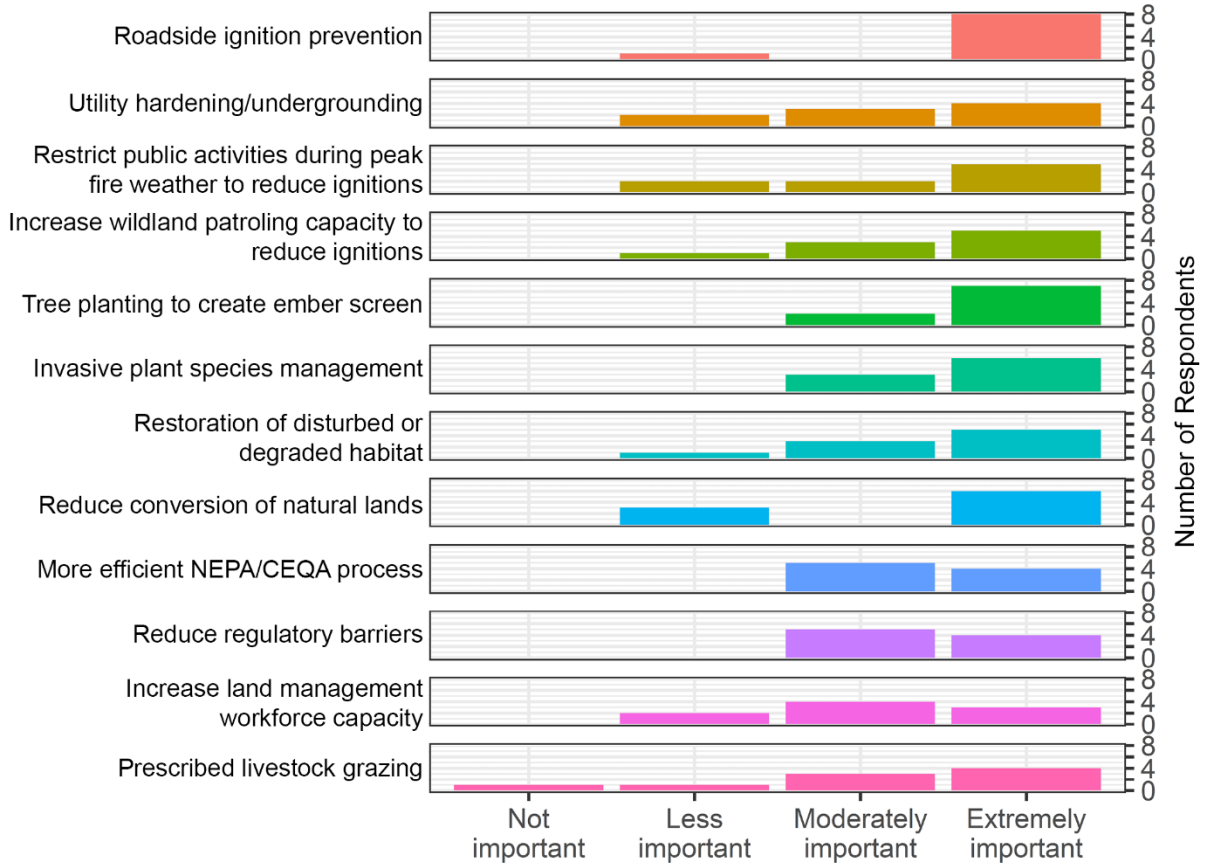

Stakeholder Input on Priority Areas of Investment

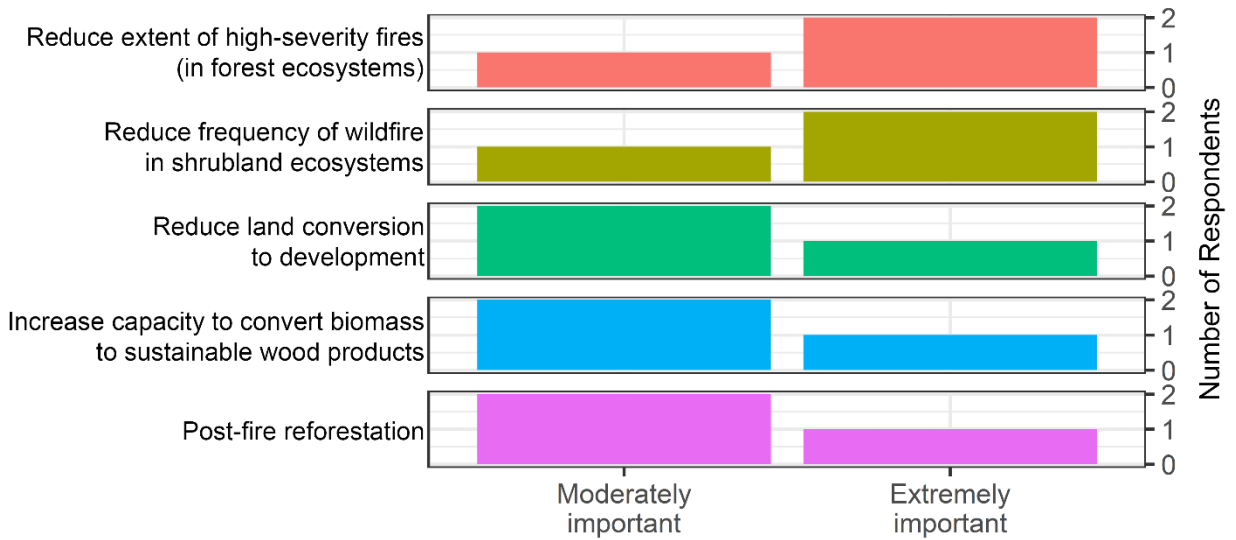

Importance of investments for healthy and resilient forests

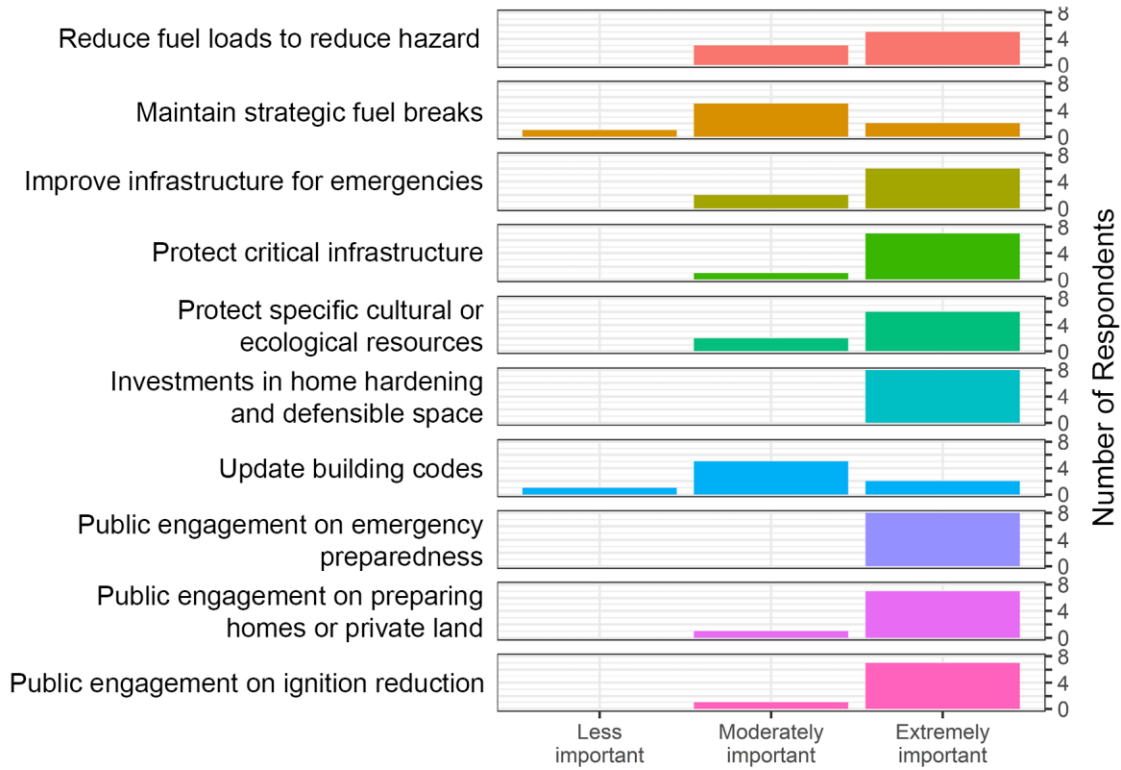

### Importance of investments for **healthy and resilient shrublands**

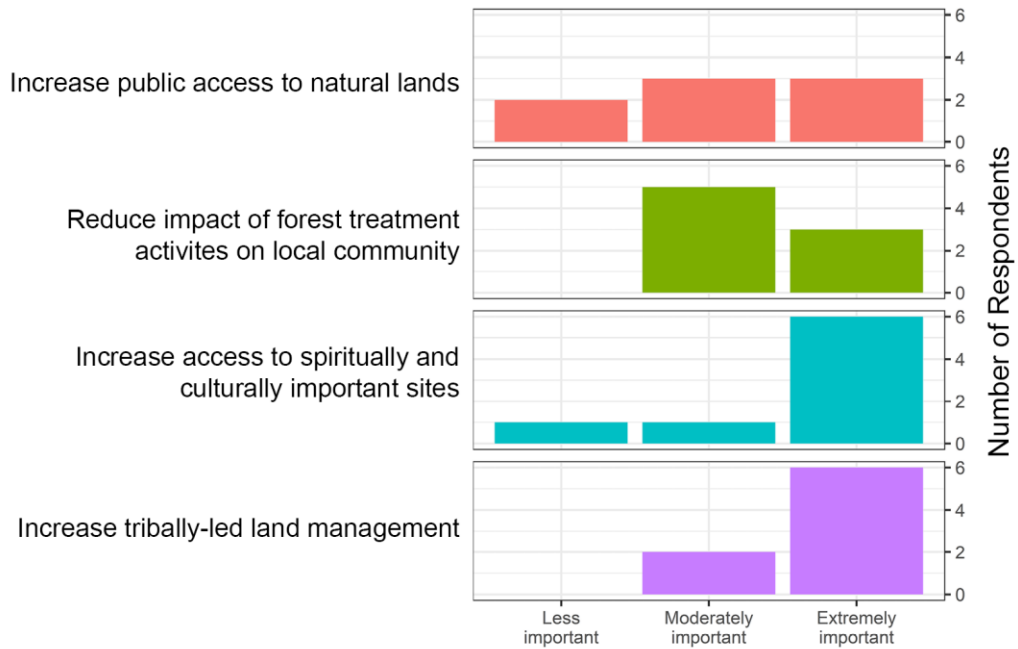

### Importance of investments for **carbon storage**

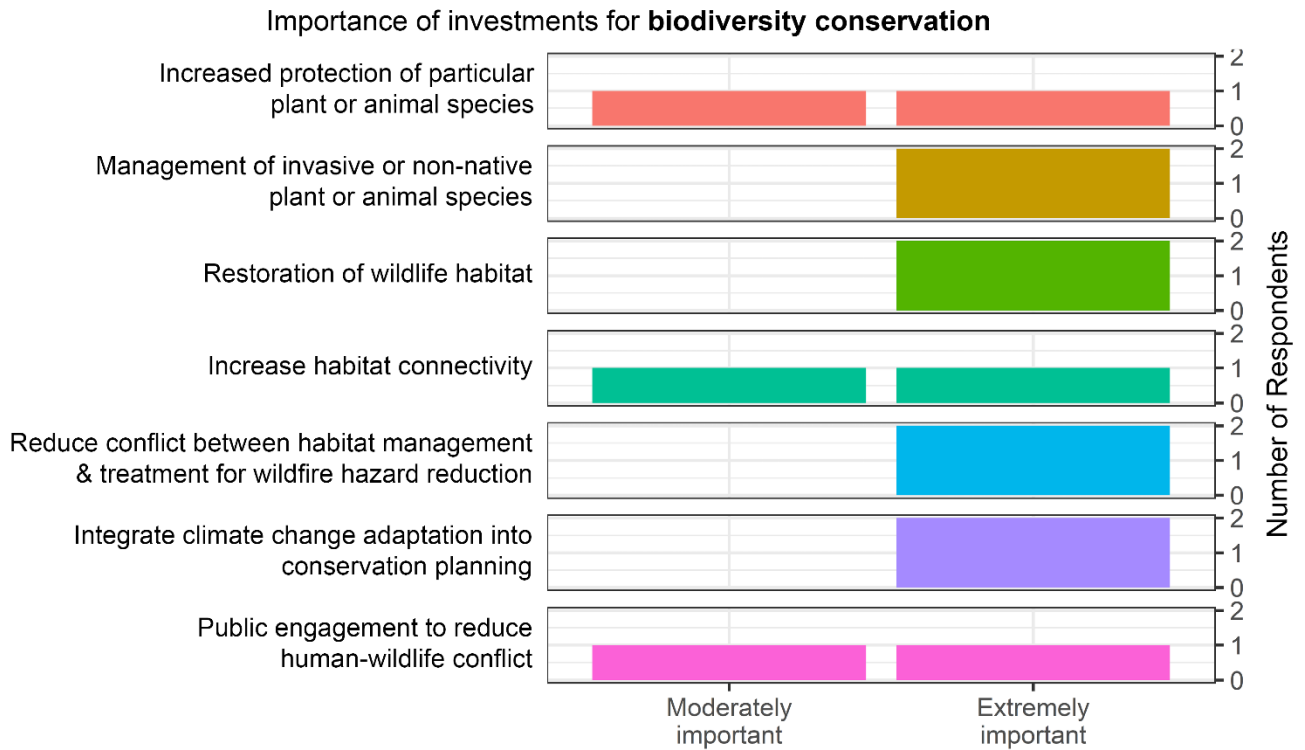

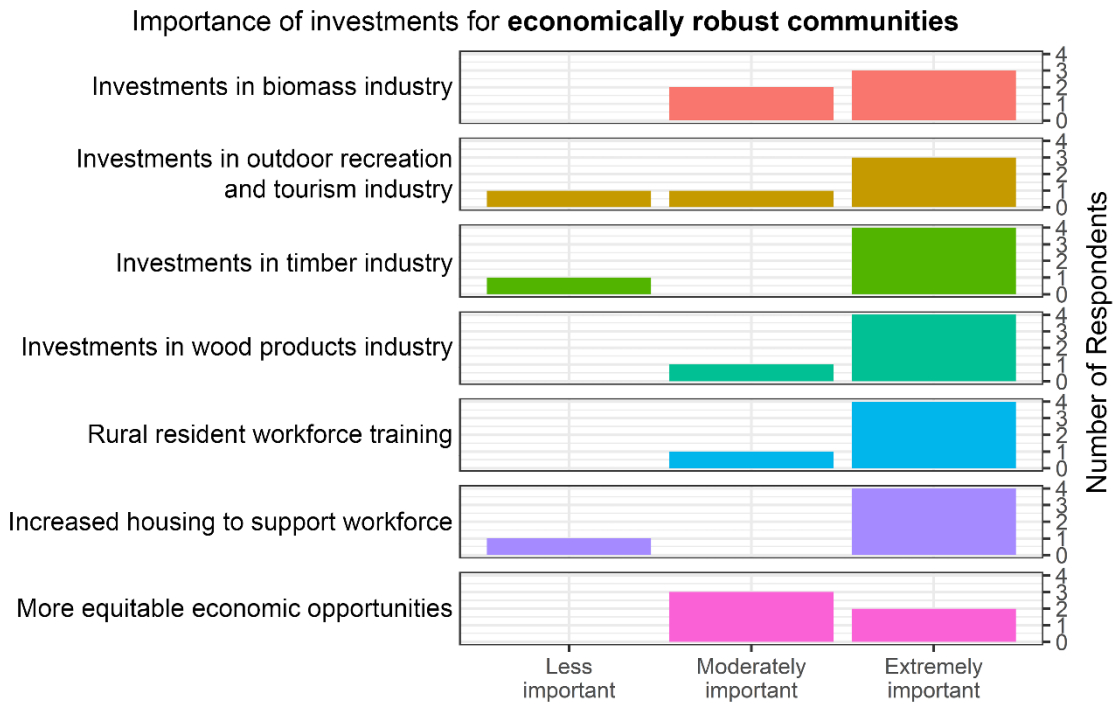

**Importance of investments for fire safety and preparedness**

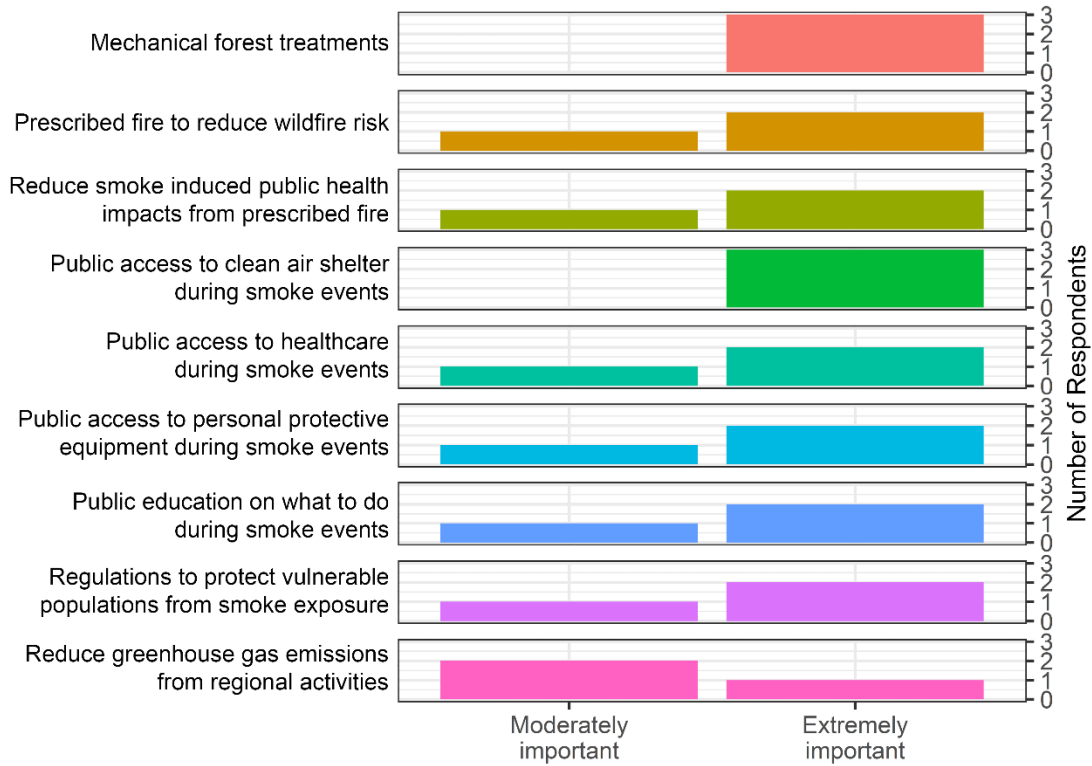

**Importance of investments for social and cultural well-being**

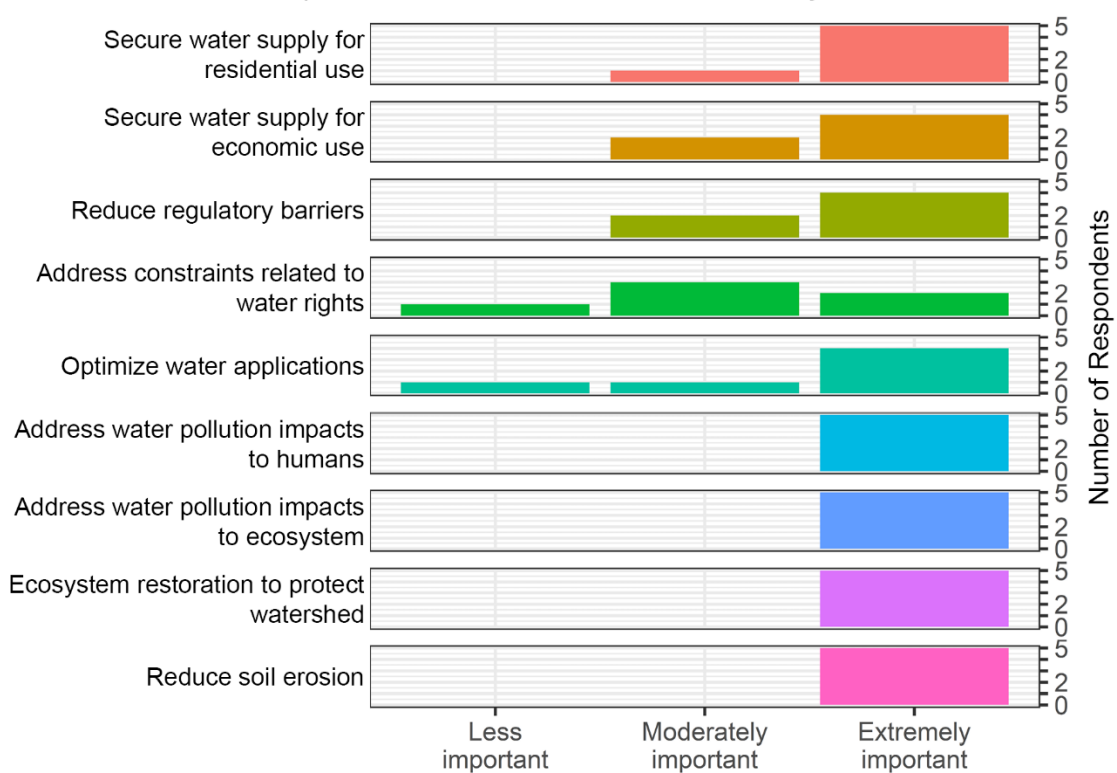

### Importance of investments for **air quality**

### Importance of investments for **water security**

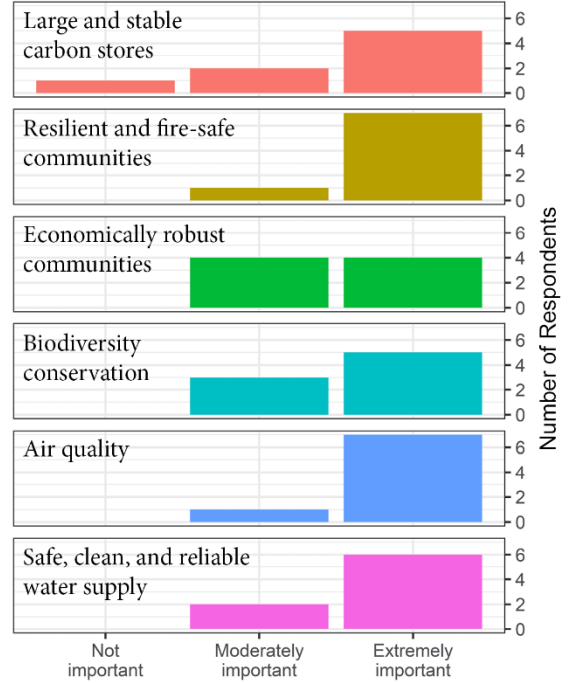

# Northern California Survey Results:

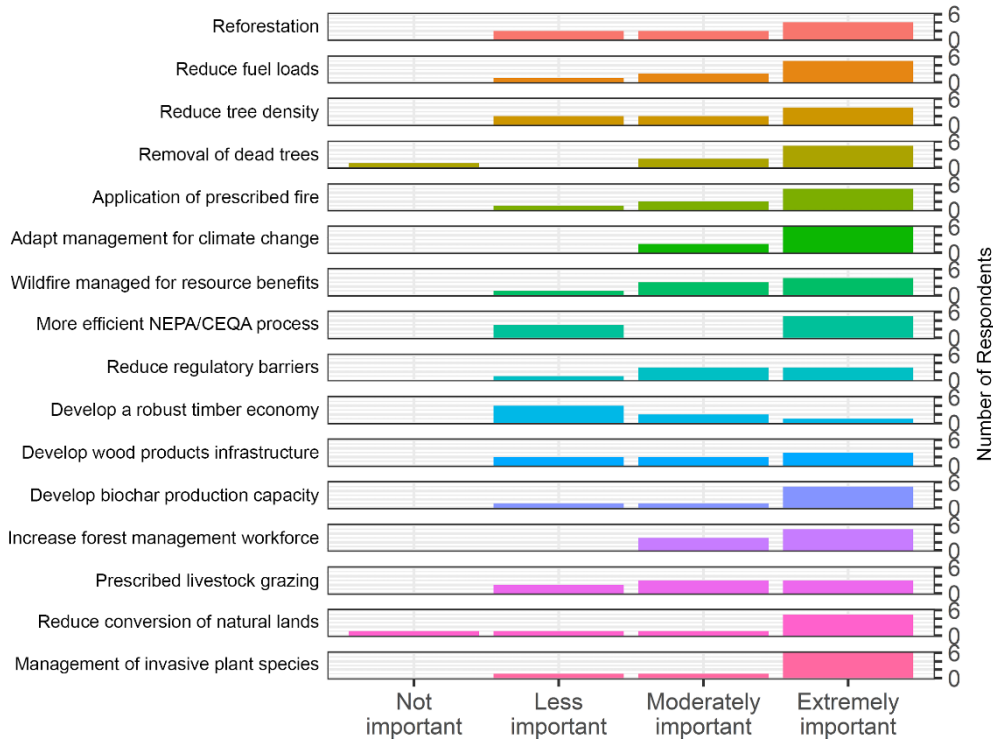

## Napa County

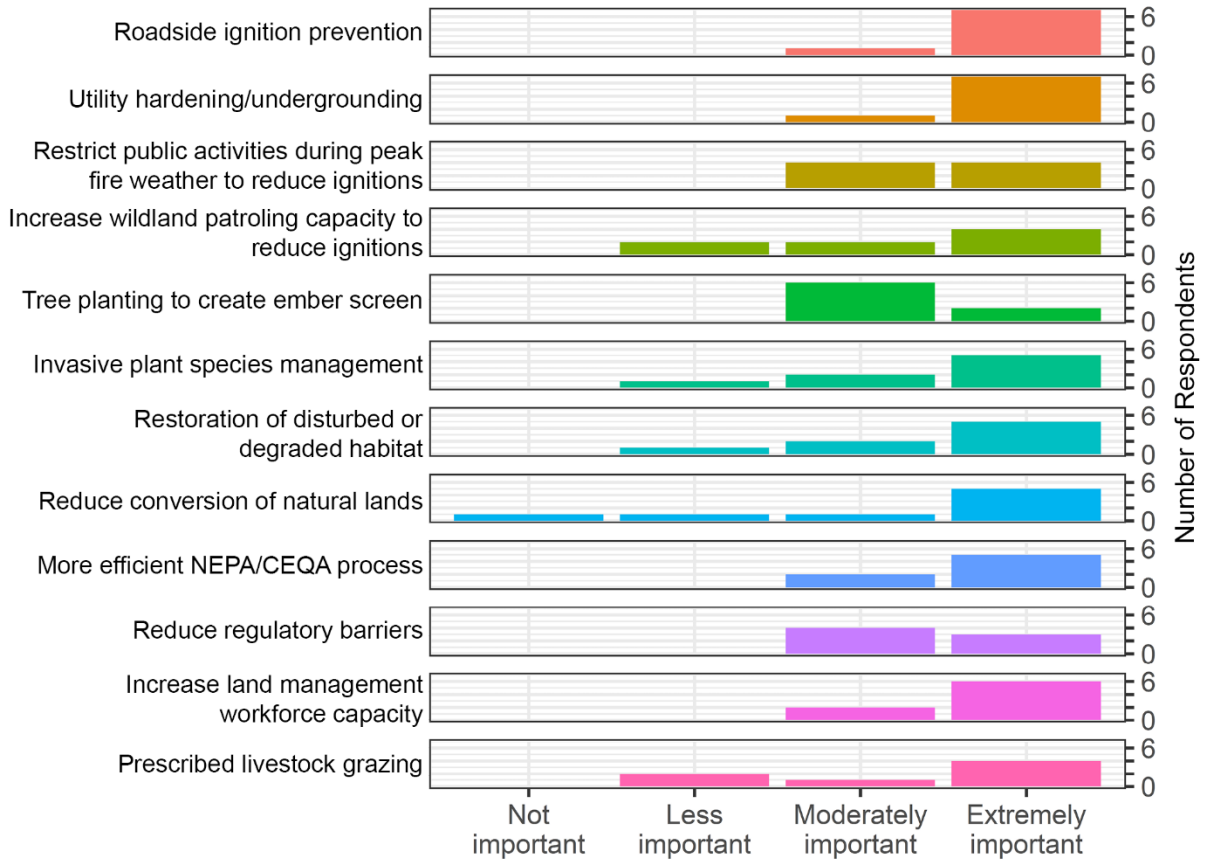

### Stakeholder Input on Priority Areas of Investment

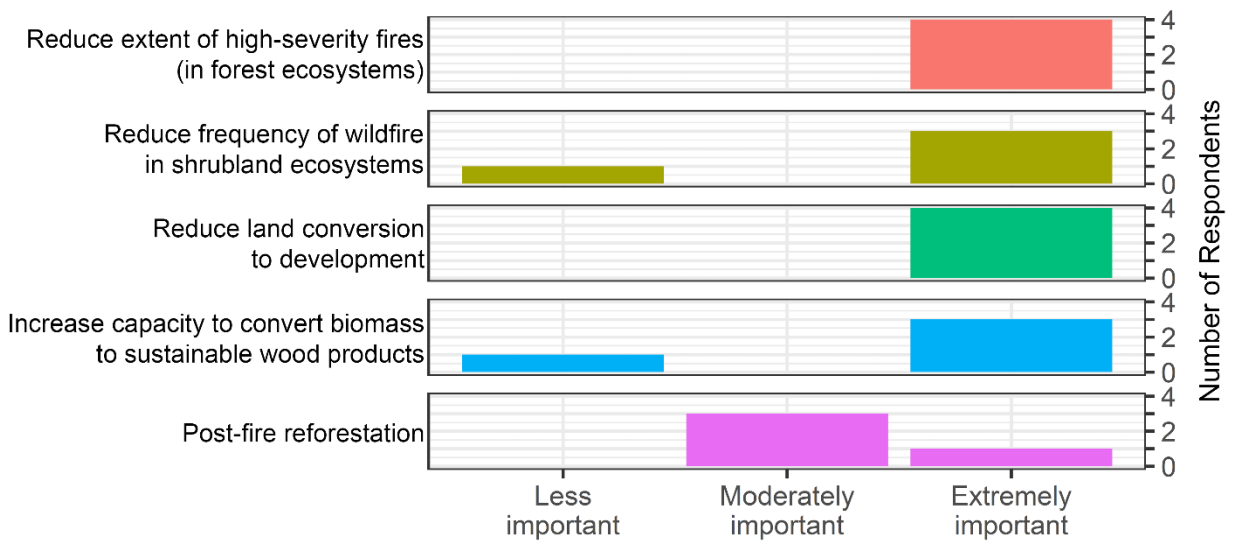

### Importance of investments for healthy and resilient forests

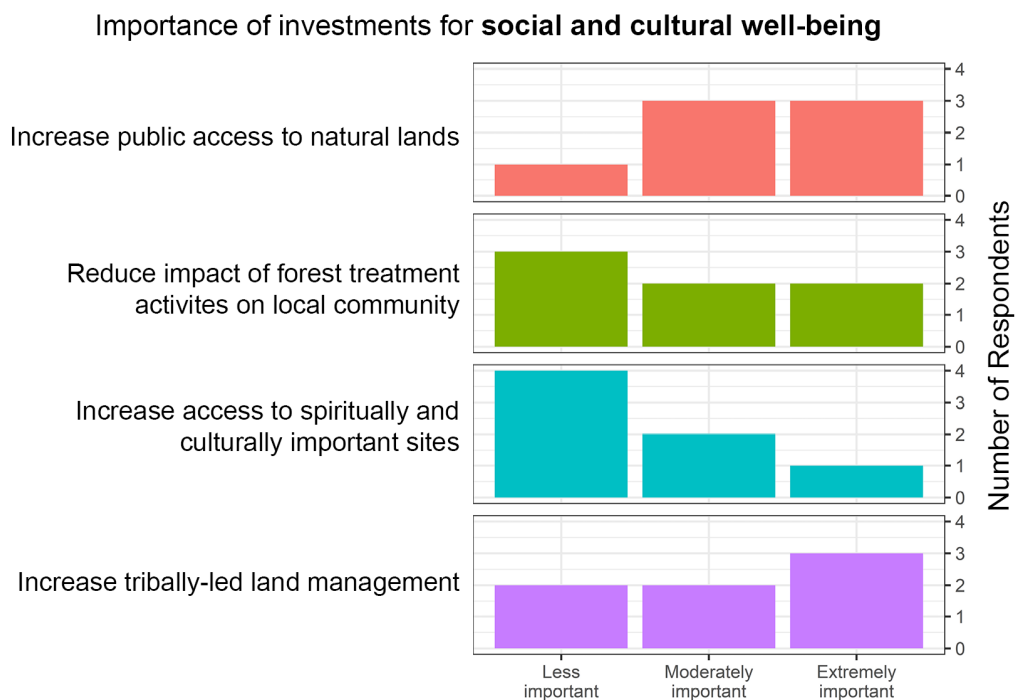

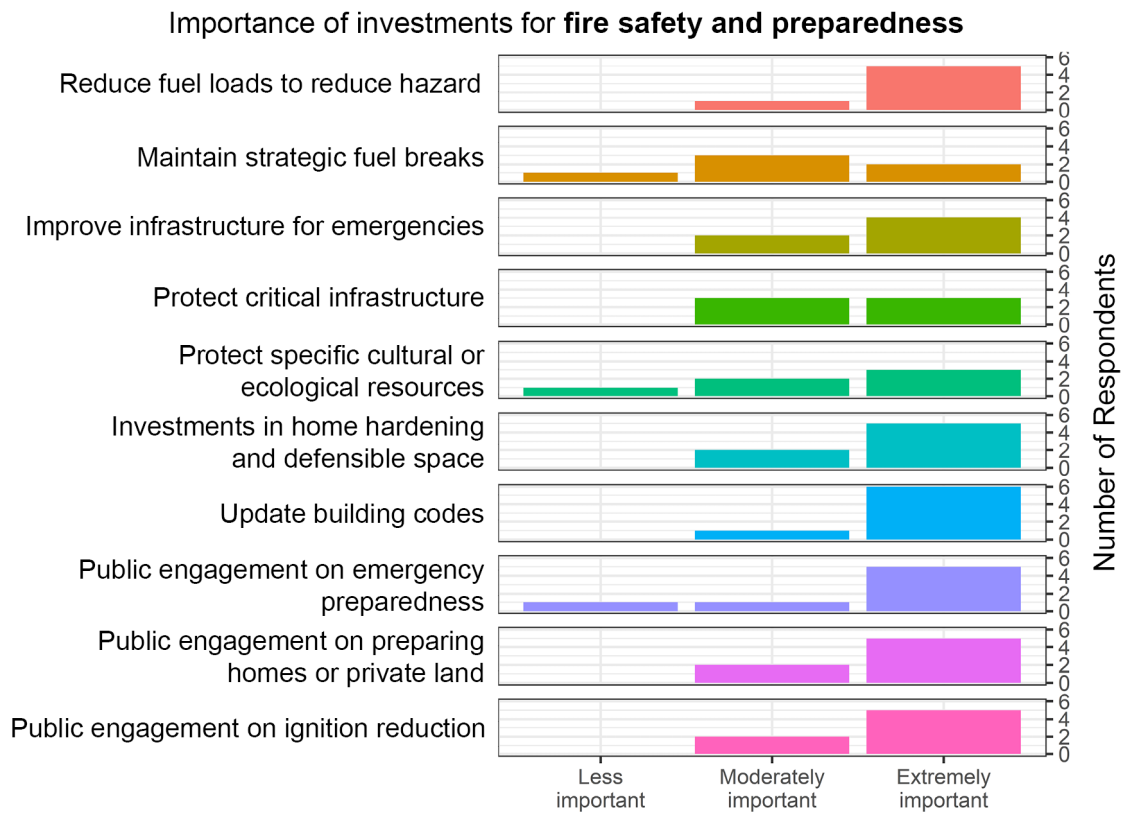

### Importance of investments for **healthy and resilient shrublands**

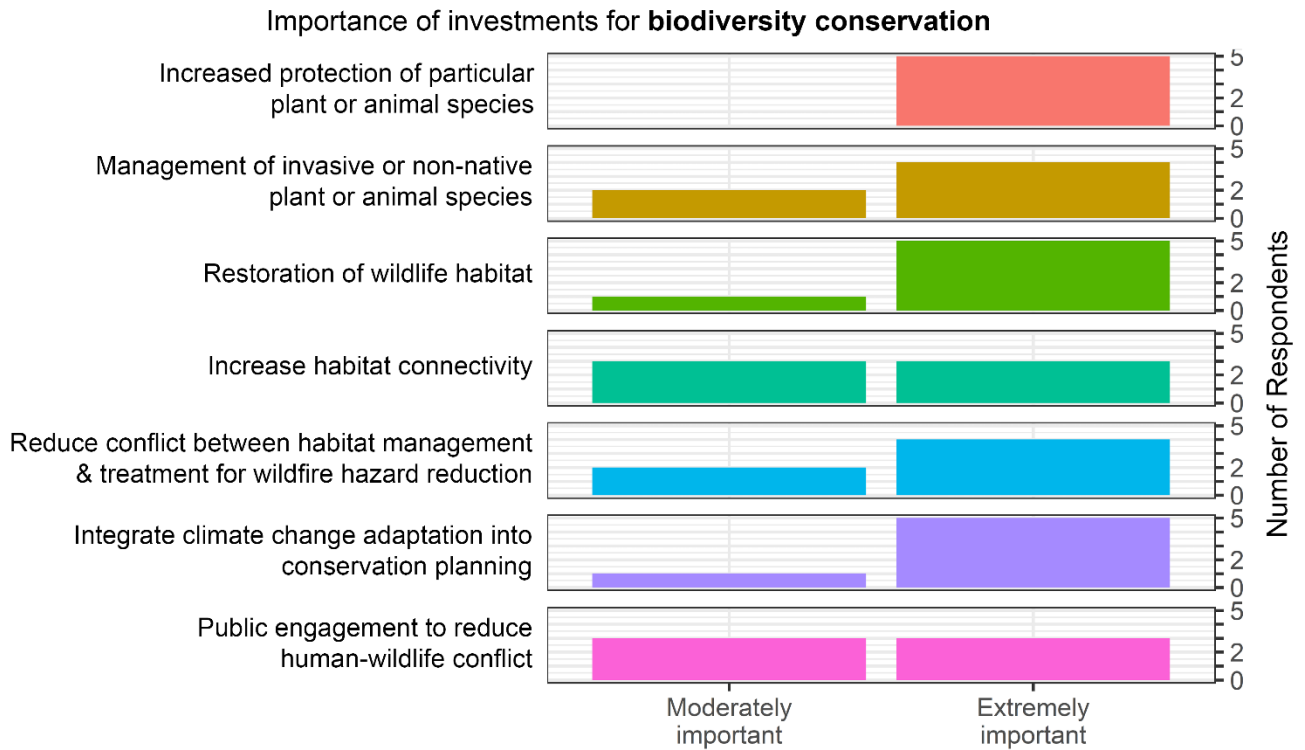

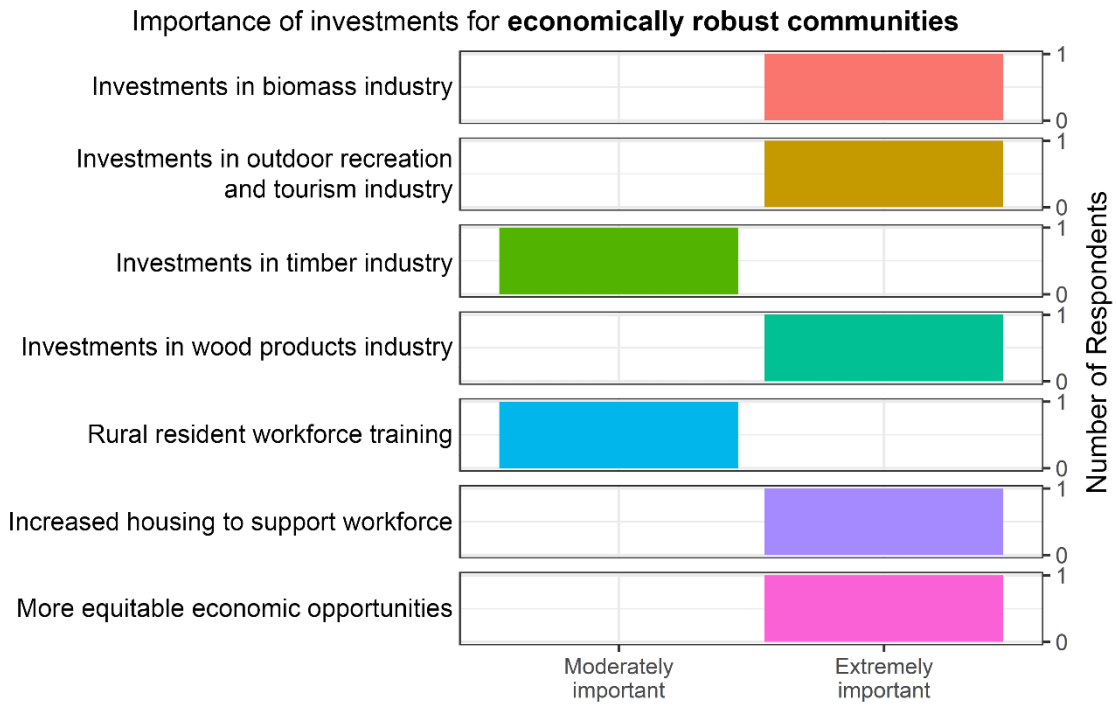

### Importance of investments for **carbon storage**

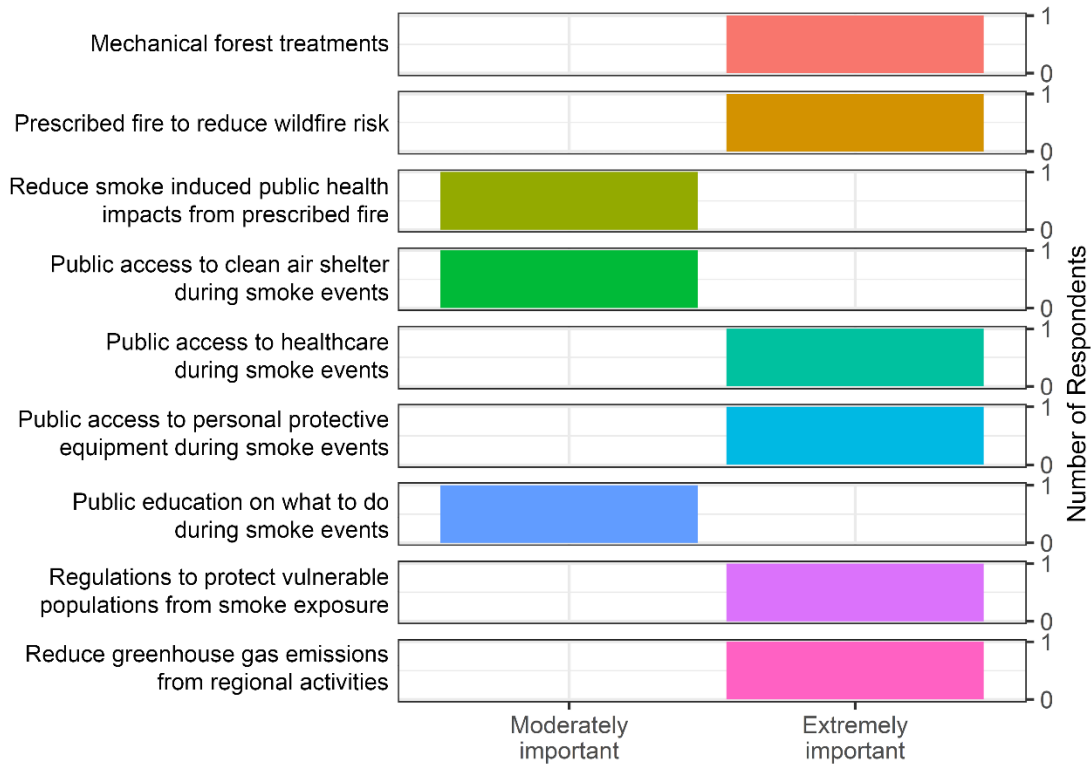

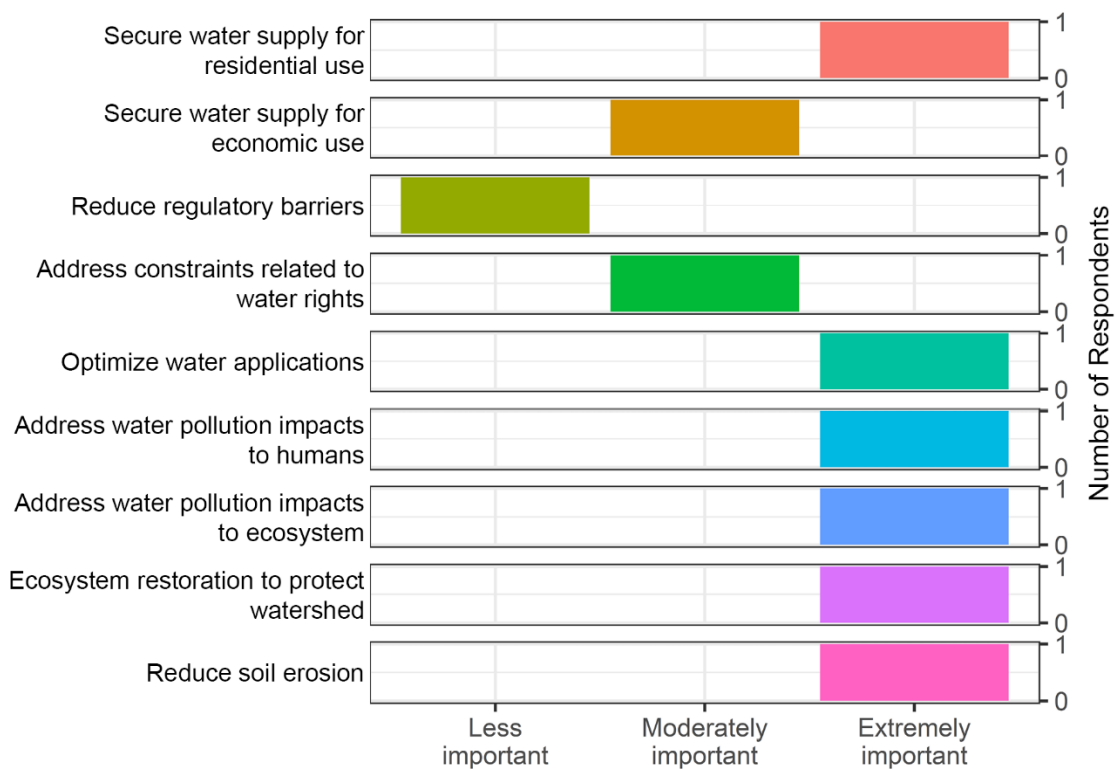

### Importance of investments for **air quality**

### Importance of investments for **water security**

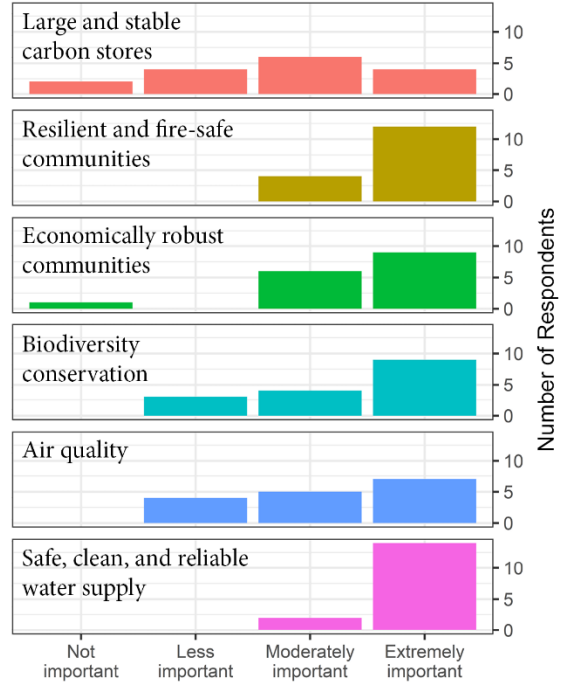

# Northern California Survey Results:

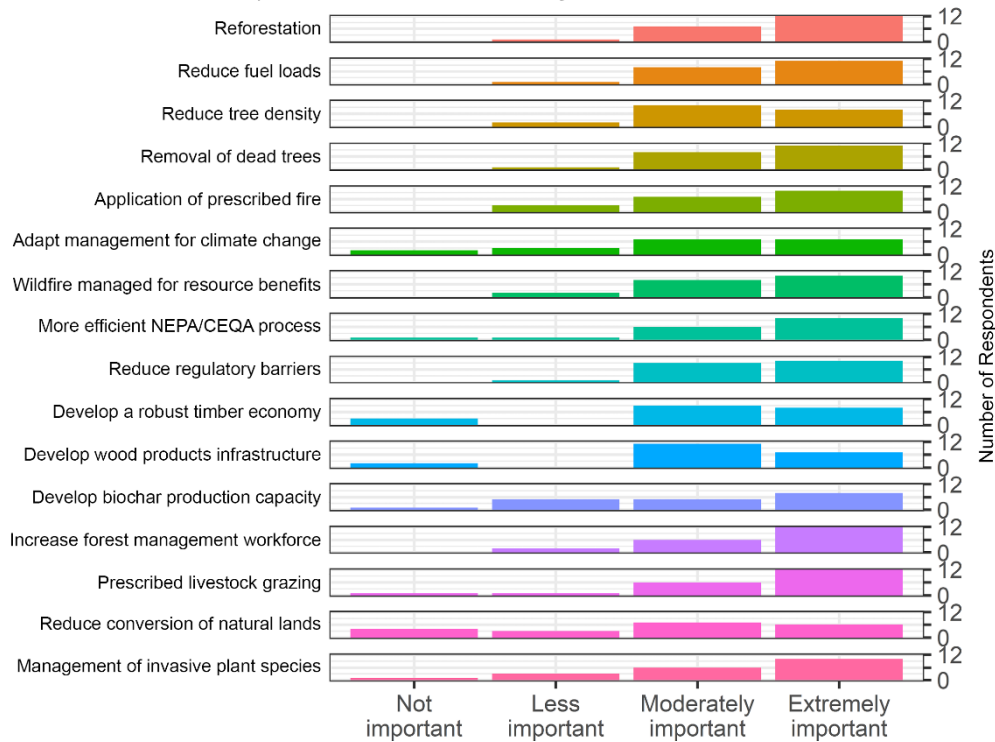

## Shasta County

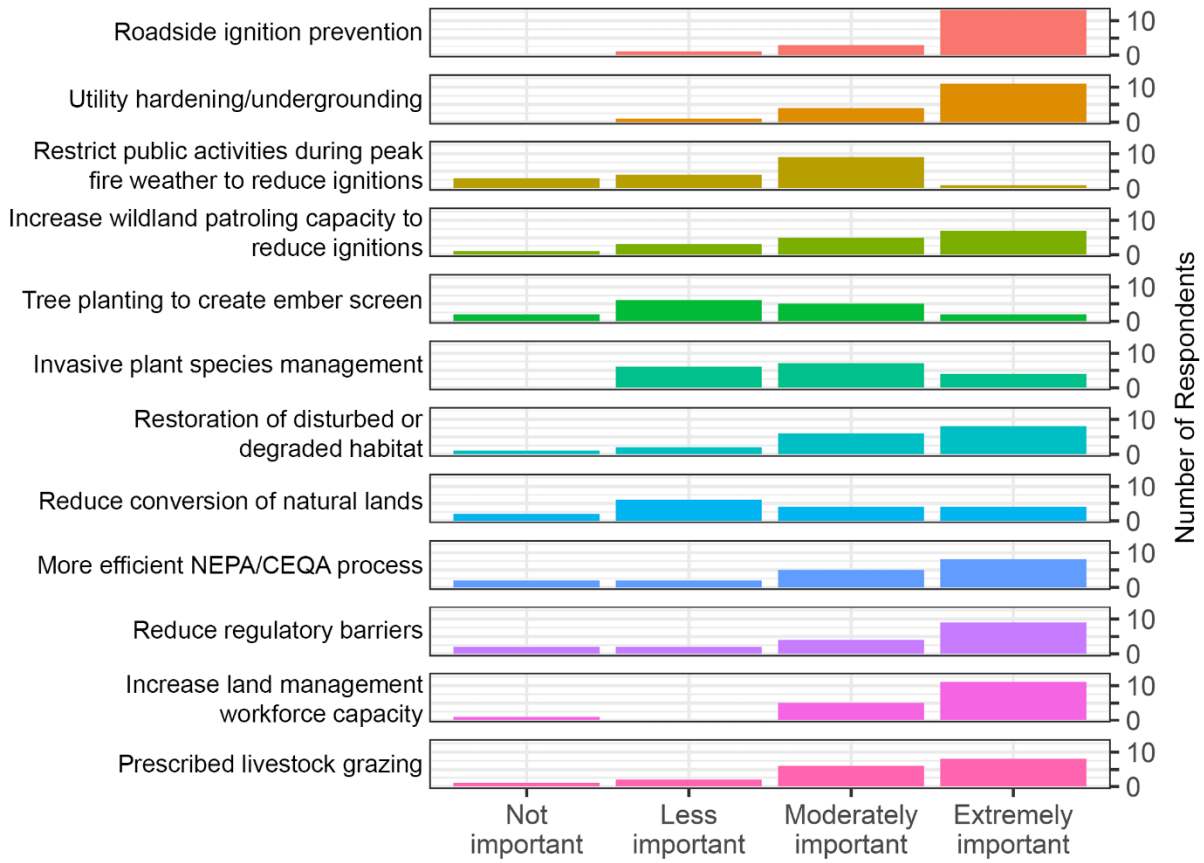

### Stakeholder Input on Priority Areas of Investment

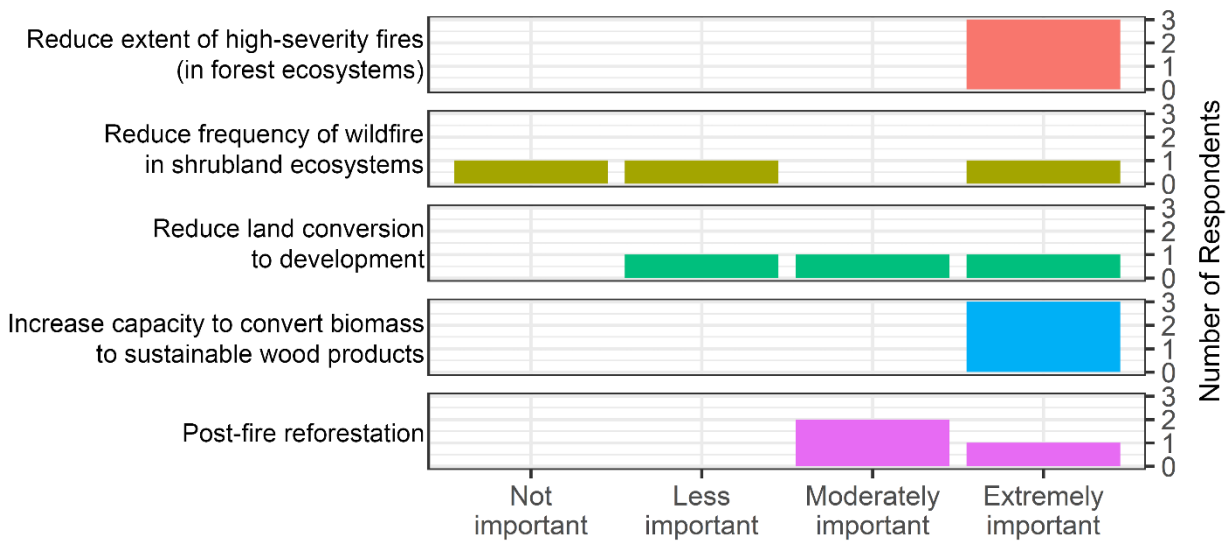

### Importance of investments for healthy and resilient forests

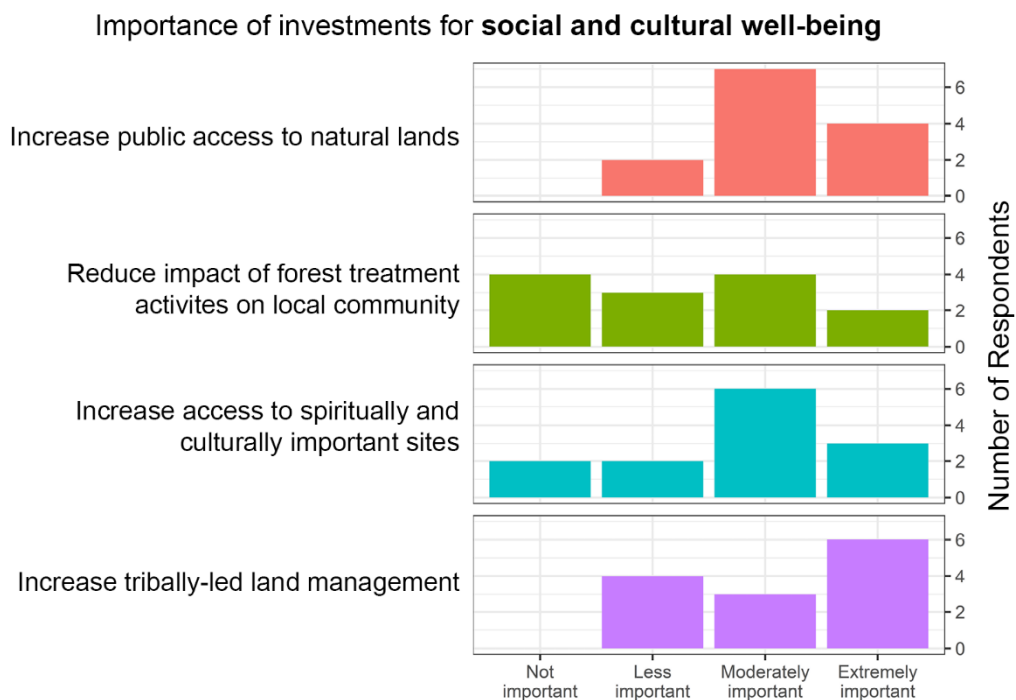

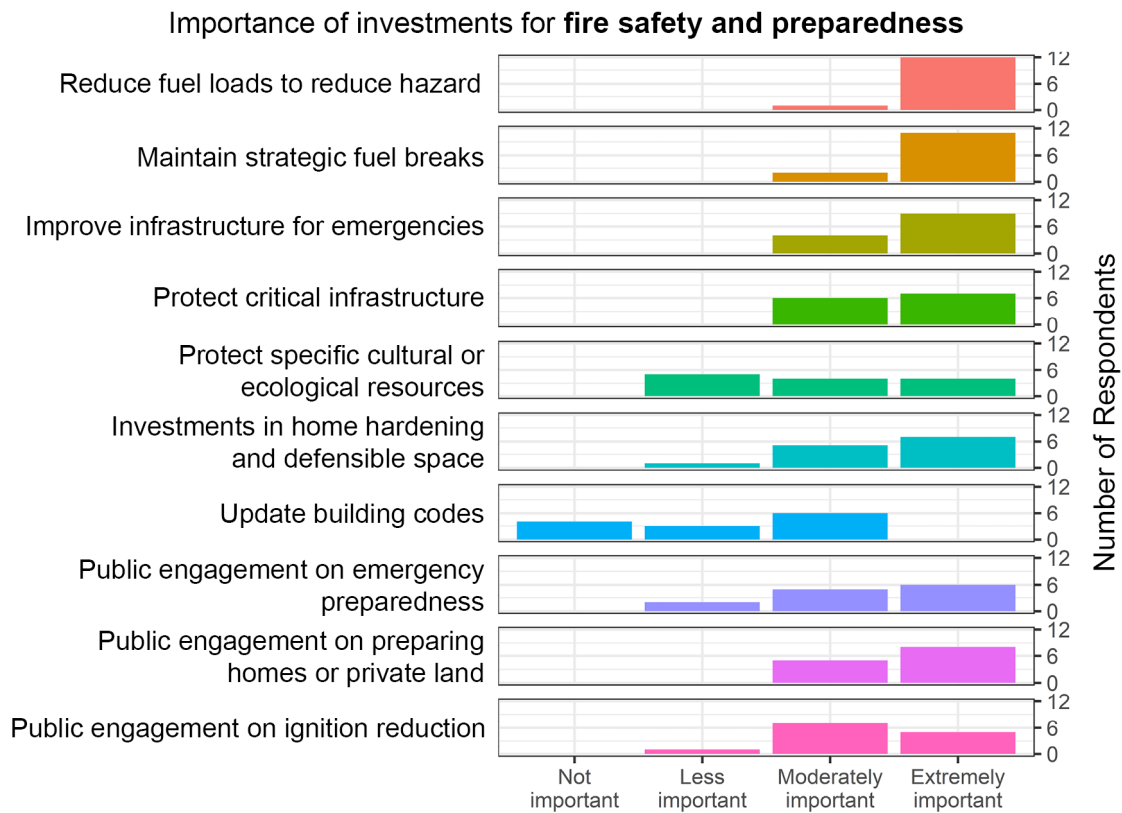

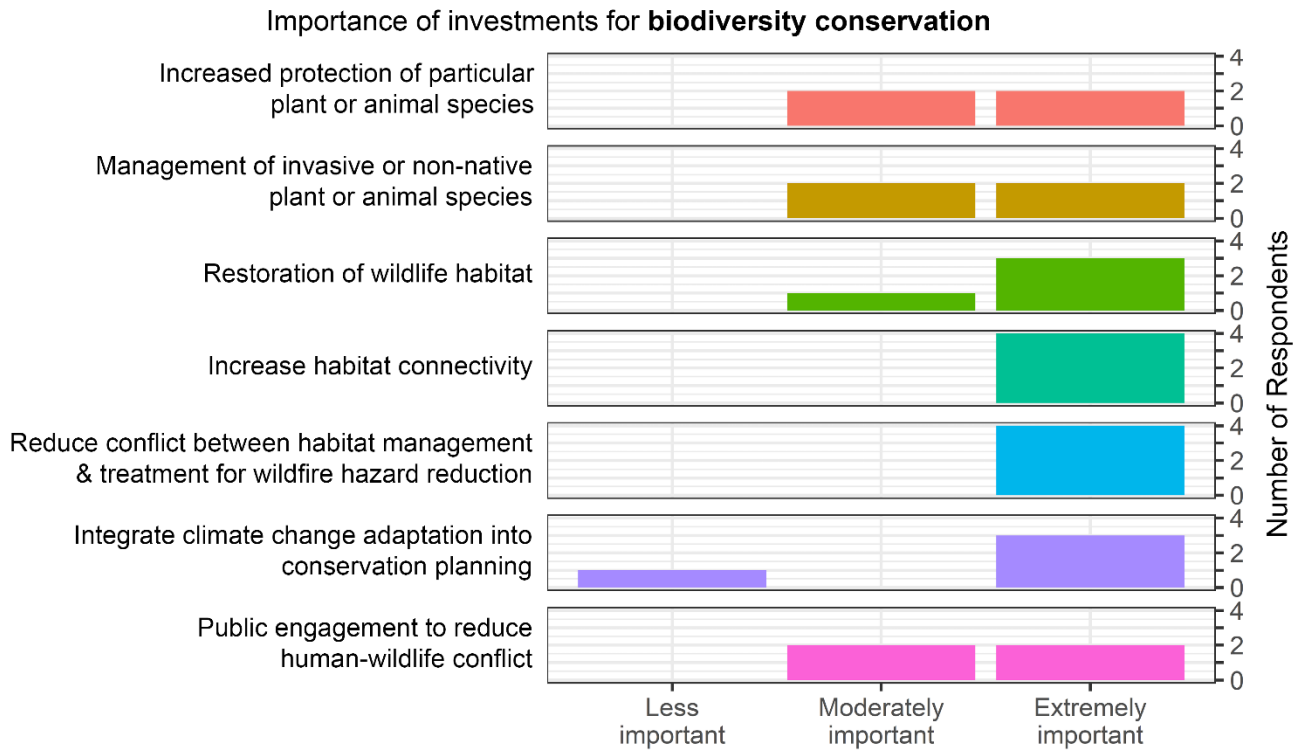

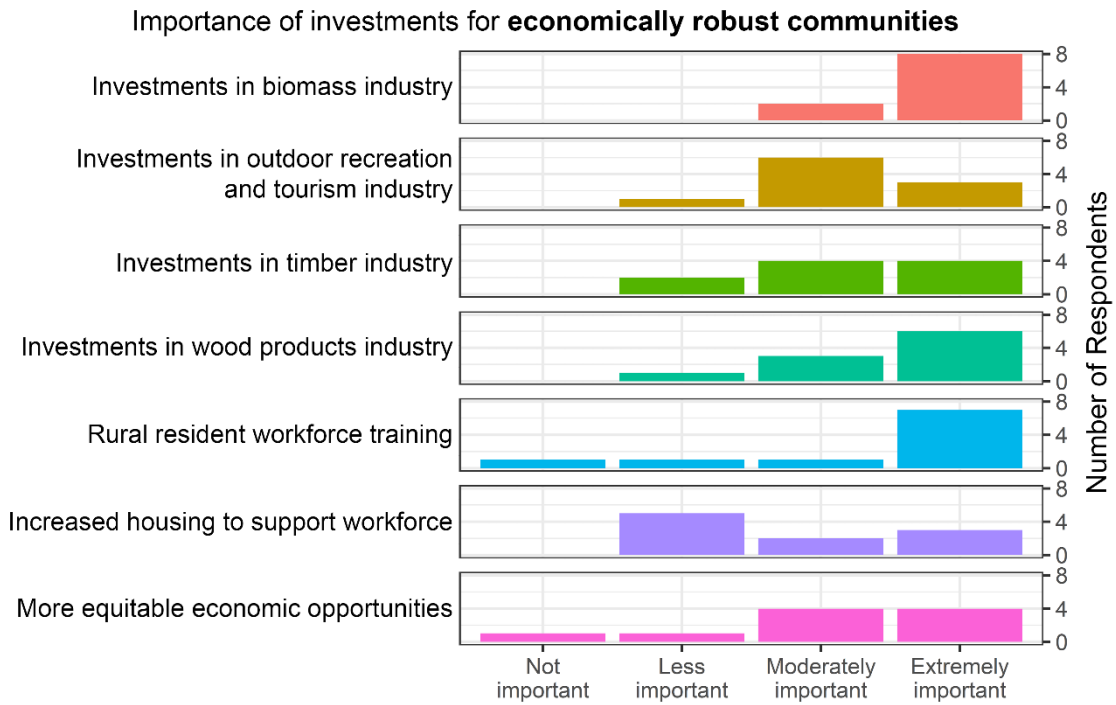

### Importance of investments for **healthy and resilient shrublands**

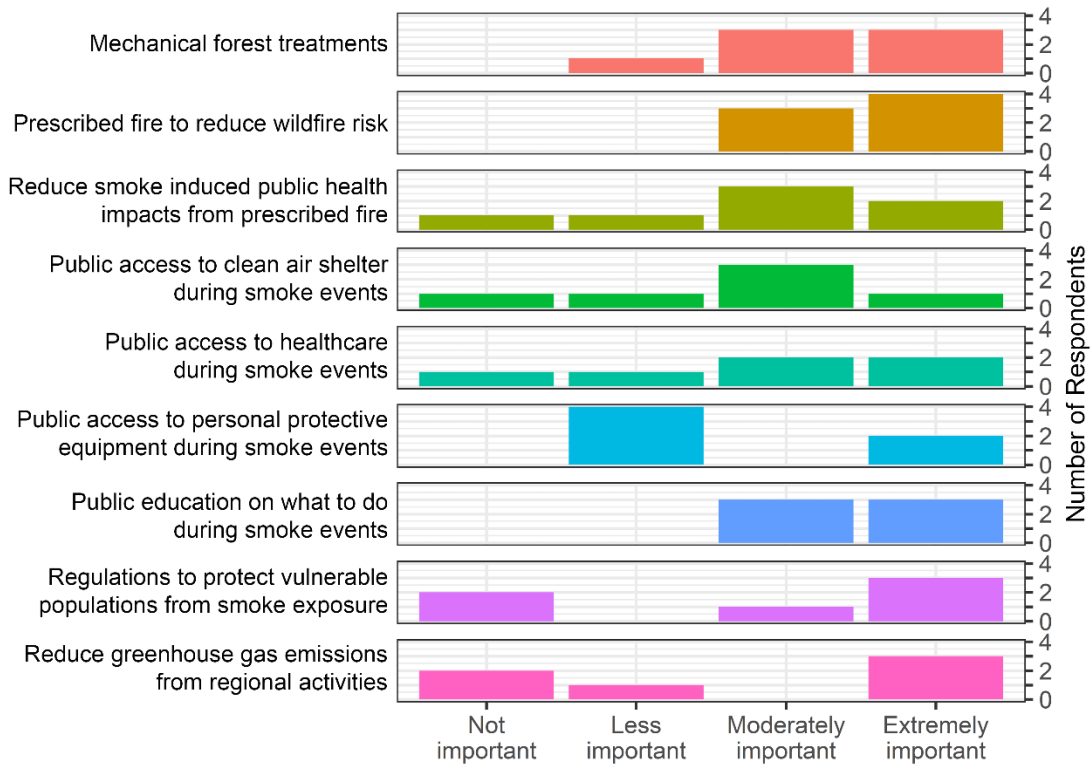

### Importance of investments for **carbon storage**

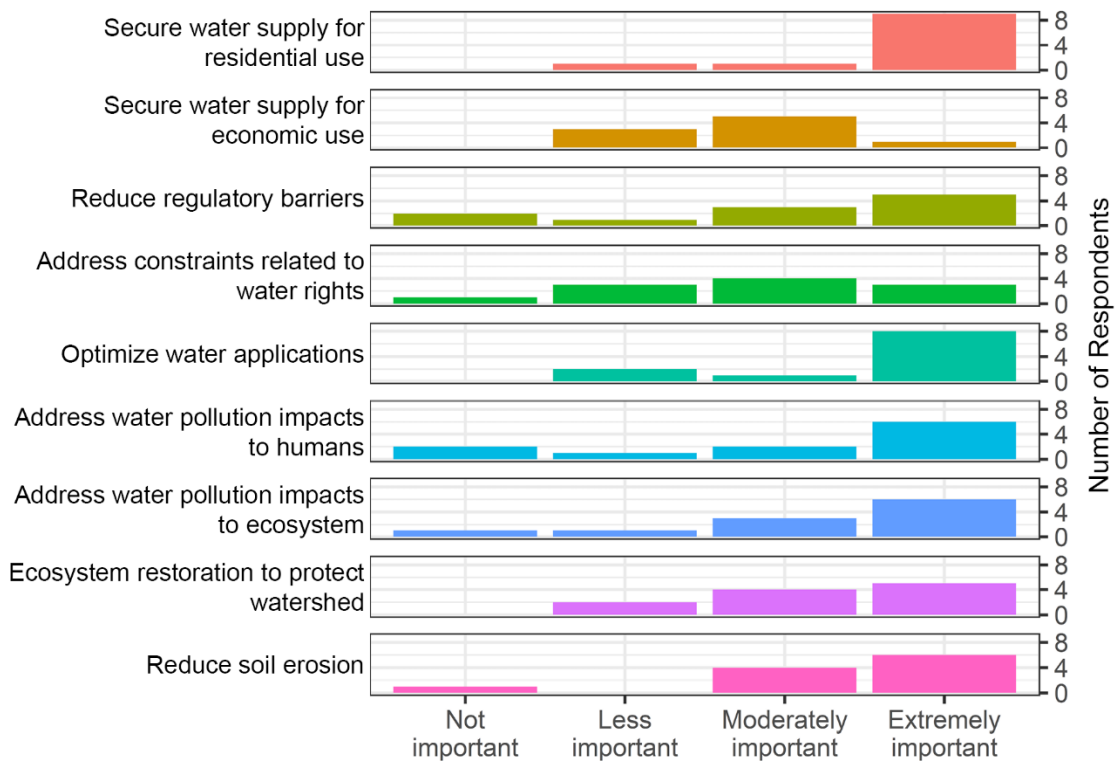

### Importance of investments for **air quality**

### Importance of investments for **water security**

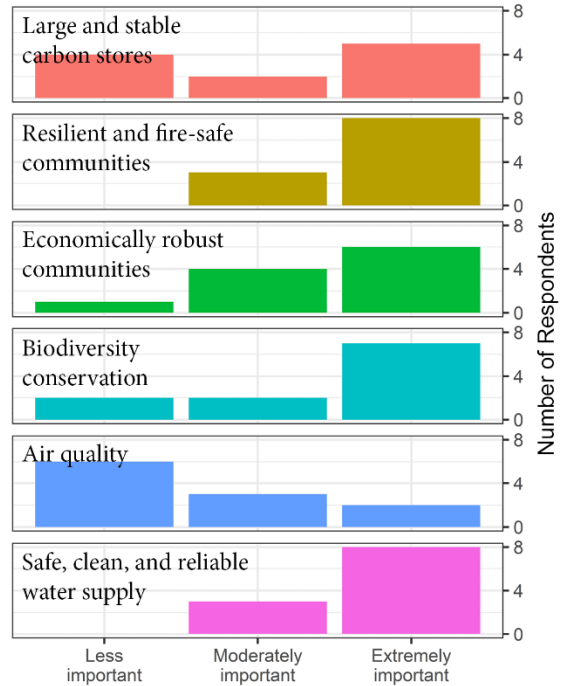

# Northern California Survey Results:

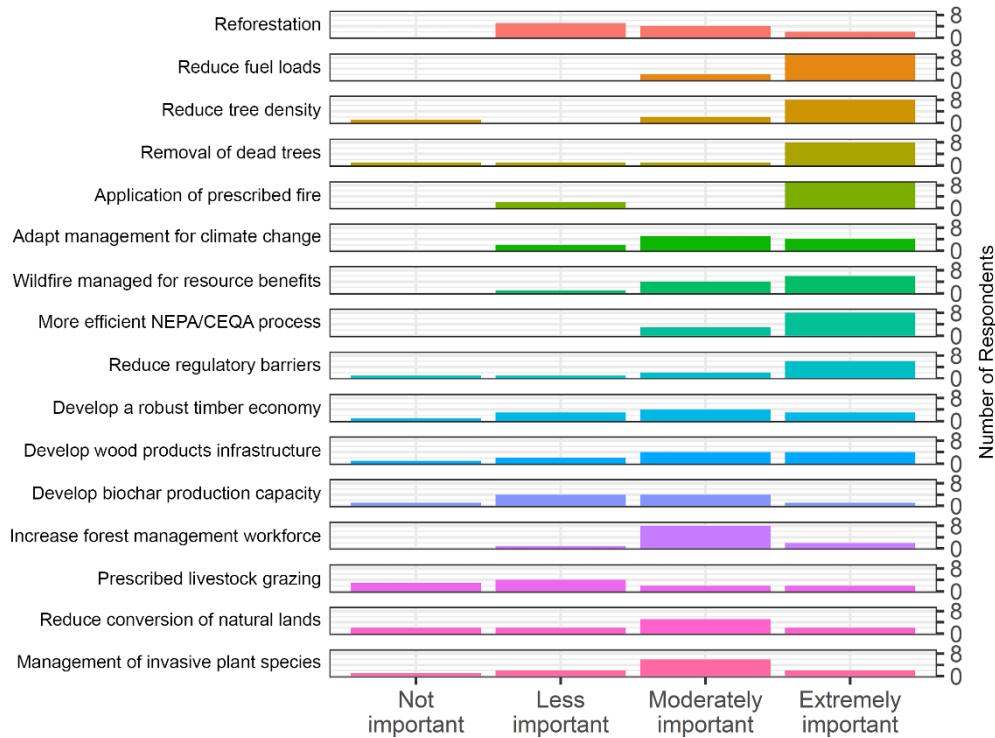

## Siskiyou County

### Stakeholder Input on Priority Areas of Investment

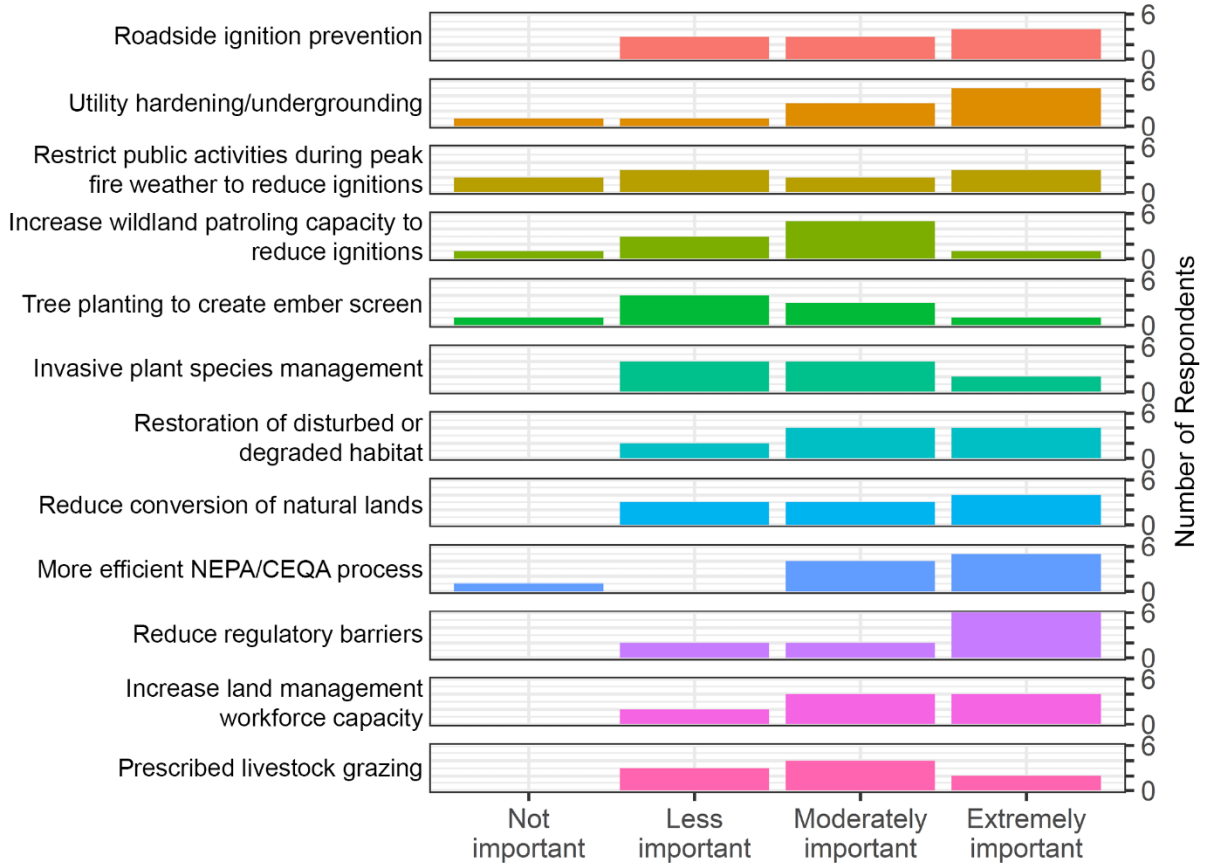

### Importance of investments for healthy and resilient forests

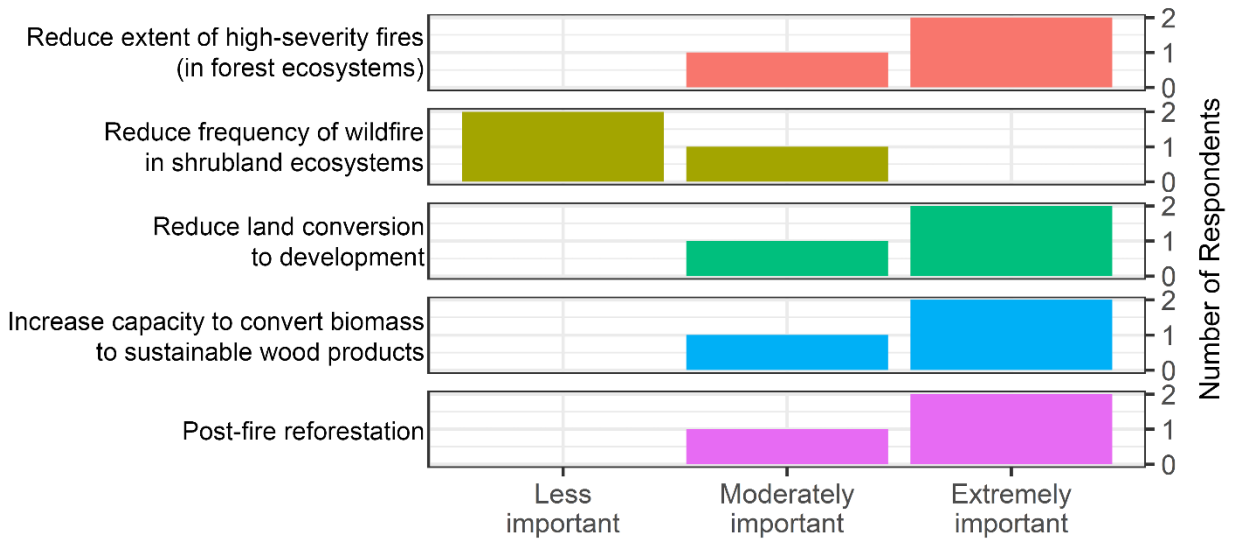

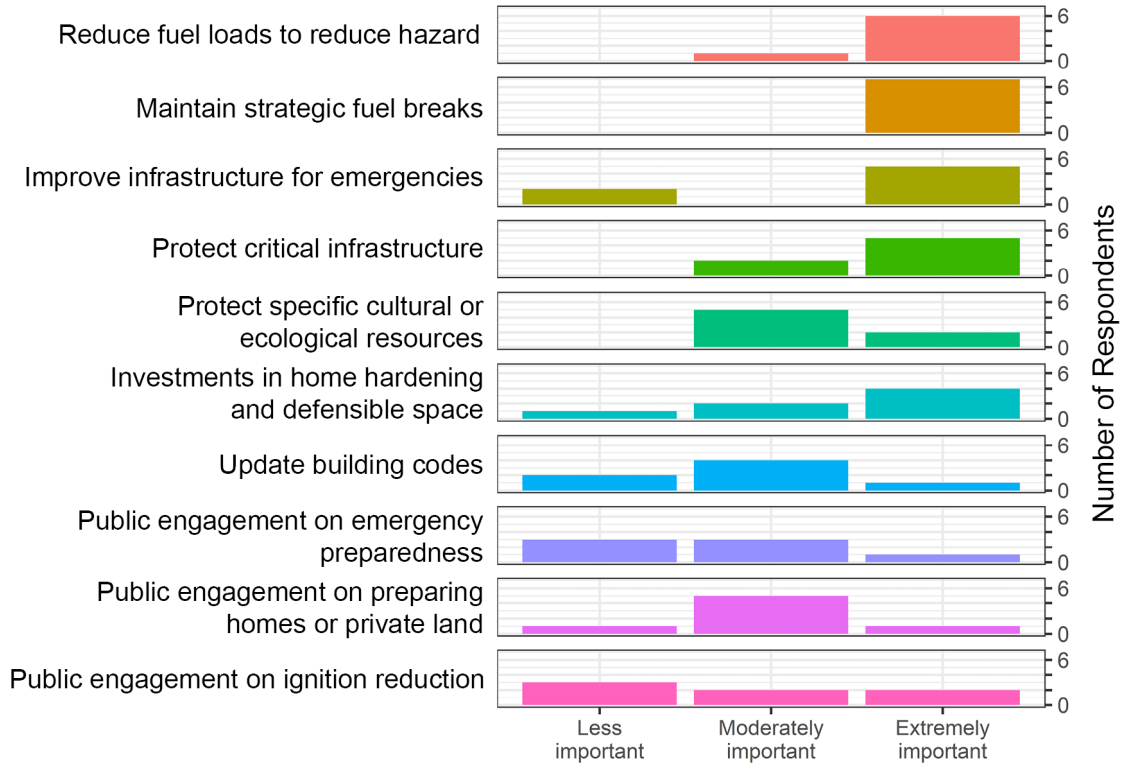

### Importance of investments for **healthy and resilient shrublands**

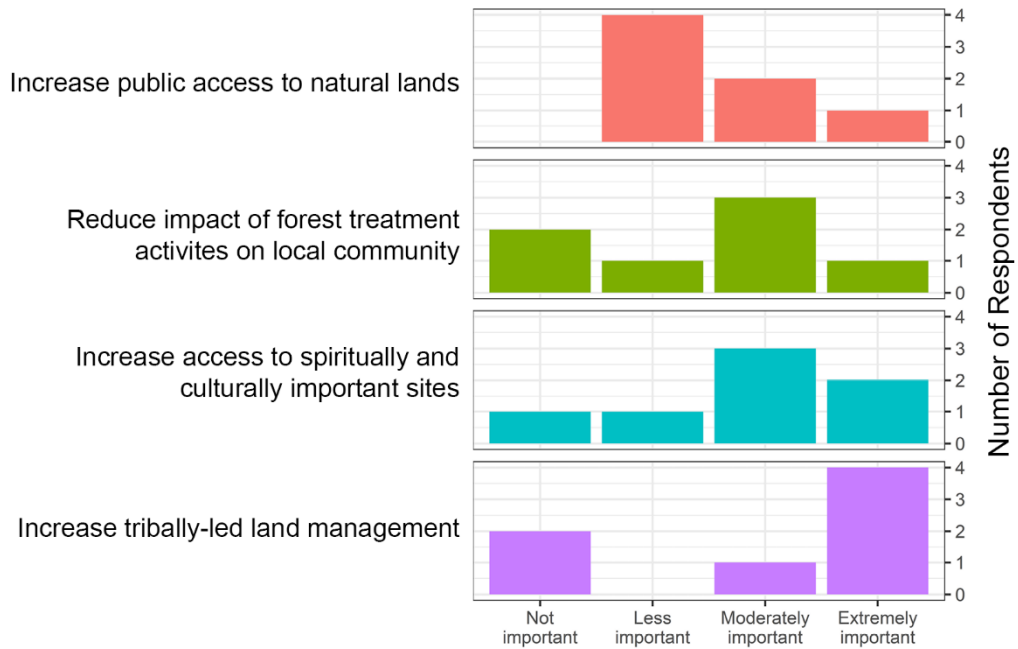

### Importance of investments for **carbon storage**

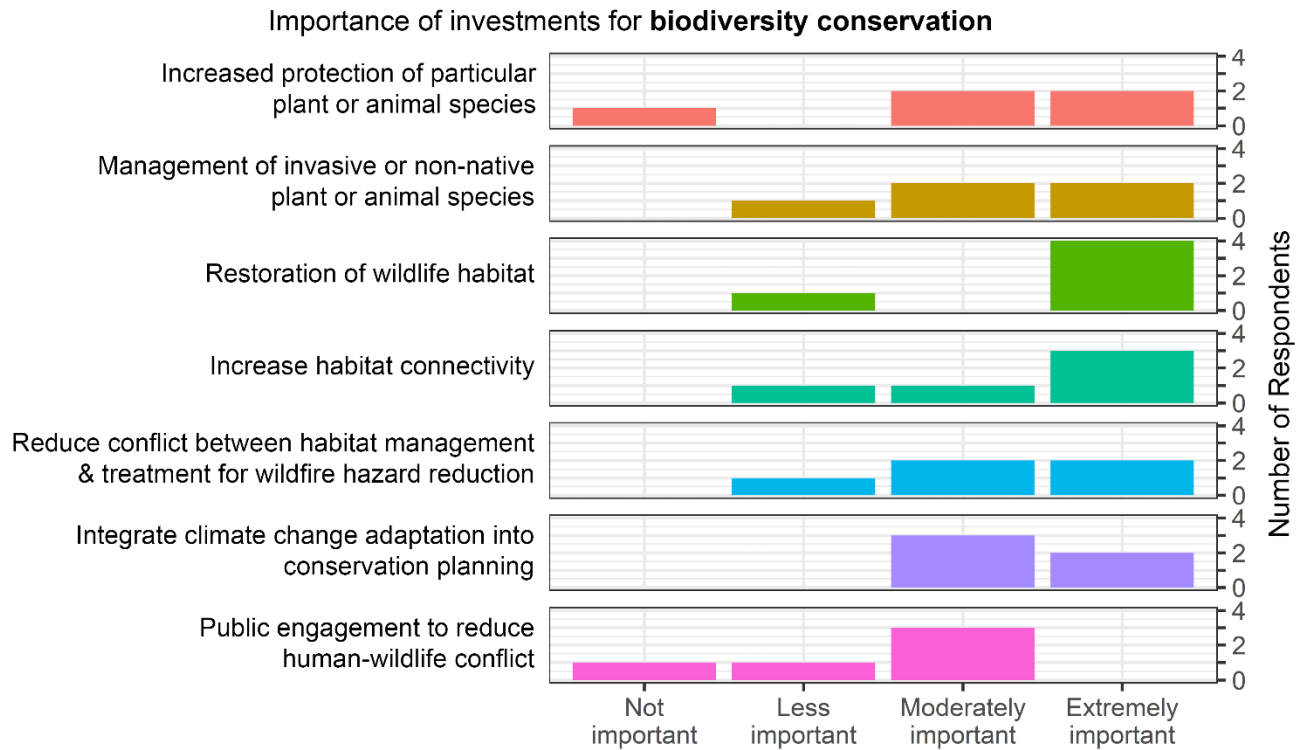

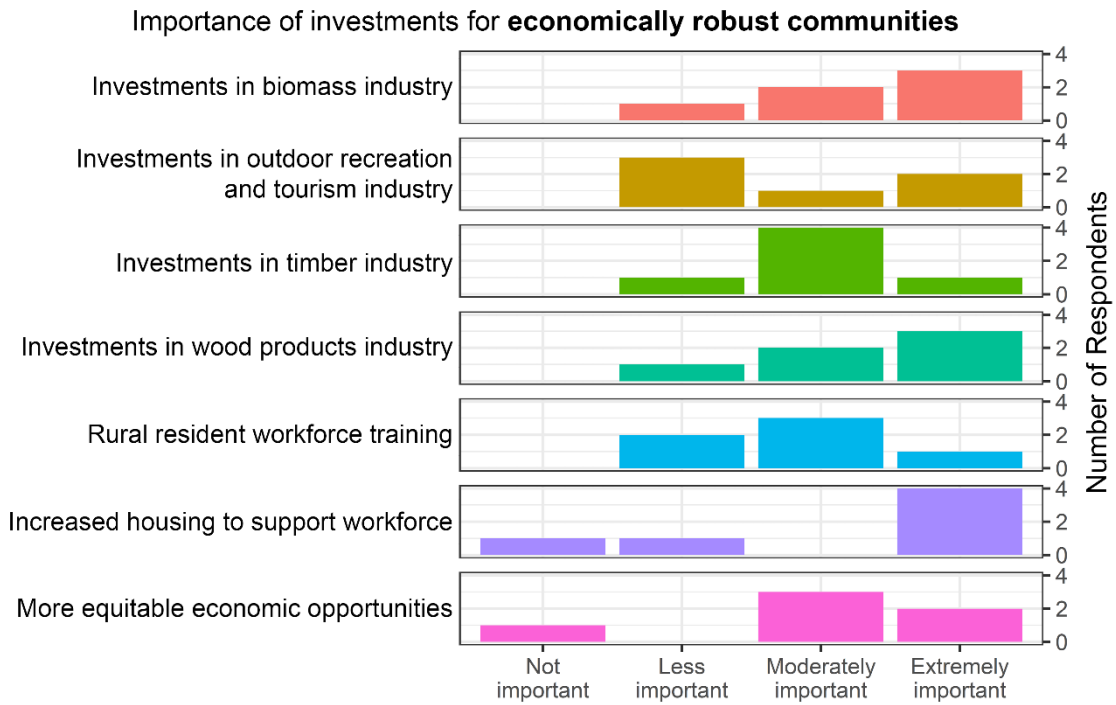

**Importance of investments for fire safety and preparedness**

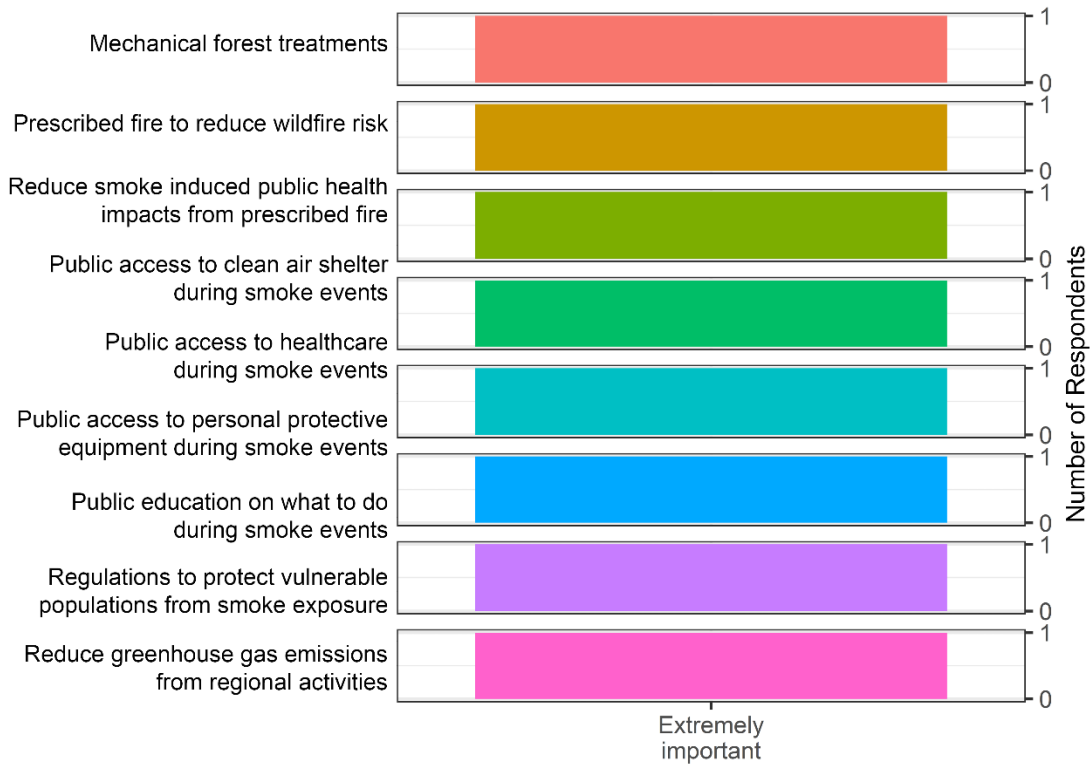

**Importance of investments for social and cultural well-being**

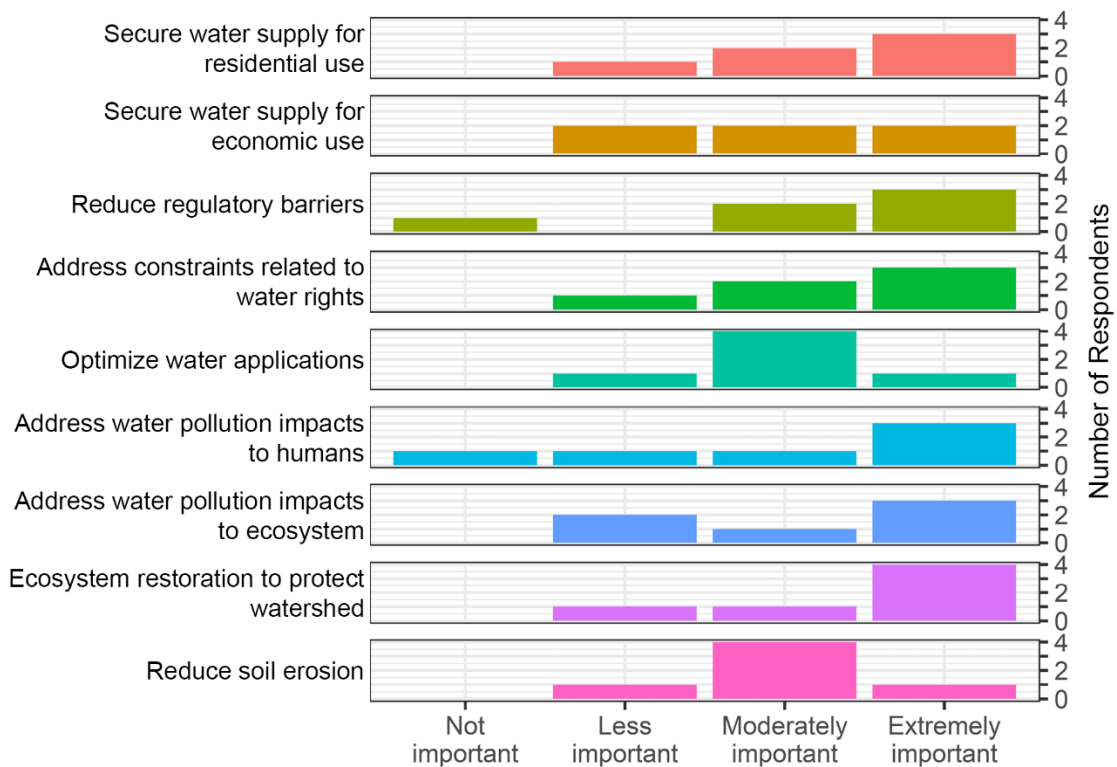

### Importance of investments for **air quality**

### Importance of investments for **water security**

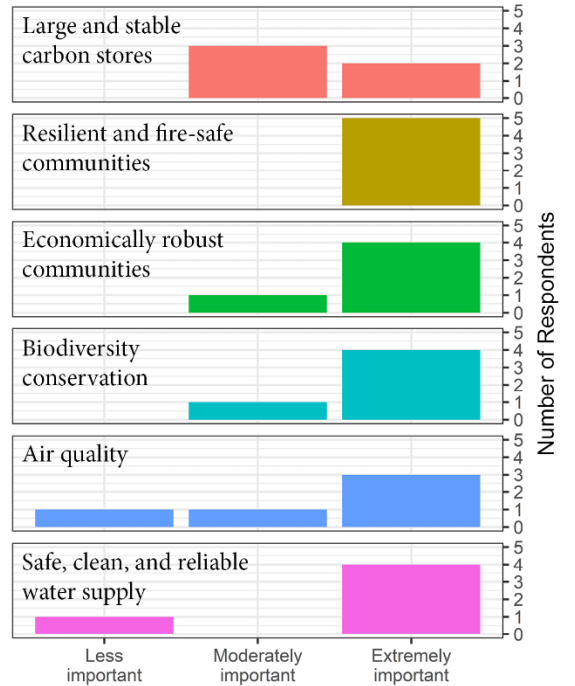

# Northern California Survey Results:

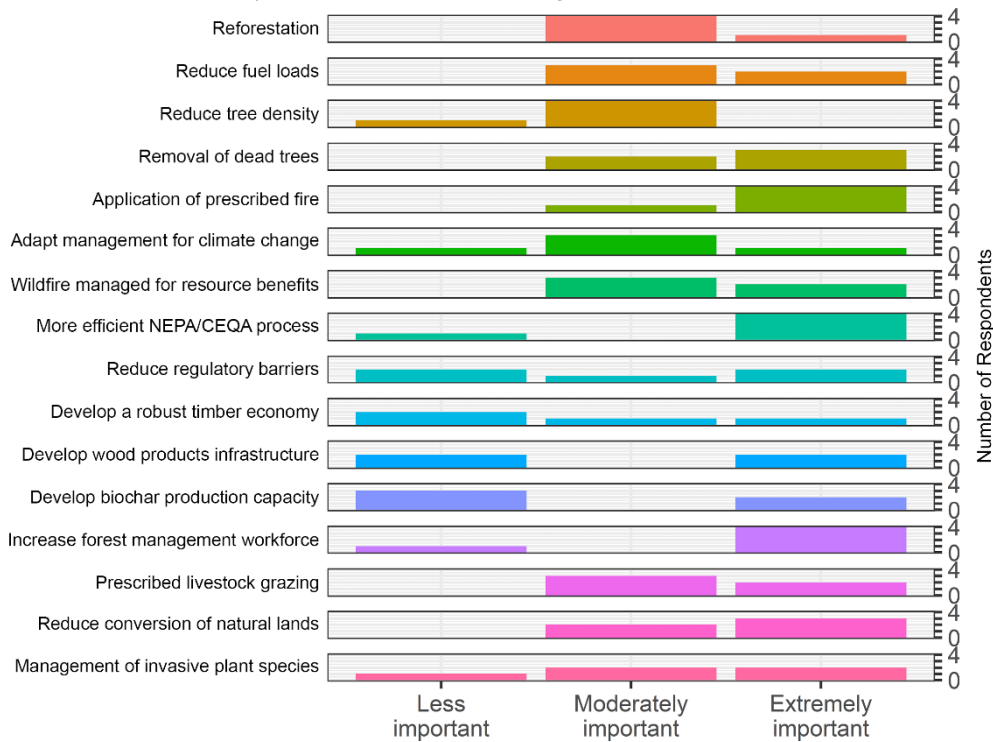

## Solano County

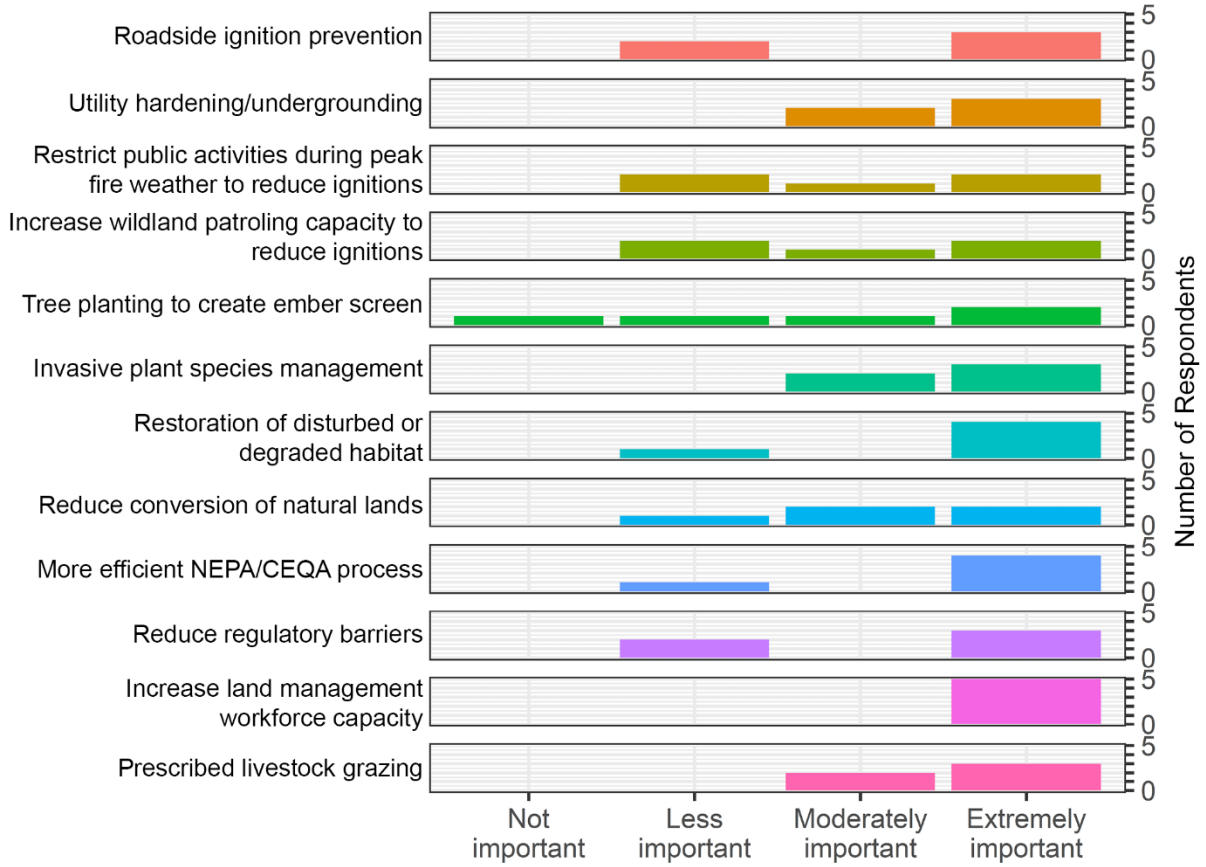

### Stakeholder Input on Priority Areas of Investment

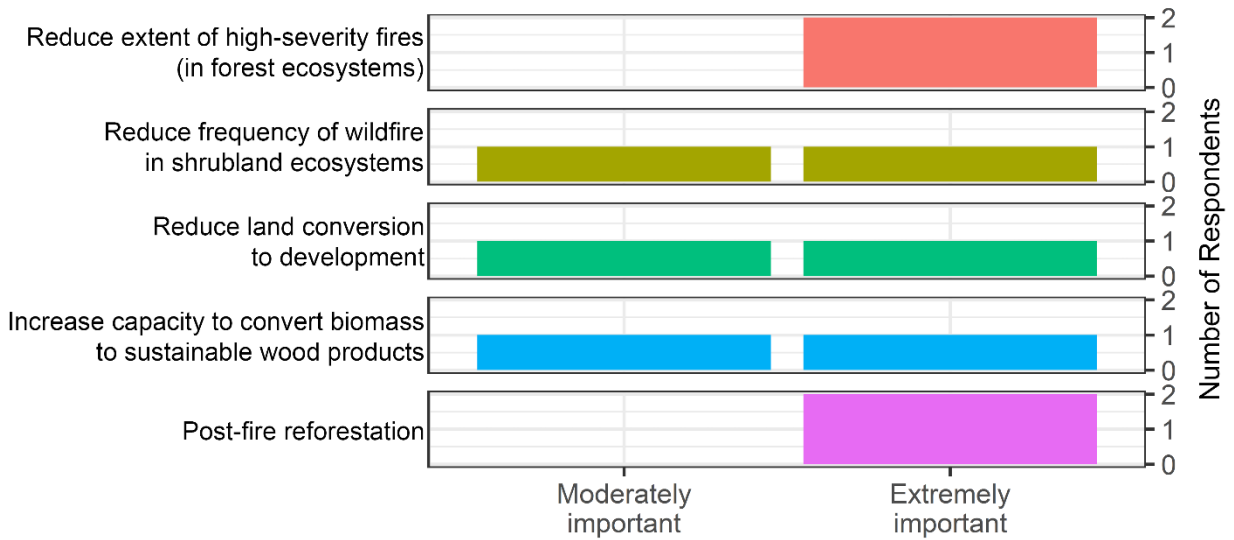

### Importance of investments for healthy and resilient forests

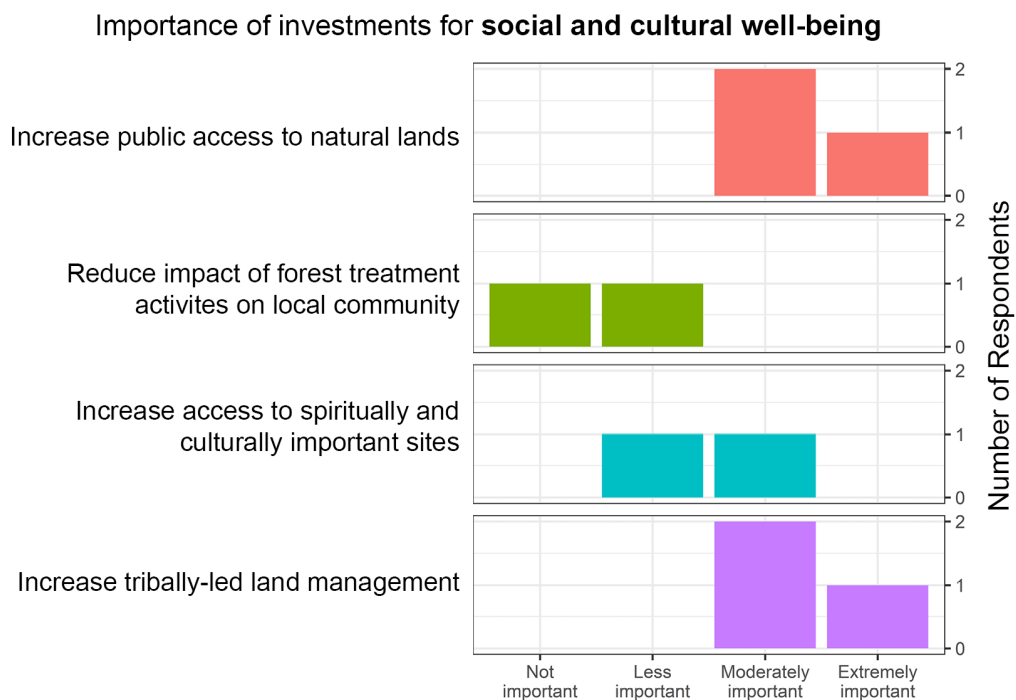

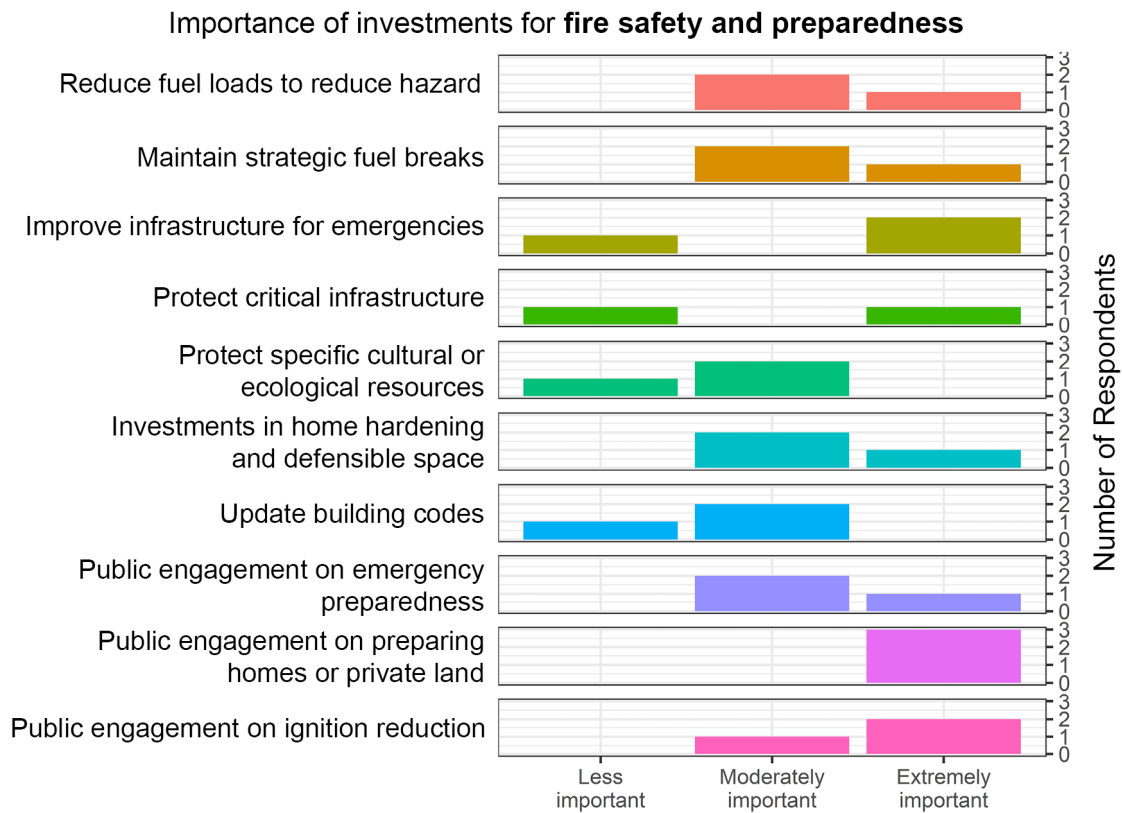

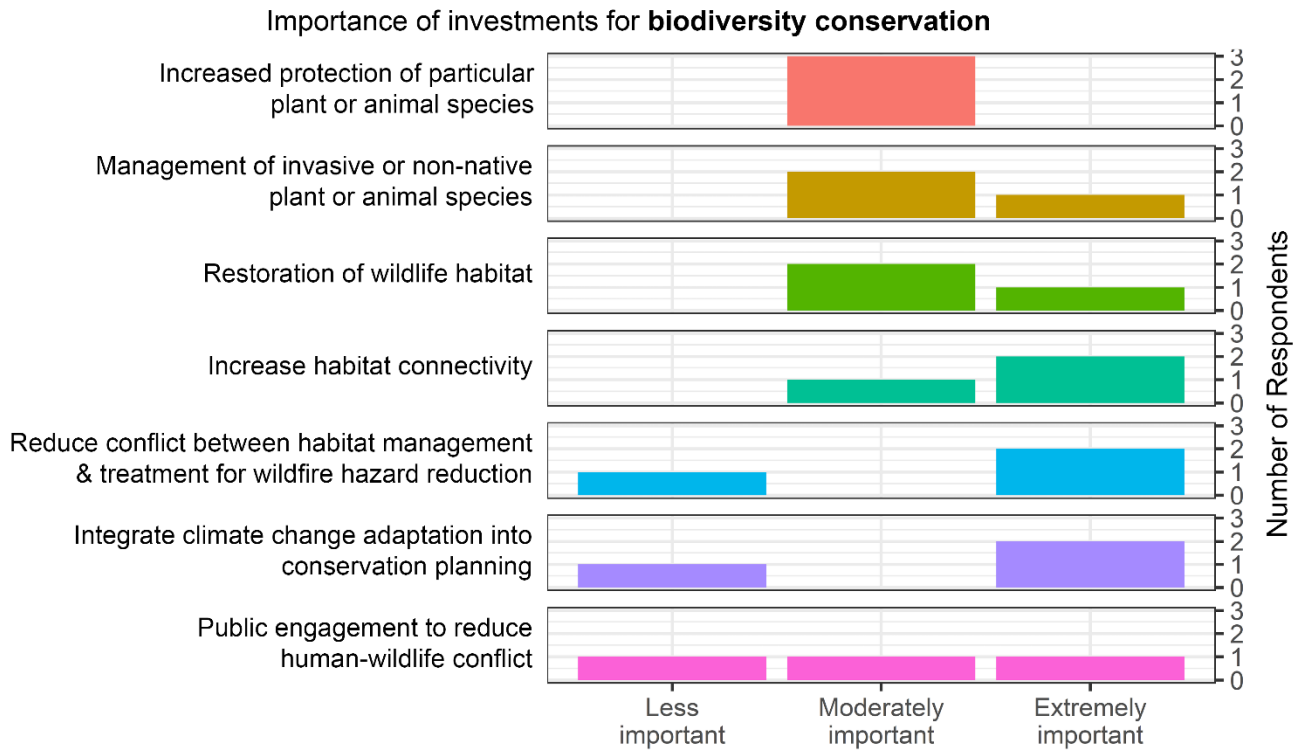

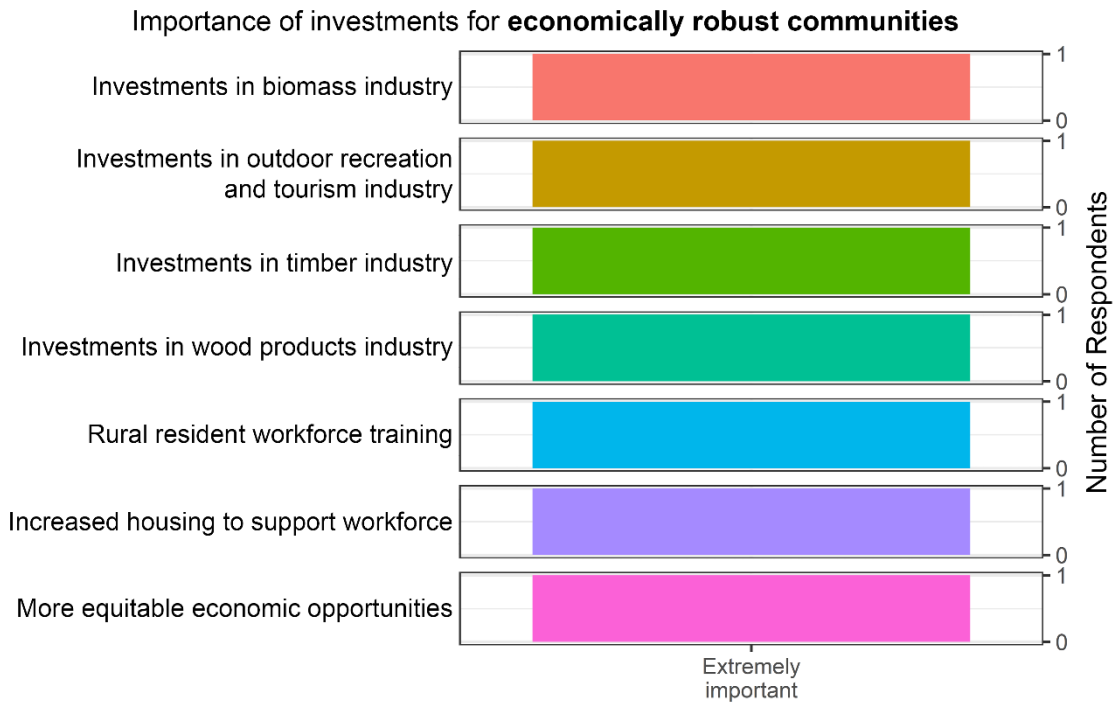

### Importance of investments for **healthy and resilient shrublands**

### Importance of investments for **carbon storage**

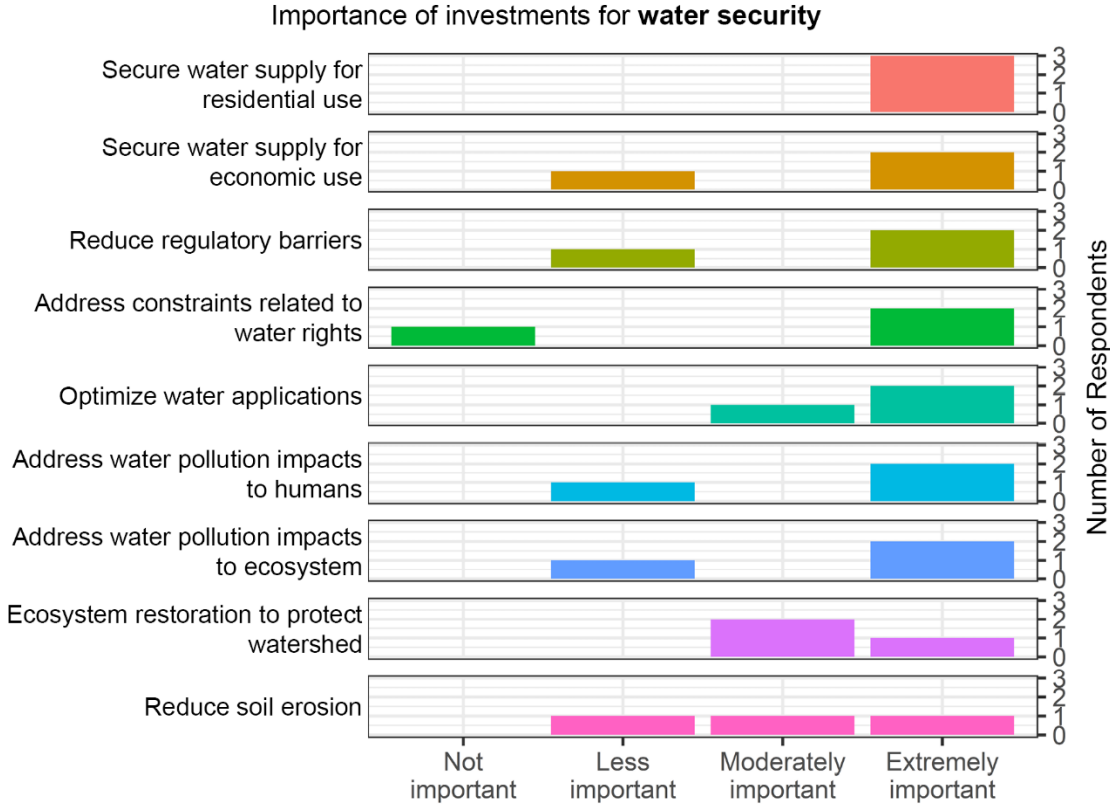

*Please note: no survey participants responded to “Air Quality” category for this county.*

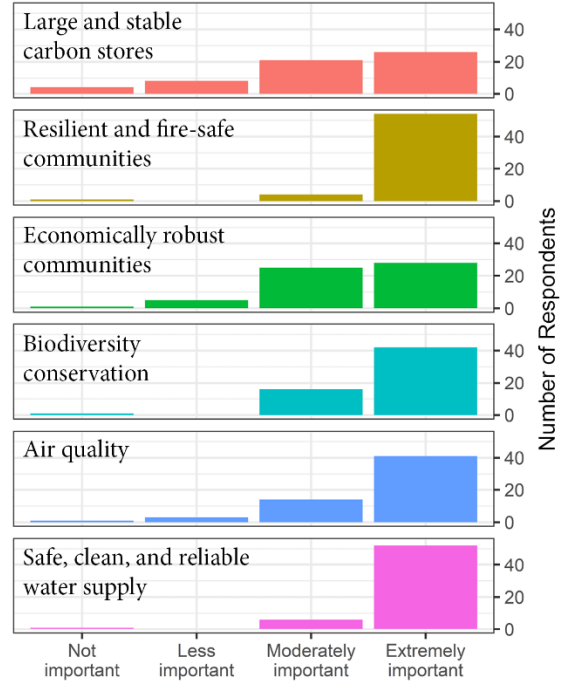

# Northern California Survey Results:

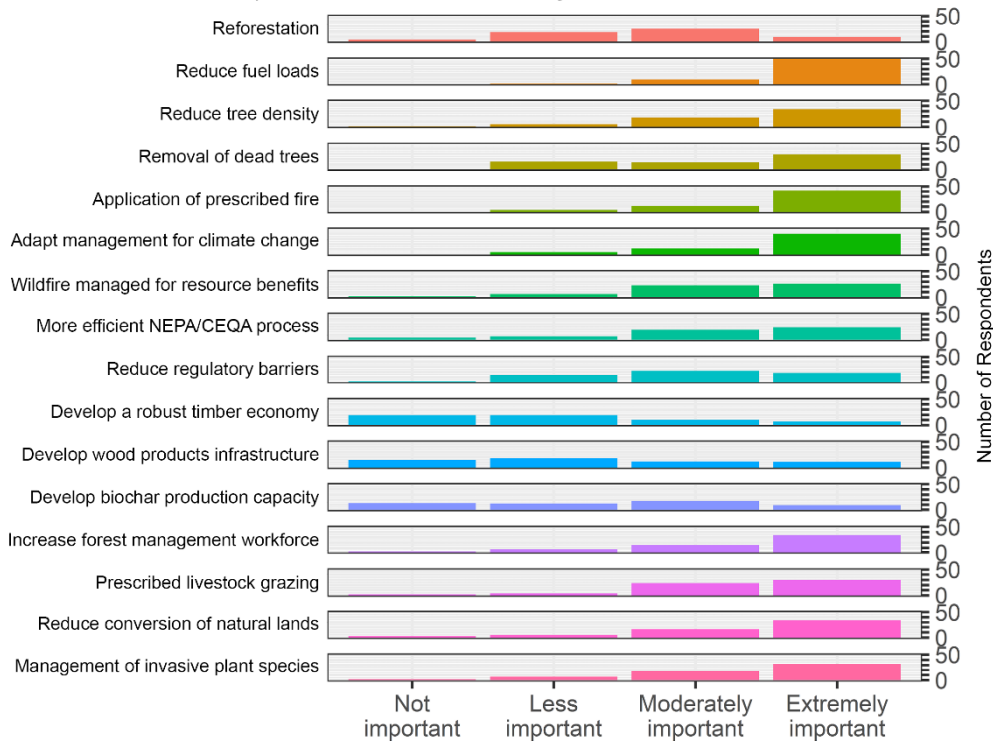

## Sonoma County

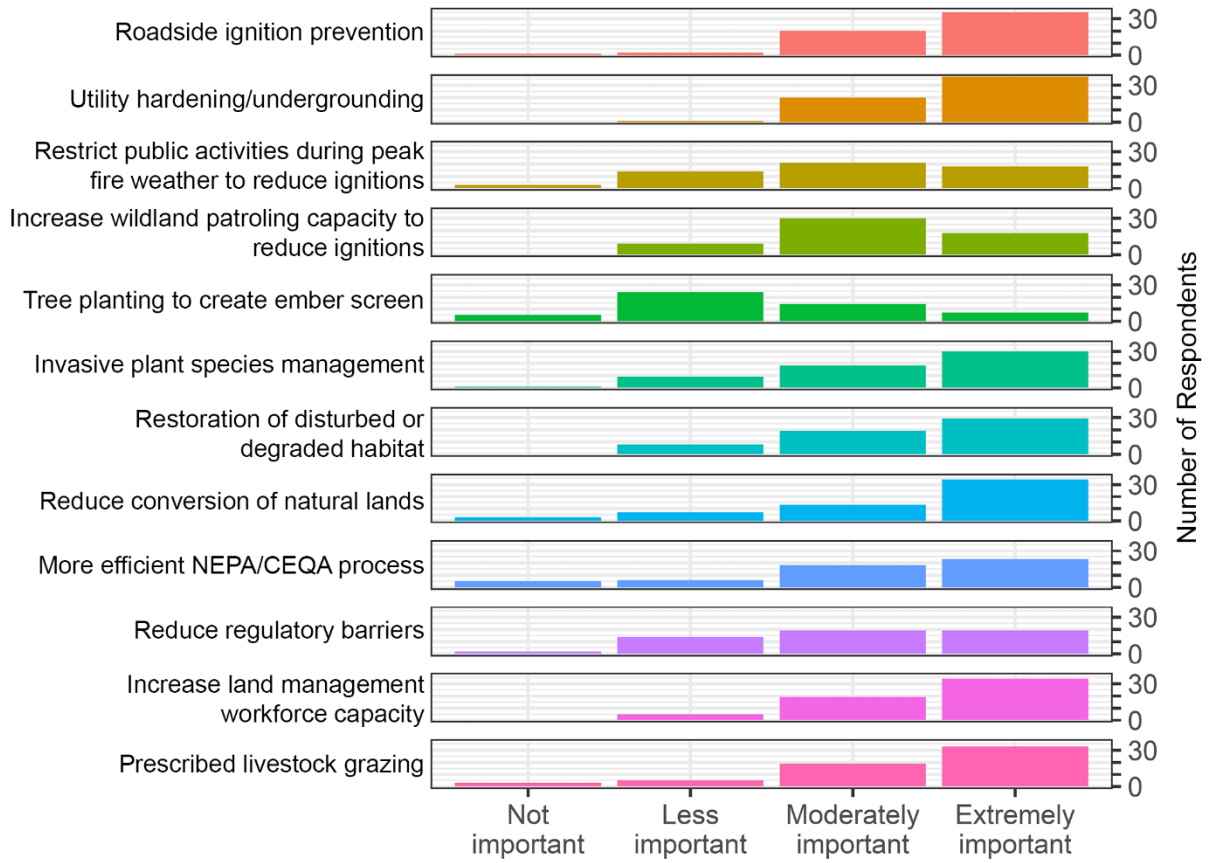

### Stakeholder Input on Priority Areas of Investment

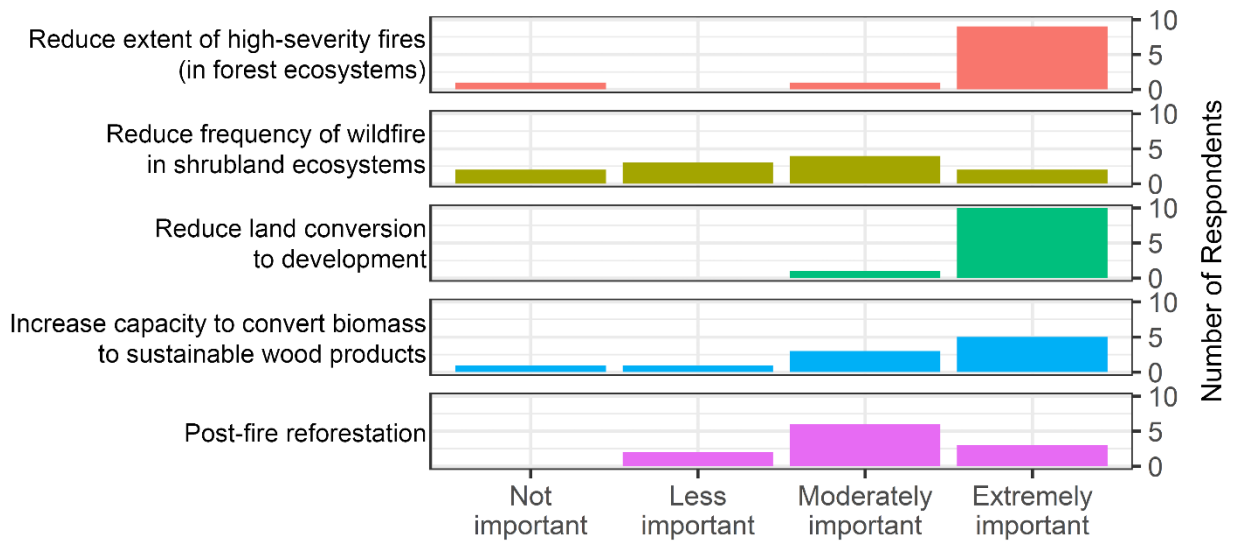

### Importance of investments for healthy and resilient forests

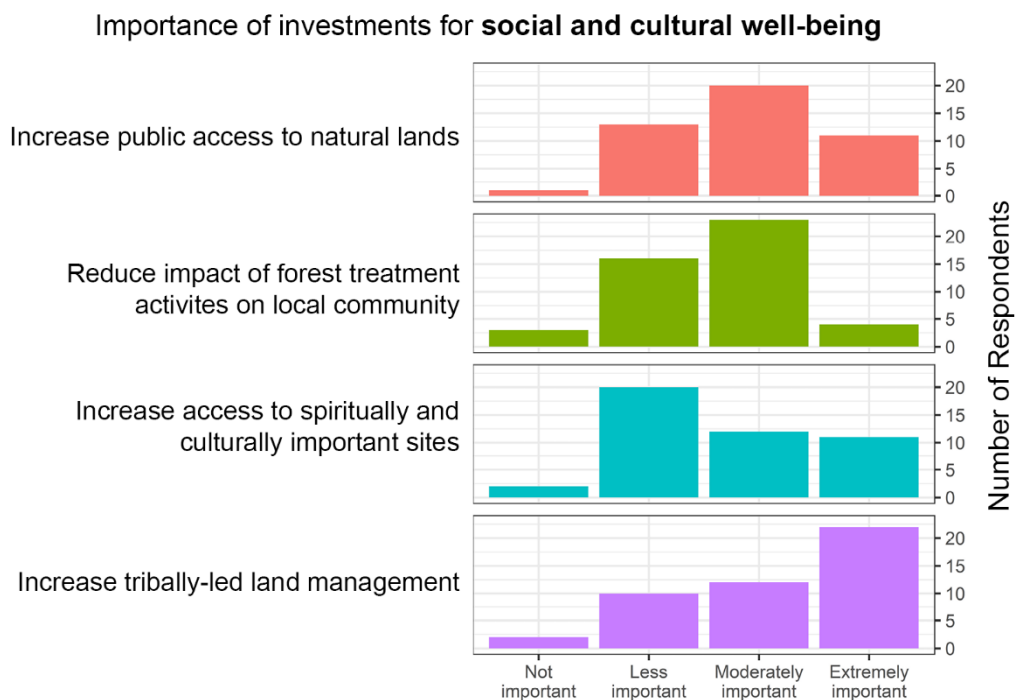

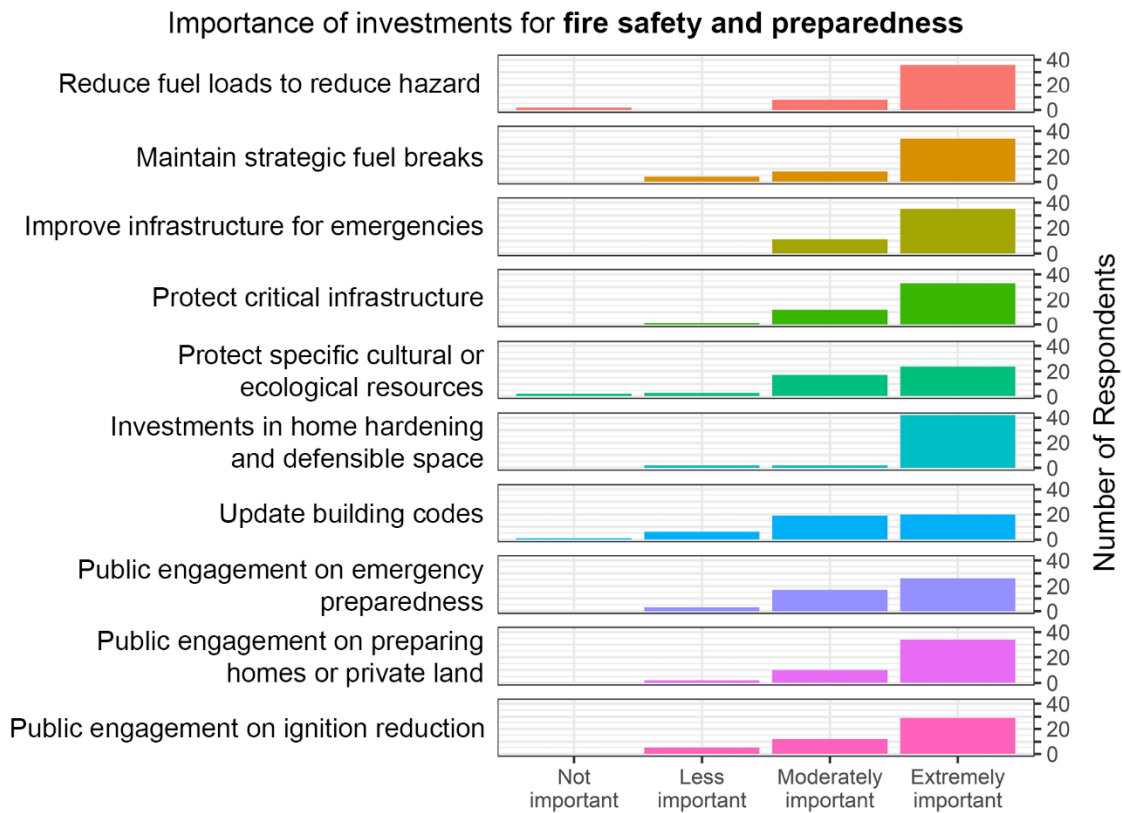

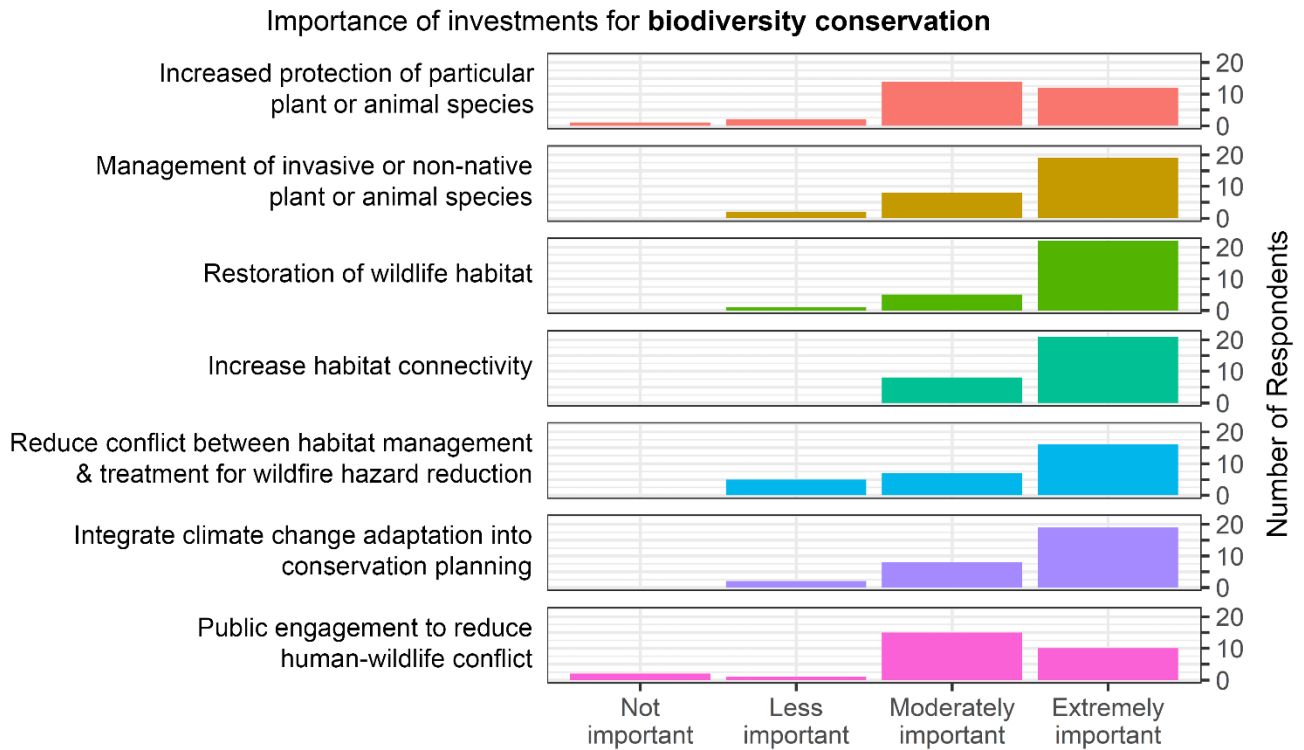

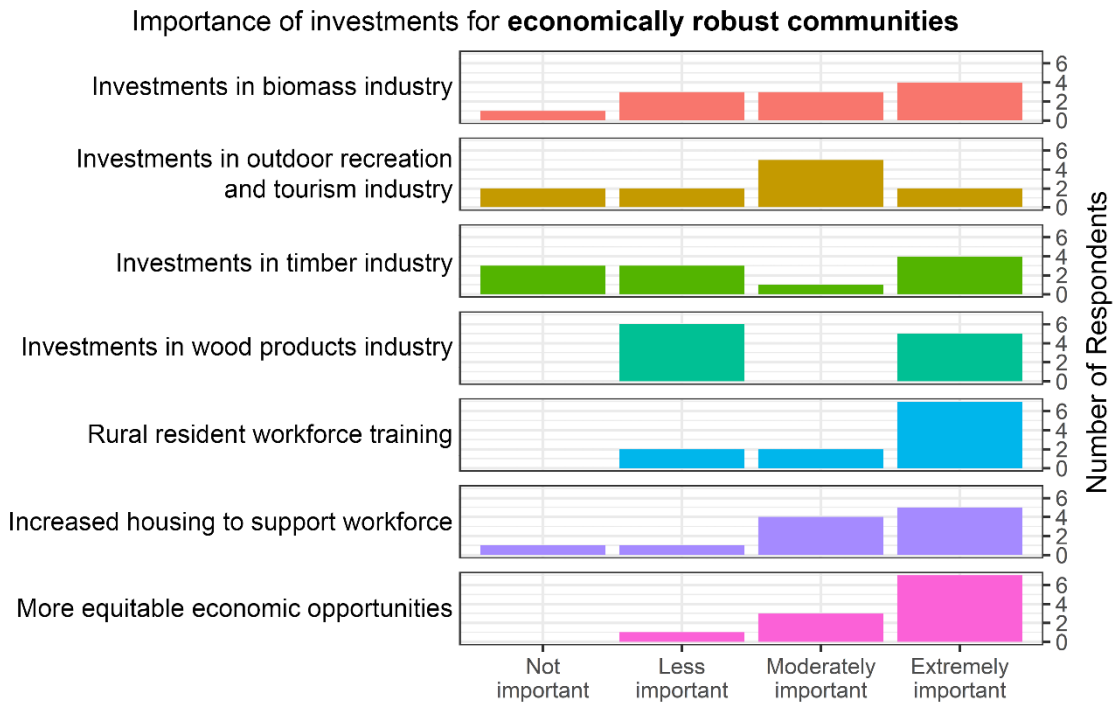

### Importance of investments for **healthy and resilient shrublands**

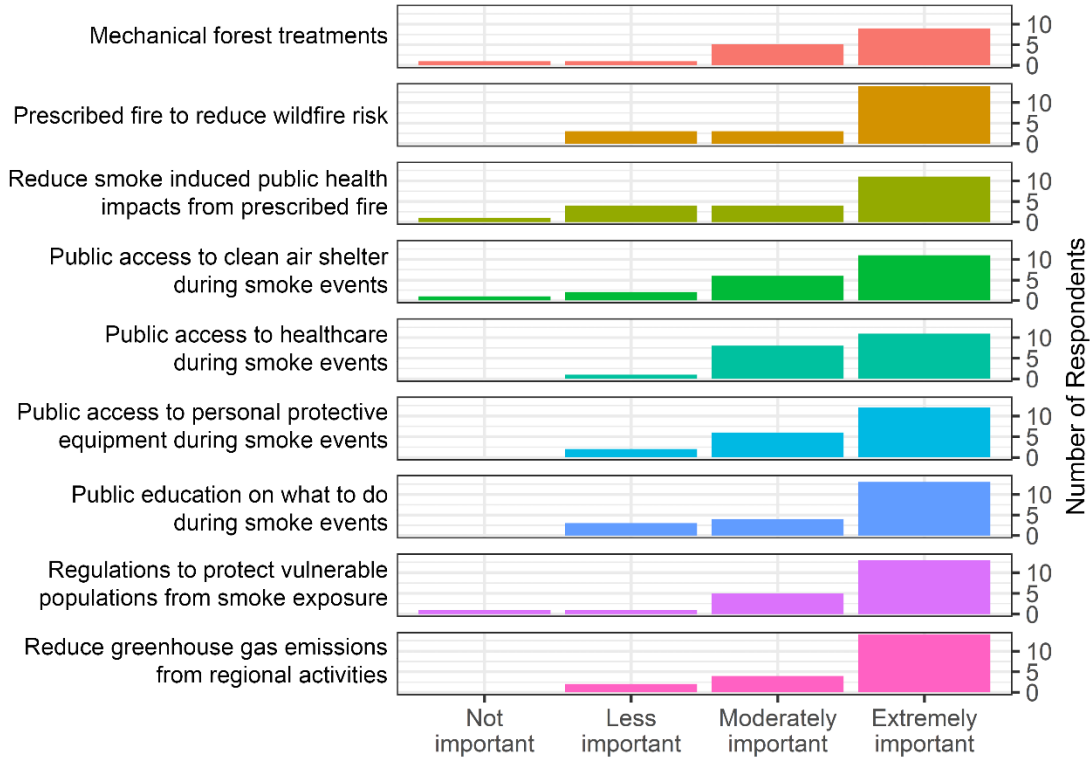

### Importance of investments for **carbon storage**

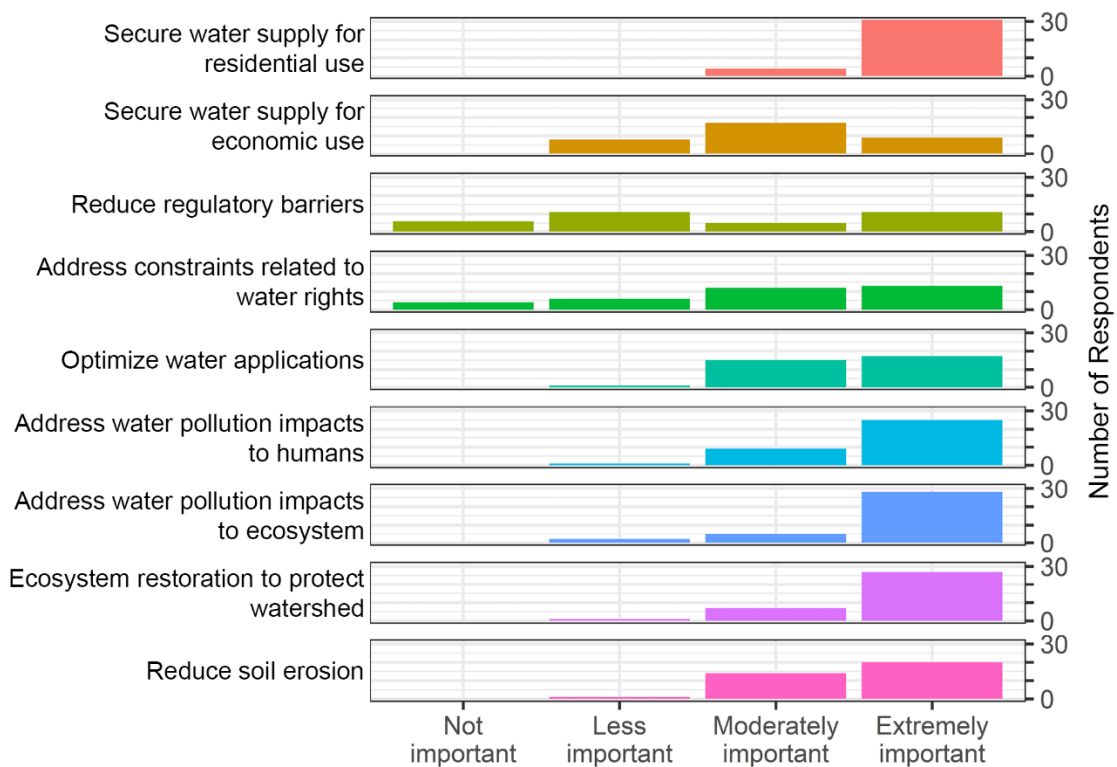

Importance of investments for **air quality**

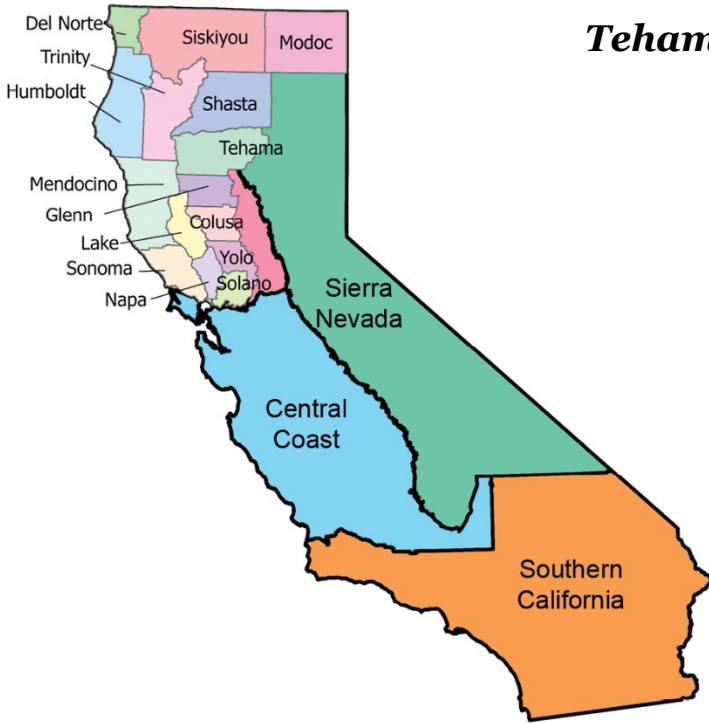

Importance of investments for **water security**

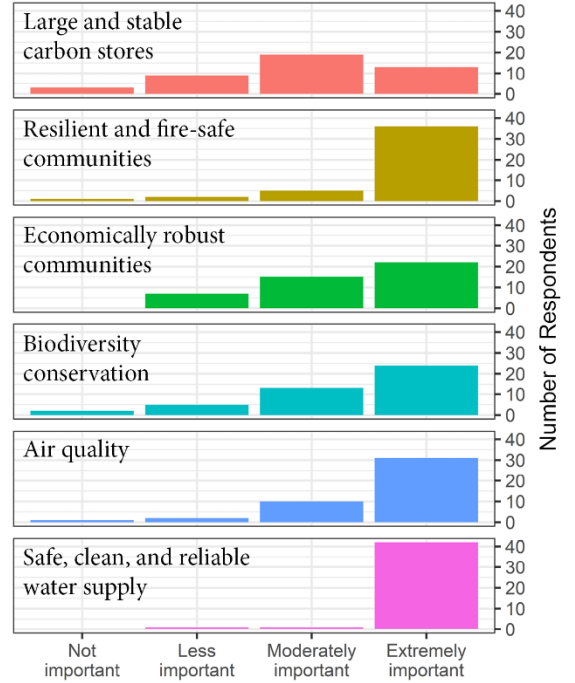

# Northern California Survey Results:

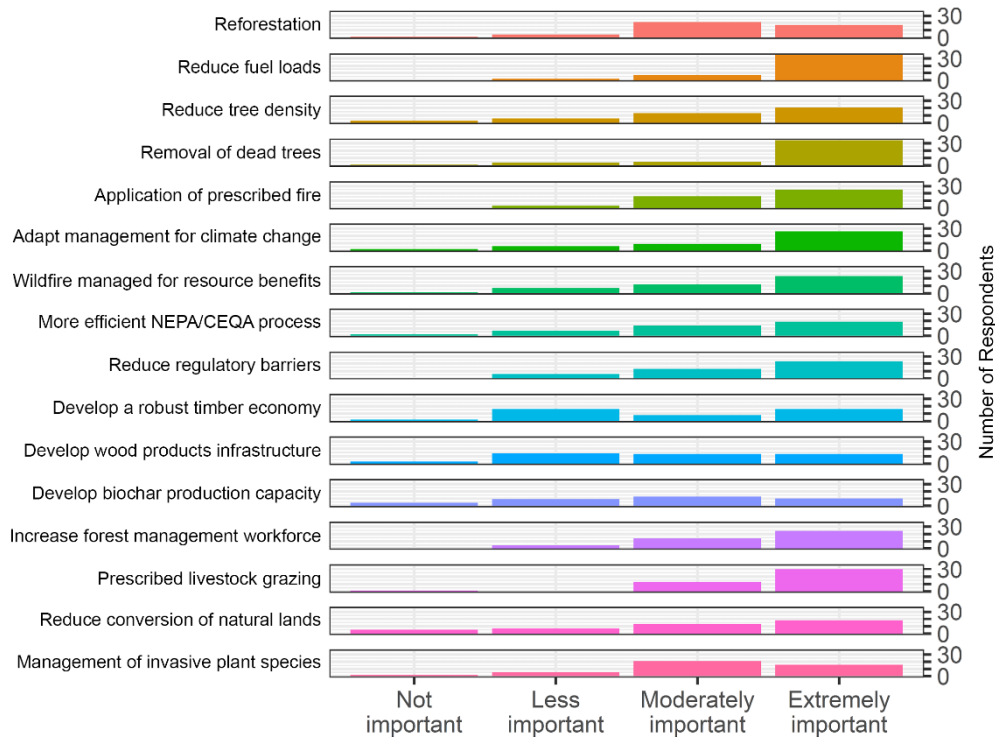

## Tehama County

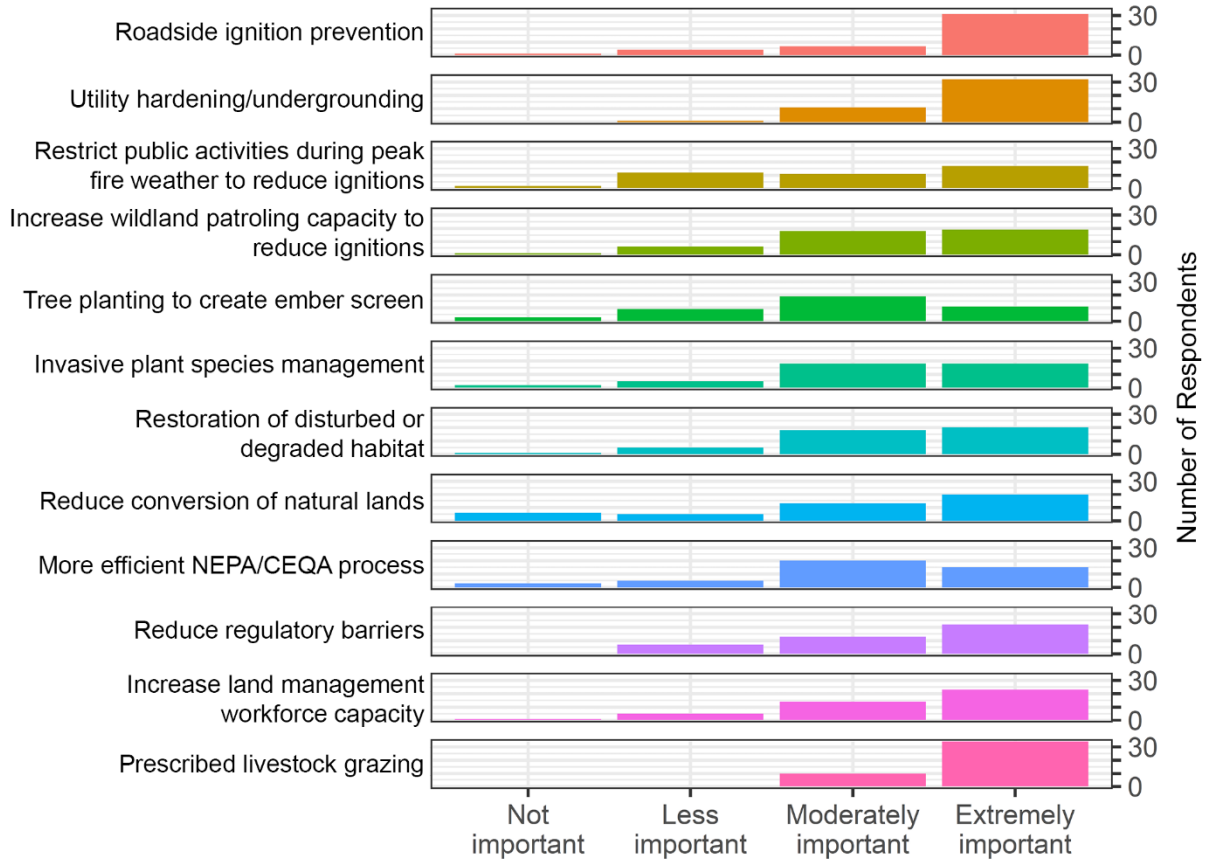

### Stakeholder Input on Priority Areas of Investment

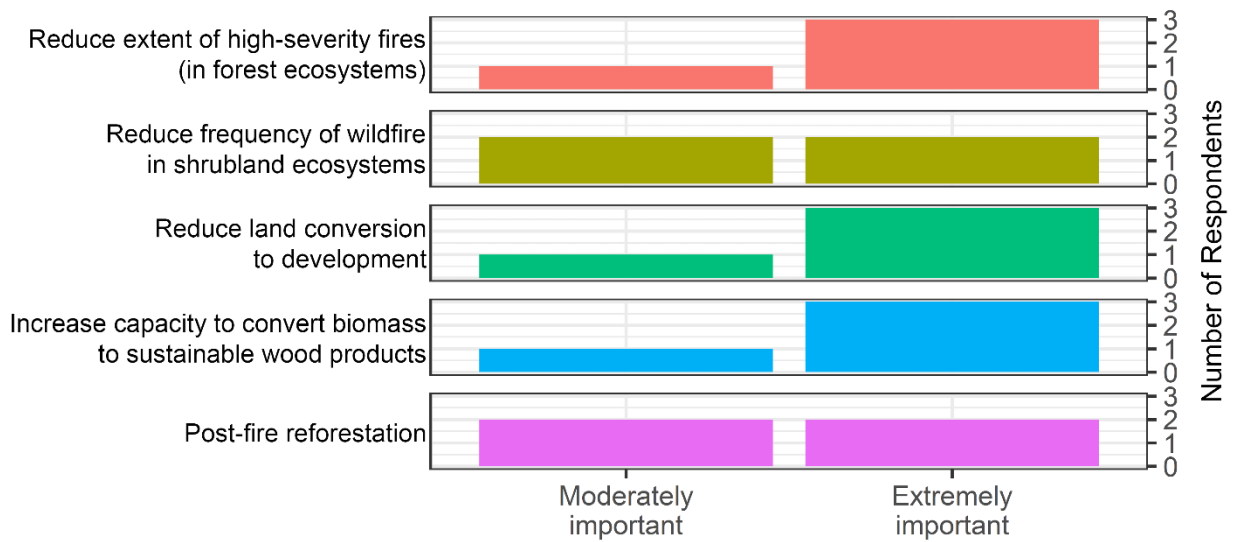

### Importance of investments for healthy and resilient forests

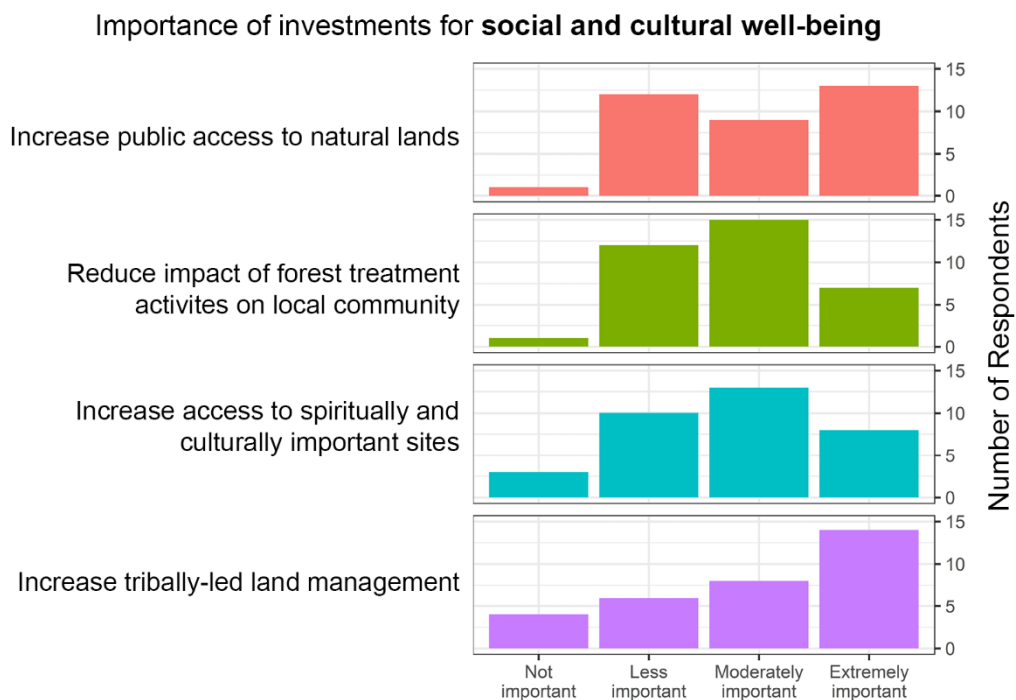

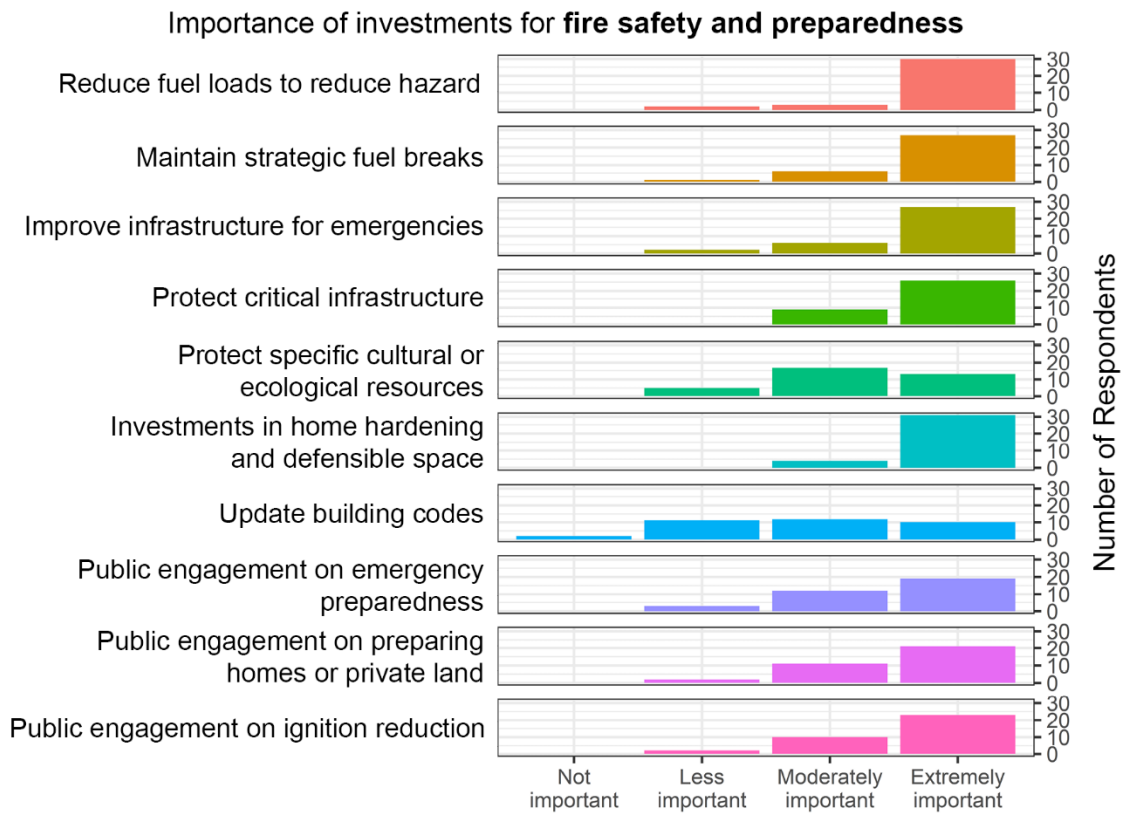

### Importance of investments for **healthy and resilient shrublands**

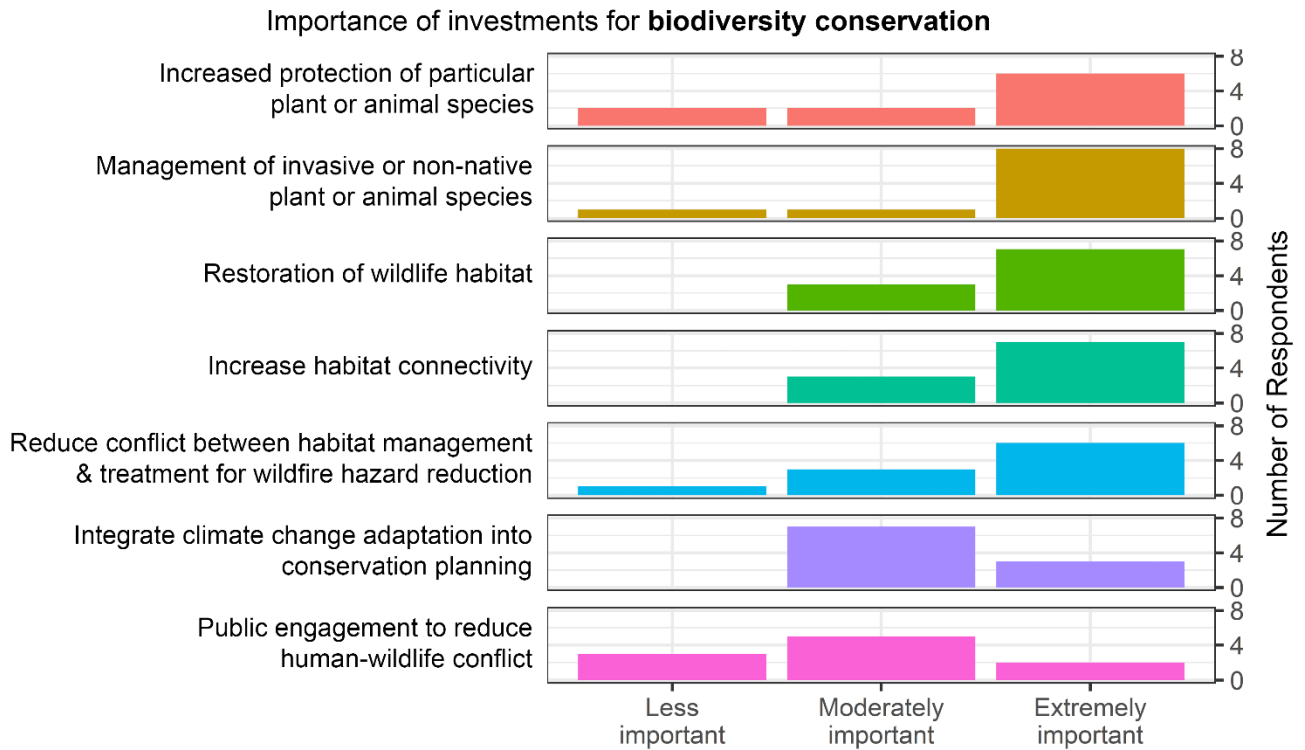

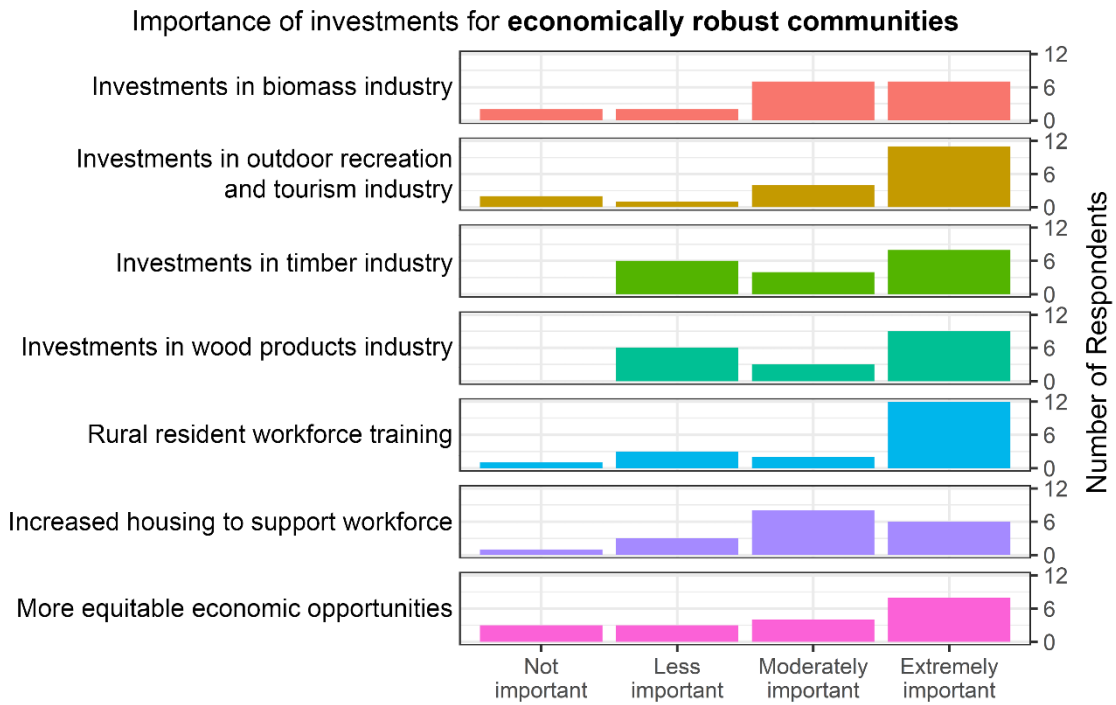

### Importance of investments for **carbon storage**

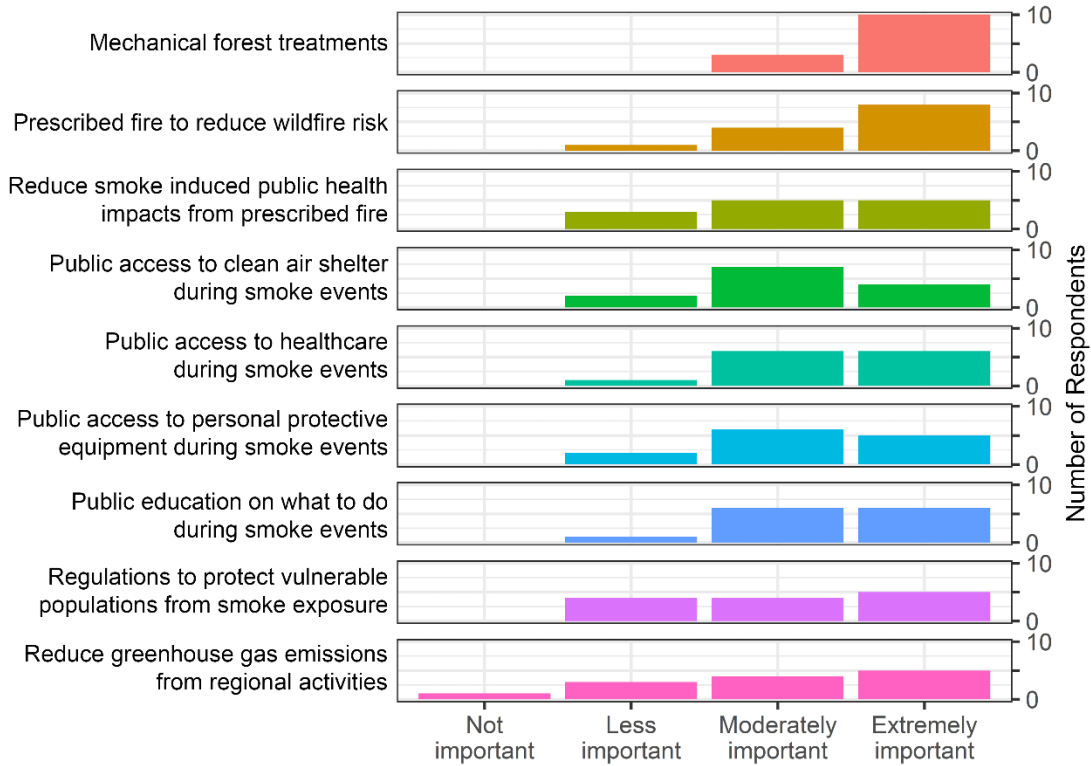

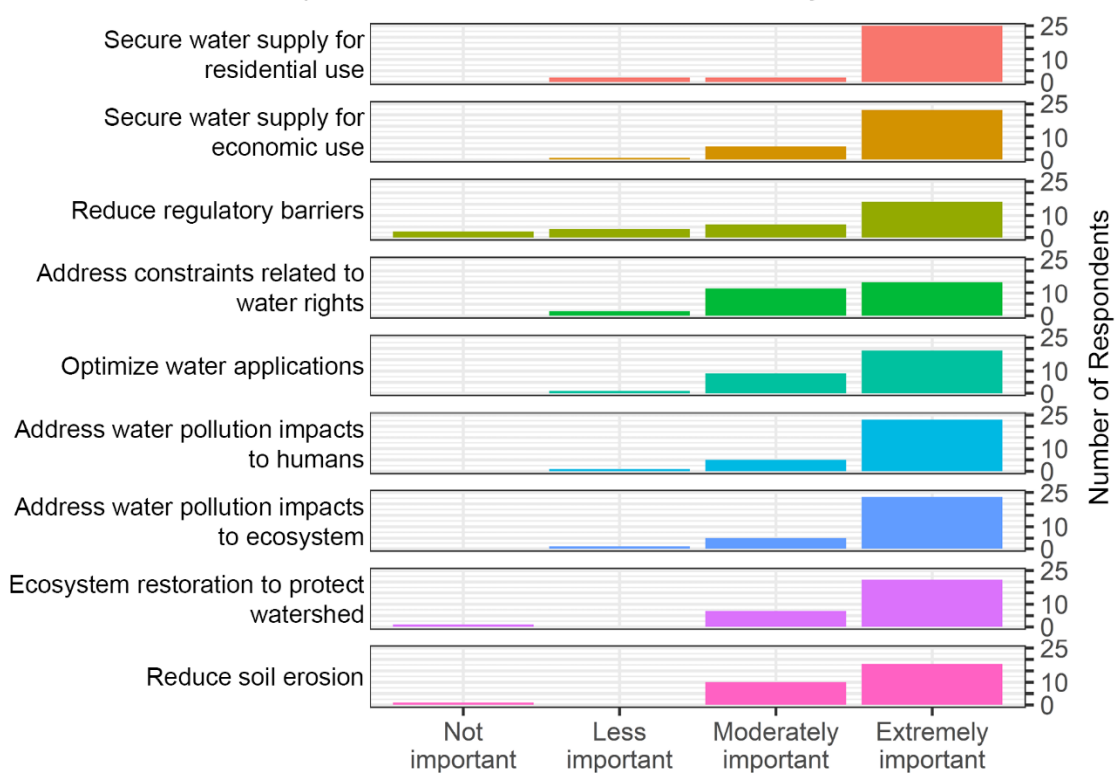

### Importance of investments for **air quality**

### Importance of investments for **water security**

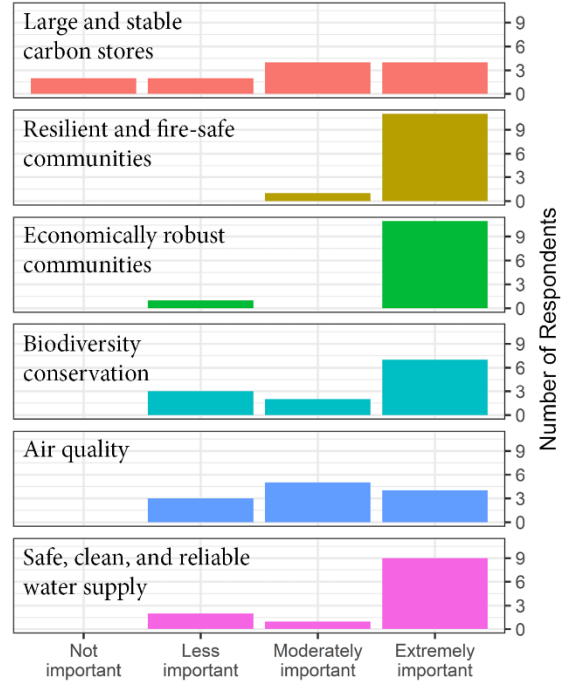

# Northern California Survey Results:

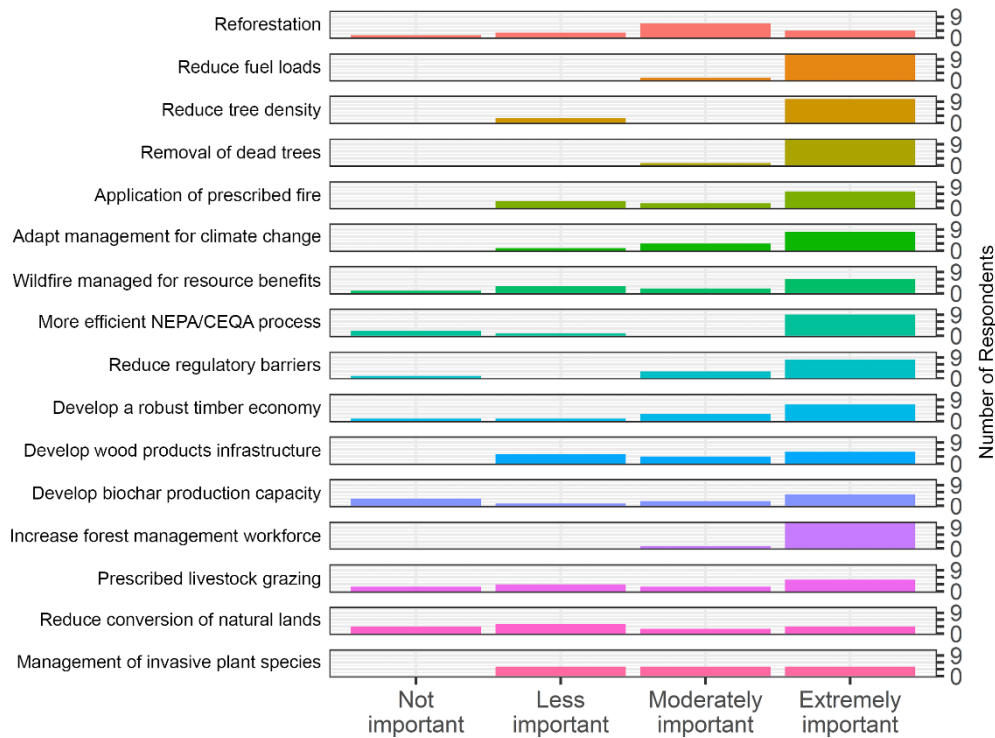

## Trinity County

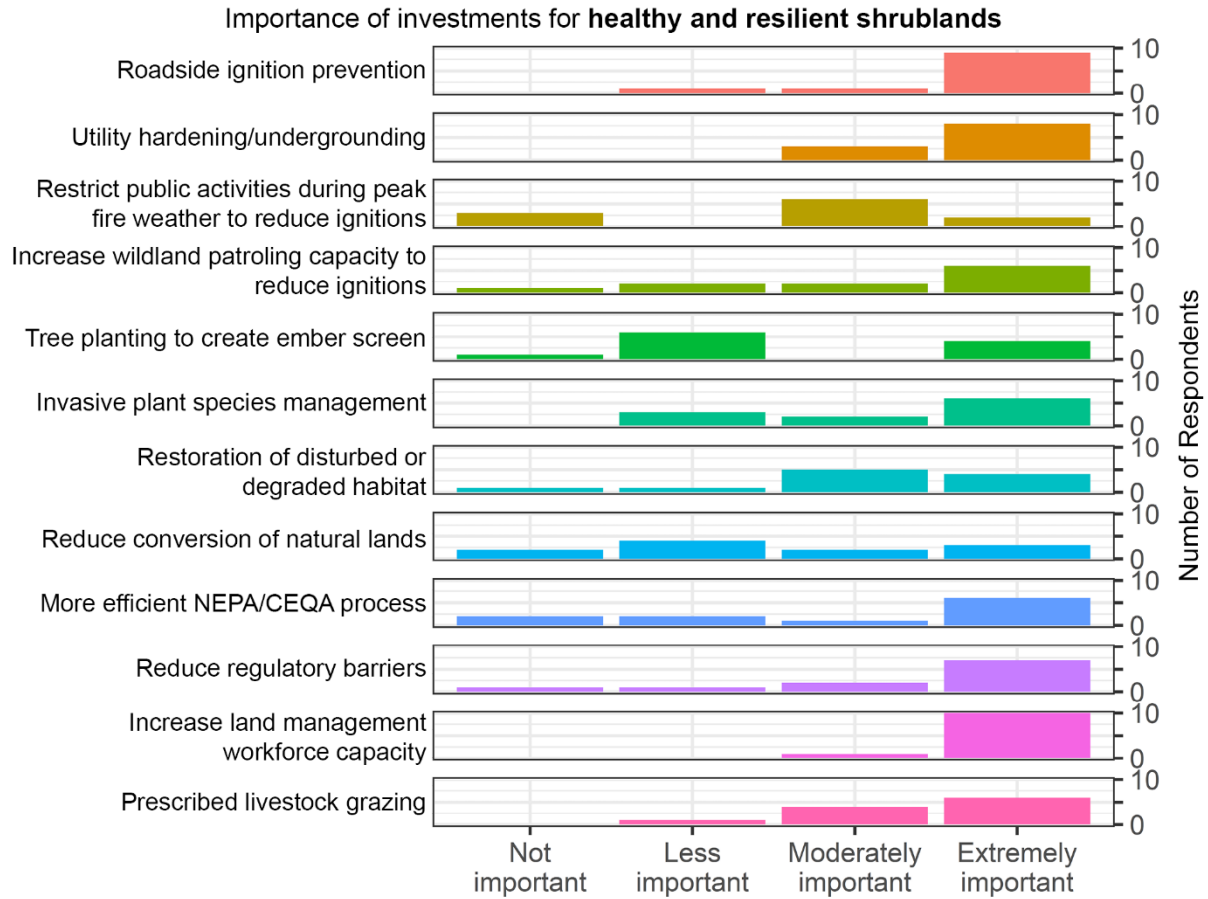

Stakeholder Input on Priority Areas of Investment

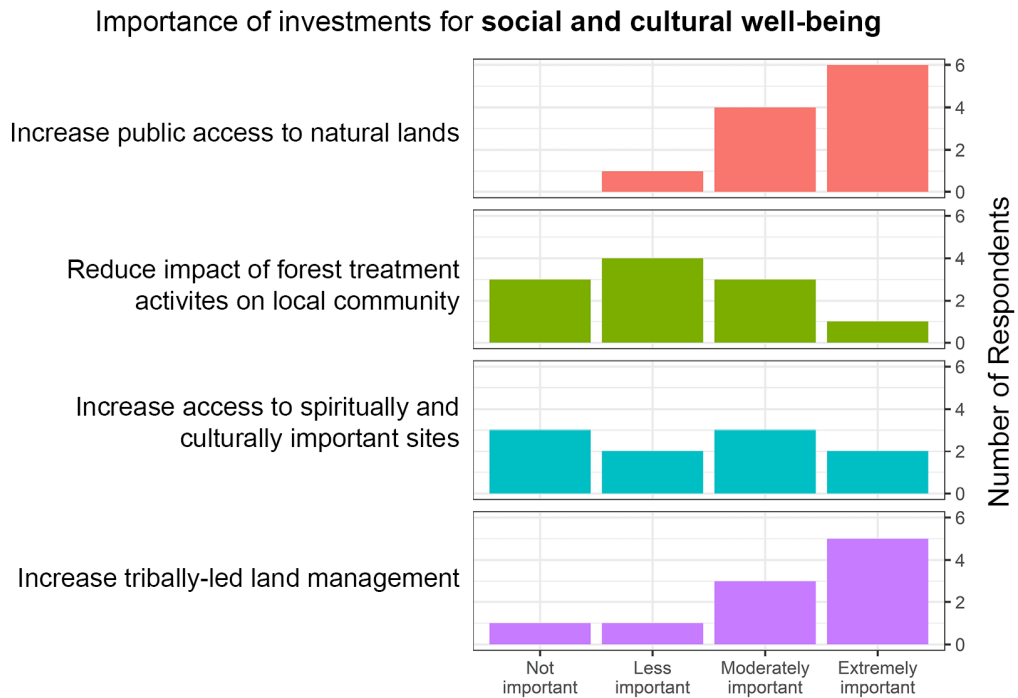

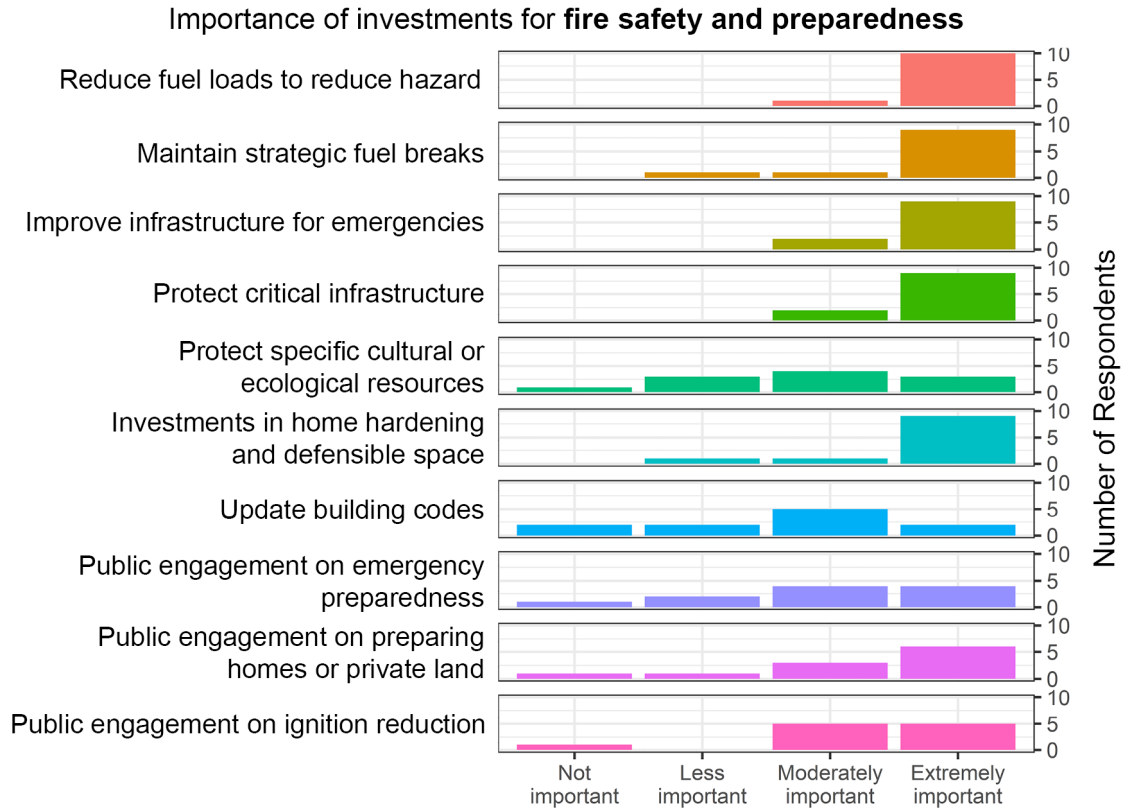

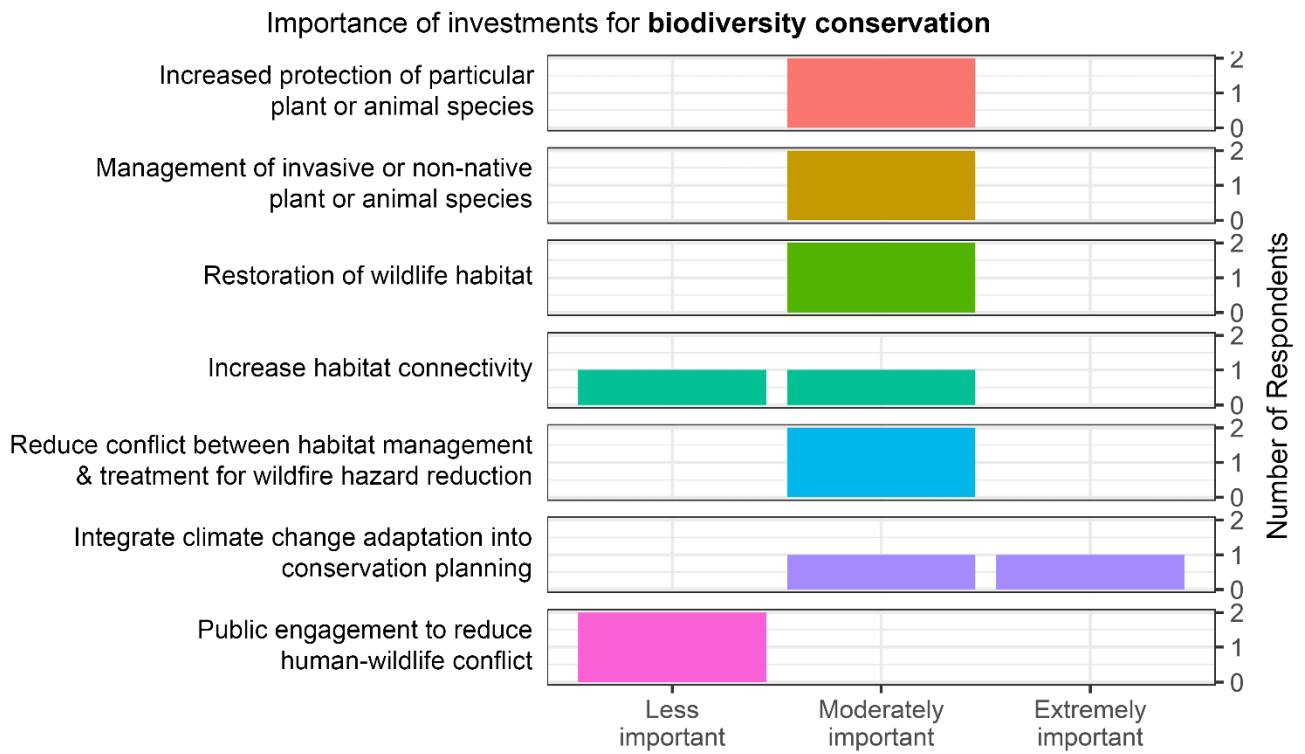

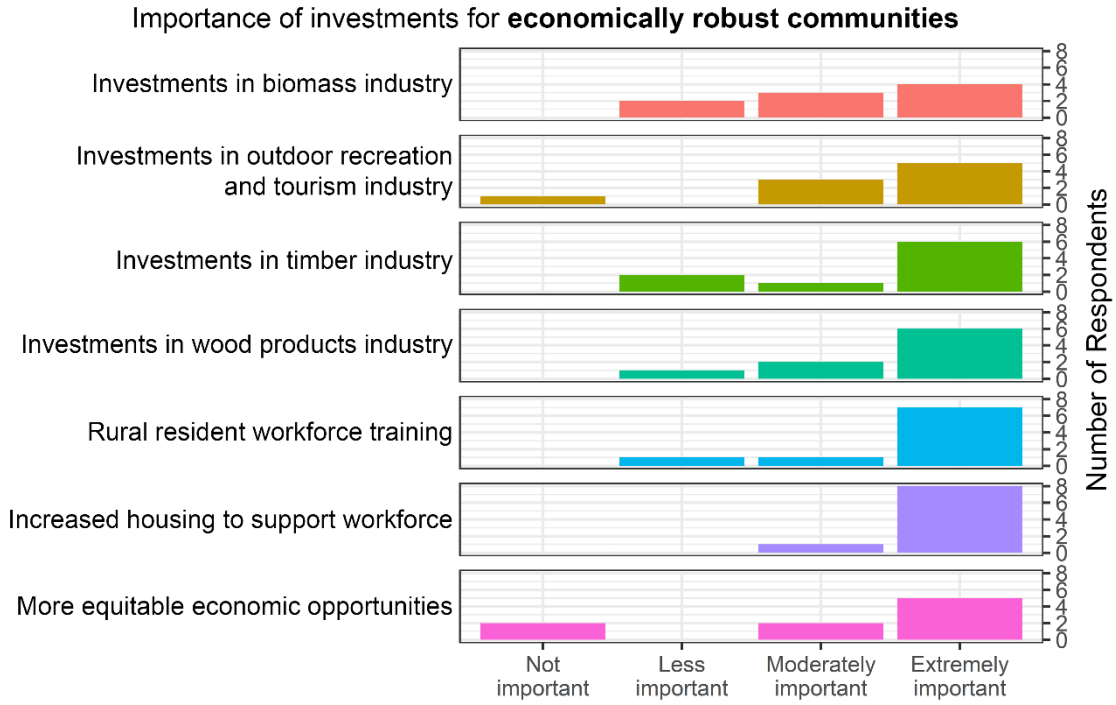

Importance of investments for healthy and resilient forests

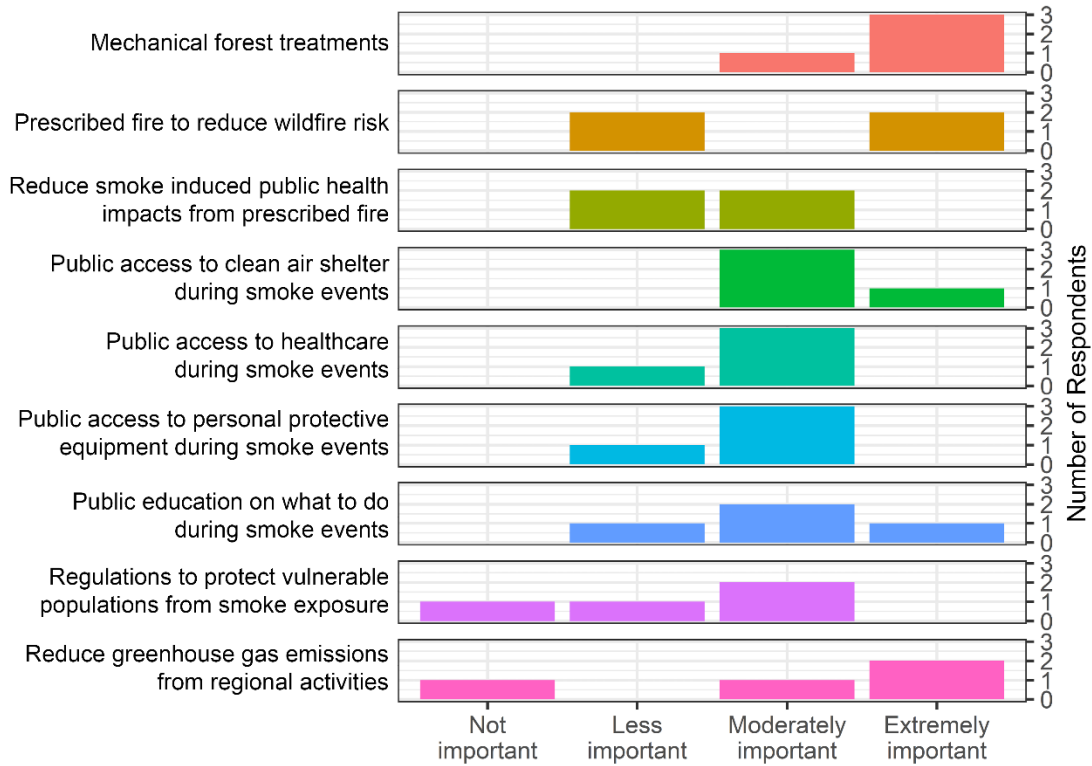

*Please note: no survey participants responded to “Large and stable carbon stores” category for this county.*

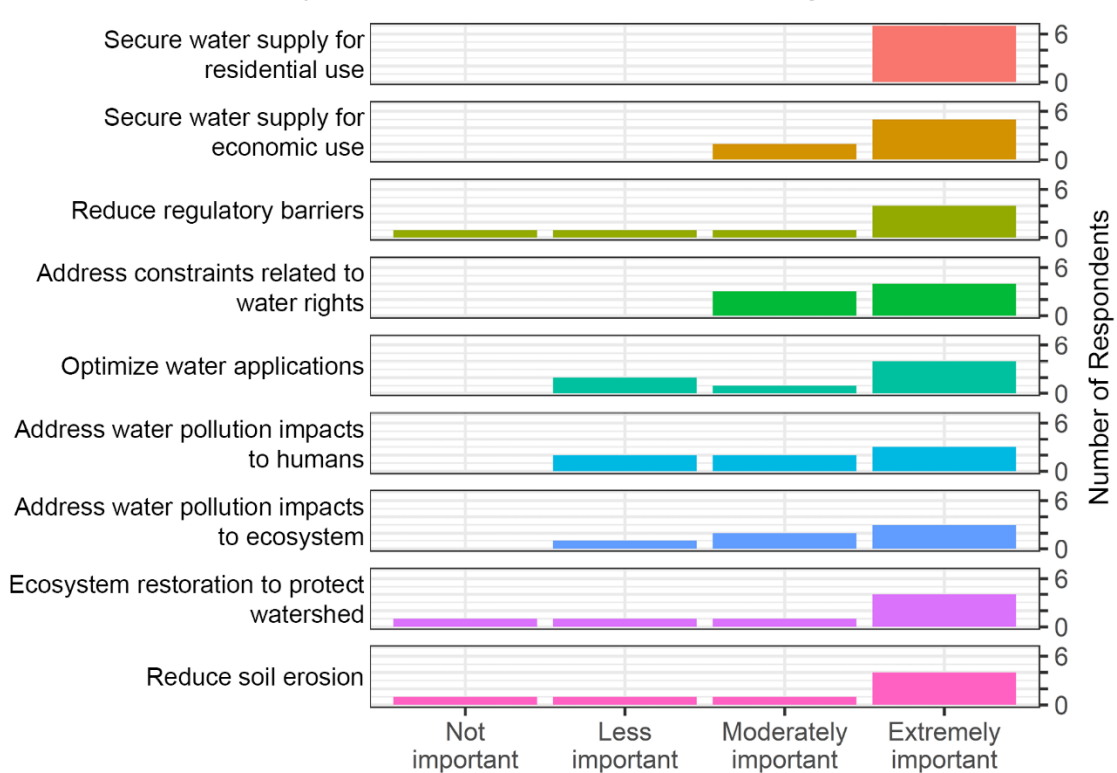

### Importance of investments for **air quality**

### Importance of investments for **water security**

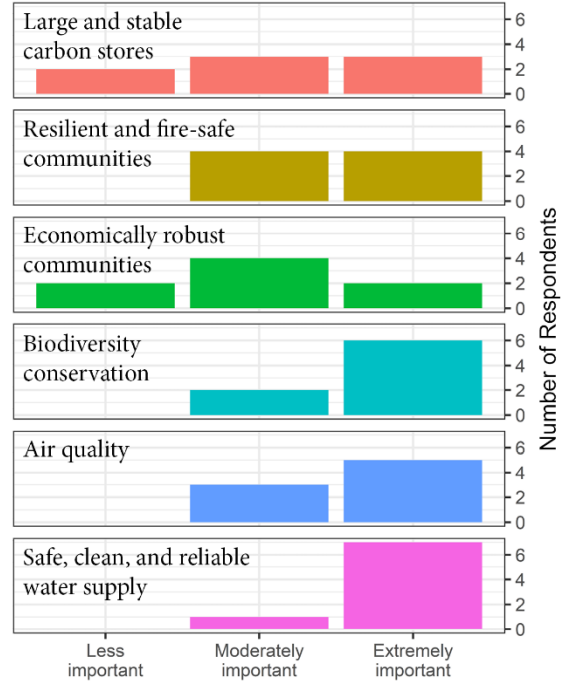

# Northern California Survey Results:

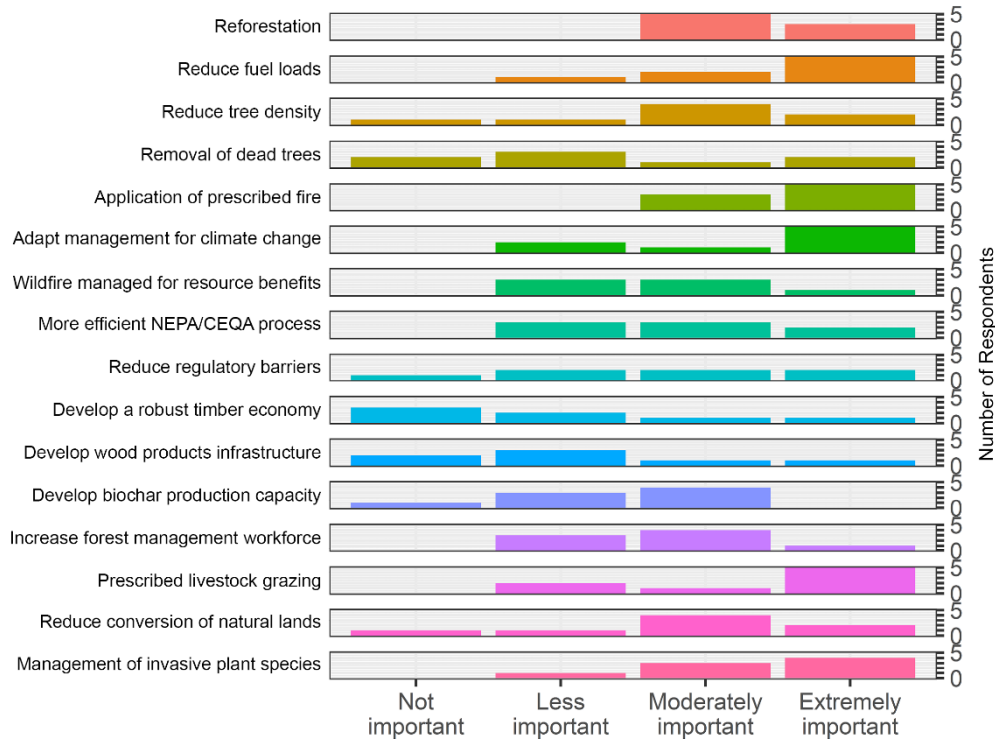

## Yolo County

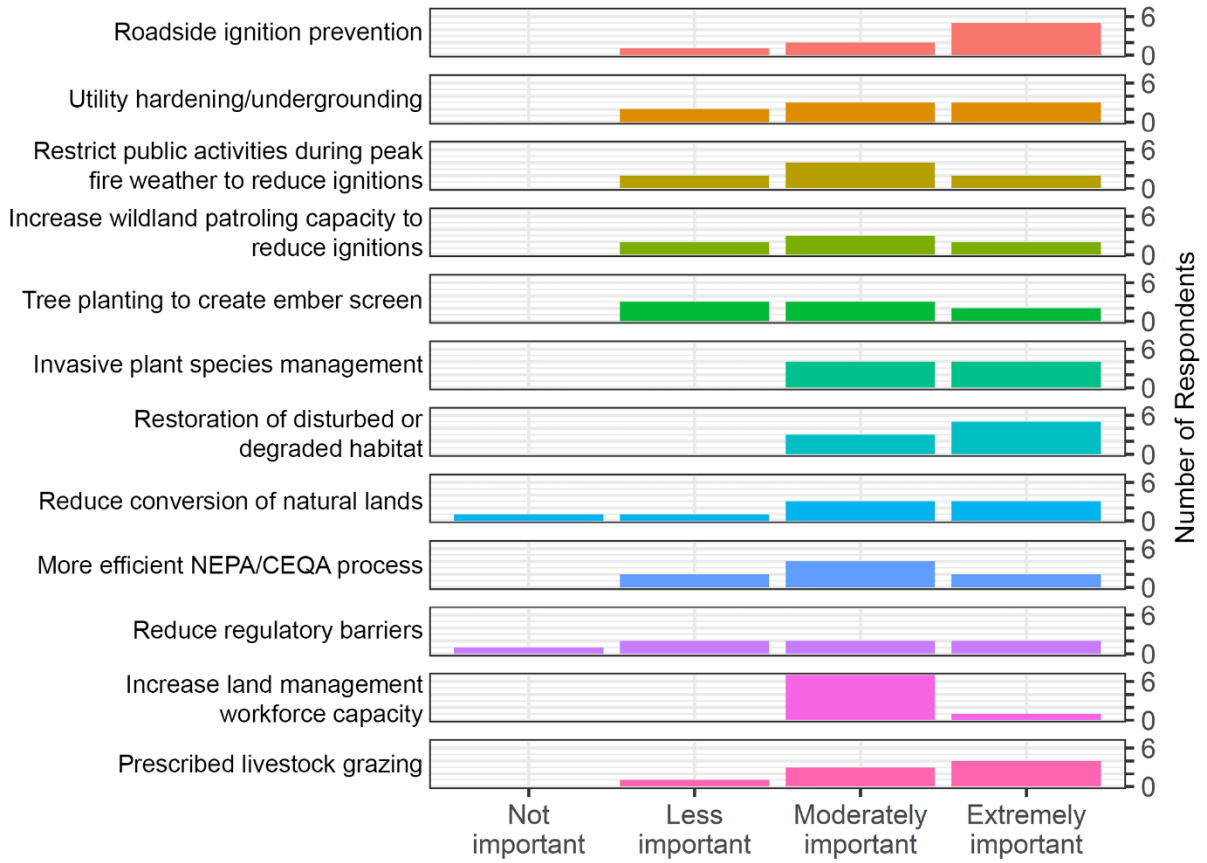

### Stakeholder Input on Priority Areas of Investment

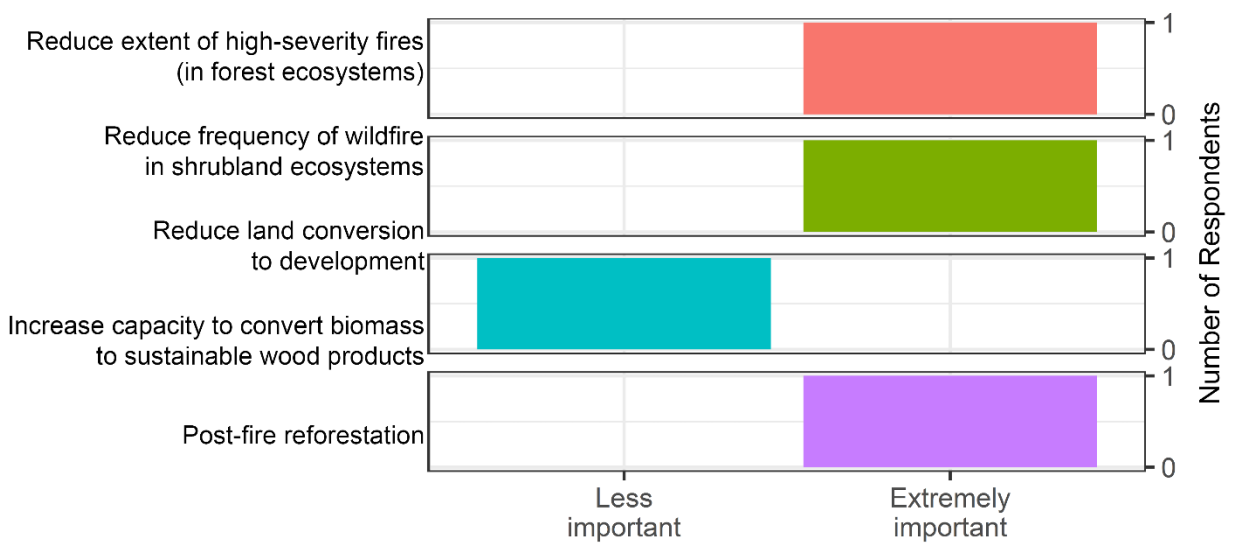

### Importance of investments for healthy and resilient forests

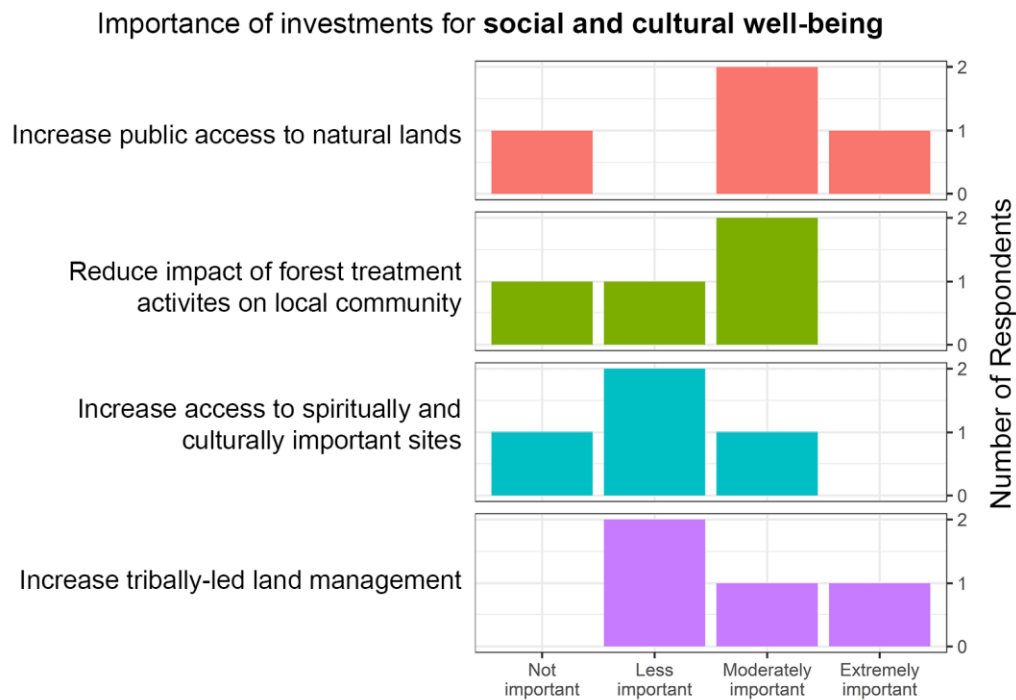

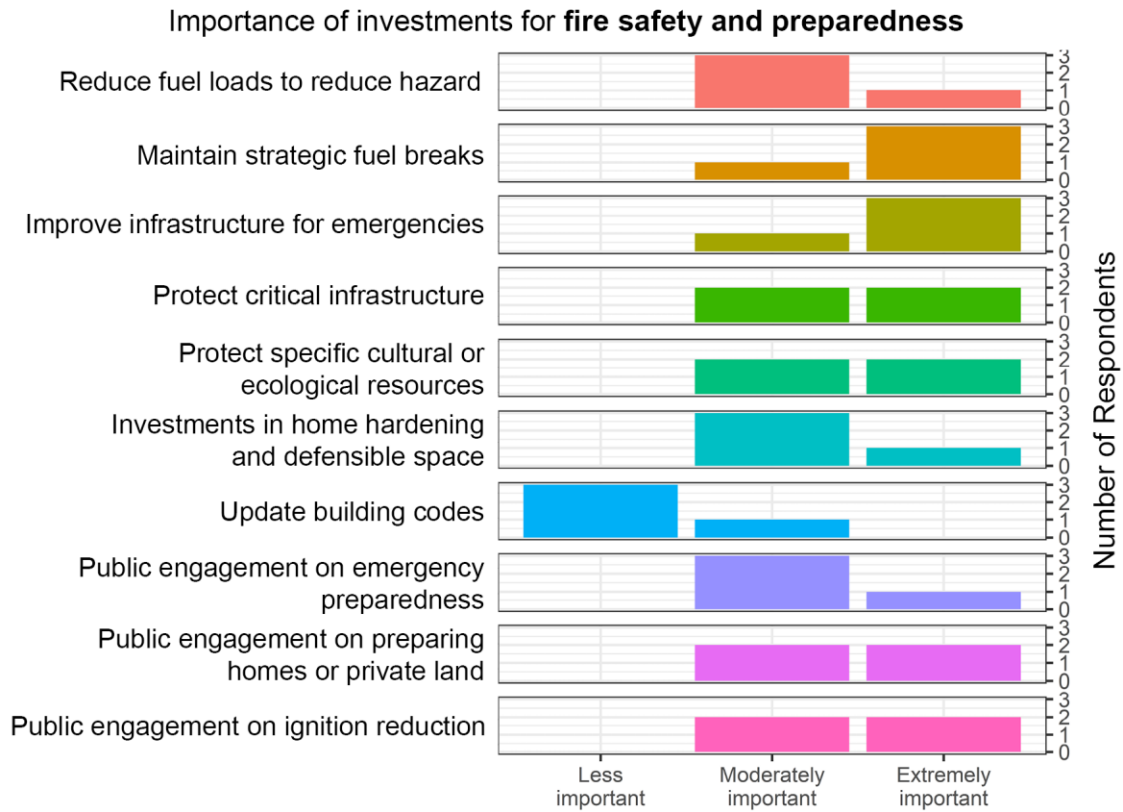

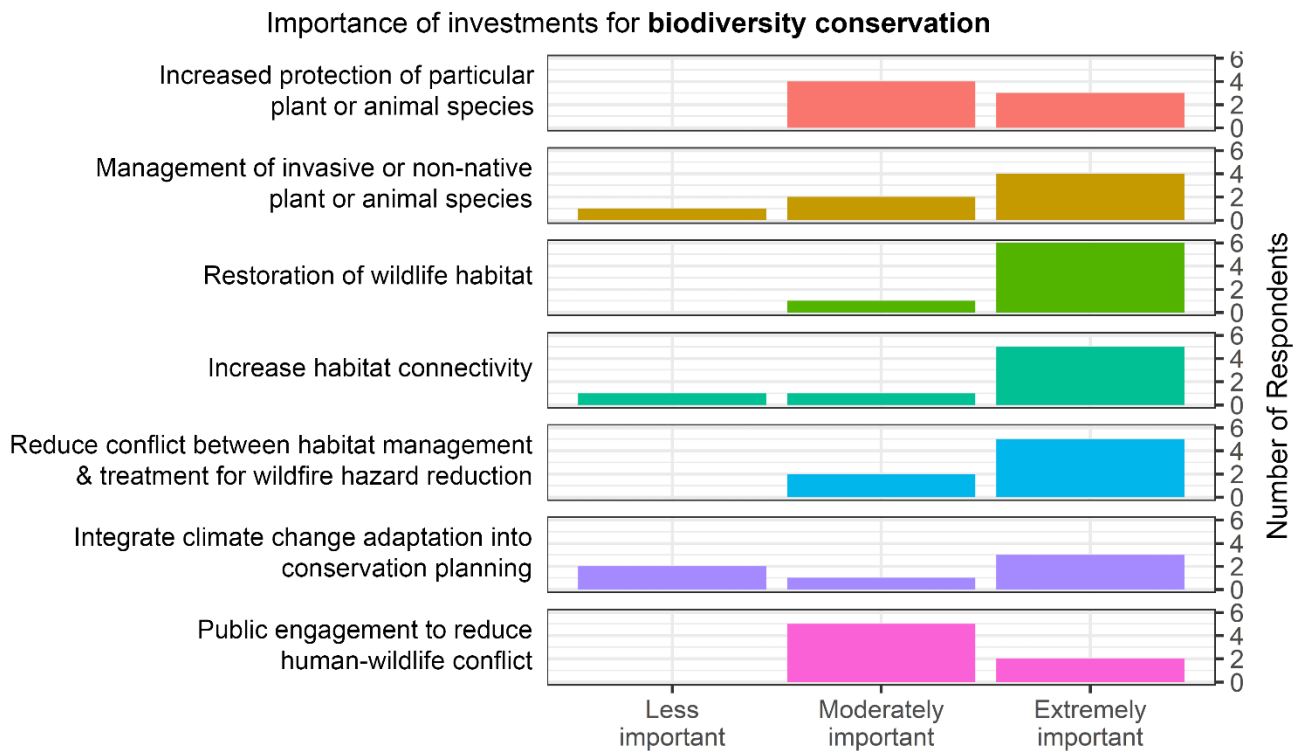

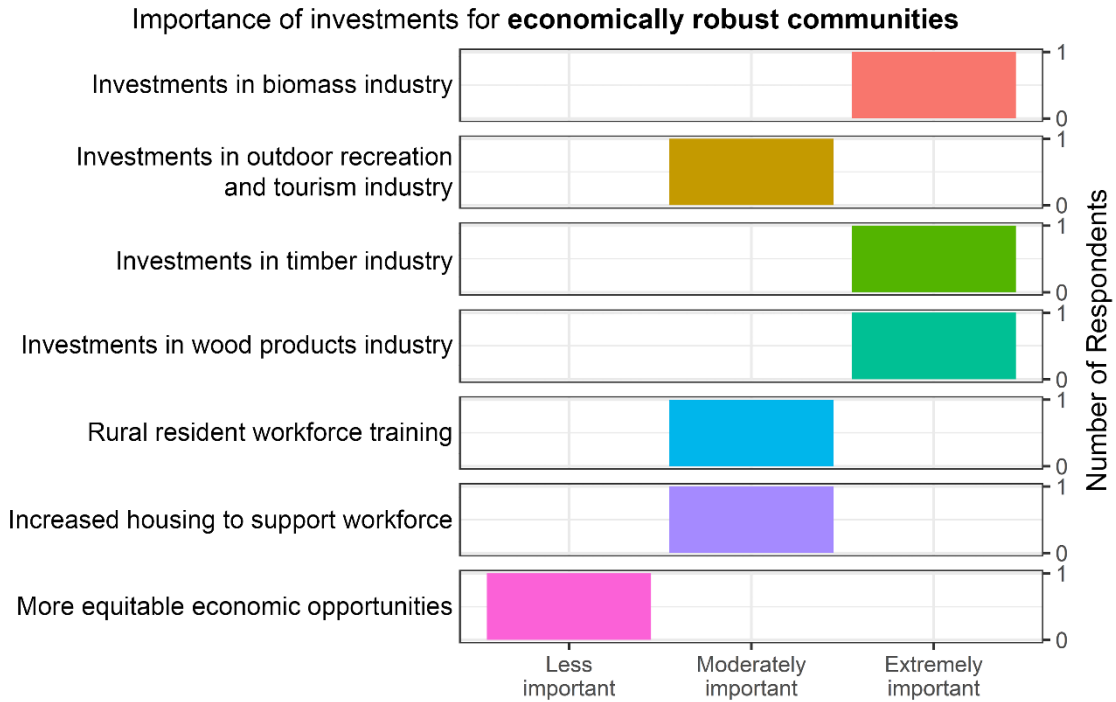

### Importance of investments for **healthy and resilient shrublands**

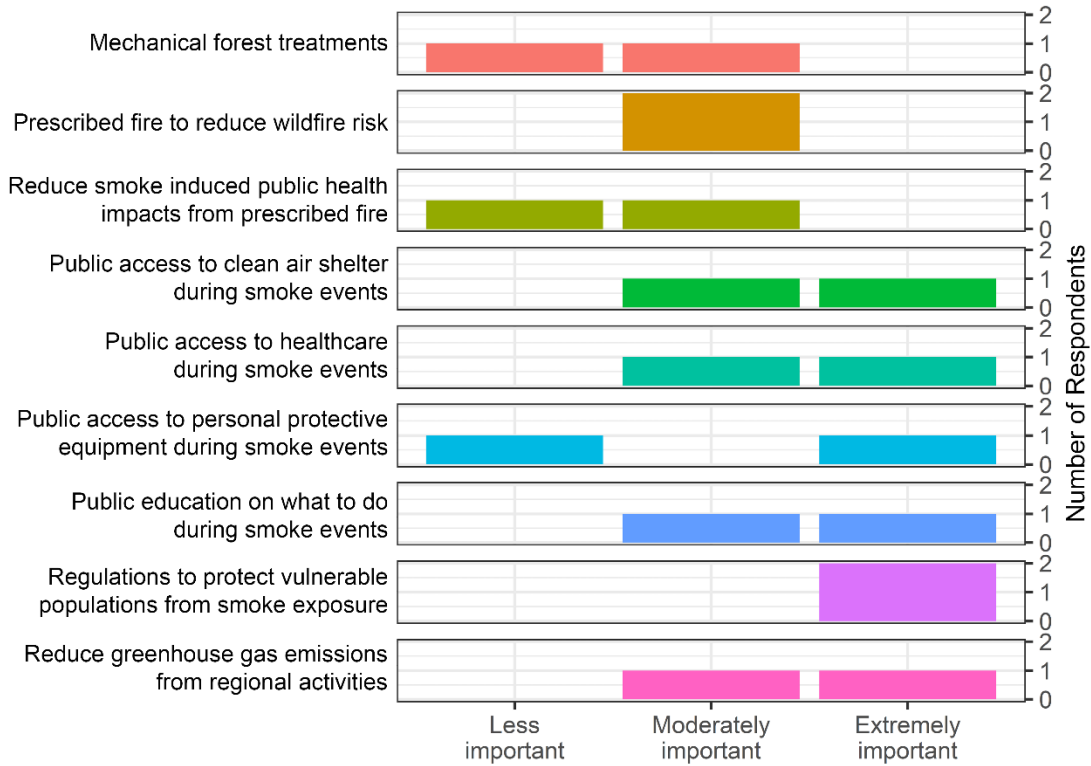

### Importance of investments for **carbon storage**

### Importance of investments for **air quality**

### Importance of investments for **water security**
